

Comunicato sui risultati

Risultati del Credit Suisse per il secondo trimestre 2014: utile core ante imposte CHF 1767 milioni e rendimento del capitale proprio 13% per le attività strategiche; perdita core ante imposte pubblicata CHF 370 milioni che include l'onere già annunciato di CHF 1618 milioni relativo all'accordo definitivo su tutte le questioni transfrontaliere in sospeso con gli Stati Uniti

Risultati del Credit Suisse per il primo semestre 2014: utile core ante imposte CHF 3707 milioni e rendimento del capitale proprio 13% per le attività strategiche; utile core ante imposte pubblicato CHF 1030 milioni

Look-through CET1 ratio 9,5% a fine secondo trimestre 2014, un valore in linea con il superamento del 10% per fine 2014

Nel secondo trimestre 2014, la buona tenuta della performance delle attività strategiche di Private Banking & Wealth Management evidenzia sostanziosi afflussi di nuovi capitali, pari a CHF 11,8 miliardi

I risultati ottenuti nel secondo trimestre 2014 dall'Investment Banking riflettono la forte attività di emissione, la riconferma della solida performance nei prodotti obbligazionari e cartolarizzati e il miglioramento dell'efficienza nell'utilizzo dei capitali

La performance delle attività strategiche di Private Banking & Wealth Management riflette una diminuzione dei ricavi ma al contempo anche gli ulteriori incrementi di efficienza:

- buona tenuta della redditività nel secondo trimestre 2014 per le attività strategiche, con un utile ante imposte di CHF 882 milioni, in calo del 13% rispetto al particolarmente forte secondo trimestre dell'anno precedente, e un rendimento del capitale del 28%
- nel secondo trimestre 2014, perdita ante imposte pubblicata totale di CHF 749 milioni, che include l'onere di CHF 1618 milioni legato alla chiusura definitiva di tutte le questioni transfrontaliere in sospeso con gli Stati Uniti
- ulteriore incremento dell'efficienza dei costi nelle attività strategiche per i primi sei mesi del 2014 con un rapporto costi/proventi del 68%, migliorato rispetto al 71% del primo semestre 2013
- per Wealth Management Clients aumento del margine netto a 28 punti base per il primo semestre 2014, sostenuto da significativi progressi nella riduzione dei costi
- per Wealth Management Clients margine lordo a 99 punti base nel secondo trimestre 2014, in calo di 5 punti base rispetto al primo trimestre 2014, in seguito all'aumento dei patrimoni gestiti, al cambiamento della composizione della clientela, alla contrazione dei ricavi da commissioni e alla leggera diminuzione dei proventi netti da interessi
- nel secondo trimestre 2014 solida raccolta netta di nuovi capitali, pari a CHF 11,8 miliardi dalle attività strategiche, con crescita annualizzata del 4% nonostante i deflussi pari a CHF 2,9 miliardi nelle attività transfrontaliere in Europa occidentale in seguito ai sostanziali progressi nella regolarizzazione dei patrimoni gestiti; raccolta netta di nuovi capitali pari a CHF 10,1 miliardi in totale, con deflussi complessivi pari a CHF 4,1 miliardi nelle attività transfrontaliere in Europa occidentale

La performance dell'Investment Banking riflette la stabilità dell'attività diversificata:

- per le attività strategiche utile ante imposte di CHF 1034 milioni e rendimento del capitale pari al 18%; forte performance nelle attività fruttifere fixed income e nell'underwriting, in parte neutralizzata da condizioni meno favorevoli alla vendita e al trading di azioni e dalla persistente debolezza nei prodotti global macro
- utile ante imposte pubblicato totale di CHF 752 milioni, con solida performance nelle attività chiave e accelerazione nella liquidazione dell'unità non strategica
- per i primi 6 mesi del 2014 forte rendimento del capitale nell'Investment Banking, pari al 20% nelle attività strategiche e a un solido 13% nel risultato complessivo pubblicato
- ristrutturazione dell'attività macro, inclusa l'uscita dal trading di commodity, al fine di migliorare ulteriormente l'efficienza nell'utilizzo dei capitali e l'efficienza operativa, con i seguenti obiettivi finali: circa USD 200 milioni di risparmi sui costi, USD 8 miliardi di riduzione di attività ponderate per il rischio, USD 25 miliardi di riduzione della leverage exposure

Buona tenuta della base patrimoniale e del leverage ratio a fine secondo trimestre 2014 anche a fronte dell'accordo sulle attività transfrontaliere negli Stati Uniti:

- look-through CET1 ratio secondo i requisiti BRI pari al 9,5%; grazie ai progressi nell'esecuzione delle misure di capitale, prevista la completa neutralizzazione dell'impatto dell'accordo relativo alle controversie negli USA e, per fine anno, il raggiungimento di un CET1 ratio di oltre il 10%, continuando l'accumulazione del dividendo in contanti per il 2014; look-through total capital ratio secondo i requisiti svizzeri pari al 15,3%
- leverage exposure pari a CHF 1156 miliardi; leverage ratio nel corso dell'implementazione dei requisiti svizzeri pari al 4,8%; look-through leverage ratio secondo i requisiti svizzeri 3,7%, vicino al raggiungimento del requisito del 4% richiesto entro il 2019

In linea con gli obiettivi di taglio dei costi:

- risparmi corretti annualizzati pari a CHF 3,4 miliardi rispetto ai costi run-rate annualizzati del primo semestre 2011; conferma dell'avanzamento verso l'obiettivo di oltre CHF 4,5 miliardi per fine 2015

Liquidazione delle unità non strategiche e progressi nella risoluzione delle controversie legate ad attività passate:

- liquidazione in anticipo sulle scadenze previste, con una riduzione della leverage exposure secondo i requisiti svizzeri pari a USD 3 miliardi e riduzione delle attività ponderate per il rischio di USD 6 miliardi nell'unità non strategica dell'Investment Banking
- significativi progressi nella risoluzione di importanti contenziosi da inizio 2014 ad oggi

22 luglio 2014 Il Credit Suisse Group pubblica i risultati del secondo trimestre e del primo semestre 2014.

Brady W. Dougan, Chief Executive Officer, ha affermato: “I risultati pubblicati per il secondo trimestre e il primo semestre 2014 subiscono l'effetto dell'accordo che ha chiuso la nostra maggiore controversia legata ad attività passate. Nel trimestre abbiamo continuato a registrare un buon dinamismo nell'attività con i clienti compiendo al contempo progressi significativi nella liquidazione delle unità non strategiche. I risultati delle attività strategiche sono solidi, a dimostrazione della buona tenuta del nostro modello di business a fronte del rallentamento dell'attività di trading dei clienti in alcune aree con impatto sia per Private Banking & Wealth Management che per Investment Banking”.

Ha continuato: “Con l'accordo annunciato a maggio che ha chiuso tutte le questioni transfrontaliere in sospeso con gli Stati Uniti, ci siamo lasciati alle spalle la controversia più duratura e importante della storia del Credit Suisse. Desidero nuovamente sottolineare il nostro profondo rammarico per il comportamento scorretto tenuto in passato che ha portato a questo accordo, e ribadisco che ce ne assumiamo pienamente la responsabilità. La fiducia e il sostegno riconfermati dai clienti hanno contribuito a mitigare l'impatto dell'accordo sulla nostra azienda. Ora siamo concentrati sull'attuazione delle misure relative al capitale e siamo in linea con l'obiettivo di migliorare il nostro look-through CET 1 ratio portandolo a oltre il 10% entro fine anno. Stiamo parallelamente accumulando capitale per un dividendo in contanti per il 2014. Una volta raggiunto il 10% e mentre continuiamo ad accumulare capitale per conseguire il nostro obiettivo di lungo termine dell'11%, intendiamo restituire agli azionisti circa la metà degli utili attraverso distribuzioni annuali”.

Commentando il risultato di Private Banking & Wealth Management, ha affermato: “Nel secondo trimestre abbiamo realizzato una raccolta netta pari a CHF 11,8 miliardi nelle attività strategiche, trainata dalla crescita nelle regioni Asia Pacific e Svizzera, due dei nostri mercati chiave. Questa forte espansione ha più che compensato i deflussi nelle attività transfrontaliere in Europa occidentale, dove stiamo agendo in modo proattivo per regolarizzare la nostra base di patrimoni gestiti, nell'ambito della trasformazione radicale nel settore della gestione patrimoniale. Nel trimestre abbiamo ulteriormente migliorato l'efficienza delle attività strategiche, con una riduzione dei costi operativi che ha contribuito a mitigare l'impatto dell'indebolimento dell'attività di transazione e del persistente contesto di tassi bassi”.

Commentando il risultato dell'Investment Banking, ha affermato: “Nel secondo trimestre 2014 l'Investment Banking ha fatto registrare risultati solidi che riflettono la forte attività di emissione, la conferma del dinamismo nelle attività fruttifere e il miglioramento dell'efficienza nell'utilizzo dei capitali rispetto al primo trimestre. Con la ristrutturazione della nostra attività macro, inclusa l'uscita dal trading di commodity, ci attendiamo un'ulteriore riduzione di capitale, indebitamento e costi. Le attività strategiche hanno fatto registrare un rendimento del capitale proprio pari al 18% per il secondo trimestre e al 20% per il primo semestre 2014, a dimostrazione della stabilità della nostra attività diversificata”.

Core Results summary

Core Results do not include noncontrolling interests without significant economic interests.

Net loss attributable to shareholders was CHF 700 million in 2Q14.

Loss before taxes of CHF 370 million in 2Q14 compared to income before taxes of CHF 1,540 million in 2Q13, reflecting a 30% increase in total operating expenses, primarily driven by the CHF 1,618 million charge relating to the final settlement of all outstanding US cross-border matters. In strategic businesses, pre-tax income of CHF 1,767 million decreased 15% compared to 2Q13, and in non-strategic businesses the pre-tax loss was CHF 2,137 million.

Net revenues of CHF 6,433 million decreased 6% compared to 2Q13. In the strategic businesses, net revenues declined 7% to CHF 6,324 million compared to 2Q13, with lower revenues in Private Banking & Wealth Management and Investment Banking. In the non-strategic businesses, net revenues increased 211% to CHF 109 million compared to 2Q13.

Provision for credit losses of CHF 18 million in 2Q14, reflected net provisions in Private Banking & Wealth Management, partially offset by a release of provisions in Investment Banking.

Total operating expenses of CHF 6,785 million were up 30% compared to 2Q13, primarily reflecting 84% higher general and administrative expenses. In strategic businesses, total operating expenses of CHF 4,532 million decreased 3% compared to 2Q13, mainly reflecting an 18% decrease in commission expenses and a 5% decline in general and administrative expenses. In non-strategic businesses total operating expenses of CHF 2,253 million increased 307% compared to 2Q13, reflecting the litigation settlement charge of CHF 1,618 million recognized in the non-strategic results of the Private Banking & Wealth Management division. Business realignment costs in 2Q14 were CHF 153 million.

Income tax expense of CHF 307 million recorded in 2Q14 reflected the impact of the geographical mix of results, the recognition of additional Swiss deferred tax assets relating to timing differences following certain changes in Swiss GAAP and the re-assessment of UK deferred tax assets resulting in a reduction of deferred tax assets on net operating losses. Overall, net deferred tax assets decreased CHF 122 million to CHF 5,134 million as of the end of 2Q14 compared to 1Q14. Deferred tax assets on net operating losses decreased CHF 678 million to CHF 758 million during 2Q14. The Core Results effective tax rate was (83.0)% in 2Q14, compared to 38.8% in 1Q14. The effective tax rate reflects that the majority of the litigation settlement charge was non-deductible. Excluding this impact, the Core Results effective tax rate for 2Q14 would have been 26.2%.

Significant litigation matter in 2Q14. In May 2014, Credit Suisse entered into a comprehensive and final settlement regarding all outstanding US cross-border matters, including agreements with the US Department of Justice, the New York State Department of Financial Services, the Board of Governors of the US Federal Reserve System and, as previously announced, the US Securities and Exchange Commission (SEC). The final settlement amount was USD 2,815 million (CHF 2,510 million). In prior quarters, Credit Suisse had taken litigation provisions totaling CHF 892 million related to this matter. As a result, a pre-tax litigation settlement charge of CHF 1,618 million was recognized in 2Q14 in the non-strategic results of the Private Banking & Wealth Management division. The settlement included a guilty plea entered into by the Group's Swiss banking entity, Credit Suisse AG.

Other litigation matters. The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions for certain proceedings for which the Group believes an estimate is possible decreased from a range of zero to CHF 2.4 billion at the end of 1Q14 to a range of zero to CHF 1.0 billion at the end 2Q14.

Diluted loss per share from continuing operations was CHF 0.45 for 2Q14 compared to diluted earnings per share of CHF 0.53 in 2Q13 and of CHF 0.47 in 1Q14.

Capital and leverage. As of the end of 2Q14, Credit Suisse reported a Look-through BIS common equity tier 1 (CET1) ratio of 9.5%, compared to 10.0% as of the end of 1Q14. As of the end of 2Q14, the Look-through Swiss total capital ratio was 15.3%, compared to 15.0% as of the end of 1Q14.

The BIS CET1 ratio as of the end of 2Q14 was 13.8%, compared to 14.3% as of the end of 1Q14, reflecting a decrease in CET1 capital. Basel III risk-weighted assets for the Group were stable at CHF 285.4 billion as of the end of 2Q14, reflecting a decrease in credit risk related to credit valuation adjustments (CVA) and market risk largely offset by increases in credit risk (excluding CVA) and operational risk and an increase resulting from foreign exchange translation.

As of the end of 2Q14, Credit Suisse's Swiss leverage exposure amounted to CHF 1,156 billion, compared to an updated long-term target of approximately CHF 1,000 billion. The Look-through Swiss leverage ratio was 3.7%, compared to the 4% requirement for 2019.

Benefits of the integrated bank. In 2Q14, Credit Suisse generated CHF 1.0 billion of collaboration revenues from the integrated bank. This corresponds to 15.4% of Core net revenues in 2Q14.

Private Banking & Wealth Management

In 2Q14, Private Banking & Wealth Management reported a loss before taxes of CHF 749 million and net revenues of CHF 3,046 million. In its strategic businesses, Private Banking & Wealth Management reported income before taxes of CHF 882 million and net revenues of CHF 2,932 million. Compared to 2Q13, income before taxes in strategic businesses decreased 13%, mainly driven by lower transaction- and performance-based revenues and lower net interest income, partially offset by lower operating expenses. Net revenues were slightly lower compared to 1Q14 mainly due to lower transaction- and performance-based revenues and lower other revenues. In its non-strategic businesses, Private Banking & Wealth Management reported a loss before taxes of CHF 1,631 million, driven by the litigation settlement charge of CHF 1,618 million relating to the final settlement of all outstanding US cross-border matters. In 2Q14, assets under management for the division were CHF 1,329.7 billion and the division attracted net new assets of CHF 10.1 billion.

In 2Q14, the strategic businesses for Private Banking & Wealth Management reported income before taxes of CHF 882 million and net revenues of CHF 2,932 million.

Compared to 2Q13, net revenues decreased 9% primarily reflecting lower transaction- and performance-based revenues and decreased net interest income. The decrease in transaction- and performance-based revenues reflected lower revenues across most major revenue categories, primarily from foreign exchange client business, carried interest on realized private equity gains and semi-annual performance fees from Hedging-Griffo. In a low interest rate environment, net interest income decreased due to significantly lower deposit margins on stable average deposit volumes and slightly lower loan margins on higher average loan volumes. Slightly lower recurring commissions and fees reflected decreased investment product management fees, partially offset by higher discretionary mandate management fees and slightly higher asset management fees.

Compared to 1Q14, net revenues decreased 3%, primarily reflecting lower transaction- and performance-based revenues and lower other revenues. The decrease in transaction- and performance-based revenues reflected lower brokerage and product issuing fees, lower performance fees and carried interest, lower placement and transaction fees and lower foreign exchange client business, partially offset by higher equity participations income. Lower other revenues mainly reflected a fair value decrease on Clock Finance, a credit securitization transaction. Stable net interest income reflected lower deposit margins on stable average deposit volumes and stable loan margins on slightly higher average loan volumes. Stable recurring commissions and fees mainly reflected lower banking services fees and lower investment product management fees, largely offset by slightly higher asset management fees and slightly higher discretionary mandate management fees.

Provision for credit losses was CHF 30 million, compared to CHF 19 million in 2Q13 and CHF 17 million in 1Q14.

Total operating expenses were lower compared to 2Q13 and stable compared to 1Q14. Compared to 2Q13, compensation and benefits decreased 7%, mainly reflecting lower salary expenses, driven by lower headcount, and general and administrative expenses decreased 7%, primarily reflecting the results of the ongoing efficiency

measures and lower expense provisions. Compared to 1Q14, compensation and benefits decreased 3% due to lower discretionary performance-related compensation. Slightly higher general and administrative expenses primarily reflected higher travel and entertainment expenses and slightly higher professional services fees.

The cost/income ratio for strategic results was 69% in 2Q14, up one percentage point compared to 2Q13 and 1Q14.

The *Wealth Management Clients* business in 2Q14 reported pre-tax income of CHF 569 million and net revenues of CHF 2,017 million. Net revenues decreased 10% compared to 2Q13, with lower transaction- and performance-based revenues, lower net interest income and slightly lower recurring commissions and fees. Transaction- and performance-based revenues decreased, mainly reflecting lower market activity adversely impacting foreign exchange client business and brokerage and product issuing fees, as well as lower equity participations income, due to an increased dividend in 2Q13 related to an ownership interest in SIX Group AG, and lower performance fees from Hedging-Griffo. Lower net interest income reflected the low interest rate environment, significantly lower deposit margins on stable average deposit volumes and lower loan margins on higher average loan volumes and lower levels of deposits eligible as stable funding. Recurring commissions and fees decreased slightly, driven by lower investment product management fees and slightly lower investment account and services fees, partially offset by higher discretionary mandate management fees and slightly higher banking services fees.

Compared to 1Q14, net revenues decreased 3%, driven by lower transaction- and performance-based revenues and slightly lower net interest income. Transaction- and performance-based revenues decreased, mainly driven by lower brokerage and product issuing fees and lower placement and transaction fees, partially offset by higher equity participations income. Slightly lower net interest income reflected lower deposit margins on stable average deposit volumes and lower loan margins on slightly higher loan volumes. Recurring commissions and fees were stable with lower investment product management fees and lower banking services fees, reflecting lower account statement fees, offset by increases across other categories.

In 2Q14, the gross margin was 99 basis points, 13 basis points lower compared to 2Q13, mainly reflecting lower transaction- and performance-based revenues, a continued adverse interest rate environment and a 2.5% increase in average assets under management. Compared to 1Q14, the gross margin was down five basis points, driven by a 2.7% increase in average assets under management, a change in client mix, lower fee-based revenues and slightly lower net interest income.

Wealth Management Clients net margin was 28 basis points in 2Q14, three basis points lower compared to 2Q13, reflecting lower transaction- and performance-based revenues and lower net interest income, partially offset by lower operating expenses. Compared to 1Q14, the net margin was one basis point lower, driven by slightly lower income before taxes.

The *Corporate & Institutional Clients* business reported pre-tax income of CHF 211 million in 2Q14 and net revenues of CHF 475 million. Net revenues decreased 7% compared to 2Q13, mainly driven by decreased other revenues, lower net interest income and lower transaction- and performance-based revenues. Lower other revenues reflected a fair value decrease on the Clock Finance transaction. The decrease in net interest income reflected the low interest rate environment, significantly lower deposit margins on higher average deposit volumes and lower levels of deposits eligible as stable funding, partially offset by slightly higher loan margins on higher average loan volumes. The decrease in transaction- and performance-based revenues reflected lower sales and trading revenues, lower brokerage and product issuing fees and slightly lower foreign exchange client business. Slightly lower recurring commissions and fees reflected lower investment product management fees and lower banking services fees, partially offset by higher discretionary mandate management fees.

Compared to 1Q14, net revenues decreased 3%, with lower other revenues and lower recurring commissions and fees, partially offset by higher net interest income. Lower other revenues reflected a fair value decrease on the Clock Finance transaction. The decrease in recurring commissions and fees primarily reflected lower banking services fees. The increase in net interest income reflected higher loan margins on slightly higher average loan volumes, partially offset by lower deposit margins on stable average deposit volumes. Stable transaction- and performance-based revenues reflected higher equity participations income, offset by slightly lower foreign exchange client business.

The *Asset Management* business reported pre-tax income of CHF 102 million in 2Q14, with net revenues of CHF 440 million. Net revenues decreased 9% compared to 2Q13, with fee-based revenues decreasing 8%, reflecting lower carried interest on realized private equity gains and the absence of performance fees from Hedging-Griffo due to year-to-date returns performing below their respective high-water marks, partially offset by higher placement fees and slightly higher asset management fees due to higher average assets under management. Net revenues declined 5% compared to 1Q14, with slightly lower fee-based revenues reflecting lower carried interest on realized private equity gains and lower real estate transaction fees, partially offset by slightly higher asset management fees and higher placement fees.

The fee-based margin was 46 basis points in 2Q14, compared to 53 basis points in 2Q13 and 49 basis points in 1Q14. The movements reflected both the lower fee-based revenues and the higher average assets under management, which increased 5.8% and 3.5% compared to 2Q13 and 1Q14, respectively.

Non-strategic results

The non-strategic results for Private Banking & Wealth Management include positions relating to the restructuring of the former Asset Management division, run-off operations relating to the small markets exit initiative and certain legacy cross-border related run-off operations, litigation costs, primarily related to US cross-border matters, the impact of restructuring of the German onshore operations, other smaller non-strategic positions formerly in the Corporate & Institutional Clients business and the run-off and active reduction of selected products.

In 2Q14, the non-strategic businesses reported a loss before taxes of CHF 1,631 million, reflecting the litigation settlement charge of CHF 1,618 million relating to the final settlement of all outstanding US cross-border matters. In 1Q14, Private Banking & Wealth Management's non-strategic businesses reported income before taxes of CHF 47 million, including an equity participation gain of CHF 91 million from the sale in January 2014 of Customized Fund Investment Group, a private equity fund of funds and co-investment business.

Assets under management – Private Banking & Wealth Management

Assets under management of CHF 1,329.7 billion increased CHF 37.2 billion compared to the end of 1Q14, driven mainly by positive market movements, net new assets and favorable foreign exchange-related movements.

Net new assets: Private Banking & Wealth Management recorded net new assets of CHF 10.1 billion in 2Q14. In the strategic portfolio, Wealth Management Clients contributed net new assets of CHF 7.4 billion in 2Q14 with continued strong inflows from emerging markets, particularly in Asia Pacific, and Switzerland, partially offset by Western European cross-border outflows. Corporate & Institutional Clients in Switzerland reported net new assets of CHF 0.6 billion in 2Q14. Asset Management reported net new assets of CHF 4.1 billion in 2Q14, driven by inflows in traditional products, with substantial contributions from index strategies, and inflows from hedge funds and credit products. In the non-strategic portfolio, net asset outflows of CHF 1.7 billion reflected the exit of certain businesses.

Investment Banking

In 2Q14, Investment Banking reported income before taxes of CHF 752 million and net revenues of CHF 3,342 million. Investment Banking delivered solid results, driven by the strength of the diversified strategic franchise and an accelerated wind-down of risk-weighted assets and leverage exposure in the non-strategic unit. In strategic businesses, net revenues declined 6% compared to 2Q13, primarily driven by less favorable trading conditions in equity sales and trading businesses and continued weakness in global macro products, particularly in foreign exchange and commodities. Compared to 1Q14, net revenues declined 5% in strategic businesses as less favorable trading conditions in certain fixed income businesses and equity sales and trading offset strong results in underwriting and advisory. In 2Q14, Investment Banking accelerated the wind-down of the non-strategic unit, reducing Swiss leverage exposure by USD 3 billion, or 4%, and Basel III risk-weighted assets by USD 6 billion, or 32%, compared to 1Q14.

With respect to the global macro products business, Credit Suisse decided to exit its small commodities trading business and the results during the wind-down period will be reflected in the non-strategic unit beginning in 3Q14. Credit Suisse will also re-focus its foreign exchange business towards a combination of electronic trading and voice offering for larger and more complex trades and will further simplify its rates product offering to focus primarily on satisfying client liquidity needs in cash products and derivatives.

Strategic results

In 2Q14, the strategic businesses reported income before taxes of CHF 1,034 million and net revenues of CHF 3,395 million. Compared to 2Q13, results were impacted by the weakening of the average rate of the US dollar against the Swiss franc, which negatively impacted revenues and favorably impacted expenses. Fixed income sales and trading revenues were higher compared to 2Q13, reflecting continued investor demand for yield products, but were partially offset by challenging trading conditions in global macro products. Revenues decreased compared to 1Q14, as lower global credit products and securitized products results, following a seasonally stronger 1Q14 for these businesses, more than offset a rebound in emerging markets revenues. Equities sales and trading results declined from strong 2Q13 levels, driven by less favorable trading conditions, specifically a low volatility and low volume environment, resulting in reduced client activity. Revenues were lower than 1Q14, primarily driven by weak client activity in our equity derivatives business. Underwriting and advisory results were higher compared to 2Q13 and 1Q14, reflecting significantly higher equity underwriting revenues, as origination remained robust.

Fixed income sales and trading Fixed income results reflected continued investor demand for yield products, specifically credit and securitized products in a low rate environment. 2Q13 performance was adversely impacted by a significant decline in trading activity due to rising rates and widening credit spreads from the US Federal Reserve's announcement to reduce its bond buying program. Emerging markets revenues improved substantially, primarily driven by strong financing activity. Results also reflected higher revenues from corporate lending. Securitized products revenues increased, driven by higher revenues in agency securities and mortgage servicing and consistent performance in asset finance. Global credit products had a solid performance, as strong origination activity led to higher secondary trading in investment grade and leveraged finance franchises. Global macro products had significantly lower revenues, as a low volatility environment resulted in subdued client activity, particularly in foreign exchange and commodities businesses. Rates revenues were lower, driven by declines in Japan and the US. Revenues decreased compared to 1Q14, as lower global credit products and securitized products results, following a seasonally stronger 1Q14 for these businesses, more than offset a rebound in emerging markets revenues.

Equities sales and trading Equity sales and trading revenues declined, driven by less favorable trading conditions specifically a low volatility and low volume environment, resulting in reduced client activity. Equity sales and trading revenues decreased compared to 2Q13, due to substantially lower revenues from systematic market making, reflecting significantly less favorable trading conditions compared to 2Q13 which included the positive impact of quantitative easing in Japan. Derivatives revenues were lower, as a significant decline in volatility resulted in weaker client activity, particularly in the US flow businesses, and 2Q13 results benefitted from strong performance in Asia and the US. Cash equities revenues declined significantly as reduced commission revenues, reflecting lower global market volumes, more than offset market share gains in the US. Prime services results were solid, reflecting continued market leadership, increased activity in Europe and growth in client clearing services. Compared to 1Q14, revenues declined primarily driven by weak client activity in our equity derivatives business.

Underwriting and advisory results were higher compared to 2Q13 and 1Q14, reflecting significantly higher equity underwriting revenues, as origination remained robust.

Cost/income ratio	69.7	68.5	67.5	–	–	69.1	64.4	–

Total operating expenses of CHF 2,366 million decreased 3% in Swiss francs compared 2Q13. In US dollars operating expenses increased 4%, driven by higher deferred compensation expense, as new award accruals more than offset roll-offs from prior year awards. Investment Banking strategic businesses also had higher discretionary compensation expense reflecting a change in the variable compensation accrual methodology. The increases were partially offset by lower general and administrative expenses, driven by lower technology costs and lower UK bank levy expenses. Compared to 1Q14, total operating expenses decreased 3% in Swiss francs, reflecting lower deferred compensation expense from prior-year awards and lower discretionary compensation expense. Additionally, we had lower general and administrative expenses reflecting lower technology costs and lower UK bank levy expenses.

Capital metrics As of the end of 2Q14, Investment Banking strategic businesses reported Basel III risk-weighted assets of USD 168 billion, up USD 2 billion from 1Q14. Swiss leverage exposure in strategic businesses of USD 781 billion, reflected an increase of USD 5 billion from 1Q14.

Non-strategic results

Non-strategic results for Investment Banking include the fixed income wind-down portfolio, legacy rates business, primarily non-exchange-cleared instruments and capital-intensive structured positions, legacy funding costs associated with non-Basel III compliant debt instruments, as well as certain legacy litigation costs and other small non-strategic positions.

Investment Banking – non-strategic results

Risk-weighted assets – Basel III	11,536	16,436	19,159	(30)	(40)	11,536	19,159	(40)

In 2Q14, Investment Banking accelerated the wind-down of the non-strategic unit, reducing Swiss leverage exposure by USD 3 billion and Basel III risk-weighted assets by USD 6 billion compared to 1Q14. The non-strategic businesses reported a loss before taxes of CHF 282 million and net revenue losses of CHF 53 million. Performance reflected portfolio net valuation gains and improved funding costs from proactive management of both legacy debt instruments and trading assets. Total operating expenses increased compared to both 2Q13 and 1Q14, driven by higher litigation provisions, primarily in connection with mortgage related matters.

As of the end of 2Q14, the Investment Banking non-strategic unit reported Basel III risk-weighted assets of USD 13 billion, down USD 7 billion, or 35%, from 2Q13. Additionally, the Investment Banking non-strategic unit reduced its Basel III risk-weighted assets by USD 6 billion or 32% from 1Q14. This compares to a risk-weighted assets target of USD 6 billion by year-end 2015. The non-strategic unit reported Swiss leverage exposure of USD 72 billion, a reduction of USD 21 billion, or 23%, from 2Q13 and a reduction of USD 3 billion, or 4%, from 1Q14. This compares to a target of USD 24 billion in Swiss leverage exposure by year-end 2015.

Corporate Center

Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group and certain expenses and revenues that have not been allocated to the segments. It also includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

The Corporate Center recorded a loss before taxes of CHF 373 million in 2Q14, including business realignment costs of CHF 136 million and IT architecture simplification expenses of CHF 81 million. 2Q14 results also included fair value losses on own debt of CHF 29 million, fair value gains on stand-alone derivatives of CHF 15 million and debit valuation adjustment gains on certain structured notes liabilities of CHF 4 million, resulting in overall fair value losses on own credit spreads of CHF 10 million in 2Q14. This compares to a loss before taxes of CHF 131 million in 2Q13 and a loss before taxes of CHF 439 million in 1Q14.

Balance sheet, shareholders' equity and regulatory capital

Balance sheet

As of the end of 2Q14, total assets of CHF 891.6 billion increased 2% compared to 1Q14, reflecting an increase in operating activities and the foreign exchange translation impact. Excluding the foreign exchange translation impact, total assets increased CHF 10.3 billion.

Total shareholders' equity

Credit Suisse's total shareholders' equity decreased to CHF 40.9 billion as of the end of 2Q14 compared to CHF 43.2 billion as of the end of 1Q14. Total shareholders' equity was negatively impacted by dividend payments, transactions relating to the settlement of share-based compensation awards and the net loss. These movements were partially offset by the increases to the share-based compensation obligation and the impact of foreign exchange-related movements on cumulative translation adjustments. As of the end of 2Q14, Credit Suisse had 1,607.2 million shares issued.

BIS regulatory capital and ratios – Basel III

The CET1 ratio was 13.8% as of the end of 2Q14, compared to 14.3% as of the end of 1Q14, reflecting a decrease in CET1 capital. Credit Suisse's tier 1 ratio was 16.0% as of the end of 2Q14, compared to 15.6% as of the end of 1Q14. The total capital ratio increased to 19.5% as of the end of 2Q14 compared to 19.1% as of the end of 1Q14.

CET1 capital was CHF 39.5 billion as of the end of 2Q14 compared to CHF 40.9 billion as of the end of 1Q14, mainly reflecting the net loss and the net effect of share-based compensation. CET1 capital was also impacted by a quarterly dividend accrual.

Additional tier 1 capital increased to CHF 6.1 billion, mainly due to the issuance of USD 2.5 billion 6.25% tier 1 capital notes in June 2014. Tier 2 capital increased slightly to CHF 10.1 billion as of the end of 2Q14.

Total eligible capital was CHF 55.6 billion as of the end of 2Q14 compared to CHF 54.6 billion as of the end of 1Q14, reflecting the increase in additional tier 1 capital, partially offset by the decrease in CET1 capital.

As of the end of 2Q14, the Look-through CET1 ratio was 9.5% compared to an expected year-end ratio of over 10.0% and a long-term target of 11.0%.

Capital ratios – Basel III

Total capital ratio	19.5	19.1	20.6	15.4	15.1	15.1

Swiss regulatory capital and ratios

As of the end of 2Q14, Swiss CET1 capital and Swiss total capital ratios were 13.7% and 19.4%, respectively, compared to the Swiss capital ratio phase-in requirements of 6.75% and 10.18%, respectively.

On a look-through basis, Swiss CET1 capital was CHF 26.2 billion and the Swiss CET1 ratio was 9.4% as of the end of 2Q14. Swiss total eligible capital was CHF 42.9 billion and the Swiss total capital ratio was 15.3% as of the end of 2Q14, each on a look-through basis.

Swiss leverage ratio

As of the end of 2Q14, the Swiss leverage ratio was 4.8% and total average exposure was CHF 1,159.2 billion. As of the end of 2Q14, Swiss total exposure was CHF 1,156 billion compared to Credit Suisse's long-term target of approximately CHF 1,000 billion. The Look-through Swiss leverage ratio was 3.7% as of the end of 2Q14, compared to the 4.0% requirement for 2019.

Important information

The Group has not finalized its 2014 Financial Report and the Group's independent registered public accounting firm has not completed its review of the condensed consolidated financial statements (unaudited) for the period. Accordingly, the financial information contained in this Earnings Release is subject to completion of quarter-end procedures, which may result in changes to that information. Certain reclassifications have been made to prior periods to conform to the current presentation.

For purposes of this Earnings Release, unless the context otherwise requires, the terms "Credit Suisse" and "the Group" mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the Swiss bank subsidiary of the Group, is substantially similar to the Group, and these terms are used to refer to both when the subject is the same or substantially similar. The term "the Bank" is used when referring to Credit Suisse AG, the Swiss bank subsidiary of the Group, and its consolidated subsidiaries.

Information referenced in this Earnings Release, whether via website links or otherwise, is not incorporated into this Earnings Release.

As of January 1, 2013, Basel III was implemented in Switzerland along with the Swiss "Too Big to Fail" legislation and regulations thereunder. The related disclosures are in accordance with Credit Suisse's current interpretation of such requirements, including relevant assumptions. Changes in the interpretation of these requirements in Switzerland or in any of Credit Suisse's assumptions or estimates could result in different numbers from those shown herein.

References to phase-in and look-through included herein refer to Basel III requirements. Phase-in reflects that for the years 2014 – 2018, there will be a five-year (20% per annum) phase in of goodwill and other intangible assets and other capital deductions (e.g., certain deferred tax assets and participations in financial institutions) and for the years 2013 – 2022, there will be a phase out of certain capital instruments. Look-through assumes the full phase-in of goodwill and other intangible assets and other regulatory adjustments and the full phase out of certain capital instruments.

Unless otherwise noted, leverage ratio, leverage exposure and total capital amounts included herein are based on the current FINMA framework. The Swiss leverage ratio is calculated as Swiss total eligible capital, divided by a three-month average leverage exposure, which consists of balance sheet assets, off-balance sheet exposures, which consist of guarantees and commitments, and regulatory adjustments, which include cash collateral netting reversals and derivative add-ons.

Following a revision to the Swiss Liquidity Ordinance in June 2014 implementing Basel III Liquidity Coverage Ratio (LCR) rules, beginning in 2014, the majority of a portfolio of high-quality liquid assets previously recorded in the Corporate Center and managed by our Treasury function have been allocated to the business divisions. This allows for a more efficient management of their business activities from an overall Group perspective with respect to LCR and Swiss leverage requirements arising from the portfolio of assets. Prior periods have been restated for the related impact on assets and Swiss leverage exposures.

Return on equity for strategic results is calculated by dividing annualized strategic net income by average strategic shareholders' equity (derived by deducting 10% of non-strategic risk-weighted assets from reported shareholders' equity). Return on capital is calculated using income after tax and capital allocated based on the average of 10% of average risk-weighted assets and 2.4% of average leverage exposure.

Adjusted cost run-rates are non-GAAP financial measures. All expense reduction metrics against 6M11 annualized total expenses are measured at constant foreign exchange rates and exclude realignment and other significant expense items and variable compensation expenses. For further information regarding these measures, see the 2014 Results Presentation Slides.

The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions which is discussed above relates only to those proceedings for which the Group believes an estimate is possible and which are discussed in Note 38 to the Consolidated Financial Statements in the Group's Annual Report on Form 20-F and updated in its quarterly reports (including the 2014 Financial Report that is scheduled to be released on July 31). It is inherently difficult to determine whether a loss is probable or even reasonably possible or to estimate the amount of any loss or loss range for many of the Group's legal proceedings. The Group's aggregate litigation provisions include estimates of losses, additional losses or ranges of loss for proceedings for which such losses are probable and can be reasonably estimated. The Group does not believe that it can estimate an aggregate range of reasonably possible losses for certain of its proceedings because of their complexity, the novelty of some of the claims, the early stage of the proceedings, the limited amount of discovery that has occurred and/or other factors. For additional details, see Note 38 to the Consolidated Financial Statements in the Group's Annual Report on Form 20-F and the litigation note in each of its quarterly Financial Reports.

Investors and others should note that we announce material information (including quarterly earnings releases and financial reports) to the investing public using press releases, SEC and Swiss ad hoc filings, our investor relations website and public conference calls and webcasts. We intend to also use our investor relations Twitter account (<https://twitter.com/creditsuisse>) to excerpt key messages from our public disclosures, including earnings releases. We may retweet such messages through certain of our regional Twitter accounts, including [@csschweiz](https://twitter.com/csschweiz) (<https://twitter.com/csschweiz>) and [@csapac](https://twitter.com/csapac) (<https://twitter.com/csapac>). Investors and others should take care to consider such abbreviated messages in the context of the disclosures from which they are excerpted. The information we post on these Twitter accounts is not a part of this Earnings Release.

In various tables, use of "—" indicates not meaningful or not applicable.

Number of employees	45,100	45,600	46,300	(1)	(3)	45,100	46,300	(3)

¹ Based on tangible shareholders' equity attributable to shareholders, a non-GAAP financial measure, which is calculated by deducting goodwill and other intangible assets from total shareholders' equity attributable to shareholders. Management believes that the return on tangible shareholders' equity attributable to shareholders is meaningful as it allows consistent measurement of the performance of businesses without regard to whether the businesses were acquired.

Credit Suisse reporting structure

Credit Suisse results include revenues and expenses from the consolidation of certain private equity funds and other entities in which we have noncontrolling interests without significant economic interest (SEI) in such revenues and expenses. Core Results include the results of our two segments and the Corporate Center and discontinued operations, but do not include noncontrolling interests without SEI.

Beginning in 2Q13, fees collected in an agent role in connection with certain customized fund services we provide to clients where those fees are passed on directly to a third-party investment manager are now presented on a net basis per the applicable accounting standards. These fees were previously recorded on a gross basis as fee income and commission expense. Prior periods have been restated to conform to the current presentation.

¹ Net revenues divided by average assets under management.

² Income before taxes divided by average assets under management.

¹ Business realignment costs relating to divisional realignment costs are prospectively presented in the relevant divisional non-strategic results beginning in 4Q13.

² Represents legacy funding costs associated with non-BaseI III compliant debt instruments.

³ Includes reclassifications to discontinued operations of revenues and expenses arising from the sale of ETF, secondary private equity and CFG businesses and the announced sale of domestic private banking business booked in Germany.

Impact from movements in own credit spreads

Core Results revenues are impacted by changes in credit spreads on fair-valued Credit Suisse long-term vanilla debt and debit valuation adjustments (DVA) relating to certain structured notes liabilities carried at fair value. Core Results are also impacted by fair value gains/(losses) on stand-alone derivatives relating to certain of our funding liabilities and reflect the volatility of cross-currency swaps and yield curve volatility and, over the life of the derivatives, will result in no net gains/(losses). These fair value gains/(losses) are recorded in the Corporate Center.

¹ Distributions to owners in funds include the return of original capital invested and any related dividends.

² Transactions with and without ownership changes related to fund activity are all displayed under "not changing ownership".

³ Includes a net tax benefit of CHF 10 million from the excess fair value of shares delivered over recognized compensation expense.

⁴ The Group had purchased certain call options on its own shares to economically hedge share-based compensation awards. In accordance with US GAAP, these call options were designated as equity instruments and, as such, were initially recognized in shareholders' equity at their fair values and not subsequently remeasured.

⁵ Paid out of reserves from capital contributions.

⁶ Includes a net tax charge of CHF (38) million from the excess recognized compensation expense over fair value of shares delivered.

¹ Reflects MACCS issued in July 2012 that were mandatorily convertible into shares on March 29, 2013, which shares were settled and delivered on April 8, 2013.

² Reflects changes in the fair value of the PAF2 units which were reflected in the net results of the Group until the awards were finally settled. In 1Q14, the Group restructured the PAF2 awards as due to regulatory changes the capital relief provided by PAF2 awards was no longer available under Basel III. The PAF2 units were converted into other capital eligible compensation instruments and will no longer be settleable in Credit Suisse Group shares.

³ Reflects weighted-average shares outstanding on PAF2 units. In 1Q14, the Group restructured the PAF2 awards as due to regulatory changes the capital relief provided by PAF2 awards was no longer available under Basel III. The PAF2 units were converted into other capital eligible compensation instruments and will no longer be settleable in Credit Suisse Group shares.

⁴ Weighted-average potential common shares relating to instruments that were not dilutive for the respective periods (and therefore not included in the diluted earnings per share calculation above) but could potentially dilute earnings per share in the future were 8.8 million, 9.1 million, 12.1 million, 8.9 million and 12.9 million for 2Q14, 1Q14, 2Q13, 6M14 and 6M13, respectively.

⁵ Due to the net loss in 2Q14, 1.3 million weighted-average share options and warrants outstanding and 12.2 million weighted-average share awards outstanding were excluded from the diluted earnings per share calculation, as the effect would be antidilutive.

Cautionary statement regarding forward-looking information

This press release contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, objectives or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements except as may be required by applicable securities laws.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
- market and interest rate fluctuations and interest rate levels;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of continued slow economic recovery or downturn in the US or other developed countries in 2014 and beyond;
- the direct and indirect impacts of continuing deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by agencies in respect of sovereign issuers, structured credit products or other credit-related exposures;
- the ability to achieve our objectives, including improved performance, reduced risks, lower costs, and more efficient use of capital;
- the ability of counterparties to meet their obligations to us;
- the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations;
- political and social developments, including war, civil unrest or terrorist activity;
- the possibility of foreign exchange controls, expropriation, nationalizations or confiscations in countries where we conduct operations;
- operational factors such as systems failure, human error, or the failure to implement procedures properly;
- actions taken by regulators with respect to our business and practices in one or more of the countries where we conduct operations;
- the effects of changes in laws, regulations or accounting policies or practices;
- competition in geographic and business areas in which we conduct our operations;
- the ability to retain and recruit qualified personnel;
- the ability to maintain our reputation and promote our brand;
- the ability to increase market share and control expenses;
- technological changes;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate businesses successfully, and divestitures, including the ability to sell non-core assets;
- the adverse resolution of litigation and other contingencies;
- the ability to achieve our cost efficiency goals and cost targets; and
- our success at managing the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk Factors” in I – Information on the company in our Annual Report 2013.
