

## Earnings Release

**Credit Suisse 3Q14 results: Core pre-tax income of CHF 1,622 million for strategic businesses and return on equity of 11%; reported Core pre-tax income of CHF 1,301 million and return on equity of 10%**

**Credit Suisse 9M14 results: Core pre-tax income of CHF 5,341 million for strategic businesses and return on equity of 13%; reported Core pre-tax income of CHF 2,331 million and return on equity of 4%**

**Look-through CET1 ratio of 9.8% as of the end of 3Q14; on track to exceed 10% by year-end 2014**

**3Q14 Private Banking & Wealth Management results for strategic businesses reflect continued cost discipline and stable revenues; strategic net new assets of CHF 8.8 billion and total net new assets of CHF 7.4 billion**

**3Q14 Investment Banking results reflect stronger profitability and returns, as well as increased client activity; continued progress in winding down non-strategic unit**

### **Private Banking & Wealth Management strategic businesses with continued progress on costs:**

- Strategic businesses with pre-tax income of CHF 872 million, up 8% compared to 3Q13; return on regulatory capital of 27%
- 3Q14 total reported pre-tax income of CHF 943 million, reflecting solid strategic business performance and a gain recorded in the non-strategic unit on the sale of the domestic private banking business booked in Germany
- Continued cost efficiency gains in strategic businesses with cost/income ratio of 69% for 9M14 and 3Q14
- Wealth Management Clients net margin of 27 basis points for 9M14 and 25 basis points for 3Q14; excluding certain litigation provisions of CHF 41 million, net margin of 27 basis points for 3Q14
- Strong net new assets from strategic businesses of CHF 8.8 billion in 3Q14, with particularly strong growth in Asia Pacific, notwithstanding continued outflows of CHF 0.7 billion from Western European cross-border business due to ongoing regularization of asset base; total net new assets of CHF 7.4 billion, including total Western European cross-border outflows of CHF 1.5 billion
- Sustained growth from ultra-high-net-worth individual lending initiatives with good momentum across both emerging and mature markets; CHF 3.9 billion in net new lending for 9M14 compared to CHF 1.0 billion in 9M13

**Investment Banking 3Q14 strategic results reflect substantially increased profitability, improved returns and robust client activity:**

- Strategic businesses with pre-tax income of CHF 995 million, up 43% against 3Q13, and return on regulatory capital of 17%; driven by higher client activity across many businesses
- Strong fixed income performance, particularly in securitized products and emerging markets
- Stable equities results as robust derivatives revenues were offset by muted trading volumes in cash equities
- Underwriting and advisory results reflect strong origination activity and sustained market shares
- Total reported pre-tax income of CHF 516 million with broad-based increase in client activity across many strategic businesses, partly offset by increased expenses
- 9M14 return on regulatory capital of 19% from strategic businesses and 11% from total reported results
- Continued progress in wind-down of non-strategic unit with risk-weighted assets reduced by USD 2 billion and leverage exposure reduced by USD 11 billion

**Resilient capital base and leverage ratio as of the end of 3Q14; progress toward exceeding 10% Look-through CET1 ratio by year-end:**

- Look-through BIS CET1 ratio of 9.8%; progress in executing capital measures announced after settlement of the US cross-border matter and on track to exceed 10% by year-end, including continued accrual of cash dividend for 2014; Look-through Swiss total capital ratio at 15.8%
- Look-through Swiss leverage ratio of 3.8%, within reach of the 2019 requirement of 4.1%, effective in 2015; targeting approximately 4.5% by end-2015

**On track to reach cost reduction targets:**

- Delivered CHF 3.6 billion of adjusted annualized savings compared to the annualized expense run rate for 6M11; on track towards target of over CHF 4.5 billion by end-2015

For further information on the differences between return on equity and return on regulatory capital, which are primarily due to the treatment of goodwill and capital components ineligible for look-through regulatory capital under Basel III, refer to the Appendix.

October 23, 2014 **Credit Suisse Group reports 3Q14 and 9M14 results**

Brady W. Dougan, Chief Executive Officer, said: "We delivered a good performance, with our strategic businesses generating returns on equity of 11% for the quarter and 13% for the first nine months of this year. During the quarter, our momentum with clients across both divisions remained strong. With a Look-through CET1 ratio of 9.8% at quarter end, we are executing our capital measures and are on track to exceed 10% by the end of the year."

Commenting on Private Banking & Wealth Management, he said: "Our profitability benefitted from ongoing cost discipline, although margins remain subdued and revenues continue to be impacted by the low interest-rate environment. We generated net new assets of CHF 8.8 billion in our strategic businesses, driven by strong growth in emerging markets, particularly in Asia Pacific. This was partly offset by continued outflows from the Western European cross-border business due to the importance that we have placed on the regularization of our asset base. We saw sustained growth in our ultra-high-net-worth individual lending initiative and increased collaboration revenues across both divisions, which we view as a competitive advantage, particularly with this client segment."

Commenting on Investment Banking, he said: "Investment Banking's strategic results reflect substantially increased profitability, improved returns and robust client activity across many of our businesses. Our strong results in fixed income trading, especially in emerging markets and securitized products, and in equity underwriting were driven by significant client transactions. We continued to work towards increasing the capital and cost efficiency of our strategic businesses, reporting a return on regulatory capital of 19% and a cost/income ratio of 69% for the first nine months of this year. We also made further progress in winding down the capital positions in our non-strategic unit."

On the outlook for the fourth quarter, he said: "We have seen a mixed start to October, with recent market volatility benefitting certain businesses across both divisions, while negatively impacting others. We have a strong advisory and underwriting pipeline but the pace of execution in the fourth quarter will depend on market conditions."

## Core Results summary

For additional information on financial information presented in this Earnings Release, including references to return on equity and return on regulatory capital, refer to the tabular disclosures in the Appendix and other explanatory disclosures regarding capital and leverage metrics in the section titled "Important information" on page 19.

Core Results do not include noncontrolling interests without significant economic interests.

**Net income attributable to shareholders** was CHF 1,025 million in 3Q14.

**Income before taxes** of CHF 1,301 million increased 89% compared to 3Q13, reflecting a 20% increase in net revenues, partially offset by a 10% increase in total operating expenses. In strategic businesses, income before taxes of CHF 1,622 million increased 15% compared to 3Q13. In the non-strategic businesses, the loss before taxes was CHF 321 million in 3Q14 compared to a loss before taxes of CHF 728 million in 3Q13.

**Net revenues** of CHF 6,537 million increased 20% compared to 3Q13. In the strategic businesses, net revenues increased 10% to CHF 6,287 million compared to 3Q13, primarily reflecting higher net revenues in Investment Banking and stable net revenues in Private Banking & Wealth Management. In the non-strategic businesses, net revenues were CHF 250 million in 3Q14 compared to negative net revenues of CHF 244 million in 3Q13.

**Provision for credit losses** was CHF 59 million in 3Q14, with net provisions of CHF 36 million in Investment Banking and CHF 25 million in Private Banking & Wealth Management.

**Total operating expenses** of CHF 5,177 million were up 10% compared to 3Q13, primarily reflecting 15% higher general and administrative expenses and 9% higher compensation and benefits. In strategic businesses, total operating expenses of CHF 4,612 million increased 8% compared to 3Q13, mainly reflecting a 12% increase in compensation and benefits and a 8% increase in general and administrative expenses. In non-strategic businesses, total operating expenses of CHF 565 million increased 22% compared to 3Q13, primarily reflecting a 55% increase in general and administrative expenses, partially offset by a 34% decrease in compensation and benefits. Business realignment costs in 3Q14 were CHF 93 million.

**Income tax expense** of CHF 366 million recorded in 3Q14 mainly reflected the impact of the geographical mix of results. Overall, net deferred tax assets increased CHF 258 million to CHF 5,392 million mainly driven by foreign exchange movements as of the end of 3Q14 compared to 2Q14. Deferred tax assets on net operating losses increased CHF 232 million to CHF 990 million during 3Q14. The Core Results effective tax rate was 28.1% in 3Q14, compared to (83.0)% in 2Q14. The 2Q14 effective tax rate reflected that the majority of the litigation settlement charge was non-deductible.

**Range of reasonably possible losses related to certain legal proceedings.** The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions for certain proceedings for which the Group believes an estimate is possible was zero to CHF 1.2 billion at the end 3Q14.

**Diluted earnings per share from continuing operations** were CHF 0.55 for 3Q14 compared to CHF 0.17 in 3Q13 and a diluted loss per share of CHF (0.45) in 2Q14.

**Capital and leverage.** As of the end of 3Q14, Credit Suisse reported a BIS Look-through common equity tier 1 (CET1) ratio of 9.8%, compared to 9.5% as of the end of 2Q14. As of the end of 3Q14, the Look-through Swiss total capital ratio was 15.8%, compared to 15.3% as of the end of 2Q14.

The CET1 ratio as of the end of 3Q14 was 14.3%, compared to 13.8% as of the end of 2Q14, reflecting an increase in CET1 capital, partially offset by an increase in Basel III risk-weighted assets for the Group, which increased to CHF 292.9 billion as of the end of 3Q14. The increase in risk-weighted assets reflected a significant increase resulting from the foreign exchange impact. Excluding the foreign exchange impact, credit risk and market risk decreased.

As of the end of 3Q14, Credit Suisse's Swiss leverage exposure amounted to CHF 1,240 billion. The Look-through Swiss leverage ratio was 3.8%.

**Benefits of the integrated bank.** In 3Q14, Credit Suisse generated CHF 1.2 billion of collaboration revenues from the integrated bank. This corresponds to 17.6% of Core net revenues in 3Q14.

## Private Banking & Wealth Management

In 3Q14, Private Banking & Wealth Management reported income before taxes of CHF 943 million and net revenues of CHF 3,125 million. In its **strategic businesses**, Private Banking & Wealth Management reported income before taxes of CHF 872 million and net revenues of CHF 2,939 million. Compared to 3Q13, income before taxes increased 8%, mainly driven by lower operating expenses reflecting continued cost efficiency gains. Net revenues were stable compared to 3Q13 as higher transaction- and performance-based revenues and improved other revenues were offset by lower net interest income. Compared to 2Q14, income before taxes was stable reflecting stable net revenues and stable operating expenses. In its **non-strategic businesses**, Private Banking & Wealth Management reported income before taxes of CHF 71 million which included a CHF 109 million gain on the sale of the domestic private banking business booked in Germany. In 3Q14, assets under management for the division were CHF 1,366.1 billion and the division attracted net new assets of CHF 7.4 billion.

Cost/income ratio	69.4	68.9	72.0	–	–	68.6	71.3	–

In 3Q14, the strategic businesses for Private Banking & Wealth Management reported income before taxes of CHF 872 million and net revenues of CHF 2,939 million.

Compared to 3Q13, net revenues were stable with higher transaction- and performance-based revenues and improved other revenues offset by lower net interest income. Transaction- and performance-based revenues were higher reflecting higher brokerage and product issuing fees, significantly higher corporate advisory fees and a gain related to a more capital-efficient positioning of the liquidity portfolio, partially offset by lower foreign exchange client business and significantly lower performance fees and carried interest. Other revenues improved due to an equity participations impairment in 3Q13 and higher investment-related gains in 3Q14. In a low interest rate environment, net interest income decreased due to significantly lower deposit margins on slightly higher average deposit volumes partially offset by stable loan margins on higher average loan volumes. Recurring commissions and fees were stable with higher discretionary mandate management fees, slightly higher investment account and services fees and slightly higher asset management fees offset by lower banking services fees and lower investment product management fees.

Net revenues, mainly in Wealth Management Clients, benefitted from the appreciation of the US dollar and were stable compared to 2Q14 with improved other revenues offset by lower transaction- and performance-based revenues. Improved other revenues mainly reflected a higher fair value loss on the Clock Finance transaction in 2Q14. The decrease in transaction- and performance-based revenues reflected significantly lower performance fees and carried interest, seasonally lower brokerage and product issuing fees and lower sales and trading income, partially offset by higher corporate advisory fees. Recurring commissions and fees were stable with higher investment product management fees offset by slightly lower asset management and banking services fees. Net interest income was stable with slightly higher loan margins on slightly higher average loan volumes offset by lower deposit margins on stable average deposit volumes.

Provision for credit losses was CHF 26 million, compared to CHF 13 million in 3Q13 and CHF 30 million in 2Q14.

Total operating expenses were 3% lower compared to 3Q13 and stable compared to 2Q14. Compared to 3Q13, compensation and benefits decreased 5%, mainly reflecting lower salary expenses, driven by lower headcount, and general and administrative expenses were stable with higher litigation provisions offset by lower infrastructure and occupancy expenses. Compared to 2Q14, compensation and benefits decreased 3% reflecting lower social security costs and lower discretionary compensation expenses. General and administrative expenses increased 9%, primarily reflecting higher litigation provisions, partially offset by lower professional services fees and lower travel and entertainment expenses.

The cost/income ratio for strategic results was 69% in 3Q14, down three percentage points compared to 3Q13 and up one percentage point compared to 2Q14.

<b>Metrics (%)</b>								
Cost/income ratio	72.9	70.9	74.3	-	-	71.7	74.3	-

The *Wealth Management Clients* business in 3Q14 reported income before taxes of CHF 536 million and net revenues of CHF 2,042 million. Net revenues were stable compared to 3Q13, with lower net interest income offset by higher transaction- and performance-based revenues. Lower net interest income reflected the low interest rate environment, significantly lower deposit margins on stable average deposit volumes, slightly lower loan margins on higher average loan volumes and lower levels of deposits eligible as stable funding. Higher transaction- and performance-based revenues reflected higher brokerage and product issuing fees, significantly higher corporate advisory fees arising from integrated solutions revenues and a gain related to a more capital-efficient positioning of the liquidity portfolio, partially offset by lower foreign exchange client business. Recurring commissions and fees were stable with higher discretionary mandate management fees and slightly higher investment account and services fees offset by lower banking services fees and lower investment product management fees.

Compared to 2Q14, net revenues were stable, driven by slightly higher recurring commissions and fees. Recurring commissions and fees were slightly higher with higher investment product management fees, higher discretionary mandate management fees and slightly higher investment account and services fees partially offset by slightly lower banking services fees. Stable net interest income reflected slightly higher loan margins on slightly higher average loan volumes, offset by lower deposit margins on stable average deposit volumes. Transaction- and performance-based revenues were stable reflecting significantly higher corporate advisory fees and the gain related to a more capital-efficient positioning of the liquidity portfolio offset by seasonally lower brokerage and product issuing fees and lower sales and trading income.

In 3Q14, the gross margin was 97 basis points, eight basis points lower compared to 3Q13, mainly reflecting the continued adverse interest rate environment and an 8.1% increase in average assets under management. Compared to 2Q14, the gross margin was down two basis points due to a 3.3% increase in average assets under management driven by the appreciation of the US dollar.

Wealth Management Clients net margin was 25 basis points in 3Q14, one basis point lower compared to 3Q13, with lower net interest income partially offset by higher transaction- and performance-based revenues and slightly lower operating expenses. Compared to 2Q14, the net margin was three basis points lower, driven by higher litigation provisions.

The *Corporate & Institutional Clients* business reported income before taxes of CHF 240 million in 3Q14 and net revenues of CHF 488 million. Net revenues decreased 2% compared to 3Q13, mainly driven by slightly lower net interest income, slightly lower recurring commissions and fees and decreased other revenues. The slight decrease in net interest income reflected the low interest rate environment, lower levels of deposits eligible as stable funding and significantly lower deposit margins on higher average deposit volumes, partially offset by higher loan margins on higher average loan volumes. Recurring commissions and fees decreased slightly with no significant movements across major categories. Lower other revenues reflected a higher fair value loss on the Clock Finance transaction. Slightly higher transaction- and performance-based revenues reflected significantly higher corporate advisory fees.

Compared to 2Q14, net revenues increased 3%, with improved other revenues and slightly higher net interest income partially offset by lower transaction- and performance-based revenues. Improved other revenues reflected a higher fair value loss on the Clock Finance transaction in 2Q14. Slightly higher net interest income reflected higher loan margins on slightly higher average loan volumes, partially offset by lower deposit margins on stable average deposit volumes. Lower transaction- and performance-based revenues mainly reflected lower sales and trading income. Stable recurring commissions and fees reflected higher investment product management fees and higher banking services fees, offset by lower discretionary mandate management fees.

Cost/income ratio	76.5	76.8	87.1	–	–	74.2	80.9	–

The *Asset Management* business income before taxes of CHF 96 million in 3Q14, with net revenues of CHF 409 million. Net revenues increased 10% compared to 3Q13, with improved equity participations and other gains, reflecting an impairment of CHF 18 million related to Asset Management Finance LLC recognized in 3Q13, and higher investment-related gains, reflecting gains in hedge fund investments in 3Q14. Fee-based revenues were stable with higher equity participations income and slightly higher asset management fees due to higher average assets under management offset by lower performance fees, in particular from credit products. Net revenues declined 7% compared to 2Q14, primarily due to lower fee-based revenues mainly driven by significantly lower performance fees and significantly lower carried interest on realized private equity gains, partially offset by higher equity participations income and higher transaction fees. Lower performance fees mainly reflected lower fees from credit products and lower fees from single manager hedge funds.

The fee-based margin was 42 basis points in 3Q14, compared to 45 basis points in 3Q13 and 46 basis points in 2Q14. The movements reflected both the lower fee-based revenues and the higher average assets under management, which increased 10.4% and 3.6% compared to 3Q13 and 2Q14, respectively.

## Non-strategic results

*The non-strategic results for Private Banking & Wealth Management include positions relating to the restructuring of the former Asset Management division, run-off operations relating to the small markets exit initiative and certain legacy cross-border related run-off operations, litigation costs, primarily related to US cross-border matters, the impact of restructuring of the German onshore operations, other smaller non-strategic positions formerly in the Corporate & Institutional Clients business and the run-off and active reduction of selected products.*

In 3Q14, the non-strategic businesses reported income before taxes of CHF 71 million including the CHF 109 million gain on the sale of the domestic private banking business booked in Germany. In 2Q14, Private Banking & Wealth Management's non-strategic businesses reported a loss before taxes of CHF 1,631 million, driven by the litigation settlement charge of CHF 1,618 million relating to the final settlement of all outstanding US cross-border matters.

## Assets under management – Private Banking & Wealth Management

**Assets under management** of CHF 1,366.1 billion increased CHF 36.4 billion compared to the end of 2Q14, driven mainly by favorable foreign exchange-related movements resulting from the appreciation of the US dollar, positive market movements and net new assets.

**Net new assets:** Private Banking & Wealth Management recorded net new assets of CHF 7.4 billion in 3Q14. In the strategic portfolio, Wealth Management Clients contributed net new assets of CHF 5.1 billion in 3Q14 with continued strong inflows from emerging markets, particularly in Asia Pacific, partially offset by Western European cross-border outflows. Corporate & Institutional Clients in Switzerland reported net new assets of CHF 0.9 billion in 3Q14. Asset Management reported net new assets of CHF 3.3 billion in 3Q14, driven mainly by inflows in traditional products, including inflows from a joint venture in emerging markets, credit products and private equity investments. In the non-strategic portfolio, net asset outflows of CHF 1.4 billion reflected the exit of certain businesses.

## Investment Banking

In 3Q14, Investment Banking reported income before taxes of CHF 516 million and net revenues of CHF 3,303 million. Investment Banking delivered solid results and profitability reflecting strong client activity and sustained market shares across most businesses. Net revenues in the **strategic businesses** increased 24% compared to subdued 3Q13 levels, driven by significant client deals across products and regions, particularly in the fixed income business. Compared to 2Q14, net revenues were stable, reflecting resilient operating conditions across many of the businesses. In 3Q14, Investment Banking made continued progress in winding down the **non-strategic unit**, reducing Swiss leverage exposure by USD 11 billion to USD 66 billion and Basel III risk-weighted assets by USD 2 billion to USD 12 billion, each compared to 2Q14.

## Strategic results

In 3Q14, the strategic businesses reported income before taxes of CHF 995 million and net revenues of CHF 3,419 million. Fixed income sales and trading revenues were substantially higher compared to 3Q13, driven by higher client activity resulting in significant gains across most products. Revenues were also higher compared to 2Q14, reflecting continued favorable operating conditions across many of the businesses. Equities sales and trading results were slightly lower compared to both 3Q13 and 2Q14, as weaker performance in systematic market making and cash equities offset strength in derivatives and prime services. Underwriting and advisory results were strong compared to 3Q13, driven by robust debt and equity underwriting performance and higher advisory revenues. Revenues were flat compared to 2Q14, consistent with a slowdown in industry-wide activity. Total operating expenses increased 17% compared to 3Q13, primarily driven by higher discretionary compensation expenses. Compared to 2Q14, total operating expenses increased slightly. During the quarter, the strategic businesses reported Basel III risk-weighted assets of USD 159 billion, a reduction of USD 7 billion compared to 2Q14. This decrease was primarily driven by reductions in the prime services and global macro products franchises. At the end of 3Q14, Swiss leverage exposure was USD 791 billion, an increase of USD 14 billion from 2Q14.

**Fixed income sales and trading** Fixed income revenues improved substantially from subdued 3Q13 levels, driven by increased client activity across many products. 3Q13 performance was adversely impacted by a significant decline in client trading activity due to rising rates and widening credit spreads as a result of the US Federal Reserve's announcement to reduce its bond buying program. Revenues in the diversified securitized products franchise were robust, reflecting higher results in non-agency and agency securities and continued momentum in asset finance. A significant improvement in emerging markets results was driven by higher trading revenues across local markets and solid client financing activity. Revenues in global macro products improved,

reflecting higher market volatility and increased client activity, particularly in the foreign exchange business. Global credit products revenues were solid, albeit lower, reflecting weaker leverage finance trading performance, as increased market volatility had an adverse impact on revenues. Compared to 2Q14, revenues were higher, driven by continued favorable operating conditions across many of the businesses. Emerging markets revenues were significantly higher, driven by robust origination and trading activity. Higher global macro products revenues were driven by improved foreign exchange results. Securitized products revenues were robust, primarily driven by strong asset finance results and higher agency revenues. Global credit products revenues declined, primarily driven by lower leveraged finance results, reflecting less favorable trading conditions.

**Equity sales and trading** Stable results in equity sales and trading reflected muted trading activity. Systematic market making results were substantially lower compared to a strong 3Q13 performance, which included the positive impact of quantitative easing in Japan. Cash equities revenues also declined due to reduced commission revenues as a result of lower US market volumes and subdued activity in Brazil. Derivatives revenues increased significantly, driven by strong growth in fee-based products, distributed by Private Banking and Wealth Management, particularly in Asia Pacific. Revenues in prime services were higher, reflecting growth in client balances and portfolio optimization initiatives. Compared to 2Q14, revenues declined, primarily driven by lower revenues in systematic market making and cash equities due to less favorable trading conditions. These declines were partially offset by strong derivatives revenues. Prime services revenues also increased following a strong 2Q14 performance, which included the positive impact of the seasonally strong dividend season.

**Underwriting and advisory** Debt underwriting had significantly higher revenues, reflecting strong leveraged finance performance. The increase was partially offset by lower investment grade revenues, as a decline in the overall investment grade fee pool offset an increase in share of wallet, which refers to Credit Suisse's share of the overall fee pool for the respective products. Compared to 3Q13, equity underwriting results reflected significantly higher revenues from IPOs, including the landmark Alibaba transaction. Convertibles results were also significantly higher, reflecting an increase in both share of wallet and the overall convertibles fee pool. Results also reflected higher revenues from follow-on offerings. Compared to 3Q13 advisory revenues were higher, driven by an increase in the overall M&A fee pool and strong corporate activity. Compared to 2Q14, debt underwriting results reflected higher revenues from structured lending in emerging markets. The increase was partially offset by lower leveraged finance revenues as a decline in the overall leveraged finance fee pool more than offset an increase in share of wallet. Investment grade revenues were also lower reflecting a decline in industry activity. Equity underwriting had lower revenues in IPOs and follow-on offerings, consistent with a decline in overall industry volumes following strong 2Q14 activity. The increase in advisory revenues compared to 2Q14 reflected an increase in share of wallet.

Cost/income ratio	70.0	69.3	74.4	-	-	69.2	66.9	-

**Total operating expenses** Total operating expenses increased 17% compared to 3Q13, primarily driven by higher discretionary compensation expenses reflecting the higher results. The deferred compensation expenses from prior-year awards and salaries expenses also increased. The increase in general and administrative expenses was driven by higher litigation expenses, which offset cost reductions in infrastructure initiatives. Compared to 2Q14, total operating expenses increased 2%, primarily driven by higher litigation expenses and higher UK bank levy expenses, partially offset by lower discretionary compensation expenses.

**Capital metrics** Investment Banking strategic businesses reported Basel III risk-weighted assets of USD 159 billion, a reduction of USD 7 billion compared to 2Q14. This decrease was primarily driven by reductions in the prime services and global macro products franchises. At the end of 3Q14, Swiss leverage exposure was USD 791 billion, an increase of USD 14 billion compared to 2Q14.

**Non-strategic results**

*Non-strategic results for Investment Banking include the fixed income wind-down portfolio, legacy rates business, primarily non-exchange-cleared instruments and capital-intensive structured positions, commodities trading business, legacy funding costs associated with non-Basel III compliant debt instruments, as well as certain legacy litigation costs and other small non-strategic positions.*

**Investment Banking – non-strategic results**

	in / end of			% change		in / end of		
	3Q14	2Q14	3Q13	QoQ	YoY	9M14	9M13	YoY
<b>Non-strategic results (CHF million)</b>								
<b>Net revenues</b>	<b>(116)</b>	<b>(38)</b>	<b>(197)</b>	205	(41)	<b>(278)</b>	<b>(418)</b>	(33)
<b>Provision for credit losses</b>	<b>7</b>	<b>0</b>	<b>0</b>	-	-	<b>7</b>	<b>2</b>	250
<b>Total operating expenses</b>	<b>356</b>	<b>252</b>	<b>271</b>	41	31	<b>785</b>	<b>710</b>	11

In 3Q14, Investment Banking made continued progress in winding down the non-strategic unit, including the reduction of Basel III risk-weighted assets and Swiss leverage exposure, and completed the transfer of the commodities trading business into the non-strategic unit. Non-strategic businesses reported a loss before taxes of CHF 479 million and negative net revenues of CHF 116 million in 3Q14. Compared to 3Q13, negative net revenues were smaller, reflecting portfolio net valuation gains and improved funding costs from proactive management of both the legacy debt instruments and trading assets. Negative net revenues were higher compared to 2Q14, which included positive net valuation gains in the portfolio. 3Q14 results also reflected higher costs to exit positions in the legacy rates portfolio. Total operating expenses increased compared to both 3Q13 and 2Q14, driven by higher litigation provisions. As of the end of 3Q14, Investment Banking non-strategic businesses reported Basel III risk-weighted assets of USD 12 billion, down USD 9 billion from 3Q13 and down USD 2 billion from 2Q14. This compares to a risk-weighted assets target of USD 6 billion by year-end 2015. Swiss leverage exposure in non-strategic businesses of USD 66 billion reflected a reduction of USD 28 billion from 3Q13 and a reduction of USD 11 billion from 2Q14. This compares to a target of USD 24 billion in Swiss leverage exposure by year-end 2015.

## Corporate Center

*Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group and certain expenses and revenues that have not been allocated to the segments. It also includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.*

The Corporate Center recorded a loss before taxes of CHF 158 million in 3Q14 compared to a loss before taxes of CHF 559 million in 3Q13 and a loss before taxes of CHF 373 million in 2Q14. The Corporate Center recorded a loss before taxes of CHF 245 million in its strategic results. Non-strategic results reported income before taxes of CHF 87 million, primarily including fair value gains on own credit spreads of CHF 351 million, partially offset by reclassifications to discontinued operations of CHF 106 million related to the sale of the domestic private banking business booked in Germany, IT architecture simplification expenses of CHF 69 million and business realignment costs of CHF 69 million, primarily consisting of severance and other compensation expenses relating to the Group-wide cost efficiency initiatives.

## Balance sheet, shareholders' equity and regulatory capital

### Balance sheet

As of the end of 3Q14, total assets of CHF 954.4 billion increased 7% compared to 2Q14, reflecting the foreign exchange translation impact and an increase from operating activities. Excluding the foreign exchange translation impact, total assets increased CHF 18.1 billion.

### Total shareholders' equity

Credit Suisse's total shareholders' equity increased to CHF 43.9 billion as of the end of 3Q14 compared to CHF 40.9 billion as of the end of 2Q14. Total shareholders' equity was positively impacted by foreign exchange-related movements on cumulative translation adjustments, net income and an increase in the share-based compensation obligation. These movements were partially offset by transactions relating to the hedging of future share-based compensation awards. As of the end of 3Q14, Credit Suisse had 1,607.2 million shares issued.

### BIS regulatory capital and ratios – Basel III

The CET1 ratio was 14.3% as of the end of 3Q14, compared to 13.8% as of the end of 2Q14, reflecting an increase in CET1 capital, partially offset by an increase in risk-weighted assets. Credit Suisse's tier 1 ratio was 16.4% as of the end of 3Q14, compared to 16.0% as of the end of 2Q14. The total capital ratio increased to 20.1% as of the end of 3Q14 compared to 19.5% as of the end of 2Q14.

CET1 capital was CHF 41.8 billion as of the end of 3Q14 compared to CHF 39.5 billion as of the end of 2Q14, mainly reflecting a positive foreign exchange impact, net income and the net effect of share-based compensation. CET1 capital was also impacted by a quarterly dividend accrual.

Additional tier 1 capital increased to CHF 6.3 billion and tier 2 capital increased to CHF 10.6 billion as of the end of 3Q14, mainly due to the positive foreign exchange impact.

Total eligible capital was CHF 58.8 billion as of the end of 3Q14 compared to CHF 55.6 billion as of the end of 2Q14, reflecting the increases in CET1 capital, additional tier 1 capital and tier 2 capital.

As of the end of 3Q14, the Look-through CET1 ratio was 9.8% compared to a year-end target of over 10.0% and a long-term target of 11.0%.

### Capital ratios – Basel III

end of	Phase-in			Look-through		
	3Q14	2Q14	4Q13	3Q14	2Q14	4Q13
<b>BIS capital ratios (%)</b>						
CET1 ratio	14.3	13.8	15.7	9.8	9.5	10.0
Tier 1 ratio	16.4	16.0	16.8	13.6	13.1	12.8
Total capital ratio	20.1	19.5	20.6	15.9	15.4	15.1

### Swiss regulatory capital and ratios

As of the end of 3Q14, Swiss CET1 capital and Swiss total capital ratios were 14.2% and 20.0%, respectively, compared to the Swiss capital ratio phase-in requirements of 6.75% and 10.18%, respectively.

On a look-through basis, Swiss CET1 capital was CHF 27.8 billion and the Swiss CET1 ratio was 9.7% as of the end of 3Q14. Swiss total eligible capital was CHF 45.4 billion and the Swiss total capital ratio was 15.8% as of the end of 3Q14, each on a look-through basis.

**Swiss leverage ratio**

As of the end of 3Q14, the Swiss leverage ratio was 4.9% and total average exposure was CHF 1,204.7 billion. As of the end of 3Q14, Swiss total exposure was CHF 1,240 billion compared to Credit Suisse's target of approximately CHF 1,050 billion by end-2015, on a foreign exchange adjusted basis. The Look-through Swiss leverage ratio was 3.8% as of the end of 3Q14, compared to the current 4.0% requirement for 2019. For 2015, the Swiss leverage ratio requirement for 2019 will be 4.1%.

**Swiss leverage ratio**

## Important information

The Group has not finalized its 3Q14 Financial Report and the Group's independent registered public accounting firm has not completed its review of the condensed consolidated financial statements (unaudited) for the period. Accordingly, the financial information contained in this Earnings Release is subject to completion of quarter-end procedures, which may result in changes to that information. Certain reclassifications have been made to prior periods to conform to the current presentation.

For purposes of this Earnings Release, unless the context otherwise requires, the terms "Credit Suisse" and "the Group" mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the Swiss bank subsidiary of the Group, is substantially similar to the Group, and these terms are used to refer to both when the subject is the same or substantially similar. The term "the Bank" is used when referring to Credit Suisse AG, the Swiss bank subsidiary of the Group, and its consolidated subsidiaries.

Information referenced in this Earnings Release, whether via website links or otherwise, is not incorporated into this Earnings Release.

As of January 1, 2013, Basel III was implemented in Switzerland along with the Swiss "Too Big to Fail" legislation and regulations thereunder. The related disclosures are in accordance with Credit Suisse's current interpretation of such requirements, including relevant assumptions. Changes in the interpretation of these requirements in Switzerland or in any of Credit Suisse's assumptions or estimates could result in different numbers from those shown herein.

References to phase-in and look-through included herein refer to Basel III requirements. Phase-in reflects that for the years 2014 – 2018, there will be a five-year (20% per annum) phase in of goodwill and other intangible assets and other capital deductions (e.g., certain deferred tax assets and participations in financial institutions) and for the years 2013 – 2022, there will be a phase out of certain capital instruments. Look-through assumes the full phase-in of goodwill and other intangible assets and other regulatory adjustments and the full phase out of certain capital instruments.

Unless otherwise noted, leverage ratio, leverage exposure and total capital amounts included herein are based on the current FINMA framework. The Swiss leverage ratio is calculated as Swiss total eligible capital, divided by a three-month average leverage exposure, which consists of balance sheet assets, off-balance sheet exposures, which consist of guarantees and commitments, and regulatory adjustments, which include cash collateral netting reversals and derivative add-ons.

Return on equity for strategic results is calculated by dividing annualized strategic net income by average strategic shareholders' equity (derived by deducting 10% of non-strategic risk-weighted assets from reported shareholders' equity). Return on regulatory capital is calculated using income after tax and capital allocated based on the average of 10% of average risk-weighted assets and 2.4% of average leverage exposure.

Adjusted cost run-rates are non-GAAP financial measures. All expense reduction metrics against 6M11 annualized total expenses are measured at constant foreign exchange rates and exclude realignment and other significant expense items and variable compensation expenses. For further information regarding these measures, see the 3Q14 Results Presentation Slides.

The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions which is discussed above relates only to those proceedings for which the Group believes an estimate is possible and which are discussed in Note 38 to the Consolidated Financial Statements in the Group's Annual Report on Form 20-F and updated in its quarterly reports (including the 3Q14 Financial Report that is scheduled to be released on October 31). It is inherently difficult to determine whether a loss is probable or even reasonably possible or to estimate the amount of any loss or loss range for many of the Group's legal proceedings. The Group's aggregate litigation provisions include estimates of losses, additional losses or ranges of loss for proceedings for which such losses are probable and can be reasonably estimated. The Group does not believe that it can estimate an aggregate range of reasonably possible losses for certain of its proceedings because of their complexity, the novelty of some of the claims, the early stage of the proceedings, the limited amount of discovery that has occurred and/or other factors. For additional details, see Note 38 to the Consolidated Financial Statements in the Group's Annual Report on Form 20-F and the litigation note in each of its quarterly Financial Reports.

Strategic net new assets are determined based on the assumption that assets managed across businesses relate to strategic businesses only.

Investors and others should note that we announce material information (including quarterly earnings releases and financial reports) to the investing public using press releases, SEC and Swiss ad hoc filings, our investor relations website and public conference calls and webcasts. We intend to also use our investor relations Twitter account @creditsuisse (<https://twitter.com/creditsuisse>) to excerpt key messages from our public disclosures, including earnings releases. We may retweet such messages through certain of our regional Twitter accounts, including @csschweiz (<https://twitter.com/csschweiz>) and @csapac (<https://twitter.com/csapac>). Investors and others should take care to consider such abbreviated messages in the context of the disclosures from which they are excerpted. The information we post on these Twitter accounts is not a part of this Earnings Release.

In various tables, use of "--" indicates not meaningful or not applicable.

Number of employees	45,500	45,100	46,400	1	(2)	45,500	46,400	(2)

<sup>1</sup> Based on tangible shareholders' equity attributable to shareholders, a non-GAAP financial measure, which is calculated by deducting goodwill and other intangible assets from total shareholders' equity attributable to shareholders. Management believes that the return on tangible shareholders' equity attributable to shareholders is meaningful as it allows consistent measurement of the performance of businesses without regard to whether the businesses were acquired.

## Credit Suisse reporting structure

Credit Suisse results include revenues and expenses from the consolidation of certain private equity funds and other entities in which we have noncontrolling interests without significant economic interest (SEI) in such revenues and expenses. Core Results include the results of our two segments and the Corporate Center and discontinued operations, but do not include noncontrolling interests without SEI.

Beginning in 2Q13, fees collected in an agent role in connection with certain customized fund services we provide to clients where those fees are passed on directly to a third-party investment manager are now presented on a net basis per the applicable accounting standards. These fees were previously recorded on a gross basis as fee income and commission expense. Prior periods have been restated to conform to the current presentation.

<sup>1</sup> Net revenues divided by average assets under management.

<sup>2</sup> Income before taxes divided by average assets under management.

<sup>1</sup> Business realignment costs relating to divisional realignment costs are prospectively presented in the relevant divisional non-strategic results beginning in 4Q13.

<sup>2</sup> Represents legacy funding costs associated with non-BaseI compliant debt instruments.

<sup>3</sup> Includes reclassifications to discontinued operations of revenues and expenses arising from the sale of ETF, secondary private equity and Customized Fund Investment Group businesses and the domestic private banking business booked in Germany.

**Impact from movements in own credit spreads**

Core Results revenues are impacted by changes in credit spreads on fair-valued Credit Suisse long-term vanilla debt and debit valuation adjustments (DVA) relating to certain structured notes liabilities carried at fair value. Core Results are also impacted by fair value gains/(losses) on stand-alone derivatives relating to certain of our funding liabilities and reflect the volatility of cross-currency swaps and yield curve volatility and, over the life of the derivatives, will result in no net gains/(losses). These fair value gains/(losses) are recorded in the Corporate Center.

<sup>1</sup> Distributions to owners in funds include the return of original capital invested and any related dividends.

<sup>2</sup> Transactions with and without ownership changes related to fund activity are all displayed under "not changing ownership".

<sup>3</sup> Includes a net tax charge of CHF (36) million from the excess recognized compensation expense over fair value of shares delivered.

<sup>4</sup> The Group had purchased certain call options on its own shares to economically hedge share-based compensation awards. In accordance with US GAAP, these call options were designated as equity instruments and, as such, were initially recognized in shareholders' equity at their fair values and not subsequently remeasured.

<sup>5</sup> Includes a net tax charge of CHF (75) million from the excess recognized compensation expense over fair value of shares delivered.

<sup>6</sup> Paid out of reserves from capital contributions.

<sup>1</sup> Reflects MACCS issued in July 2012 that were mandatorily convertible into shares on March 29, 2013, which shares were settled and delivered on April 8, 2013.

<sup>2</sup> Reflects changes in the fair value of the PAF2 units which were reflected in the net results of the Group until the awards were finally settled. In 1Q14, the Group restructured the PAF2 awards as due to regulatory changes the capital relief provided by PAF2 awards was no longer available under Basel III. The PAF2 units were converted into other capital eligible compensation instruments and will no longer be settleable in Credit Suisse Group shares.

<sup>3</sup> Reflects weighted-average shares outstanding on PAF2 units. In 1Q14, the Group restructured the PAF2 awards as due to regulatory changes the capital relief provided by PAF2 awards was no longer available under Basel III. The PAF2 units were converted into other capital eligible compensation instruments and will no longer be settleable in Credit Suisse Group shares.

<sup>4</sup> Weighted-average potential common shares relating to instruments that were not dilutive for the respective periods (and therefore not included in the diluted earnings per share calculation above) but could potentially dilute earnings per share in the future were 8.7 million, 8.8 million, 33.7 million, 8.8 million and 12.3 million for 3Q14, 2Q14, 3Q13, 9M14 and 9M13, respectively.

<sup>5</sup> Due to the net loss in 2Q14, 1.3 million weighted-average share options and warrants outstanding and 12.2 million weighted-average share awards outstanding were excluded from the diluted earnings per share calculation, as the effect would be antidilutive.

## Relationship between total shareholders' equity, tangible shareholders' equity and regulatory capital

Credit Suisse measures firm-wide returns against total shareholders' equity and tangible shareholders' equity. In addition, it also measures the efficiency of the firm and its divisions with regards to the usage of capital as determined by the minimum requirements set by regulators. This regulatory capital is calculated as the average of 10% of risk-weighted assets and 2.4% of the leverage exposure utilized by each division and the firm as a whole. These percentages are used in the calculation in order to reflect the 2019 fully phased in Swiss regulatory minimum requirements for Basel III CET1 capital and leverage ratio.

End of 3Q14 / in 9M14 (CHF billion, except where indicated)

<b>Shareholders' equity</b>		<b>43.9</b>
Return on equity – strategic results	13%	
Return on equity	4%	
<b>Tangible shareholders' equity</b>		<b>35.2</b>
Return on tangible shareholders' equity – strategic results	16%	
Return on tangible shareholders' equity	5%	
<b>Regulatory capital</b>		<b>29.2</b>
Return on regulatory capital <sup>1</sup> - strategic results	19%	
Return on regulatory capital <sup>1</sup>	8%	

## Regulatory capital allocation

<sup>1</sup> Calculated using income after tax, assumes tax rate of 30% and capital allocated on average of 10% of average risk-weighted assets and 2.4% of average leverage exposure.

<sup>2</sup> For Investment Banking, capital allocation and return calculation are based on US dollar denominated numbers.

**Cautionary statement regarding forward-looking information**

This press release contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, objectives or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements except as may be required by applicable securities laws.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
- market and interest rate fluctuations and interest rate levels;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of continued slow economic recovery or downturn in the US or other developed countries in 2014 and beyond;
- the direct and indirect impacts of continuing deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by agencies in respect of sovereign issuers, structured credit products or other credit-related exposures;
- the ability to achieve our objectives, including improved performance, reduced risks, lower costs, and more efficient use of capital;
- the ability of counterparties to meet their obligations to us;
- the effects of, and changes in, fiscal, monetary, trade and tax policies, and currency fluctuations;
- political and social developments, including war, civil unrest or terrorist activity;
- the possibility of foreign exchange controls, expropriation, nationalizations or confiscations in countries where we conduct operations;
- operational factors such as systems failure, human error, or the failure to implement procedures properly;
- actions taken by regulators with respect to our business and practices in one or more of the countries where we conduct operations;
- the effects of changes in laws, regulations or accounting policies or practices;
- competition in geographic and business areas in which we conduct our operations;
- the ability to retain and recruit qualified personnel;
- the ability to maintain our reputation and promote our brand;
- the ability to increase market share and control expenses;
- technological changes;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate businesses successfully, and divestitures, including the ability to sell non-core assets;
- the adverse resolution of litigation and other contingencies;
- the ability to achieve our cost efficiency goals and cost targets; and
- our success at managing the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk Factors” in I – Information on the company in our Annual Report 2013.
