MiFID II Best Execution Information on Execution Quality Obtained Credit Suisse (Luxembourg) S.A.

#### Introduction

This execution quality report refers to the obligations set out in Art. 27.6 of Directive 2014/65/EU, article 65 (6) of the Commission Delegated Regulation (EU) 2017 ("MiFID II") and Art. 3 of Commission Delegated Regulation (EU) 2017/576 ("RTS 28"), and outlines a summary of the analysis and conclusions drawn from our monitoring of the quality of execution obtained on the execution venues where client orders were executed in the previous year by Credit Suisse (Luxembourg) S.A. ("CS Lux" or "the Bank").

This report covers the period from 1 January 2022 to 31 December 2022 and should be read in conjunction with the CS Lux's Best Execution Policy and the RTS 28 Top 5 venue reports. The current versions are available on the Bank's website: <a href="https://www.credit-suisse.com/lu/en/private-banking/best-execution.html">https://www.credit-suisse.com/lu/en/private-banking/best-execution.html</a>

For clients serviced by Credit Suisse legal entities other than Credit Suisse (Luxembourg) S.A., note that there may be separate Best Execution Policies and reports with information on execution quality obtained by those legal entities.

Please contact your relationship manager for further information or any additional questions.

### RTS 28 Execution quality reporting

### All asset classes Jan-Dec 2022

Unless stated otherwise, the following information relates to all asset classes included in the RTS 28 Top 5 Venue Reports. A full list of all asset classes executed/received and transmitted by the Bank in 2022 can be found on section additional explanations and in the Top 5 Execution Venues and Top 5 Brokers of Credit Suisse (Luxembourg) S.A..

A. Explanation of the importance the Bank gave to the execution factors of price, costs, speed, likelihood of execution or any other consideration including qualitative factors when making assessments of the quality of execution

As described in the Bank's Best Execution Policy, when executing or transmitting client orders, we will take all sufficient steps to achieve the best possible result for clients taking into account the execution factors relevant to the order. The below execution factors are considered when determining the best result:

- Price this is the price a financial instrument is executed at;
- Costs this includes implicit costs such as the possible market impact, explicit external costs e.g. exchange or clearing fees and explicit internal costs which represents the Bank's own remuneration through commission or spread;
- Likelihood of execution or settlement the likelihood that we will be able to complete a client transaction;
- Speed of execution time it takes to execute a client transaction including settlement;
- Size of the order this is the size of the transaction executed for a Client accounting for how this affects the price of execution; and
- Nature of the transaction or any other consideration relevant to the execution

of the transaction - this is how the particular characteristics of a client transaction can affect how Best Execution is received.

For Retail Clients, MiFID II requires the best possible result primarily to be defined in terms of the Total Consideration.

The Total Consideration is composed of the execution price of the financial instrument and of all costs directly related to the execution of it. The cost of a transaction includes brokerage, clearing and exchange fees, as well as settlement costs and other third party fees. While MiFID II allows to determine the best possible result differently for Professional Clients compared to Retail Clients, the Bank has chosen to also apply the Total Consideration as determining element for the best possible result also to Professional Clients.

### B. Description of any close links, conflicts of interests, and common ownerships with respect to any execution venues used to execute orders

CS Lux shares an integrated execution platform with other Credit Suisse Group entities and routes a significant volume of orders to other entities via this platform as this offers a unique speed and likelihood of execution to clients. We believe this set up to be in the interests of our clients and that it allows us to achieve Best Execution when executing and transmitting orders on their behalf.

 Cash Equities: The Bank does not hold direct exchange membership with any trading venue and has relied on Credit Suisse Bank Europe order management system (Advanced Execution Services, or "AES") for predominantly low touch orders. In addition, we have used Credit Suisse Bank Europe high touch dealers for orders that could not be executed directly on the AES platform.

- Foreign Exchange and other OTC derivatives are executed by Credit Suisse (Luxembourg) S.A. who then exclusively use an integrated execution platform via Credit Suisse (Switzerland) Ltd.. Given the dynamics of the market it is not feasible to obtain multiple competing quotes from dealers prior to execution. We believe this set up to be in the interests of our clients and that through this set up Best Execution was achieved.
- Listed Derivatives / Exchange Traded Derivatives (excepted Securitized derivatives) are transmitted exclusively via Credit Suisse (Switzerland) Ltd. through an integrated execution platform. Securitized derivatives, are transmitted mainly to Credit Suisse (Switzerland) Ltd and in addition to Credit Suisse Bank Europe.
- Debt Instruments and Structured Finance Instruments and other instruments were regularly transmitted to Credit Suisse (Switzerland) Ltd., Credit Suisse Bank Europe via our integrated execution platform.
- In addition, a large volume of Exchange Traded Products was transmitted mainly to Credit Suisse Bank Europe via our integrated execution platform and in addition to Credit Suisse (Switzerland) Ltd

In order to ensure that this setup continues to benefit clients, CS Lux conducts a periodic review of all execution venues used, including Group entities, in order to assess whether Best Execution is achieved on a consistent basis. In particular, all intermediaries will be chosen after due diligence that demonstrates that CS Lux's criteria for Best Execution are guaranteed by the broker / intermediary on a consistent basis.

Additional general information on the identification and management of conflicts a of interest can be found in the brochure "Your relationship with CREDIT SUISSE (LUXEMBOURG) S.A." available on the Bank's website: https://www.credit-suisse.com/lu/en/private-banking/general-information.html

# C. Description of any specific arrangements with any execution venues regarding payments made or received, discounts, rebates or non-monetary benefits received

In relation to Structured Products and Mutual Funds, the Bank may receive inducements from Credit Suisse group entities and third parties intermediaries based on the amount invested. Such payments are disclosed in more detail in the brochure Your Banking Relationship with CREDIT SUISSE (LUXEMBOURG) S.A. available on the Bank's website: https://www.credit-suisse.com/lu/en/private-banking/general-information.html

For all other asset classes, the Bank does not have any specific arrangements with any execution venues regarding payments made or received, discounts or non-monetary benefits received.

# D. Explanation of the factors that led to a change in the list of execution venues listed in the firm's execution policy, if such a change occurred

CS Lux relies on the equity broker assessment performed by the parent company Credit Suisse (Switzerland) Ltd.. As a reminder, the list of brokers was changed during the calendar year 2017 with the main driver being the new regulatory requirement in relation to unbundling of research and execution fees. In compliance with MiFID II, research was excluded as a criteria in selecting intermediaries / brokers.

During 2022, the Bank made no changes to the list of execution venues / brokers listed in the firm's execution policy during the period. This list was

approved by the local Best Execution Governance Committee.

# E. Explanation of how order execution differs according to client categorisation, where the firm treats such category of client differently and where it may affect order execution arrangements

As described in the Bank's Best Execution Policy, no difference is made in treating orders from retail and professional client. The total consideration is the primary execution factor considered when selecting intermediaries or execution venues.

F. Explanation of when other criteria were given precedence over immediate price and cost when executing retail client orders and how these other criteria were instrumental in delivering the best possible result in terms of the total consideration to the client

Across all asset classes, immediate Price and Costs ("Total Consideration") prevails for Retail and Professional client orders.

However, there may be circumstances where the primary execution factors vary and the price is no longer the dominant execution factor; for example, for in illiquid securities, transactions likelihood of execution and market impact become more important. In order to determine the relative importance of the above mentioned factors, the Bank also considers the characteristics of the client, the order, the specific Financial Instrument in question as well as the Execution Venue(s) or Broker such order could be directed to.

#### G. Summary of Best Execution Monitoring Process

In order to ensure active monitoring of Best Execution, the Bank has implemented several Transaction and Cost Analysis reports (as further defined in the below Additional explanations document) which are produced on a daily or monthly basis and identify all the execution deviations based on different criteria by asset class.

The results of the analysis are presented to relevant stakeholders during the bi-

annual Best Execution Governance Committee. Based on this review, the committee decides if changes to the current choice of the execution venue/broker or general best execution arrangements have to be made.

### RTS 28 Execution quality reporting Additional explanations Jan-Dec 2022

1. Transactions and Cost Analysis Reports Summary

| Report Objective   | Asset<br>Class(es)                   | Frequency |
|--|--------------------------------------|-----------|
| Comparison of executed price versus the Bloomberg benchmark price at the time the order was executed.  | Debt<br>instrument                   | Daily     |
| Comparison of executed price versus the Bloomberg benchmark price at the time the order was executed.  | Currency and commodities derivatives | Monthly   |
| Analysis of the execution delays versus the VWAP during the same period  | Equity and Exchange Traded Products  | Daily     |
| Analysis of the executed price versus the limit adjusted VWAP  | Derivatives products                 | Daily     |
| Monitoring based on (dis-) proportionate amount of client revenues (CRev) compared to size/risk (according to market practice for the liquidity, duration and complexity of the product) | Structured                           | Monthly   |

#### Conclusion of the Review performed:

In case deviations are detected between the benchmark and the executed price or time of the transaction, a review is conducted and plausible justifications have to be provided. Where no justification can be presented, appropriate action will be taken and the broker assessment will be reviewed. For 2022, all the deviations identified during the daily monitoring have been reviewed and it was concluded that they are in line with the Bank's Best Execution policy. The summary of the analysis has been presented to our Local best Execution Governance Committee

2. A large part of CS Lux's debt instruments and ETF volume are traded in Execution capacity on the Bloomberg Multilateral Trading Facility (BMTF). This trading venue is listed in the relevant Top 5 reports. However, regulatory requirements also ask the Bank to performed a so called "look through", i.e. to disclose the identity of the Top 5 counterparties the Bank trades with on this venue via a request for quote system.

#### Debt Instruments (Bonds) - Retail Clients

#### **Annex 1: Definitions**

Aggressive Order 'Aggressive order' means an order entered into the order book that took liquidity. The orders have been interpreted as market orders.

Broker

Means street-side counterparties or intermediary through which Credit Suisse executes or transmits orders.

**Client Order** 

Client Order is a verbal, electronic (e.g. Bloomberg, FIX) or written agreement to execute a transaction on behalf of a client regardless of whether Credit Suisse is acting in a principal, riskless principal or agency capacity in any of the Financial Instruments listed in Schedule 1 of the Credit Suisse Best Execution Policy.

Directed Order

'Directed order' means an order where a specific execution venue was specified by the client prior to the execution of the order.

Eligible Counterparty Eligible Counterparties are Investment Firms; credit institutions; insurance companies; UCITS and their management companies; pension funds and their management companies; other financial institutions authorized or regulated under community legislation or the national law of a Member State; undertakings exempted from the application of this Directive under Article 2(1)(k) and (l); national governments and their corresponding offices including public bodies that deal with public debt; central banks; and supranational organizations (Definition Directive 2004/39/EC, art. 24 (2)).

Execution Venue

Execution Venue refers to Regulated Markets, MTFs or OTFs and other liquidity providers or entities that perform a similar function.

Investment Firm Investment Firm means any legal person whose regular occupation or business is the provision of one or more investment services to third parties and/or the performance of one or more investment activities on a professional basis.

MiFID II

Markets in Financial Instruments Directive 2014/65/EU of 15 May 2014 ("MiFID II").

**Passive Order** 

'Passive order' means an order entered into the order book that provided liquidity The orders have been interpreted as limit orders.

Professional

Professional Client means a client who possesses the experience, knowledge and expertise to be able to appropriately assess the risks associated with their own investment decisions (e.g. financial institutions, other authorized or regulated institutions, collective investment schemes and management companies of such schemes, pension funds, and other institutional investors). Retail Clients who fulfill two out of three criteria set up to demonstrate their knowledge and experience might also be considered Professional Clients upon their own request.

Retail Client

Retail Client means a client who is not a Professional Client.

RTO

Client

RTO means the order handling process when Credit Suisse receives and transmits a client order to an intermediate Broker.

Total Consideration Price of the Financial Instrument and the costs relating to execution, which shall include all expenses incurred by the client that are directly relating to the execution of the order, including Execution Venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the order.

**Trading Venue** 

Trading Venue means any Regulated Market, MTF or OTF as defined under MiFID II.

**VWAP** 

The volume weighted average price (VWAP) is a benchmark that gives the average price a security has traded at throughout the day, based on both volume and price.
