London, March 20, 2023 – Moody's Investors Service (Moody's) placed on review for upgrade all long-term ratings and assessments of Credit Suisse Group AG (CSG; senior unsecured debt at Baa2), Credit Suisse AG (AG; senior unsecured debt and deposits at A3), Credit Suisse International (CSI, issuer and backed deposits at A3) and AG's rated branches and subsidiaries other than the B1(hyb) preferred stock ratings on CSG's Additional Tier 1 (AT1) instruments. The Prime-2 short-term ratings of AG, its rated branches, and CSI, were also placed on review for upgrade. The AT1 instruments issued by CSG were downgraded to C(hyb) from B1(hyb) to reflect the write-down of those instruments to zero on the order of the Swiss Financial Market Supervisory Authority (FINMA). The outlook for CSG and its rated subsidiaries was changed to ratings under review from negative.

RATING RATIONALE

The rating action follows the announcement that CSG will be acquired by UBS Group AG (UBSG) (senior unsecured debt at A3 stable) in an all-stock transaction valued at around $3 billion. The transaction is expected to close in the second quarter of 2023.

In addition to benefitting from being owned by UBSG, a stronger financial group, CSG's creditors will also benefit from enhanced liquidity and downside protection. The Swiss National Bank (SNB) announced a CHF100 billion unsecured facility for CSG and UBSG and a CHF100 billion new public backstop facility for CSG. FINMA will trigger the write-off of all CHF16 billion of Credit Suisse AT1 instruments, bolstering CSG's Common Equity Tier 1 (CET1) ratio by around 600 basis points to around 20%, pro-forma end-2022. Following the completion of the acquisition, the Swiss authorities will also cover up to CHF 9 billion of potential losses on CSG non-core assets beyond the first CHF5 billion, which will be borne by UBSG.

The review will focus on the ultimate legal and regulatory structure for UBSG following the completion of the acquisition and the likelihood of affiliate support from UBSG for each rated CSG entity. The review will also focus on the anticipated fundamental credit profile of the combined UBSG-CSG entity, which is expected to be stronger than the current credit profile of CSG.

FACTORS THAT COULD LEAD TO AN UPGRADE OR DOWNGRADE OF THE RATINGS

Factors that could lead to an upgrade

The ratings could be upgraded if the merger between CSG and UBSG is completed and Moody's
concludes that CSG creditors are likely to benefit from the stronger fundamental credit profile of the combined group.

Factors that could lead to a downgrade

Considering that the ratings have been placed on review for upgrade, there is unlikely to be downward rating pressure in the near term. The ratings could be downgraded if the acquisition by UBSG does not materialize.
