The following table illustrates the similarities and the differences between the investment objectives and policies of the Merging Subfund and the Receiving Subfund:

Merging Subfund	Receiving Subfund
<p><b>Investment Objective and Investment Policy</b></p> <p>The objective of this Subfund is primarily to achieve a high regular income while preserving the value of the assets and maintaining a high level of liquidity.</p> <p>At least two-thirds of this Subfund’s total assets shall be invested, in accordance with the principle of risk-spreading, in debt instruments, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) with a short duration or short residual duration, denominated in the respective Reference Currency.</p> <p>Up to one-third of the total assets of the Subfund may be invested in currencies other than the Reference Currency.</p> <p>A maximum of 5% of the Subfund’s total assets may be invested in contingent capital instruments.</p>	<p><b>Investment Objective and Investment Policy</b></p> <p>The currency mentioned in the name of the Subfund is merely the Reference Currency in which the performance and Net Asset Value of the Subfund are calculated, and is not the investment currency of the Subfund.</p> <p>Investments may be denominated in any currency.</p> <p>The objective of these Subfunds is to generate a regular income in the respective Reference Currency.</p> <p>The Subfunds shall mainly invest in debt instruments, bonds, notes, similar fixed-interest or floating-rate securities (including securities issued on a discount basis) worldwide with a short to medium term.</p> <p>At least two-thirds of the total net assets of each Subfund shall be invested in the fixed income securities mentioned above from the lower investment grade sector (rated at least “BBB–” by Standard &amp; Poor’s or “Baa3” by Moody’s, or debt instruments deemed by the Management Company to be of similar credit quality) up to high-quality debt instruments of corporate issuers.</p> <p>The Subfunds may use techniques and instruments in order to reduce the interest-risk of debt instruments with a longer maturity, subject to the investment restrictions set out in the Prospectus.</p>

The resolution to merge the Merging Subfund into the Receiving Subfund was passed in the unitholders' interest, the intention being to streamline the existing product range of Credit Suisse due to the reorganization of assets under management. The Merger will increase the asset base of the Receiving Subfund ensuring that the assets in the Merging and Receiving Subfunds are managed more efficiently while enhancing operational efficiencies of two similar products. In view of the similar investment policy and the assets and liabilities of the Merging Subfund and the Receiving Subfund, no material impact on the performance of the Receiving Subfund is expected to take place as a result of the merger. The attention of the Unitholders of the Merging Subfund is drawn to the fact that the maximum management fee and ongoing charges in the Receiving Subfund are higher than the applicable fees in the Merging Subfund, as detailed in the table above. The Merging Subfund and the Receiving Subfund do not intend to undertake any rebalancing of their portfolios before or after the Merger takes effect. For more details on the Receiving Subfund, unitholders are kindly invited to read the KIID of the Receiving Subfund which may be obtained free of charge from or may be requested at the registered office of the Management Company and on the Internet at [www.credit-suisse.com](http://www.credit-suisse.com).

All costs of the Merger (with the exception of any dealing costs, audit costs, other miscellaneous costs and transfer taxes on the assets associated with the transfer of assets and liabilities and the custody transfer costs) will be borne by the Management Company, including legal, accounting, stamp duty and other administrative expenses.
