

STAR OUTOUTS

Instructions

① Place a toilet paper roll on the paper and draw around it with a pencil to figure out how big the stars can be. Repeat this for each image, cut out the circles with roughly an extra 3 cm, and make vertical cuts along the edges up to the inner circle. Place the circles on the toilet paper roll and attach them with a rubber band.

② Cut out our templates, place them on the prepared rolls, and prick out the stars in the dark paper. Label the rolls so that you can match them later.

③ In the dark, hold a flashlight to the toilet paper roll and admire the stars on the ceiling.

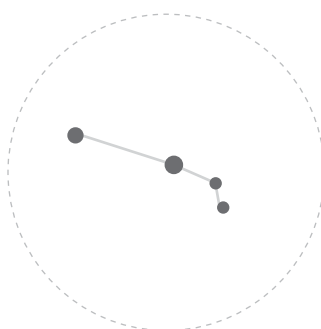

What you need

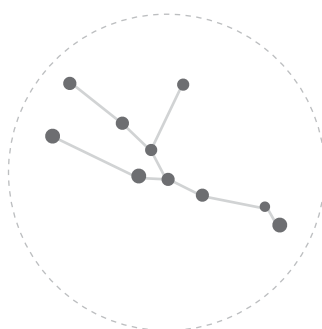

- Toilet paper roll
- Dark paper
- Needle
- Rubber, adhesive tape, or string
- Star template
