Credit Suisse 2022 Strategy Update
Disclaimer (1/2)

Credit Suisse has not finalized restated historical information according to its intended future structure and Credit Suisse’s independent registered public accounting firm has not reviewed such information. Accordingly, the preliminary information contained in this presentation is subject to completion of ongoing procedures, which may result in changes to that information, and you should not place undue reliance on this preliminary information.

Credit Suisse has not finalized its 3Q22 Financial Report and Credit Suisse’s independent registered public accounting firm has not completed its review of the condensed consolidated financial statements (unaudited) for the period. Accordingly, the financial information contained in this document is subject to completion of quarter-end procedures, which may result in changes to that information. In particular, the information contained herein relating to the anticipated accounting and capital impacts on certain deferred tax asset positions, Credit Suisse AG (Bank parent company) participation(s) valuations and other potential matters, continue to be analyzed in light of the changes to the Group’s strategic plans announced on October 27, 2022, making these and other closely-related metrics more susceptible to change as we complete our quarter-end procedures.

This material does not purport to contain all of the information that you may wish to consider. This material is not to be relied upon as such or in substitution for the exercise of independent judgment.

Cautionary statement regarding forward-looking statements

This document contains forward-looking statements that involve inherent risks and uncertainties, and we might not be able to achieve the predictions, forecasts, projections and other outcomes we describe or imply in forward-looking statements. In addition to our ability to successfully implement our strategic objectives announced today, a number of important factors could cause results to differ materially from the plans, targets, goals, expectations, estimates and intentions we express in these forward-looking statements, including those we identify in “Risk factors” in our Annual Report on Form 20-F for the fiscal year ended December 31, 2021 and in the “Cautionary statement regarding forward-looking information” in our 3Q22 Earnings Release published on October 27, 2022 and submitted to the US Securities and Exchange Commission, and in other public filings and press releases. We do not intend to update these forward-looking statements.

In particular, the terms “Estimate”, “Illustrative”, “Ambition”, “Objective”, “Outlook”, “Goal”, “Commitment” and “Aspiration” are not intended to be viewed as targets or projections, nor are they considered to be Key Performance Indicators. All such estimates, illustrations, ambitions, objectives, outlooks, goals, commitments and aspirations, as well as any other forward-looking statements described as targets or projections, are subject to a large number of inherent risks, assumptions and uncertainties, many of which are completely outside of our control. These risks, assumptions and uncertainties include, but are not limited to, general market conditions, market volatility, increased inflation, interest rate volatility and levels, global and regional economic conditions, challenges and uncertainties resulting from Russia’s invasion of Ukraine, political uncertainty, changes in tax policies, scientific or technological developments, evolving sustainability strategies, changes in the size or scope of our operations, including as a result of our recently announced strategy initiatives, changes in carbon markets, regulatory changes, changes in levels of client activity as a result of any of the foregoing and other factors. Accordingly, these statements, which speak only as of the date made, are not guarantees of future performance and should not be relied on for any purpose. We do not intend to update these estimates, illustrations, ambitions, objectives, outlooks, goals, commitments, aspirations, targets, projections or any other forward-looking statements. For these reasons, we caution you not to place undue reliance upon any forward-looking statements.

Unless otherwise noted, all such estimates, illustrations, expectations, ambitions, objectives, outlooks, goals, commitments, aspirations, targets and projections are for the full year indicated or as of the end of the year indicated, as applicable.

We may not achieve the benefits of our strategic initiatives

We may not achieve all of the expected benefits of our strategic initiatives, such as in relation to intended reshaping of the bank, cost reductions and strengthening and reallocating capital. Factors beyond our control, including but not limited to the market and economic conditions (including macroeconomic and other challenges and uncertainties, for example, resulting from Russia’s invasion of Ukraine), customer reaction to our proposed initiatives, enhanced risks to our businesses during the contemplated transitions, changes in laws, rules or regulations and other challenges discussed in our public filings, could limit our ability to achieve some or all of the expected benefits of these initiatives. Our ability to implement our strategy objectives could also be impacted by timing risks, obtaining all required approvals and other factors.

Estimates and assumptions

In preparing this document, management has made estimates and assumptions that affect the numbers presented. Actual results may differ. Annualized numbers do not take into account variations in operating results, seasonality and other factors and may not be indicative of actual, full-year results. Figures throughout this document may also be subject to rounding adjustments. All opinions and views constitute good faith judgments as of the date of writing without regard to the date on which the reader may receive or access the information. This information is subject to change at any time without notice and we do not intend to update this information.
Statement regarding non-GAAP financial measures
Our estimates, ambitions, objectives, aspirations and targets often include metrics that are non-GAAP financial measures and are unaudited. A reconciliation of the estimates, ambitions, objectives, aspirations and targets to the nearest GAAP measures is unavailable without unreasonable efforts. Results excluding certain items included in our reported results do not include items such as goodwill impairment, major litigation provisions, real estate gains, impacts from foreign exchange and other revenue and expense items included in our reported results, all of which are unavailable on a prospective basis. Return on tangible equity is based on tangible shareholders’ equity, a non-GAAP financial measure also known as tangible book value, which is calculated by deducting goodwill and other intangible assets from total shareholders’ equity as presented in our balance sheet, both of which are unavailable on a prospective basis. Such estimates, ambitions, objectives, aspirations and targets are calculated in a manner that is consistent with the accounting policies applied by us in preparing our financial statements.

Statement regarding capital, liquidity and leverage
Credit Suisse is subject to the Basel framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks, which include capital, liquidity, leverage and large exposure requirements and rules for emergency plans designed to maintain systemically relevant functions in the event of threatened insolvency. Credit Suisse has adopted the Bank for International Settlements (BIS) leverage ratio framework, as issued by the Basel Committee on Banking Supervision (BCBS) and implemented in Switzerland by the Swiss Financial Market Supervisory Authority FINMA.

Unless otherwise noted, leverage exposure is based on the BIS leverage ratio framework and consists of period-end balance sheet assets and prescribed regulatory adjustments. The tier 1 leverage ratio and CET1 leverage ratio are calculated as BIS tier 1 capital and CET1 capital, respectively, divided by period-end leverage exposure.

Sources
Certain material in this document has been prepared by Credit Suisse on the basis of publicly available information, internally developed data and other third-party sources believed to be reliable. Credit Suisse has not sought to independently verify information obtained from public and third-party sources and makes no representations or warranties as to accuracy, completeness, reasonableness or reliability of such information.

Share Capital Increase
This document is not an offer to sell securities or the solicitation of any offer to buy securities, nor shall there be any offer of securities, in any jurisdiction in which such offer or sale would be unlawful.

This document does not constitute an offer or invitation to subscribe for or to purchase any securities in the United States of America. The securities referred to herein have not been and will not be registered under the US Securities Act of 1933, as amended (the “Securities Act”) or the laws of any US state and may not be offered or sold in the United States of America absent registration or an exemption from registration under the Securities Act. There will be no public offering of the securities in the United States of America.

Credit Suisse 2022 Strategy Update
Strategic Perspectives

Ulrich Körner  Chief Executive Officer
October 27, 2022
Creating a new Credit Suisse

A new Credit Suisse

Build on a respected franchise and a blue-chip client base

A simpler, more focused and more stable bank centered around Wealth Management and our Swiss home market supported by strong capabilities in Asset Management and Markets

Led by a new team with very relevant experience and clear accountability

Decisive actions

Reallocate capital to Wealth Management and Swiss Bank businesses – more stable revenues, less capital intensive

Radically restructure the Investment Bank

• Highly connected Markets business with industry-leading Investor Products franchise
• Carve out CS First Boston as an independent Capital Markets and Advisory bank
• Capital release from exits and significant exposure reduction for Securitized Products

Accelerate cost reduction

Strengthen our capital ratio through divestments, exits and capital actions, whilst creating more value from existing assets

Benefitting all stakeholders

For our clients, a bank built around their needs

For our shareholders, sustainable returns and value creation

For our employees, a global platform and a unified culture for entrepreneurial talent

For our regulators and other stakeholders, a reliable and trustworthy partner

Metrics and targets, 2025

~2/3rd capital in WM, SB and AM

~40% lower RWA / LE in IB

2.5 bn lower cost

1.2 bn by 2023

>13.5% CET1 ratio

1 In CHF unless otherwise stated, please refer to later pages for detailed definition
2 Excluding Corporate Center
3 Compared to 3Q22, from wind-down of the Non-Core Unit and capital release from Securitized Products
Addressing our key challenges

• Broad business portfolio, partially fragmented

• Insufficient capital discipline with underperforming/non-strategic/marginal businesses

• Inflexible, high-cost operating model

• Recurrence of litigation and reputational issues

• Volatile and sub-par Group and Investment Bank returns
Taking decisive action to re-focus Credit Suisse

Delivering on strategic priorities

Restructure the Investment Bank

Strengthen and reallocate capital

Accelerate cost transformation

Engaging with our Stakeholders

Provide compelling proposition to clients and employees

Create sustainable value

Restore trust

- Strong risk management
- Stable earnings
- Leading positions
- Connected businesses

Markets: Leading provider of market access and solutions

Rationale

- Provider of leading cross-asset Investor Products, Equities, FX and Rates access for our Wealth Management, Swiss Bank clients and select institutional clients
- Ability to deliver tailored services to our clients
- ~50% of net revenue tied to Wealth Management/Swiss Bank clients
- Service provider to CS First Boston

Key strategic actions

- Materially reduce risk and re-focus
- Integrate value chain for Wealth Management/Swiss Bank clients
- Focused coverage of institutional clients with specific product capabilities
- Cash Equities: simplify and streamline platforms and footprint, focused research
- Grow service to third party wealth managers

Objectives and financial metrics

- Enable platform growth, scalability and innovation
- Best in class Investor Products for Wealth Management (own and third party)
- Create flexible and lower cost base

1 As of 3Q22   2 Expectation under normalized market conditions with USD 22 bn of RWA
CS First Boston: Independent Capital Markets and Advisory bank

Rationale
- Rooted in strong positions in North America, largest and most attractive capital market
- Independent proposition and partnership model to be competitive in attracting and retaining the best talent and shaping a strong culture
- More global and broader than boutiques, more focused than bulge bracket players
- Well-established First Boston heritage in Capital Markets and Advisory, leader in Financial Sponsors and Leveraged Finance for 20 years

Key strategic actions
- Carve out business from Investment Bank, transform into partnership model, create independent platform
- Attract external capital for Leveraged Finance
- Firm open to third party capital from anchor investors
- Capital-light and focused offering outside North America to support global clients
- Preferred long-term partnership with new Credit Suisse

Objectives and financial metrics
- Premium standing with clients and talent
- Sustainably creating economic value through the cycle
- Creates strategic optionality for the Group

Our strategic priorities

Restructure the Investment Bank

Investment Bank capital reduction of ~40% from wind-down of the Non-Core Unit and capital release from Securitized Products. Ambition to attract external capital in CS First Boston.

Strengthen and reallocate capital

CET1 ratio of >13.5% pre-B3R. CET1 ratio expected to remain at least 13.0% through transformation.

Accelerate cost transformation

Reduce Group cost base by CHF ~2.5 bn to CHF ~14.5 bn.

2025 Targets

1 Based on RWAs excluding Basel III reforms
2 From 2023 through 2025
3 Adjusted operating expenses at constant 2022 FX rates and on constant perimeter, before impact of Securitized Products transaction and other divestments.

Overview of proposed Securitized Products transaction

Transaction highlights

- Credit Suisse’s Securitized Products Group (SPG) is a full-service, vertically integrated credit solutions provider

- Credit Suisse entered into a framework and exclusivity agreement to transfer SPG to an investor group led by Apollo Global Management and PIMCO

- Forms a key part of Credit Suisse’s strategic shift towards a more stable, less capital intensive, and advisory-focused model

- Designed to release capital and achieve significant risk reduction for the Group

- Under the proposed transaction, Apollo would acquire the majority of SPG’s assets and enter into an asset management agreement to manage the residual assets on Credit Suisse’s behalf

- Subject to final agreement, anticipated during 4Q22; transaction expected to close in 1H23
Establish Non-Core Unit to release capital

Relentless focus on driving down our cost base through key transformation initiatives

**Non-Core Unit rundown and business descoping**
- Reshaped Investment Bank enables direct cost reduction and rationalization of related Group infrastructure
- Descoping of unprofitable activities with more focused business footprint, reduced legal entities, reduced IT spend on non-core businesses
- Reduction of internal services and non-revenue producing roles and lower complexity of governance and processes

**Organizational simplification**
- Simpler organizational structure with aim to eliminate duplication, improve productivity
- Remove complex and manual processes, supported by continued digitalization program
- 2,700 FTE reduction or 5% of FTE base already underway. Full financial impact will be reflected in 2023

**Workforce management**
- Improved mix of near/offshored resourcing, and optimized combination of in/outsourcing
- Shift to more optimized ‘spans and layers’ with improved seniority mix
- 30% reduction in contractor spend initiated in 2H22

**Third-party cost management**
- Reset spend on all third parties including consultancy, market data, legal and property
- Outsourced procurement model to achieve market leading pricing
- 50% reduction on consultancy spend initiated in 2H22

Efficiency savings to support strategic investments in business, technology and people
Risk management controls and standards continue to be prioritized

Notes

General notes
▪ Throughout this presentation rounding differences may occur
▪ Results excluding certain items included in our reported results are non-GAAP financial measures
▪ Our cost base target is measured using adjusted operating expenses at constant 2022 FX rates and on constant perimeter, before impact of Securitized Products transaction and other divestments
▪ Unless otherwise noted, all CET1 capital, CET1 ratio, CET1 leverage ratio, Tier 1 leverage ratio, risk-weighted assets and leverage exposure figures shown in these presentations are as of the end of the respective period

Specific notes
† Regulatory capital is calculated as the average of 13.5% of RWA and 4.25% of leverage exposure and return on regulatory capital, a non-GAAP financial measure, is calculated using income/(loss) after tax and assumes a tax rate of 25% from 2020 onward. For the Investment Bank, return on regulatory capital is based on US dollar denominated numbers. Return on regulatory capital excluding certain items included in our reported results is calculated using results excluding such items, applying the same methodology. Adjusted return on regulatory capital excluding certain items included in our reported results is calculated using results excluding such items, applying the same methodology.
‡ Return on tangible equity, a non-GAAP financial measure, is calculated as annualized net income attributable to shareholders divided by average tangible shareholders’ equity. Tangible shareholders’ equity, a non-GAAP financial measure, is calculated by deducting goodwill and other intangible assets from total shareholders’ equity as presented in our balance sheet.
