

Medal

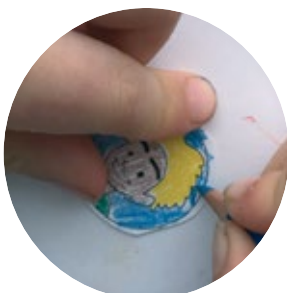

Instructions

① Hammer the edges down until they are flat. You can also use the pliers for this part. Hold the bottle cap steady with the pliers while you are hammering so that you don't hit your fingers.

② Make a hole in the bottle cap using the hammer and a nail. If the hole has sharp edges, then flatten them with the hammer so that you don't hurt yourself. Pull a piece of string or wool through the hole and tie it to make a necklace.

③ Print out our templates, then cut out the paper circles. Color in the Viva Kids gang or draw your own picture in one of the blank circles. Glue them to the inside of the bottle cap. And there you have your finished medal!

What you need

- Metal bottle caps
- Paper (see next page for templates)
- Colored pencils
- Glue
- Nail
- String or wool
- Hammer, pliers, scissors

Hello, we're
the Viva Kids
gang!
