Change in Leadership at Credit Suisse Asset Management Immobilien KAG in Frankfurt

As of April 1, 2017, Roger Baumann will become the second Managing Director of Credit Suisse Asset Management Immobilien Kapitalanlagegesellschaft mbH in Frankfurt.

He has worked at Credit Suisse since July 2005 and has been the Global COO & Head of Sustainability in Real Estate Asset Management since January 2014. He will continue to perform his tasks as Global COO & Head of Sustainability and, in that capacity, will continue to report directly to the Head of Global Real Estate. With Roger Baumann, we have found an excellent internal solution, given that he is already very familiar with many Credit Suisse Asset Management Immobilien KAG topics and also has significant product development experience.

Frank Schäfer will resign his position as of March 31, 2017.
