

# Credit Suisse Direct. Online credits at a glance.

## **Managing your existing credits**

Online Credits is a new digital channel which provides you with an overview of all of your credit frameworks and products. Our Credit Suisse Direct landing page offers the possibility to add a Financing widget. The widget will feature a graphic illustration of the breakdown of your credit frameworks.

The credit dashboard enables you to access details of each framework and product including the limit, the current usage, and the individual interest rates. From our dashboard you can also manage your credit related documents as well as your credit exposure with Third Parties. This enables you to manage all your credit activity from one place.

## **Request new credits**

Should you require a new credit, you are able to initiate an application online. We can provide you with a real time simulation as to whether you qualify for the credit and an indication of what is the maximum credit amount that you can request. If you wish to proceed with the application we ask you to submit Annual Reports from the last three years. These form the basis of the full credit assessment. Once the credit has been approved, you will be sent a contract to sign and the credit will be installed.

## **How You Benefit**

- Easy monitoring of your credit frameworks and products
- Easily review of your credit exposure with Third Parties
- Reduced administrative efforts due to streamlined credit application process
- Real time Credit Simulations and Credit Decisions
- Easily manage your credit related documents
- 24/7 access to your credit portfolio
