

# Credit Suisse Direct. Online Credit at a glance.

## Manage your existing loans

Online Credit is the new digital access to your credit portfolio at Credit Suisse. Part of online banking, Online Credit gives you an overview of your credit lines as well as details of the individual credit products such as limits, utilization, and interest rates. You can also manage your credit-related documents, such as accounting records, as well as your credit exposure with third parties. This enables you to manage all your credit activity from one place.

## Apply for credit online

In addition to managing your existing loans, you can also apply for credit online and submit the necessary documents (such as financial statements) conveniently via Online Credit. Once all the necessary documents have been submitted, you can expect a final credit decision within 48 hours.

A real-time review indicating the maximum credit amount is also available specifically for operating loans of up to CHF 500,000. A maximum of eight key financial figures from your balance sheet and income statement are required for this.
