

Earnings Release

Credit Suisse 1Q14 Core pre-tax income of CHF 1,940 million for strategic businesses; reported Core pre-tax income of CHF 1,400 million

Return on equity of 14% for strategic businesses; reported return on equity of 8%

Strong performance in Private Banking & Wealth Management with increased pre-tax income of CHF 1,012 million; lower expenses and substantial asset inflows with strategic net new assets of CHF 16 billion and total net new assets of CHF 13.7 billion

Solid returns in Investment Banking with pre-tax income of CHF 827 million; strong performance in key businesses

Improved profitability in Private Banking & Wealth Management:

- Total reported pre-tax income of CHF 1,012 million; good profitability in strategic businesses with pre-tax income of CHF 965 million, up 28% compared to 1Q13, and a return on capital of 33%
- Significantly increased cost efficiency, with improved cost/income ratio of 68% compared to 72% in 1Q13
- Improved Wealth Management Clients net margin to 29 basis points from 23 basis points in 4Q13
- Strong net new assets from strategic businesses of CHF 16.0 billion and total net new assets of CHF 13.7 billion in Private Banking & Wealth Management, with continued strong inflows in Wealth Management Clients from Asia Pacific and Switzerland, and in Asset Management in alternative investments and index strategies

Solid returns in Investment Banking:

- Total reported pre-tax income of CHF 827 million amid challenging market conditions
- Strategic businesses with pre-tax income of CHF 1,124 million; strategic return on capital of 21%
- Strong performance in key businesses including securitized products, credit, underwriting and advisory and solid equities results, offset by significantly reduced first quarter seasonal contribution from rates and certain emerging markets than experienced in previous years

Resilient capital base and leverage ratio:

- Look-through Basel III CET1 ratio at 10.0% as of the end of 1Q14; Look-through Basel III total capital ratio at 15.1% as of end of 1Q14; strong capital position notwithstanding impact of progress in resolving litigation matters in 4Q13 and external methodology uplifts to risk-weighted assets of CHF 13.5 billion in 1Q14
- Leverage exposure at CHF 1,140 billion as of end of 1Q14; phase-in Swiss leverage ratio of 4.8% as of the end of 1Q14; Look-through Swiss leverage ratio of 3.7% as of end of 1Q14, within reach of the 2019 requirement of 4%

Continued progress toward cost reduction targets:

- Delivered CHF 3.4 billion of adjusted annualized savings; maintaining momentum towards target of over CHF 4.5 billion by end 2015

On track to achieve targeted run-off of non-strategic units:

- Leverage reduction of CHF 11 billion and risk-weighted asset reduction of CHF 4 billion for the non-strategic portfolio, excluding adjustments for methodology changes
- Progress in resolving key legacy litigation issues in 2014 to date; continued focus on resolving the US tax matter with the United States Department of Justice

April 16, 2014 **Credit Suisse Group reports 1Q14 results.**

Brady W. Dougan, Chief Executive Officer, said: "For the first quarter, we achieved a return on equity of 14% in our strategic businesses, well within reach of our 15% through-the-cycle target. This strong performance was driven by significantly improved profitability in Private Banking & Wealth Management, solid returns in Investment Banking and continued effective cost and capital management. We saw continued momentum with clients across many of our key businesses, including the highest net asset inflows in our strategic businesses since the first quarter of 2011 and a meaningful increase in the share of assets under management from ultra-high-net-worth clients."

Commenting on Private Banking & Wealth Management, he said: "We substantially improved the profitability of our strategic businesses in the quarter, with an increase in pre-tax income of 28% compared to the prior-year quarter. The Wealth Management Clients business increased its net margin to 29 basis points from 23 basis points in the prior-year quarter and increased the share of assets under management from ultra-high-net-worth clients to 46% in the first quarter from 43% a year ago. Corporate & Institutional Clients continued to make a strong contribution to the division's overall performance, and Asset Management more than doubled its pre-tax income compared to the first quarter of 2013 as a result of its more focused approach. In Private Banking & Wealth Management, we recorded net new assets from strategic businesses of CHF 16.0 billion in the quarter. These inflows reflect our strength in key emerging markets within Asia Pacific, which grew at a 17% annualized rate, Latin America and the Middle East, our strong position in our Swiss home market as well as significant inflows in alternative investments and index strategies within our Asset Management business."

Commenting on Investment Banking, he said: "Our Investment Banking results demonstrate the strength of our diversified franchise, with our strategic businesses reporting a return on capital of 21%. We saw strong performance in securitized products, credit and underwriting and advisory, as well as solid results in equities. At the same time, the first quarter seasonal contribution from our rates and certain emerging markets businesses was significantly lower compared to prior years. We further expanded our strong market share position in equities and saw good momentum with clients in our underwriting and advisory franchises."

Commenting on strategic progress, he added: "We continued to optimize resource allocation to grow our high-returning businesses, particularly in Private Banking & Wealth Management, and made progress in winding down positions in our non-strategic units. At the same time, we maintained resilient leverage and capital positions and remain on track to meet our long-term targets, notwithstanding methodology changes which increased risk-weighted assets in the quarter. We also made good progress toward resolving legacy litigation matters and on increasing the efficiency of our operations. Given all of these positive developments and progress in our strategy execution, our intention remains to deliver cash returns to our shareholders at or above 2013 levels."

Core Results summary

For additional information on financial information presented in this Earnings Release, including references to return on equity and return on capital, refer to the tabular disclosures in the Appendix and other explanatory disclosures regarding capital and leverage metrics in the section titled "Important information" on page 16.

Core Results do not include noncontrolling interests without significant economic interests.

Net income attributable to shareholders was CHF 859 million in 1Q14.

Income before taxes of CHF 1,400 million decreased 22% compared to 1Q13, reflecting an 8% decrease in net revenues, partially offset by a 3% decrease in total operating expenses. In strategic businesses, pre-tax income of CHF 1,940 million decreased 12% compared to 1Q13, and in non-strategic businesses pre-tax losses of CHF 540 million increased 34%.

Net revenues of CHF 6,469 million decreased 8% compared to 1Q13. In the strategic businesses, net revenues declined 7% to CHF 6,553 million compared to 1Q13, with stable revenues in Private Banking & Wealth Management and lower revenues in Investment Banking. In the non-strategic businesses, negative net revenues were CHF 84 million in 1Q14 compared to no revenues in 1Q13.

Provision for credit losses of CHF 34 million in 1Q14, primarily reflected net provisions in Private Banking & Wealth Management.

Total operating expenses of CHF 5,035 million were down 3% compared to 1Q13, primarily reflecting lower commission expenses and 2% lower general and administrative expenses. In strategic businesses, total operating expenses of CHF 4,595 million decreased 4% compared to 1Q13, mainly reflecting a 7% decline in general and administrative expenses. In non-strategic businesses total operating expenses of CHF 440 million increased 11% compared to 1Q13, primarily reflecting a 32% increase in general and administrative expenses. In 1Q14, Credit Suisse recorded net litigation provisions of CHF 107 million. Business realignment costs recognized in the Corporate Center in 1Q14 were CHF 62 million.

Income tax expense of CHF 543 million recorded in 1Q14 reflected the impact of the geographical mix of results and the impact of a New York state tax law change of CHF 151 million. Overall, net deferred tax assets decreased CHF 535 million to CHF 5,256 million as of the end of 1Q14 compared to 4Q13. Deferred tax assets on net operating losses increased CHF 56 million to CHF 1,436 million during 1Q14. The Core Results effective tax rate was 38.8% in 1Q14, compared to 11.9% in 4Q13. Excluding the impact of the New York state tax law change, the Core Results effective tax rate for 1Q14 was 28.0%.

Diluted earnings per share from continuing operations were CHF 0.47 for 1Q14 compared to CHF 0.75 in 1Q13 and compared to a loss per share of CHF 0.37 in 4Q13. As of the end of 1Q14, Credit Suisse had 1,596.1 million shares issued, unchanged from the end of 4Q13.

Capital and leverage. As of the end of 1Q14, Credit Suisse reported a Look-through Basel III common equity tier 1 (CET1) ratio of 10.0%, unchanged compared to the end of 4Q13. As of the end of 1Q14, the Look-through Basel III total capital ratio was 15.1%, unchanged from the end of 4Q13.

The Basel III CET1 ratio as of the end of 1Q14 was 14.3%, compared to 15.7% as of the end of 4Q13, reflecting a decrease in CET1 capital and an increase in risk-weighted assets. Basel III risk-weighted assets for the Group increased 4%, from CHF 273.8 billion as of the end of 4Q13 to CHF 286.0 billion as of the end of 1Q14, reflecting increases from methodology and policy changes partially offset by business reductions.

As of the end of 1Q14, Credit Suisse's leverage exposure amounted to CHF 1,140 billion, compared to an updated long-term target of approximately CHF 1,000 billion. The Look-through Swiss leverage ratio was 3.7% as of the end of 1Q14, compared to the 4% requirement for 2019.

Benefits of the integrated bank. In 1Q14, Credit Suisse generated CHF 1.0 billion of collaboration revenues from the integrated bank. This corresponds to 15.9% of Core net revenues in 1Q14.

Private Banking & Wealth Management

In 1Q14, Private Banking & Wealth Management reported income before taxes of CHF 1,012 million and net revenues of CHF 3,240 million. In its strategic businesses, Private Banking & Wealth Management reported income before taxes of CHF 965 million and net revenues of CHF 3,031 million. Net revenues were lower compared to 4Q13 mainly due to seasonally higher fourth-quarter transaction- and performance-based revenues and lower net interest income. Compared to 1Q13, income before taxes increased 28%, driven by lower operating expenses. In its non-strategic businesses, Private Banking & Wealth Management reported income before taxes of CHF 47 million, while in 4Q13, it reported losses before taxes of CHF 624 million, reflecting substantial litigation provisions in connection with the US tax matter. In 1Q14, assets under management for the division were CHF 1,292.5 billion and the division attracted net new assets of CHF 13.7 billion.

Return on capital	33.0	36.8	27.7	-	-
Cost/income ratio	67.6	67.0	74.1	-	-

In 1Q14, the strategic businesses for Private Banking & Wealth Management reported income before taxes of CHF 965 million and net revenues of CHF 3,031 million.

Net revenues were stable compared to 1Q13 as higher transaction- and performance-based revenues and higher recurring commissions and fees were offset by lower net interest income and lower other revenues. Transaction- and performance-based revenues were higher with higher carried interest on realized private equity gains and higher corporate advisory fees, partially offset by lower sales and trading income and lower foreign exchange client business. Higher recurring commissions and fees reflected higher investment account and services fees, higher discretionary mandate management fees and higher banking services fees, partially offset by lower investment product management fees. In a low interest rate environment, net interest income was lower due to significantly lower deposit margins and slightly higher loan margins on higher average deposit and loan volumes.

Compared to 4Q13, net revenues were 7% lower, reflecting significantly lower transaction- and performance-based revenues and lower net interest income, partially offset by higher other revenues. Significantly lower transaction- and performance-based revenues reflected seasonally higher performance fees in Asset Management in 4Q13, partially offset by higher brokerage and product issuing fees and higher sales and trading income in 1Q14. Lower net interest income reflected lower deposit margins on stable average deposit volumes and slightly higher loan margins on slightly higher loan volumes. Higher other revenues mainly reflected an impairment related to Asset Management Finance LLC (AMF) in 4Q13. Stable recurring commissions and fees mainly reflected lower asset management fees and lower investment product management fees, offset by higher banking services fees and higher discretionary mandate management fees.

Provision for credit losses was CHF 17 million.

Total operating expenses were lower compared to both 1Q13 and 4Q13. Compared to 1Q13, compensation and benefits decreased 6%, mainly reflecting lower salary expenses, mostly as a result of the lower headcount, and general and administrative expenses decreased 10%, primarily reflecting lower expense provisions and lower occupancy fees. Compared to 4Q13, compensation and benefits were stable as slightly lower discretionary performance-related compensation and lower salary expenses were offset by slightly higher deferred compensation. General and administrative expenses decreased 12%, primarily reflecting lower professional fees, lower expense provisions and lower advertising and marketing costs.

The cost/income ratio for strategic results was 68% in 1Q14, down seven percentage points compared to 1Q13 and up one percentage point compared to 4Q13.

Wealth Management Clients

Metrics (%)					
Cost/income ratio	71.4	76.5	77.3	-	-

The *Wealth Management Clients* business in 1Q14 reported pre-tax income of CHF 578 million and net revenues of CHF 2,074 million. Net revenues were stable compared to 1Q13, with lower net interest income, partially offset by slightly higher recurring commissions and fees and slightly higher transaction- and performance-based revenues. Lower net interest income reflected the low interest rate environment, significantly lower deposit margins and stable loan margins on higher average deposit and loan volumes and lower levels of deposits eligible as stable funding. Recurring commissions and fees were slightly higher with higher investment account and services fees and higher discretionary mandate management fees, partially offset by lower investment product management fees, including lower retrocession revenues. Transaction- and performance-based revenues increased slightly, reflecting higher corporate advisory fees and higher placement and transaction fees, partially offset by lower foreign exchange client business.

Compared to 4Q13, net revenues were stable, with a 15% increase in transaction- and performance-based revenues offset by a 7% decline in net interest income and a slight decrease in recurring commissions and fees. The increase in transaction- and performance-based revenues was driven by higher brokerage and product issuing fees and higher sales and trading revenues, partially offset by lower performance fees. Lower net interest income reflected lower deposit margins and slightly higher loan margins on stable average deposit and loan volumes. Recurring commissions and fees were slightly lower with lower investment product management fees, partially offset by higher discretionary mandate management fees.

In 1Q14, the gross margin was 104 basis points, three basis points lower compared to 1Q13, mainly reflecting a continued adverse interest rate environment. Compared to 4Q13, the gross margin was stable, with higher transaction- and performance-based revenues offset by lower net interest income.

Wealth Management Clients net margin was 29 basis points in 1Q14, six basis points higher compared to 1Q13 and six basis points higher compared to 4Q13, reflecting a lower expense base.

The *Corporate & Institutional Clients* business reported pre-tax income of CHF 246 million in 1Q14 and net revenues of CHF 492 million. Net revenues were slightly lower compared to 1Q13, mainly driven by lower net interest income as a result of the low interest rate environment, and slightly lower transaction- and performance-based revenues, partially offset by a 10% increase in recurring commissions and fees. The increase in recurring commissions and fees primarily reflected higher banking services fees.

Compared to 4Q13, net revenues were stable, with higher transaction- and performance-based revenues and higher recurring commissions and fees offset by an 8% decline in net interest income. Higher transaction- and performance-based revenues reflected higher sales and trading revenues, higher brokerage and product issuing fees and higher corporate advisory fees. The increase in recurring commissions and fees primarily reflected higher banking services fees, partially offset by lower investment account and services fees.

The *Asset Management* business reported pre-tax income of CHF 141 million in 1Q14, with net revenues of CHF 465 million. Net revenues increased 10% compared to 1Q13, with fee-based revenues increasing 13%, reflecting higher carried interest on realized private equity gains and higher asset management fees. Net revenues declined 35% compared to 4Q13, with lower fee-based revenues from seasonally lower performance fees and private equity placement fees, partially offset by an impairment of CHF 68 million relating to AMF in 4Q13.

The fee-based margin was 49 basis points in 1Q14, compared to 46 basis points in 1Q13 and 87 basis points in 4Q13, primarily reflecting the movements in fee-based revenues. Average assets under management increased 6.2% and 1.3% compared to 1Q13 and 4Q13, respectively.

Non-strategic results

The non-strategic results for Private Banking & Wealth Management include positions relating to the restructuring of the former Asset Management division, run-off operations relating to the small markets exit initiative and certain legacy cross-border related run-off operations, litigation costs, primarily related to the US tax matter, the impact of restructuring of the German onshore operations, other smaller non-strategic positions formerly in the Corporate & Institutional Clients business and the run-off and active reduction of selected products.

Private Banking & Wealth Management – non-strategic results

	1Q14	4Q13	1Q13	in / end of QoQ	% change YoY
Non-strategic results (CHF million)					
Net revenues	209	169	270	24	(23)
Provision for credit losses	16	17	5	(6)	220
Total operating expenses	146	776	140	(81)	4

Cost/income ratio	69.9	459.2	51.9	–	–

In 1Q14, the non-strategic businesses reported income before taxes of CHF 47 million, including an equity participation gain of CHF 91 million from the sale in January 2014 of Customized Fund Investment Group, the division's private equity fund of funds and co-investment business. In 4Q13, Private Banking & Wealth Management's

non-strategic businesses reported a loss before taxes of CHF 624 million, reflecting litigation provisions of CHF 600 million in connection with the US tax matter, including CHF 175 million in connection with the settlement with the SEC in February 2014.

Assets under management – Private Banking & Wealth Management

Assets under management of CHF 1,292.5 billion increased CHF 10.1 billion compared to the end of 4Q13, as net new assets and positive market movements were partially offset by structural effects mostly arising from disposals of businesses in the non-strategic unit, and adverse foreign exchange-related movements.

Net new assets: Private Banking & Wealth Management recorded net new assets of CHF 13.7 billion in 1Q14. In the strategic portfolio, Wealth Management Clients contributed net new assets of CHF 10.6 billion in 1Q14 with continued strong inflows from emerging markets, particularly in Asia Pacific, partially offset by Western European cross-border outflows. Asset Management reported net new assets of CHF 6.9 billion in 1Q14, driven by inflows in credit products and traditional products, with substantial contribution from index strategies, partially offset by net asset outflows in fixed income products. Corporate & Institutional Clients in Switzerland reported net new assets of CHF 0.4 billion in 1Q14. In the non-strategic portfolio, net asset outflows of CHF 2.3 billion reflected the exit of certain businesses, of which CHF 1.0 billion were classified as discontinued operations.

Investment Banking

In 1Q14, Investment Banking reported income before taxes of CHF 827 million and net revenues of CHF 3,416 million. Investment Banking delivered solid results amid a challenging market environment. In the strategic businesses, net revenues declined 11% compared to 1Q13 as strong performance in credit, securitized products and underwriting and advisory and solid equities results were offset by significantly reduced first quarter seasonal contribution from rates and certain emerging markets than experienced in previous years. Compared to 4Q13, the strategic businesses delivered significantly improved revenues, reflecting seasonally stronger trading volumes and client activity in fixed income and equities businesses which more than offset lower results in the underwriting and advisory franchises. In 1Q14, Investment Banking made progress in winding-down the non-strategic unit, including reducing leverage exposure, risk-weighted assets and funding costs.

Strategic results

In 1Q14, the strategic businesses reported income before taxes of CHF 1,124 million and net revenues of CHF 3,563 million. Net revenues declined 11% compared to 1Q13 as strong performance in credit, securitized products and underwriting and advisory and solid equities results were offset by weakness in emerging markets and global macro products. Compared to 4Q13, the strategic businesses delivered significantly improved revenues, reflecting seasonally stronger trading volumes and client activity in the fixed income and equities businesses which more than offset lower results in the underwriting and advisory franchises.

Fixed income sales and trading revenues declined significantly from 1Q13 driven by substantially reduced client activity and challenging trading conditions in global macro products and emerging markets businesses, partially offset by strong results in securitized products and credit. Revenues increased significantly compared to 4Q13 due to a seasonal increase in client activity, resulting in higher revenues across most of its fixed income businesses.

Equities sales and trading revenues were solid, albeit lower than 1Q13, reflecting lower cash equities and systematic market making revenues, partially offset by higher derivatives revenues. Equity sales and trading revenues increased compared to 4Q13, reflecting higher results in derivatives and prime services.

Underwriting and advisory results were higher compared to 1Q13 driven by market share gains. Compared to 4Q13, revenues decreased driven by lower equity underwriting and advisory results reflecting lower industry activity.

Investment Banking – strategic results

Metrics (%)					
Return on capital	20.9	8.8	27.5	–	–
Cost/income ratio	68.5	83.0	61.7	–	–

Total operating expenses of CHF 2,439 million decreased 2% compared to 1Q13, reflecting lower technology costs and lower litigation provisions, partially offset by seasonally higher compensation and benefits expense. Compared to 4Q13, operating expenses increased 5% reflecting higher compensation and benefits expense, partially offset by lower general and administrative expenses.

Results in 1Q14 were impacted by the weakening of the average rate of the US dollar against the Swiss franc, which negatively impacted revenues and favorably impacted expenses. Compared to 1Q13, revenues decreased 11% and total operating expenses decreased 2% in Swiss francs while revenues declined 8% and total operating expenses increased 3% in US dollars. Compared to 4Q13, revenues were up 27% and total operating expenses up 5% in Swiss francs while revenues increased 29% and total operating expenses increased 6% in US dollars.

Capital metrics As of the end of 1Q14, the strategic businesses in Investment Banking reported Basel III risk-weighted assets of USD 167 billion, up USD 11 billion from 4Q13, reflecting increases of USD 6 billion from external methodology changes and USD 5 billion from internal methodology changes. The leverage exposure of the strategic businesses in Investment Banking was USD 742 billion reflecting a modest increase from 4Q13 due to seasonal market activity in equities and increased commitments in credit.

Non-strategic results

Non-strategic results for Investment Banking include the fixed income wind-down portfolio, legacy rates business, primarily non-exchange-traded instruments and capital-intensive structured positions, legacy funding costs associated with non-Basel III compliant debt instruments, as well as certain legacy litigation costs and other small non-strategic positions.

Investment Banking – non-strategic results

	1Q14	4Q13	1Q13	in / end of QoQ	% change YoY
Non-strategic results (CHF million)					
Net revenues	(147)	(127)	(72)	16	104
Provision for credit losses	0	0	1	–	(100)
Total operating expenses	150	905	174	(83)	(14)
Income/(loss) before taxes	(297)	(1,032)	(247)	(71)	20
Risk-weighted assets – Basel III	16,436	17,549	19,176	(6)	(14)

In 1Q14, Investment Banking continued to make progress on the wind-down strategy in its non-strategic unit. The non-strategic businesses reported a loss before taxes of CHF 297 million and net revenue losses of CHF 147 million. Investment Banking had higher net revenue losses as 1Q13 results reflected a gain of CHF 77 million from a sale in our real estate portfolio. Performance also reflected improved funding costs from portfolio management of both its legacy debt instruments and trading assets. Total operating expenses decreased compared to 1Q13 and 4Q13, driven by substantially lower litigation provisions.

As of the end of 1Q14, the Investment Banking non-strategic businesses reported Basel III risk-weighted assets of USD 19 billion were down USD 1 billion compared to 4Q13, with decreases of USD 3 billion from business reductions partially offset by increases of USD 2 billion from methodology changes. This compares to the target of USD 6 billion by end 2015. Additionally, the non-strategic businesses reported leverage exposure of USD 79 billion as of the end of 1Q14, a reduction of USD 8 billion, or 9% from 4Q13. This compares to the target of USD 24 billion in leverage exposure by year-end 2015.

Corporate Center

Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group and certain expenses and revenues that have not been allocated to the segments. It also includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

Corporate Center

	1Q14	4Q13	1Q13	in / end of QoQ	% change YoY
Reported results (CHF million)

Net revenues	(146)	(160)	(198)	(9)	(26)
Provision for credit losses	0	0	0	–	–
Total operating expenses	144	161	82	(11)	76
Income/(loss) before taxes	(290)	(321)	(280)	(10)	4

The Corporate Center recorded a loss before taxes of CHF 439 million in 1Q14, including fair value losses on own debt of CHF 92 million, debit valuation adjustment losses on certain structured notes liabilities of CHF 4 million and fair value losses on stand-alone derivatives of CHF 24 million, resulting in overall fair value losses on own credit spreads of CHF 120 million in 1Q14. 1Q14 results also included business realignment costs of CHF 62 million, IT architecture simplification expenses of CHF 61 million and a gain on sale of real estate of CHF 34 million. This compares to a loss before taxes of CHF 376 million in 1Q13 and a loss before taxes of CHF 389 million in 4Q13.

Balance sheet, shareholders' equity and regulatory capital

Balance sheet

As of the end of 1Q14, total assets of CHF 878.1 billion were stable compared to 4Q13, reflecting a slight increase in operating activities, partially offset by the foreign exchange translation impact. Excluding the foreign exchange translation impact, total assets increased CHF 9.7 billion.

Total shareholders' equity

Credit Suisse's total shareholders' equity increased to CHF 43.2 billion as of the end of 1Q14 compared to CHF 42.2 billion as of the end of 4Q13. Total shareholders' equity was impacted by net income, the effect of share-based compensation and the purchase of subsidiary shares from non-controlling interests, relating to the redemption of tier 1 participation securities. These increases were partially offset by the impact of foreign exchange-related movements on cumulative translation adjustments and treasury shares purchases and sales.

Capital issuances and redemptions

In March 2014, pursuant to a tender offer, Credit Suisse repurchased USD 1.4 billion of outstanding 7.875% perpetual series B subordinated tier 1 participation securities. Credit Suisse subsequently exercised a regulatory call of the USD 99 million of such securities that had not been tendered, with the result that no such securities remain outstanding. Prior to the announcement of the tender offer and as advised by FINMA, these tier 1 participation securities formed part of Swiss CET1 capital under the Swiss Requirements, whereas under Basel III, these instruments were included in additional tier 1 instruments subject to phase out. These transactions were approved by FINMA.

In March 2014, CHF 0.5 billion of Contingent Capital Awards (CCA) were granted to certain employees as part of their 2013 deferred variable compensation. Also in March, employees holding 2011 Partner Asset Facility (PAF2) awards, which were restructured, reallocated a portion of their PAF2 holdings to CCA. CCA qualify as high-trigger regulatory capital.

Regulatory capital and ratios – Basel III

The CET1 ratio was 14.3% as of the end of 1Q14, compared to 15.7% as of the end of 4Q13, due to an increase in RWA and a decrease in CET1 capital. Credit Suisse' tier 1 ratio was 15.6% as of the end of 1Q14, compared to 16.8% as of the end of 4Q13. The total capital ratio decreased to 19.1% as of the end of 1Q14 compared to 20.6% as of the end of 4Q13.

CET1 capital was CHF 40.9 billion as of the end of 1Q14 compared to CHF 43.0 billion as of the end of 4Q13, mainly reflecting the 20% phase in of regulatory deductions from CET1 including goodwill and other intangible assets and certain deferred tax assets and a 20% decrease in the adjustment for the accounting treatment of pension plans, pursuant to phase-in requirements. CET1 capital was also impacted by a quarterly dividend accrual and a negative foreign exchange translation impact, partially offset by net income and the impact of share-based compensation.

Additional tier 1 capital increased to CHF 3.7 billion, mainly due to the issuance of CHF 0.5 billion CCA and the 20% decrease in phase in deductions, including goodwill and other intangible assets and other capital deductions, partially offset by the redemption of tier 1 participation securities in March 2014. Tier 2 capital decreased slightly to CHF 10.0 billion as of the end of 1Q14.

Total eligible capital was CHF 54.6 billion as of the end of 1Q14 compared to CHF 56.3 billion as of the end of 4Q13, reflecting the decrease in CET1 capital, partially offset by the increase in additional tier 1 capital.

As of the end of 1Q14, the Look-through CET1 ratio was 10.0% compared to an updated long-term target of 11.0%.

Capital ratios and leverage ratios – Basel III

end of	Phase-in		Look-through	
	1Q14	4Q13	1Q14	4Q13
BIS capital ratios (%)				
CET1 ratio	14.3	15.7	10.0	10.0
Tier 1 ratio	15.6	16.8	12.8	12.8
Total capital ratio	19.1	20.6	15.1	15.1
Leverage ratios (%)				
Swiss leverage ratio	4.8	5.1	3.7	3.7

As of the end of 1Q14, Swiss CET1 capital and Swiss total capital ratios were 14.2% and 19.0%, respectively, compared to the Swiss capital ratio phase-in requirements of 6.75% and 10.18%, respectively.

On a look-through basis, Swiss CET1 capital was CHF 27.7 billion and the Swiss CET1 ratio was 9.9% as of the end of 1Q14. Swiss total eligible capital was CHF 42.0 billion and the Swiss total capital ratio was 15.0% as of the end of 1Q14, each on a look-through basis.

Swiss leverage ratio

As of the end of 1Q14, the Swiss leverage ratio was 4.8% and total average exposure was CHF 1,137.6 billion. As of the end of 1Q14, total exposure was CHF 1,140 billion compared to Credit Suisse's updated long-term target of approximately CHF 1,000 billion. The Look-through Swiss leverage ratio was 3.7% as of the end of 1Q14, compared to the 4.0% requirement for 2019.

Important information

The Group has not finalized its 1Q14 Financial Report and the Group's independent registered public accounting firm has not completed its review of the condensed consolidated financial statements (unaudited) for the period. Accordingly, the financial information contained in this Earnings Release is subject to completion of quarter-end procedures, which may result in changes to that information.

For purposes of this Earnings Release, unless the context otherwise requires, the terms "Credit Suisse" and "the Group" mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the Swiss bank subsidiary of the Group, is substantially similar to the Group, and these terms are used to refer to both when the subject is the same or substantially similar. The term "the Bank" is used when referring to Credit Suisse AG, the Swiss bank subsidiary of the Group, and its consolidated subsidiaries.

Information referenced in this Earnings Release, whether via website links or otherwise, are not incorporated into this Earnings Release.

As of January 1, 2013, Basel III was implemented in Switzerland along with the Swiss "Too Big to Fail" legislation and regulations thereunder. The related disclosures are in accordance with Credit Suisse's current interpretation of such requirements, including relevant assumptions. Changes in the interpretation of these requirements in Switzerland or in any of Credit Suisse's assumptions or estimates could result in different numbers from those shown herein.

References to phase-in and look-through included herein refer to Basel III requirements. Phase-in reflects that for the years 2014 – 2018, there will be a five-year (20% per annum) phase in of goodwill and other intangible assets and other capital deductions (e.g., certain deferred tax assets and participations in financial institutions) and for the years 2013 – 2022, there will be a phase out of certain capital instruments. Look-through assumes the full phase-in of goodwill and other intangible assets and other regulatory adjustments and the full phase out of certain capital instruments.

Unless otherwise noted, leverage ratio, leverage exposure and total capital amounts included herein are based on the current FINMA framework. The Swiss leverage ratio is calculated as Swiss total eligible capital, divided by a three-month average leverage exposure, which consists of balance sheet assets, off-balance sheet exposures, which consist of guarantees and commitments, and regulatory adjustments, which include cash collateral netting reversals and derivative add-ons.

Return on equity for strategic results is calculated by dividing annualized strategic net income by average strategic shareholders' equity (derived by deducting 10% of non-strategic risk-weighted assets from reported shareholders' equity). Return on capital is calculated using income after tax and capital allocated based on the average of 10% of average risk-weighted assets and 2.4% of average leverage exposure.

All expense reduction metrics against 6M11 annualized total expenses are measured at constant foreign exchange rates and exclude realignment and other significant expense items and variable compensation expenses. For further information regarding these measures, see the 1Q14 Results Presentation Slides.

In various tables, use of "–" indicates not meaningful or not applicable.

¹ Based on tangible shareholders' equity attributable to shareholders, a non-GAAP financial measure, which is calculated by deducting goodwill and other intangible assets from total shareholders' equity attributable to shareholders. Management believes that the return on tangible shareholders' equity attributable to shareholders is meaningful as it allows consistent measurement of the performance of businesses without regard to whether the businesses were acquired.

Credit Suisse reporting structure

Credit Suisse results include revenues and expenses from the consolidation of certain private equity funds and other entities in which we have noncontrolling interests without significant economic interest (SEI) in such revenues and expenses. Core Results include the results of our two segments and the Corporate Center and discontinued operations, but do not include noncontrolling interests without SEI.

Beginning in 2Q13, fees collected in an agent role in connection with certain customized fund services we provide to clients where those fees are passed on directly to a third-party investment manager are now presented on a net basis per the applicable accounting standards. These fees were previously recorded on a gross basis as fee income and commission expense. Prior periods have been restated to conform to the current presentation.

¹ Net revenues divided by average assets under management.

¹ Business realignment costs relating to divisional realignment costs are prospectively presented in the relevant divisional non-strategic results beginning in 4Q13.

² Represents legacy funding costs associated with non-BaseI III compliant debt instruments.

³ Includes reclassifications to discontinued operations of revenues and expenses arising from the sale of ETF, secondary private equity and CFG businesses and the announced sale of domestic private banking business booked in Germany.

Impact from movements in own credit spreads

Our Core Results revenues are impacted by changes in credit spreads on fair-valued Credit Suisse long-term vanilla debt and debit valuation adjustments (DVA) relating to certain structured notes liabilities carried at fair value. Our Core Results are also impacted by fair value gains/(losses) on stand-alone derivatives relating to certain of our funding liabilities and reflect the volatility of cross-currency swaps and yield curve volatility and, over the life of the derivatives, will result in no net gains/(losses). These fair value gains/(losses) are recorded in the Corporate Center.

	1Q14	4Q13	1Q13

Weighted-average shares outstanding for basic/diluted earnings per share available for mandatory convertible securities ¹	–	–	231.8
Basic earnings/(loss) per share available for common shares (CHF)			
Basic earnings/(loss) per share from continuing operations	0.47	(0.37)	0.76
Basic earnings/(loss) per share from discontinued operations	0.01	0.00	0.00
Basic earnings/(loss) per share available for common shares	0.48	(0.37)	0.76
Diluted earnings/(loss) per share available for common shares (CHF)			
Diluted earnings/(loss) per share from continuing operations	0.47	(0.37)	0.75
Diluted earnings/(loss) per share from discontinued operations	0.01	0.00	0.00
Diluted earnings/(loss) per share available for common shares	0.48	(0.37)	0.75

Prior periods have been adjusted to reflect the increase in the number of shares outstanding that arose from the 2Q13 stock dividend, as required under US GAAP.

¹ Reflects MACCS issued in July 2012 that were mandatorily convertible into shares on March 29, 2013, which shares were settled and delivered on April 8, 2013.

² Reflects changes in the fair value of the PAF2 units which are reflected in the net results of the Group until the awards are finally settled. Fair value of the PAF2 units which are reflected in the net results of the Group are not adjusted for 4Q13, as the effect would be antidilutive. In 1Q14, the Group restructured the PAF2 awards as due to regulatory changes the capital relief provided by PAF2 awards was no longer available under Basel III. The PAF2 units were converted into other capital eligible compensation instruments and will no longer be settleable in Credit Suisse Group shares.

³ Reflects weighted-average shares outstanding on PAF2 units. Weighted-average shares on PAF2 units for 4Q13 were excluded from the diluted earnings per share calculation, as the effect would be antidilutive. In 1Q14, the Group restructured the PAF2 awards as due to regulatory changes the capital relief provided by PAF2 awards was no longer available under Basel III. The PAF2 units were converted into other capital eligible compensation instruments and will no longer be settleable in Credit Suisse Group shares.

⁴ Weighted-average potential common shares relating to instruments that were not dilutive for the respective periods (and therefore not included in the diluted earnings per share calculation above) but could potentially dilute earnings per share in the future were 9.1 million, 36.0 million and 13.7 million for 1Q14, 4Q13 and 1Q13, respectively.

⁵ Due to the net loss in 4Q13, 1.7 million weighted-average share options and warrants outstanding and 0.8 million weighted-average share awards outstanding were excluded from the diluted earnings per share calculation, as the effect would be antidilutive.

Cautionary statement regarding forward-looking information

This press release contains statements that constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, objectives or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.
- Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements except as may be required by applicable securities laws. By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:
 - the ability to maintain sufficient liquidity and access capital markets;
 - market and interest rate fluctuations and interest rate levels;
 - the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of continued slow economic recovery or downturn in the US or other developed countries in 2014 and beyond;
 - the direct and indirect impacts of continuing deterioration or slow recovery in residential and commercial real estate markets;
 - adverse rating actions by agencies in respect of sovereign issuers, structured credit products or other credit-related exposures;
 - the ability to achieve our objectives, including improved performance, reduced risks, lower costs, and more efficient use of capital;
 - the ability of counterparties to meet their obligations to us;
 - the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations;
 - political and social developments, including war, civil unrest or terrorist activity;
 - the possibility of foreign exchange controls, expropriation, nationalizations or confiscations in countries where we conduct operations;
 - operational factors such as systems failure, human error, or the failure to implement procedures properly;
 - actions taken by regulators with respect to our business and practices in one or more of the countries where we conduct operations;
 - the effects of changes in laws, regulations or accounting policies or practices;
 - competition in geographic and business areas in which we conduct our operations;
 - the ability to retain and recruit qualified personnel;
 - the ability to maintain our reputation and promote our brand;
 - the ability to increase market share and control expenses;
 - technological changes;
 - the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
 - acquisitions, including the ability to integrate businesses successfully, and divestitures, including the ability to sell non-core assets;
 - the adverse resolution of litigation and other contingencies;
 - the ability to achieve our cost efficiency goals and cost targets; and
 - our success at managing the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk Factors” in I – Information on the company in our Annual Report 2013.
