Tip

To keep your goods from sliding around, you can pack them in boxes or make dividers with string or masking tape.

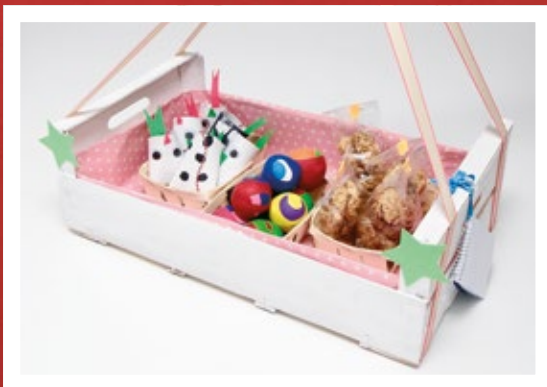

Instructions

① Paint the box, and line the inside with wrapping paper or fabric.

② Measure the length for two straps made of ribbon, adding 10 cm to each end. Attach both straps criss-cross with nails, or poke a hole from the outside in, and tie a knot.

③ Decorate your vendor's tray however you like. Arrange your goods, and you are open for business!
