

# Private swift Network Light

## PsN Light (Private swift Network Light)

PsN Light is delivered in a csv file format which can be easily opened in MS Excel.

- The file is delivered in a compressed format (zipped) via an email application, e.g. MS Outlook
- Accessing the file is as easy as opening an email
- The file is accessed by opening the email with the attached PsN Light files
- File frequency can be scheduled as daily, weekly or monthly depending on the client's needs

## Compatibility

Due to the CSV format you are able to process the information without any additional software. All you need is:

- An internet connection
- A file compression and encryption software (e.g. WinZip version 9 or higher)
- Software which is able to process csv files (e.g. Microsoft Excel)

- Recommendation: MS Excel 2007 or higher (with expanded functionality – more than 256 columns)
- An email client, e.g. MS Outlook

## Your benefits

Gain efficiency

- Reduction of administrative workload and therefore more time for client support
- Portfolio management and transactions from one source
- Usage of a worldwide accepted standard

Optimize your overview

- Faster analysis of your client portfolios
- Easier processing of client data
- Integrated overview of your client's safekeeping account at Credit Suisse's worldwide locations

Reduce your risks

- Prevention of mistakes through reduction of manual tasks
- Allocation of client data to optimize your decision making

Product costs

- PsN Light connectivity is currently offered free of charge
- Integration of PsN data feed into external portfolio management system may result in additional costs that may vary depending on the individual portfolio management system setup of the PsN data receiver

**Make the connection**

Your relationship manager would be happy to answer any questions you may have at any time. He or she can also put you in touch with our connectivity specialists from PsN Product Management.
