This Offering Memorandum shall not be distributed or circulated in India. Under the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations, 2014, as amended from time to time, ("SEBI FPI Regulations"), foreign portfolio investors registered with SEBI ("FPIs") may not issue, subscribe to or otherwise deal in offshore derivative instruments (defined under the SEBI FPI Regulations, as any instrument, by whatever name called, which is issued overseas by a foreign portfolio investor against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying security, and are referred to herein as "P-Notes") directly or indirectly, unless (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate foreign regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with 'know your client' norms. Provided that an unregulated broad-based fund, which is classified as a Category II FPI by virtue of its investment manager being appropriately regulated shall not issue, subscribe or otherwise deal in offshore derivatives instruments directly or indirectly. Additionally, Category III FPIs (as defined in the SEBI FPI Regulations) are not permitted to

issue, subscribe or otherwise deal in P-Notes, either directly or indirectly. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority. Further, FPIs are required to fully disclose to SEBI any information concerning the terms of and parties to off-shore derivative instruments such as P-Notes, equity linked notes or any other such instruments, by whatever names they are called, entered into by it relating to any securities listed or proposed to be listed in any stock exchange in India.

Additionally, according to a circular issued by the SEBI on November 24, 2014, the investment restrictions applicable to FPIs shall also apply to subscribers of offshore derivative instruments. Two or more subscribers of offshore derivative instruments having a common beneficial owner shall be considered together as a single subscriber of the offshore derivative instrument. In the event an investor has investments as an FPI and as a subscriber of offshore derivative instruments, such investment restrictions shall apply on the aggregate of the FPI and offshore derivative instrument investments held in the underlying Indian company. Further, FPIs may issue offshore derivative instruments only to those subscribers which do not have an opaque structure (as defined in the SEBI FPI Regulations).

Please note that any P-Notes issued under the erstwhile Securities and Exchange Board of India (Foreign Institutional Investors) Regulations, 1995 are deemed to have been issued under the corresponding provisions of the SEBI FPI Regulations. P-Notes have not been and are not being offered or sold pursuant to this Offering Memorandum. This Offering Memorandum does not contain and this Offering Memorandum will not contain any information concerning any P-Notes or the issuer(s) of any P-Notes, including, without limitation, any information regarding any risk factors relating thereto.

Any P-Notes that may be issued are not securities of our Company and do not constitute any obligations of, claims on, or interests in our Company. Our Company, the Selling Shareholders, and the Underwriters have not participated in any offer of any P-Notes, or in the establishment of the terms of any P-Notes, or in the preparation of any disclosure related to any P-Notes. Any P-Notes that may be offered are issued by, and are solely the obligations of, third parties that are unrelated to our Company and the Selling Shareholders. Our Company, the Selling Shareholders and the Underwriters and their respective affiliates do not make any recommendation as to any investment in P-Notes and do not accept any responsibility whatsoever in connection with any P-Notes.

Prospective investors interested in purchasing any P-Notes have the responsibility to obtain adequate disclosure as to the issuer(s) of any P-Notes and the terms and conditions of any such P-Notes from the issuer(s) of such P-Notes. Neither the SEBI nor any other regulatory authority has reviewed or approved any P-Notes or any disclosure related thereto. Prospective investors are urged to consult with their own financial, legal, accounting and tax advisors regarding any contemplated investment in P-Notes, including whether P-Notes are issued in compliance with applicable laws and regulations, including, without limitation, Indian laws, rules, regulations and guidelines applicable to P-Notes.

In addition, associates and affiliates of the Underwriters may or may not issue P-Notes against Equity Shares allocated to them in the Offer. Such associates and affiliates of the Underwriters may receive commission and other fees in connection with the issuance, offer and sale of P-notes.

In accordance with Reserve Bank of India (“**RBI**”) regulations, Overseas Corporate Bodies (as defined in the Foreign Exchange Management (Deposit) Regulations, 2000) (“**OCBs**”) are not permitted to participate in the Offer.

The Underwriters will not over-allot or otherwise stabilize or maintain the market price of the Equity Shares. As a result, the market price of the Equity Shares may be more susceptible to a decline than if the Underwriters were permitted to take such actions.

ADDITIONAL RISK FACTORS FOR INTERNATIONAL INVESTORS

In addition to the risk factors set forth in the section titled “Risk Factors” in the attached Prospectus on page 15, prospective investors are urged to consider the following additional risk factors prior to purchasing any of the Equity Shares. If any of the following risks actually occur, our business and operations could be seriously harmed, the market price of the Equity Shares could decline and investors may lose all or part of their investment in the Equity Shares. Please note that the risk factors described below do not constitute a comprehensive and exhaustive list of all the risk factors that may be associated with investment in an Indian entity, but are merely meant to give an indication of the risks that may arise in relation to an investment by a foreign investor in the equity shares of an Indian entity. Additional risks not presently known to us, or which we may now consider as being immaterial in nature may also cause our Company’s business, results of operations and financial condition to suffer.

Internal Risk Factors and Risks Relating to our Business

Third-party statistical and financial data in this Offering Memorandum may be incomplete, inaccurate or unreliable.

We have not independently verified the data in the Offering Memorandum that comes from industry publications and other third party sources and therefore we cannot assure you that they are complete or reliable. Such data may also be produced on different bases from those used in other countries. Therefore, discussions of matters relating to India, its economy and our industry in this Offering Memorandum, are subject to the caveat that the statistical and other data upon which such discussions are based may be incomplete, inaccurate or unreliable.

Risks Related to Investments in Indian Companies

We are incorporated in India, and consequently, our financial performance and the market price of our Equity Shares will be affected by changes in exchange rates and controls, interest rates, Government of India (the “**Government**”) policies, including taxation policies, as well as political, social and economic developments affecting India.

Currency exchange rate fluctuations may affect the value of the Equity Shares.

The exchange rate between the Rupee and other foreign currencies, including the U.S. Dollar, the Euro, the Hong Kong Dollar, Pound Sterling, Renminbi, the Singapore Dollar and the Japanese Yen, has changed substantially in recent years and may fluctuate substantially in the future. Fluctuations in the exchange rate between the foreign currencies with which an investor may have purchased Rupees may affect the value of your investment in our Equity Shares. Specifically, if there is a change in relative value of the Rupee to the U.S. Dollar or another foreign currency, each of the following values will also be affected:

- The foreign currency equivalent of the Rupee trading price of our Equity Shares in India;
- The foreign currency equivalent of the proceeds that you would receive upon the sale in India of any of our Equity Shares; and
- The foreign currency equivalent of cash dividends, if any, paid in Rupees on our Equity Shares.

You may be unable to convert Rupee proceeds into a foreign currency of your choice or the rate at which any such conversion could occur could fluctuate. In addition, our market valuation could be seriously harmed by the devaluation of the Rupee if investors in jurisdictions outside India analyze its value based on the relevant foreign currency equivalent of our financial condition and results of operations.

It may not be possible for you to enforce any judgment obtained outside India against us or our directors and executive officers in India, except by way of a suit in India on such judgment.

We are incorporated under the laws of India and our directors and most of our executive officers reside in India. In addition, all of our assets, and the assets of some of our directors and officers and of the experts named in this Offering Memorandum are located in India. As a result, you may be unable to:

- effect service of process outside India upon us, and these other persons or entities; or

- enforce foreign judgments obtained in the courts outside India against us and these other persons or entities, including judgments predicated upon the civil liability provision of the securities laws of foreign jurisdictions.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore and Hong Kong. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments (other than arbitration awards) in civil and commercial matters. In the case of reciprocating territories, a judgment of a court outside India may be enforced either by initiating execution proceedings pursuant to Section 44A of the Code of Civil Procedure, 1908, as amended (the “**Civil Code**”) or by a suit upon it. However, in the case of a non-reciprocating territory such as the United States, a judgment of a court outside India may be enforced in India only by a suit upon the judgment, subject to Section 13 of the Civil Code and not by proceedings in execution. For more information, see “Enforcement of Civil Liabilities” in this international wrap on page W-15.

There may be less information available about companies listed on Indian securities markets than companies listed on securities markets in other countries.

After completion of the Offer, our Equity Shares will be publicly listed on the Stock Exchanges, which are located in India. The Equity Shares will not be listed on any stock exchange in any country outside India. There is a difference between the level of regulation and monitoring of the Indian securities markets and the activities of investors, brokers and other participants in those markets, and that of markets in the United States and certain other countries. SEBI is responsible for setting standards for disclosure and other regulatory standards for the Indian securities markets. While SEBI has issued regulations and guidelines on disclosure requirements, insider trading and other matters, there may be less publicly available information about Indian companies than is regularly made available by public companies in other economies. As a result, you may have access to less information about our business, results of operations and financial condition, and those of our competitors that are listed on Indian stock exchanges, on an ongoing basis, than you may in the case of companies subject to the reporting requirements of other countries.

A third party could be prevented from acquiring control of us because of the Indian laws applicable to takeovers.

There are provisions in Indian law that may delay, deter or prevent a takeover, substantial acquisition, or change in control of the Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Under Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (“**Takeover Regulations**”) an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also prevent a third party from attempting to take control of or substantially acquire our Company. Consequently, even if a potential takeover or substantial acquisition of our Company would result in the purchase of the equity shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of Takeover Regulations.

Under the Takeover Regulations, if an acquirer (together with any persons acting in concert with him): (a) acquires shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company; or (b) already holds shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company, and acquires shares or voting rights entitling them to exercise more than 5% of the voting rights in the listed company during any financial year; or (c) acquires control directly or indirectly over a listed company, such acquirer will have to make an open offer for at least 26% of the total shares of the listed company

The Takeover Regulations also prohibit any acquirer from acquiring or entering into any agreement to acquire shares or voting rights exceeding such number of shares as would take the aggregate shareholding pursuant to such acquisition above the maximum permissible non-public shareholding.

For further details, see the section “The Securities Market of India—Takeover Regulations” on page number W-28 of this Offering Memorandum.

Changes in Government policies could adversely affect economic conditions in India.

Our income is derived from operations in India and our business, results of operations, financial condition and prospects are affected by the Indian economy and the Indian financial markets. Consequently, changes in Government policies which affect the economic conditions or financial markets in India may affect us, and the market price and liquidity of the Equity Shares. For example, the imposition of foreign exchange controls, rising interest rates, increases in taxation or the creation of new regulations could have a detrimental effect on the Indian economy generally and therefore could have a material adverse effect on our business, results of operations, financial condition and prospects.

The Government has in recent years sought to implement economic reforms, and the current Government has implemented policies and undertaken initiatives that continue the economic liberalisation policies pursued by previous governments. For example, the Government has announced its general intention to continue India's current economic and financial sector deregulation policies and encourage infrastructure projects. However, the roles of the Government and the state governments in the Indian economy as producers, consumers and regulators have remained significant and there can be no assurance that liberalisation policies will continue in the future. Any significant change in such liberalisation and deregulation policies could adversely affect business and economic conditions in India generally and our business, results of operations, financial condition and prospects could be negatively impacted in particular.

Risks Related to Our Equity Shares and the Trading Market

Your ability to acquire and sell Equity Shares is restricted by the distribution and transfer restrictions set forth in this international wrap.

No actions have been taken to permit a public offering of the Equity Shares in any jurisdiction except India. As such, the Equity Shares have not and will not be registered under the Securities Act, any state securities laws or the law of any jurisdiction other than India. Furthermore, the Equity Shares are subject to restrictions on transferability and resale. You are required to inform yourself about and observe these restrictions. See "Distribution and Solicitation Restrictions" and "Purchaser Representations and Transfer Restrictions" in this international wrap on pages W-18 and W-24, respectively. Our Company, the Selling Shareholders, the BRLMs and their respective officers, directors, representatives, agents, affiliates, associates will not be obligated to recognize any acquisition, transfer or resale of the Equity Shares made other than in compliance with the restrictions set forth herein and future accepts no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Capital gains arising from the sale of shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the Securities Transaction Tax ("STT") has been paid on the transaction. The STT will be levied on and collected by a domestic stock exchange on which equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and as result of which no STT has been paid, will be subject to capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to capital gains tax in India.

Capital gains arising from the sale of our Equity Shares will be exempt from tax in India in cases where such exemption is provided under the tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties, including those with the United States, do not limit India's ability to impose tax on capital gains. As a result, residents of such countries may be liable for tax in India, as well as in their own jurisdictions on gain upon a sale of our Equity Shares.

Your ability to acquire or transfer your Equity Shares is restricted under Indian law.

Indian laws contain restrictions on the acquisition and transfer of Indian securities by persons resident outside of India. See for example the section entitled "Offer Procedure" in the attached Prospectus on page 396 for restrictions on acquisitions by FIIs and foreign venture capital investors ("FVCIs").

There are certain restrictions and there may be prior approval and/or notification requirements with respect to the sale or acquisition of equity shares of an Indian company. If any approval is required, there can be

no assurance that any approval will be obtained in a timely manner or at all. Because of possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains when prices increase or limiting losses when prices decline. For more information, see “Restriction on Foreign Ownership of Indian Securities” in Prospectus on page 442.

Under current Indian regulations and practice, approval of the RBI is required for the sale of Equity Shares by a non-resident to a resident of India, unless the sale is made on a stock exchange in India through a stock broker or a merchant banker registered with SEBI, at the market price or in terms of the pricing guidelines specified by RBI in case of an off-market transfer. If the Equity Shares are thinly traded, then certain other pricing guidelines specified by RBI must be followed. Prior to the repatriation of sale proceeds, certain filings must be made with an authorized dealer (bank) remitting the proceeds along with certain documents, including an undertaking from the resident buyer in the prescribed form stating that the pricing guidelines have been adhered to and a no objection/tax clearance certificate from the income tax authority or an accountant. If any approvals are required from the RBI or any other government agency, they may not be obtained on terms favourable to a non-resident investor or at all. Our Company, the Selling Shareholders, the BRLMs and their respective officers, directors, representatives, agents, affiliates, associates cannot guarantee that any approval, if required, will be obtained in a timely manner or at all. Because of possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increases or limiting losses during periods of price declines. For more information, see “Restriction on Foreign Ownership of Indian Securities” in Prospectus on page 442.

Conditions in the Indian securities market may affect the price or liquidity of the Equity Shares.

The Indian securities markets are smaller than securities markets in certain other economies and may be more volatile than the securities markets in other countries. Indian stock exchanges have in the recent past experienced substantial fluctuations in the prices of listed securities. Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies. These problems have included temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, from time to time, disputes have occurred between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. Similar problems could occur in the future and, if they do, they could harm the market price and liquidity of the Equity Shares.

Economic developments and volatility in securities markets in other countries may cause the price of our Equity Shares to decline.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors’ reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. For instance, economic downturns in the United States and several European countries have in the past adversely affected market prices in the world’s securities markets, including Indian securities markets. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may negatively affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. For more information on the securities market in India, see the section titled “The Securities Market of India” in this international wrap on page W-28.

ENFORCEMENT OF CIVIL LIABILITIES

The Company is a public limited company under the laws of India. All the Directors and executive officers are residents of India and all our assets and such persons are located in India. As a result, it may be difficult or may not be possible for investors to affect service of process upon our Company, the Company's Directors and executive officers or such persons outside India, or to enforce judgments obtained against such parties outside India.

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Civil Code.

A judgment of a court in a jurisdiction which is not a reciprocating territory may be enforced in India only by a suit upon the judgment, subject to Section 13 of the Civil Code and not by proceedings in execution. Section 13 of the Civil Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), provides that a foreign judgment shall be conclusive as to any matter thereby directly adjudicated upon between the same parties or between parties under whom they or any of their classes litigating under the same title except: (i) where it has not been pronounced by a court of competent jurisdiction, (ii) where it has not been given on the merits of the case, (iii) where it appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable, (iv) where the proceedings in which the judgment was obtained were opposed to natural justice, (v) where it has been obtained by fraud, or (vi) where it sustains a claim founded on a breach of any law in force in India.

Section 44A of the Civil Code provides that where a foreign judgment has been rendered by a court in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the Civil Code is applicable only to monetary decrees or judgments not being in the nature of any amounts payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalty, and does not include arbitration awards. The United Kingdom, Singapore and Hong Kong have been declared to be reciprocating territories within the meaning of Section 44A of the Civil Code by the Government. The United States has not been declared by the Government to be a reciprocating territory for the purposes of Section 44A of the Civil Code. Under Section 14 of the Civil Code, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record; but such presumption may be displaced by proving want of jurisdiction.

The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain RBI approval to repatriate any amount out of India pursuant to such judgment.

In addition, any judgment in a foreign currency would be converted into Rupees on the date of the judgment and not on the date of payment. The Company cannot predict whether a suit brought in an Indian court will be disposed off in a timely manner..

PLAN OF DISTRIBUTION

Underwriting Agreement

After the determination of the Offer Price but prior to the filing of the Prospectus with the RoC, our Company and the Selling Shareholders will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. It is proposed that pursuant to the terms of the Underwriting Agreement, the BRLMs will be responsible for bringing in the amount devolved, in the event any of its or their Syndicate Members do not fulfil their underwriting obligations. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions to closing, as specified therein. The Underwriting Agreement is dated February 5, 2016.

Subject to certain conditions, we will agree to indemnify the Underwriters against certain liabilities, including certain liabilities under the U.S. securities laws.

Offers or sales of the Equity Shares in the United States will be made solely by broker-dealers who are registered as such under the U.S. Securities Exchange Act.

This Offer will also be in compliance with the SEBI ICDR Regulations. The Equity Shares are not transferable except in accordance with applicable Indian laws, regulations, rules and guidelines described under “Other Regulatory and Statutory Disclosures” on page 371 in the attached Prospectus.

For more information on the Underwriting Agreement, see “**General Information—Underwriting Agreement**” on page 71 in the attached Prospectus.

Indicative Timetable for Listing

The Offer will be conducted through a book building process as set out in Schedule XI of the ICDR Regulations, and pursuant to which the Underwriters will accept bids for the Equity Shares during the Bid/Offer Period. Following the expiration of the Bid/Offer Period, the Company and the Selling Shareholders will, in consultation with the Book Running Lead Managers, determine the Offer Price and the Offer size, and, in consultation with the Book Running Lead Managers and the Designated Stock Exchange, will determine the basis of allocation and entitlement to allotment. The Prospectus (as such term is defined in the attached Prospectus) will then be filed with the Registrar of Companies and Stock Exchanges and made available to investors.

The Company proposes to complete the allotment to successful bidders within four Working Days of the expiration of the Bid/Offer Period. The Equity Shares will then be credited and allotted to the investors’ demat accounts maintained with the relevant depository participants. Upon receipt of final listing and trading approval of the Stock Exchanges, the Equity Shares will be listed and trading will commence. The Company shall use its best efforts to ensure that all steps for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed, are taken within six Working Days of the Bid/Offer Closing Date.

An indicative timetable is set out below in respect of this Offer:

FINALISATION OF BASIS OF ALLOTMENT	On or before February 09, 2016
INITIATION OF REFUNDS FOR ANCHOR INVESTORS/UNBLOCKING OF FUNDS	On or before February 10, 2016
CREDIT OF EQUITY SHARES TO DEPOSITORY ACCOUNTS	On or before February 11, 2016
COMMENCEMENT OF TRADING	On or before February 12, 2016

The above timetable is indicative only as it assumes that the date of listing of the Equity Shares offered for the proposed public Offer, on the BSE and the NSE is on or about February 12, 2016. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges.

The Company has obtained in-principle approvals for the listing and quotation of the Equity Shares on the BSE and the NSE pursuant to their letters dated September 30, 2015 and September 29, 2015, respectively.

Sale Restrictions

Indian regulations require that 20% of an issuer's post-Offer share capital held by its Promoters cannot be sold or transferred for a period of three years from the date of allotment of the equity shares sold in the Offer. For details of our Promoters' contribution locked-in for three years, please read "*Capital Structure – Notes to Capital Structure*" on page 73 in the attached Prospectus.

In terms of SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters can be pledged only with scheduled commercial banks or public financial institutions as collateral security for any loans granted by such banks or financial institutions subject to certain conditions.

In addition, the entire pre-Offer Equity Share capital of the Company shall be locked-in for a period of one year from the date of Allotment in the Offer, except (I) the Equity Shares subscribed to and Allotted pursuant to the Offer for Sale; and (II) the Equity Shares held by GCIF and IAF, being registered VCFs will be exempt from any regulatory lock-in. For more information, see "*Capital Structure*" on page 73 in the attached Prospectus.

Other Relationships

The Underwriters and their respective affiliates have performed and may in the future perform investment banking, commercial banking or advisory services for the Company or its affiliates from time to time for which they have received or will receive customary fees and expenses. In addition, any Underwriter may, from time to time, engage in transactions with and perform services for the Company or its affiliates in the ordinary course of business.

THE SECURITIES MARKET OF INDIA

The information in this section has been extracted from publicly available documents from various sources, including officially prepared materials from the SEBI, the BSE and the NSE, and has not been prepared or independently verified by the Company, the Selling Shareholders or the Underwriter or any of its affiliates or advisors.

Indian Stock Exchanges

Indian stock exchanges are regulated primarily by the SEBI, as well as by the Government of India acting through the Ministry of Finance, Capital Markets Division, under the Securities Contract (Regulation) Act, 1956 (the “**SCRA**”) and Securities Contract (Regulation) Rules, 1957 (the “**SCRR**”), as amended. SEBI, in exercise of its powers under the SCRA and the Securities and Exchange Board of India Act, 1992 (“**SEBI Act**”) notified the Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2012 (“**SCR SECC Regulations**”), which regulate inter alia the recognition, ownership and internal governance of stock exchanges and clearing corporations in India together with providing for minimum capitalization requirements for stock exchanges. Various rules, bye-laws and regulations of the respective stock exchanges regulate the recognition of stock exchanges, the qualifications for membership thereof and the manner in which contracts are entered into, settled and enforced between members are regulated by the SCRA, the SCRR, the SCR SECC Regulations together with the rules, by-laws and regulations of the respective stock exchanges.

SEBI was established under the SEBI Act as amended, to regulate the Indian securities markets, including stock exchanges and other intermediaries, promote and monitor self-regulatory organizations and prohibit fraudulent and unfair trade practices. SEBI is empowered under the SEBI Act to regulate the Indian securities markets, including stock exchanges and other intermediaries, promote and monitor self-regulatory organizations and prohibit fraudulent and unfair trade practices. Regulations concerning minimum disclosure requirements by public companies, rules and regulations concerning investor protection, insider trading, substantial acquisitions of shares and takeovers of companies, buybacks of securities, employee stock option schemes, stockbrokers, merchant bankers, underwriters, mutual funds, foreign portfolio investors, credit rating agencies and other capital market participants have been notified by the relevant regulatory authority.

Most of the stock exchanges in India have their own governing board for self regulation. The BSE and the NSE together hold a dominant position among the stock exchanges in terms of the number of listed companies, market capitalization and trading activity.

Listing

The listing of securities on recognized Indian stock exchanges is regulated by the Companies Act, SCRA, the SCRR, the SEBI Act, Companies Act, the SEBI (Listing Obligations and Disclosure Requirements) Regulations, and various regulations issued, and regulations framed, by SEBI and the listing agreements of the respective stock exchanges. SEBI has notified the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015 which came into effect on December 1, 2015 and subsumes the existing laws governing listing in India. The governing body of each stock exchange is empowered to suspend or withdraw admission to dealing in a listed security for breach of or non-compliance with any of the conditions of the listing agreement or for any other reason, subject to the issuer receiving prior notice of the intent of the exchange and upon being granted a hearing in the matter. The Securities Appellate Tribunal established under the SEBI Act, after providing the stock exchange an opportunity of being heard, has the power to vary or set aside the decision of the stock exchange in this regard. SEBI also has the power to amend such listing agreements and the bye-laws of the stock exchanges in India.

Pursuant to an amendment of the SCRR notified on February 25, 2015, the definition of “public shareholding” was amended to mean equity shares of a company held by public including shares underlying the depository receipts if the holder of such depository receipts has the right to issue voting instruction and such depository receipts are listed on an international exchange in accordance with the Depository Receipts Scheme, 2014 and exclude the equity shares of a company held by the trust set up for implementing employee benefit schemes in terms of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. Consequently, if the public shareholding in a listed company falls below 25% pursuant to such amended definition, a company is required to increase its public shareholding to at least 25% within a period of three years from the date of notification of Depository Receipts Scheme, 2014 or the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014, as the case may be.

Index-Based Market-Wide Circuit Breaker System

Market-Wide Index-Based Circuit Breakers

Daily circuit breakers do not allow transactions beyond a certain level of price volatility. The index-based market-wide circuit breaker system (equity and equity derivatives) applies at three stages of the index movement, at 10%, 15% and 20%. These circuit breakers, when triggered, bring about a co-ordinated trading halt in all equity and equity derivative markets nationwide. The market-wide circuit breakers are triggered by movement of either the SENSEX of the BSE or the S&P CNX NIFTY of the NSE, whichever is breached earlier.

Price Bands

In addition to the market wide index based circuit filters, there are individual scrip wise price bands of 20% either way, for all scrips in the compulsory rolling settlement except for the scrips on which derivatives products are available or scrips included in indices on which derivative products are available. Appropriate individual scrip wise price bands upto 20% are applicable on those scrips on which no derivatives products are available but which are part of Index Derivatives.

BSE

Established in 1875, it is the oldest stock exchange in India. In 1956, it became the first stock exchange in India to obtain permanent recognition from the Government under the SCRA. It has evolved over the years into its present status as one of the premier stock exchange of India.

NSE

The NSE was established by financial institutions and banks to serve as a national exchange and to provide nationwide on-line satellite-linked screen-based trading facilities with electronic clearing and settlement for securities including government securities, debentures, public sector bonds and units. It has evolved over the years into its present status as one of the premier stock exchange of India. The NSE was recognised as a stock exchange under the SCRA in April 1993 and commenced operations in the wholesale debt market segment in June 1994.

Internet-based Securities Trading and Services

Internet trading takes place through order routing systems, which route client orders to exchange trading systems for execution. Stockbrokers interested in providing this service are required to apply for permission to the relevant stock exchange and also have to comply with certain minimum conditions stipulated under applicable law. The NSE became the first exchange to grant approval to its members for providing internet-based trading services. Internet trading is possible on both the “equities” as well as the “derivatives” segments of the NSE.

Trading Hours

Trading on both the BSE and the NSE occurs from Monday through Friday, from 9.15 a.m. to 3.30 p.m. The BSE and the NSE are closed on public holidays. The recognised stock exchanges have been permitted to set their own trading hours (in cash and derivatives segments) subject to the condition that (i) the trading hours are between 9:00 a.m. and 5:00 p.m.; and (ii) the stock exchange has in place risk management system and infrastructure commensurate to the trading hours.

Trading Procedure

In order to facilitate smooth transactions, the BSE replaced its open outcry system with BSE On-line Trading (“BOLT”) facility in 1995. This totally automated screen based trading in securities was put into practice nation-wide. This has enhanced transparency in dealings and has assisted considerably in smoothening settlement cycles and improving efficiency in back-office work. NSE also provides on-line trading facility through the National Exchange for Automated Trading (“NEAT”).

Disclosures under the Companies Act 2013 and SEBI ICDR Regulations

Under the Companies Act 2013, a public offering of securities in India must be made by means of a prospectus, which must contain information specified in the Companies Act and the SEBI ICDR Regulations. The prospectus must be filed with the Registrar of Companies having jurisdiction over the place where a company's registered office is situated, which in our case is currently the Registrar of Companies, Maharashtra, located in Mumbai. A company's directors and promoters shall be subject to civil and criminal liability for misrepresentation in a prospectus. The Companies Act 2013 also sets forth procedures for the acceptance of subscriptions and payment of commission rates for the sale of securities. Pursuant to the provisions of the SEBI Act, the SEBI has issued detailed guidelines concerning disclosures by public companies and to further investor protection. The SEBI ICDR Regulations permit companies to price their domestic issues of securities in consultation with the lead merchant banker or through the book building process. All companies, including public limited companies, are required under the Companies Act to prepare, file with the Registrar of Companies and circulate to their shareholders audited annual accounts, which comply with the disclosure requirements of the Companies Act and regulations governing their manner of presentation, which include sections pertaining to corporate governance and the management's discussion and analysis. In addition, a listed company is subject to continuing disclosure requirements pursuant to the terms of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 with the relevant stock exchange, including the requirement to publish un-audited financial statements on a quarterly basis, and is required to inform stock exchanges immediately regarding any stock price-sensitive information.

Takeover Regulations

Disclosure and mandatory bid obligations for listed Indian companies under Indian law are governed by the specific regulations in relation to substantial acquisition of shares and takeover. After listing on the Stock Exchanges, the provisions of the Takeover Regulations will apply to the Company. Once the equity shares of a company are listed on a stock exchange in India, the provisions of the Takeover Regulations will apply to any acquisition of the company's shares/voting rights/control. The Takeover Regulations prescribes certain thresholds or trigger points in the shareholding a person or entity has in the listed Indian company, which give rise to certain obligations on part of the acquirer. Acquisitions up to a certain threshold prescribed under the Takeover Regulations mandate specific disclosure requirements, while acquisitions crossing particular thresholds may result in the acquirer having to make an open offer of the shares of the target company. The Takeover Regulations also provide for the possibility of indirect acquisitions, imposing specific obligations on the acquirer in case of such indirect acquisition.

The Takeover Code requires that if an acquirer (together with any persons action in concert with him): (a) acquires shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company; or (b) already holds shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company, and acquires shares or voting right entitling them to exercise more than 5% of the voting rights in the listed company during any financial year; or (c) acquires control directly or indirectly over a listed company, such acquirer will have to make an open offer for at least 26% of the total shares of the listed company. These provisions may discourage or prevent certain types of transactions involving an actual or threatened change in control of the Company even if a change in control would result in the purchase of the Equity Shares at a premium to the trading price or would otherwise be beneficial to the holders of the Equity Shares.

Insider Trading Regulations

Specific regulations have been notified by SEBI to prohibit and penalize insider trading in India. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 (the "**Insider Trading Regulations**"), which came into effect on May 15, 2015, govern the communication of unpublished price sensitive information relating to listed and "proposed to be listed" companies or securities in India. Pursuant to the Insider Trading Regulations, subject to certain exceptions, an insider (i.e., a "connected person" as defined under the Insider Trading Regulations and a person who is in possession of or having access to unpublished price sensitive information) is not allowed to (i) provide, or allow access to any unpublished price sensitive information, relating to a company or securities listed or proposed to be listed, to any person including other insiders except where such communication is in furtherance of legitimate purposes, performance of duties or discharge of legal obligations; and (ii) trade in securities that are listed or proposed to be listed on a stock exchange when in possession of unpublished price sensitive information.

The Insider Trading Regulations define the term “unpublished price sensitive information” to mean any information, relating to a company or its securities, directly or indirectly, that is not generally available which upon becoming generally available, is likely to materially affect the price of its securities and ordinarily includes but is not be restricted to information relating to the following: (a) financial results; (b) dividends; (c) change in capital structure; (d) mergers, de-mergers, acquisitions, de-listings, disposals and expansion of business and such other transactions; (e) changes in key managerial personnel; and (f) material events in accordance with the listing agreement. The Insider Trading Regulations define the term “generally available information” to mean information that is accessible to the public on a non-discriminatory basis.

Buy-back

A company may buy-back its shares subject to compliance with the requirements of Section 68 of the Companies Act and the SEBI (Buy-Back of Securities) Regulations, 1998, as amended (the “SEBI Buy-Back Regulations”). Under Section 68 of the Companies Act, a company may buy its shares out of its free reserves or securities premium account or the proceeds of any new issue of shares or other specified securities, other than proceeds of an earlier issue of the same kind of shares or other specified securities. If such buy-back constitutes more than 10% of the total paid-up equity capital and free reserves of the company, it shall require the approval of shareholders of the company by way of a special resolution. A company buying back its securities is required to extinguish and physically destroy the securities that are bought back within seven days of the last date of completion of the buy-back. The company buying back its securities is not permitted to buy back any securities for a period of one year from the buy-back or to issue the same kind of shares or specified securities (including in a rights issue) for six months from the buy-back except by way of bonus issue or in the discharge of subsisting obligations such as conversion of warrants, stock option schemes, sweat equity or conversion of preference shares or debentures into equity shares.

Other conditions include:

(a) the buy-back must be limited to less than 25% of the total paid-up capital and free reserves accrued in the last year; (b) the ratio of the aggregate secured and unsecured debts owed by the company must be not more than twice the paid-up capital and free reserves after such buy-back; (c) the buy-back must be authorised by the articles of association of the company; and (d) all the shares or other specified securities for buy-back must be fully paid-up.

Under Section 70 of the Companies Act, a company is prohibited from, directly or indirectly, purchasing its own shares or specified securities through any subsidiary company, including its own subsidiary companies, or through any investment company or group of investment companies. In addition, a company is prohibited from, directly or indirectly, purchasing its own shares or specified securities, if a default by the company, in repayment of deposit or interest payable thereon, redemption of debentures or preference shares, payment of dividend to a shareholder, or repayment of any term loan or interest payable thereon to any financial institution or bank is subsisting, or if the company has not complied with certain provisions of the Companies Act.

Under Section 68(5) of the Companies Act, a company may buy-back its shares from (a) existing security holders on a proportionate basis; (b) from the open market; or (iii) from securities issued to employees of the company pursuant to a stock option or sweat equity scheme.

The SEBI Buy-Back Regulations state that if the buy-back is from the open market then such buy-back may be through (a) the book building process; or (b) through a recognized stock exchange. This Offering Memorandum shall not be distributed or circulated in India. Under the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations, 2014, as amended from time to time, ("**SEBI FPI Regulations**"), foreign portfolio investors registered with SEBI ("**FPIs**") may not issue, subscribe to or otherwise deal in offshore derivative instruments (defined under the SEBI FPI Regulations, as any instrument, by whatever name called, which is issued overseas by a foreign portfolio investor against securities held by it that are listed or proposed to be listed on any recognized stock exchange in India, as its underlying security, and are referred to herein as "**P-Notes**") directly or indirectly, unless (i) such offshore derivative instruments are issued only to persons who are regulated by an appropriate foreign regulatory authority; and (ii) such offshore derivative instruments are issued after compliance with 'know your client' norms. Provided that an unregulated broad-based fund, which is classified as a Category II FPI by virtue of its investment manager being appropriately regulated shall not issue, subscribe or otherwise deal in offshore derivatives instruments directly or indirectly. Additionally, Category III FPIs (as defined in the SEBI FPI Regulations) are not permitted to

issue, subscribe or otherwise deal in P-Notes, either directly or indirectly. An FPI is also required to ensure that no further issue or transfer of any offshore derivative instrument is made by or on behalf of it to any persons that are not regulated by an appropriate foreign regulatory authority. Further, FPIs are required to fully disclose to SEBI any information concerning the terms of and parties to off-shore derivative instruments such as P-Notes, equity linked notes or any other such instruments, by whatever names they are called, entered into by it relating to any securities listed or proposed to be listed in any stock exchange in India.

Additionally, according to a circular issued by the SEBI on November 24, 2014, the investment restrictions applicable to FPIs shall also apply to subscribers of offshore derivative instruments. Two or more subscribers of offshore derivative instruments having a common beneficial owner shall be considered together as a single subscriber of the offshore derivative instrument. In the event an investor has investments as an FPI and as a subscriber of offshore derivative instruments, such investment restrictions shall apply on the aggregate of the FPI and offshore derivative instrument investments held in the underlying Indian company. Further, FPIs may issue offshore derivative instruments only to those subscribers which do not have an opaque structure (as defined in the SEBI FPI Regulations).

Please note that any P-Notes issued under the erstwhile Securities and Exchange Board of India (Foreign Institutional Investors) Regulations, 1995 are deemed to have been issued under the corresponding provisions of the SEBI FPI Regulations. P-Notes have not been and are not being offered or sold pursuant to this Offering Memorandum. This Offering Memorandum does not contain and this Offering Memorandum will not contain any information concerning any P-Notes or the issuer(s) of any P-Notes, including, without limitation, any information regarding any risk factors relating thereto.

Our Company, the Selling Shareholders and the Underwriters and their respective affiliates do not make any recommendation as to any investment in P-Notes and do not accept any responsibility whatsoever in connection with any P-Notes.

Prospective investors interested in purchasing any P-Notes have the responsibility to obtain adequate disclosure as to the issuer(s) of any P-Notes and the terms and conditions of any such P-Notes from the issuer(s) of such P-Notes. Neither the SEBI nor any other regulatory authority has reviewed or approved any P-Notes or any disclosure related thereto. Prospective investors are urged to consult with their own financial, legal, accounting and tax advisors regarding any contemplated investment in P-Notes, including whether P-Notes are issued in compliance with applicable laws and regulations, including, without limitation, Indian laws, rules, regulations and guidelines applicable to P-Notes.

In addition, associates and affiliates of the Underwriters may or may not issue P-Notes against Equity Shares allocated to them in the Offer. Such associates and affiliates of the Underwriters may receive commission and other fees in connection with the issuance, offer and sale of P-notes.

We are incorporated in India, and consequently, our financial performance and the market price of our Equity Shares will be affected by changes in exchange rates and controls, interest rates, Government of India (the “**Government**”) policies, including taxation policies, as well as political, social and economic developments affecting India.

Currency exchange rate fluctuations may affect the value of the Equity Shares.

The exchange rate between the Rupee and other foreign currencies, including the U.S. Dollar, the Euro, the Hong Kong Dollar, Pound Sterling, Renminbi, the Singapore Dollar and the Japanese Yen, has changed substantially in recent years and may fluctuate substantially in the future. Fluctuations in the exchange rate between the foreign currencies with which an investor may have purchased Rupees may affect the value of your investment in our Equity Shares. Specifically, if there is a change in relative value of the Rupee to the U.S. Dollar or another foreign currency, each of the following values will also be affected:

- The foreign currency equivalent of the Rupee trading price of our Equity Shares in India;
- The foreign currency equivalent of the proceeds that you would receive upon the sale in India of any of our Equity Shares; and
- The foreign currency equivalent of cash dividends, if any, paid in Rupees on our Equity Shares.

You may be unable to convert Rupee proceeds into a foreign currency of your choice or the rate at which any such conversion could occur could fluctuate. In addition, our market valuation could be seriously harmed by the devaluation of the Rupee if investors in jurisdictions outside India analyze its value based on the relevant foreign currency equivalent of our financial condition and results of operations.

It may not be possible for you to enforce any judgment obtained outside India against us or our directors and executive officers in India, except by way of a suit in India on such judgment.

We are incorporated under the laws of India and our directors and most of our executive officers reside in India. In addition, all of our assets, and the assets of some of our directors and officers and of the experts named in this Offering Memorandum are located in India. As a result, you may be unable to:

- effect service of process outside India upon us, and these other persons or entities; or

- enforce foreign judgments obtained in the courts outside India against us and these other persons or entities, including judgments predicated upon the civil liability provision of the securities laws of foreign jurisdictions.

India has reciprocal recognition and enforcement of judgments in civil and commercial matters with a limited number of jurisdictions, including the United Kingdom, Singapore and Hong Kong. The United States and India do not currently have a treaty providing for reciprocal recognition and enforcement of judgments (other than arbitration awards) in civil and commercial matters. In the case of reciprocating territories, a judgment of a court outside India may be enforced either by initiating execution proceedings pursuant to Section 44A of the Code of Civil Procedure, 1908, as amended (the “**Civil Code**”) or by a suit upon it. However, in the case of a non-reciprocating territory such as the United States, a judgment of a court outside India may be enforced in India only by a suit upon the judgment, subject to Section 13 of the Civil Code and not by proceedings in execution. For more information, see “Enforcement of Civil Liabilities” in this international wrap on page W-15.

There may be less information available about companies listed on Indian securities markets than companies listed on securities markets in other countries.

After completion of the Offer, our Equity Shares will be publicly listed on the Stock Exchanges, which are located in India. The Equity Shares will not be listed on any stock exchange in any country outside India. There is a difference between the level of regulation and monitoring of the Indian securities markets and the activities of investors, brokers and other participants in those markets, and that of markets in the United States and certain other countries. SEBI is responsible for setting standards for disclosure and other regulatory standards for the Indian securities markets. While SEBI has issued regulations and guidelines on disclosure requirements, insider trading and other matters, there may be less publicly available information about Indian companies than is regularly made available by public companies in other economies. As a result, you may have access to less information about our business, results of operations and financial condition, and those of our competitors that are listed on Indian stock exchanges, on an ongoing basis, than you may in the case of companies subject to the reporting requirements of other countries.

A third party could be prevented from acquiring control of us because of the Indian laws applicable to takeovers.

There are provisions in Indian law that may delay, deter or prevent a takeover, substantial acquisition, or change in control of the Company, even if a change in control would result in the purchase of your Equity Shares at a premium to the market price or would otherwise be beneficial to you. Under Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011 (“**Takeover Regulations**”) an acquirer has been defined as any person who, directly or indirectly, acquires or agrees to acquire shares or voting rights or control over a company, whether individually or acting in concert with others. Although these provisions have been formulated to ensure that interests of investors/shareholders are protected, these provisions may also prevent a third party from attempting to take control of or substantially acquire our Company. Consequently, even if a potential takeover or substantial acquisition of our Company would result in the purchase of the equity shares at a premium to their market price or would otherwise be beneficial to its stakeholders, it is possible that such a takeover would not be attempted or consummated because of Takeover Regulations.

Under the Takeover Regulations, if an acquirer (together with any persons acting in concert with him): (a) acquires shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company; or (b) already holds shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company, and acquires shares or voting rights entitling them to exercise more than 5% of the voting rights in the listed company during any financial year; or (c) acquires control directly or indirectly over a listed company, such acquirer will have to make an open offer for at least 26% of the total shares of the listed company

The Takeover Regulations also prohibit any acquirer from acquiring or entering into any agreement to acquire shares or voting rights exceeding such number of shares as would take the aggregate shareholding pursuant to such acquisition above the maximum permissible non-public shareholding.

For further details, see the section “The Securities Market of India—Takeover Regulations” on page number W-28 of this Offering Memorandum.

Changes in Government policies could adversely affect economic conditions in India.

Our income is derived from operations in India and our business, results of operations, financial condition and prospects are affected by the Indian economy and the Indian financial markets. Consequently, changes in Government policies which affect the economic conditions or financial markets in India may affect us, and the market price and liquidity of the Equity Shares. For example, the imposition of foreign exchange controls, rising interest rates, increases in taxation or the creation of new regulations could have a detrimental effect on the Indian economy generally and therefore could have a material adverse effect on our business, results of operations, financial condition and prospects.

The Government has in recent years sought to implement economic reforms, and the current Government has implemented policies and undertaken initiatives that continue the economic liberalisation policies pursued by previous governments. For example, the Government has announced its general intention to continue India's current economic and financial sector deregulation policies and encourage infrastructure projects. However, the roles of the Government and the state governments in the Indian economy as producers, consumers and regulators have remained significant and there can be no assurance that liberalisation policies will continue in the future. Any significant change in such liberalisation and deregulation policies could adversely affect business and economic conditions in India generally and our business, results of operations, financial condition and prospects could be negatively impacted in particular.

Risks Related to Our Equity Shares and the Trading Market

Your ability to acquire and sell Equity Shares is restricted by the distribution and transfer restrictions set forth in this international wrap.

No actions have been taken to permit a public offering of the Equity Shares in any jurisdiction except India. As such, the Equity Shares have not and will not be registered under the Securities Act, any state securities laws or the law of any jurisdiction other than India. Furthermore, the Equity Shares are subject to restrictions on transferability and resale. You are required to inform yourself about and observe these restrictions. See "Distribution and Solicitation Restrictions" and "Purchaser Representations and Transfer Restrictions" in this international wrap on pages W-18 and W-24, respectively. Our Company, the Selling Shareholders, the BRLMs and their respective officers, directors, representatives, agents, affiliates, associates will not be obligated to recognize any acquisition, transfer or resale of the Equity Shares made other than in compliance with the restrictions set forth herein and future accepts no responsibility or liability for advising any investor on whether such investor is eligible to acquire the Equity Shares.

You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Capital gains arising from the sale of shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if the Securities Transaction Tax ("STT") has been paid on the transaction. The STT will be levied on and collected by a domestic stock exchange on which equity shares are sold. Any gain realized on the sale of equity shares held for more than 12 months to an Indian resident, which are sold other than on a recognized stock exchange and as result of which no STT has been paid, will be subject to capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to capital gains tax in India.

Capital gains arising from the sale of our Equity Shares will be exempt from tax in India in cases where such exemption is provided under the tax treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties, including those with the United States, do not limit India's ability to impose tax on capital gains. As a result, residents of such countries may be liable for tax in India, as well as in their own jurisdictions on gain upon a sale of our Equity Shares.

Your ability to acquire or transfer your Equity Shares is restricted under Indian law.

Indian laws contain restrictions on the acquisition and transfer of Indian securities by persons resident outside of India. See for example the section entitled "Offer Procedure" in the attached Prospectus on page 396 for restrictions on acquisitions by FIIs and foreign venture capital investors ("FVCIs").

There are certain restrictions and there may be prior approval and/or notification requirements with respect to the sale or acquisition of equity shares of an Indian company. If any approval is required, there can be

no assurance that any approval will be obtained in a timely manner or at all. Because of possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains when prices increase or limiting losses when prices decline. For more information, see “Restriction on Foreign Ownership of Indian Securities” in Prospectus on page [W-442](#).

Under current Indian regulations and practice, approval of the RBI is required for the sale of Equity Shares by a non-resident to a resident of India, unless the sale is made on a stock exchange in India through a stock broker or a merchant banker registered with SEBI, at the market price or in terms of the pricing guidelines specified by RBI in case of an off-market transfer. If the Equity Shares are thinly traded, then certain other pricing guidelines specified by RBI must be followed. Prior to the repatriation of sale proceeds, certain filings must be made with an authorized dealer (bank) remitting the proceeds along with certain documents, including an undertaking from the resident buyer in the prescribed form stating that the pricing guidelines have been adhered to and a no objection/tax clearance certificate from the income tax authority or an accountant. If any approvals are required from the RBI or any other government agency, they may not be obtained on terms favourable to a non-resident investor or at all. Our Company, the Selling Shareholders, the BRLMs and their respective officers, directors, representatives, agents, affiliates, associates cannot guarantee that any approval, if required, will be obtained in a timely manner or at all. Because of possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increases or limiting losses during periods of price declines. For more information, see “Restriction on Foreign Ownership of Indian Securities” in Prospectus on page [W-442](#).

Conditions in the Indian securities market may affect the price or liquidity of the Equity Shares.

The Indian securities markets are smaller than securities markets in certain other economies and may be more volatile than the securities markets in other countries. Indian stock exchanges have in the recent past experienced substantial fluctuations in the prices of listed securities. Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies. These problems have included temporary exchange closures, broker defaults, settlement delays and strikes by brokers. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. Further, from time to time, disputes have occurred between listed companies and the Indian stock exchanges and other regulatory bodies that, in some cases, have had a negative effect on market sentiment. Similar problems could occur in the future and, if they do, they could harm the market price and liquidity of the Equity Shares.

Economic developments and volatility in securities markets in other countries may cause the price of our Equity Shares to decline.

The Indian economy and its securities markets are influenced by economic developments and volatility in securities markets in other countries. Investors’ reactions to developments in one country may have adverse effects on the market price of securities of companies located in other countries, including India. For instance, economic downturns in the United States and several European countries have in the past adversely affected market prices in the world’s securities markets, including Indian securities markets. Negative economic developments, such as rising fiscal or trade deficits, or a default on national debt, in other emerging market countries may negatively affect investor confidence and cause increased volatility in Indian securities markets and indirectly affect the Indian economy in general. For more information on the securities market in India, see the section titled “The Securities Market of India” in this international wrap on page W-28.

ENFORCEMENT OF CIVIL LIABILITIES

The Company is a public limited company under the laws of India. All the Directors and executive officers are residents of India and all our assets and such persons are located in India. As a result, it may be difficult or may not be possible for investors to affect service of process upon our Company, the Company's Directors and executive officers or such persons outside India, or to enforce judgments obtained against such parties outside India.

India is not a party to any international treaty in relation to the recognition or enforcement of foreign judgments. Recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of the Civil Code.

A judgment of a court in a jurisdiction which is not a reciprocating territory may be enforced in India only by a suit upon the judgment, subject to Section 13 of the Civil Code and not by proceedings in execution. Section 13 of the Civil Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), provides that a foreign judgment shall be conclusive as to any matter thereby directly adjudicated upon between the same parties or between parties under whom they or any of their classes litigating under the same title except: (i) where it has not been pronounced by a court of competent jurisdiction, (ii) where it has not been given on the merits of the case, (iii) where it appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable, (iv) where the proceedings in which the judgment was obtained were opposed to natural justice, (v) where it has been obtained by fraud, or (vi) where it sustains a claim founded on a breach of any law in force in India.

Section 44A of the Civil Code provides that where a foreign judgment has been rendered by a court in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the Civil Code is applicable only to monetary decrees or judgments not being in the nature of any amounts payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalty, and does not include arbitration awards. The United Kingdom, Singapore and Hong Kong have been declared to be reciprocating territories within the meaning of Section 44A of the Civil Code by the Government. The United States has not been declared by the Government to be a reciprocating territory for the purposes of Section 44A of the Civil Code. Under Section 14 of the Civil Code, a court in India shall, upon the production of any document purporting to be a certified copy of a foreign judgment, presume that the judgment was pronounced by a court of competent jurisdiction, unless the contrary appears on record; but such presumption may be displaced by proving want of jurisdiction.

The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain RBI approval to repatriate any amount out of India pursuant to such judgment.

In addition, any judgment in a foreign currency would be converted into Rupees on the date of the judgment and not on the date of payment. The Company cannot predict whether a suit brought in an Indian court will be disposed off in a timely manner..

PLAN OF DISTRIBUTION

Underwriting Agreement

After the determination of the Offer Price but prior to the filing of the Prospectus with the RoC, our Company and the Selling Shareholders will enter into an Underwriting Agreement with the Underwriters for the Equity Shares proposed to be offered through the Offer. It is proposed that pursuant to the terms of the Underwriting Agreement, the BRLMs will be responsible for bringing in the amount devolved, in the event any of its or their Syndicate Members do not fulfil their underwriting obligations. Pursuant to the terms of the Underwriting Agreement, the obligations of the Underwriters will be several and will be subject to certain conditions to closing, as specified therein. The Underwriting Agreement is dated February 5, 2016.

Subject to certain conditions, we will agree to indemnify the Underwriters against certain liabilities, including certain liabilities under the U.S. securities laws.

Offers or sales of the Equity Shares in the United States will be made solely by broker-dealers who are registered as such under the U.S. Securities Exchange Act.

This Offer will also be in compliance with the SEBI ICDR Regulations. The Equity Shares are not transferable except in accordance with applicable Indian laws, regulations, rules and guidelines described under “Other Regulatory and Statutory Disclosures” on page 371 in the attached Prospectus.

For more information on the Underwriting Agreement, see “**General Information—Underwriting Agreement**” on page 71 in the attached Prospectus.

Indicative Timetable for Listing

The Offer will be conducted through a book building process as set out in Schedule XI of the ICDR Regulations, and pursuant to which the Underwriters will accept bids for the Equity Shares during the Bid/Offer Period. Following the expiration of the Bid/Offer Period, the Company and the Selling Shareholders will, in consultation with the Book Running Lead Managers, determine the Offer Price and the Offer size, and, in consultation with the Book Running Lead Managers and the Designated Stock Exchange, will determine the basis of allocation and entitlement to allotment. The Prospectus (as such term is defined in the attached Prospectus) will then be filed with the Registrar of Companies and Stock Exchanges and made available to investors.

The Company proposes to complete the allotment to successful bidders within four Working Days of the expiration of the Bid/Offer Period. The Equity Shares will then be credited and allotted to the investors’ demat accounts maintained with the relevant depository participants. Upon receipt of final listing and trading approval of the Stock Exchanges, the Equity Shares will be listed and trading will commence. The Company shall use its best efforts to ensure that all steps for completion of the necessary formalities for listing and commencement of trading at all the Stock Exchanges where the Equity Shares are proposed to be listed, are taken within six Working Days of the Bid/Offer Closing Date.

An indicative timetable is set out below in respect of this Offer:

FINALISATION OF BASIS OF ALLOTMENT	On or before February 09, 2016
INITIATION OF REFUNDS FOR ANCHOR INVESTORS/UNBLOCKING OF FUNDS	On or before February 10, 2016
CREDIT OF EQUITY SHARES TO DEPOSITORY ACCOUNTS	On or before February 11, 2016
COMMENCEMENT OF TRADING	On or before February 12, 2016

The above timetable is indicative only as it assumes that the date of listing of the Equity Shares offered for the proposed public Offer, on the BSE and the NSE is on or about February 12, 2016. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges.

The Company has obtained in-principle approvals for the listing and quotation of the Equity Shares on the BSE and the NSE pursuant to their letters dated September 30, 2015 and September 29, 2015, respectively.

Sale Restrictions

Indian regulations require that 20% of an issuer's post-Offer share capital held by its Promoters cannot be sold or transferred for a period of three years from the date of allotment of the equity shares sold in the Offer. For details of our Promoters' contribution locked-in for three years, please read "*Capital Structure – Notes to Capital Structure*" on page 73 in the attached Prospectus.

In terms of SEBI ICDR Regulations, the locked-in Equity Shares held by the Promoters can be pledged only with scheduled commercial banks or public financial institutions as collateral security for any loans granted by such banks or financial institutions subject to certain conditions.

In addition, the entire pre-Offer Equity Share capital of the Company shall be locked-in for a period of one year from the date of Allotment in the Offer, except (I) the Equity Shares subscribed to and Allotted pursuant to the Offer for Sale; and (II) the Equity Shares held by GCIF and IAF, being registered VCFs will be exempt from any regulatory lock-in. For more information, see "*Capital Structure*" on page 73 in the attached Prospectus.

Other Relationships

The Underwriters and their respective affiliates have performed and may in the future perform investment banking, commercial banking or advisory services for the Company or its affiliates from time to time for which they have received or will receive customary fees and expenses. In addition, any Underwriter may, from time to time, engage in transactions with and perform services for the Company or its affiliates in the ordinary course of business.

THE SECURITIES MARKET OF INDIA

The information in this section has been extracted from publicly available documents from various sources, including officially prepared materials from the SEBI, the BSE and the NSE, and has not been prepared or independently verified by the Company, the Selling Shareholders or the Underwriter or any of its affiliates or advisors.

Indian Stock Exchanges

Indian stock exchanges are regulated primarily by the SEBI, as well as by the Government of India acting through the Ministry of Finance, Capital Markets Division, under the Securities Contract (Regulation) Act, 1956 (the “**SCRA**”) and Securities Contract (Regulation) Rules, 1957 (the “**SCRR**”), as amended. SEBI, in exercise of its powers under the SCRA and the Securities and Exchange Board of India Act, 1992 (“**SEBI Act**”) notified the Securities Contracts (Regulation) (Stock Exchanges and Clearing Corporations) Regulations, 2012 (“**SCR SECC Regulations**”), which regulate inter alia the recognition, ownership and internal governance of stock exchanges and clearing corporations in India together with providing for minimum capitalization requirements for stock exchanges. Various rules, bye-laws and regulations of the respective stock exchanges regulate the recognition of stock exchanges, the qualifications for membership thereof and the manner in which contracts are entered into, settled and enforced between members are regulated by the SCRA, the SCRR, the SCR SECC Regulations together with the rules, by-laws and regulations of the respective stock exchanges.

SEBI was established under the SEBI Act as amended, to regulate the Indian securities markets, including stock exchanges and other intermediaries, promote and monitor self-regulatory organizations and prohibit fraudulent and unfair trade practices. SEBI is empowered under the SEBI Act to regulate the Indian securities markets, including stock exchanges and other intermediaries, promote and monitor self-regulatory organizations and prohibit fraudulent and unfair trade practices. Regulations concerning minimum disclosure requirements by public companies, rules and regulations concerning investor protection, insider trading, substantial acquisitions of shares and takeovers of companies, buybacks of securities, employee stock option schemes, stockbrokers, merchant bankers, underwriters, mutual funds, foreign portfolio investors, credit rating agencies and other capital market participants have been notified by the relevant regulatory authority.

Most of the stock exchanges in India have their own governing board for self regulation. The BSE and the NSE together hold a dominant position among the stock exchanges in terms of the number of listed companies, market capitalization and trading activity.

Listing

The listing of securities on recognized Indian stock exchanges is regulated by the Companies Act, SCRA, the SCRR, the SEBI Act, Companies Act, the SEBI (Listing Obligations and Disclosure Requirements) Regulations, and various regulations issued, and regulations framed, by SEBI and the listing agreements of the respective stock exchanges. SEBI has notified the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015 which came into effect on December 1, 2015 and subsumes the existing laws governing listing in India. The governing body of each stock exchange is empowered to suspend or withdraw admission to dealing in a listed security for breach of or non-compliance with any of the conditions of the listing agreement or for any other reason, subject to the issuer receiving prior notice of the intent of the exchange and upon being granted a hearing in the matter. The Securities Appellate Tribunal established under the SEBI Act, after providing the stock exchange an opportunity of being heard, has the power to vary or set aside the decision of the stock exchange in this regard. SEBI also has the power to amend such listing agreements and the bye-laws of the stock exchanges in India.

Pursuant to an amendment of the SCRR notified on February 25, 2015, the definition of “public shareholding” was amended to mean equity shares of a company held by public including shares underlying the depository receipts if the holder of such depository receipts has the right to issue voting instruction and such depository receipts are listed on an international exchange in accordance with the Depository Receipts Scheme, 2014 and exclude the equity shares of a company held by the trust set up for implementing employee benefit schemes in terms of the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014. Consequently, if the public shareholding in a listed company falls below 25% pursuant to such amended definition, a company is required to increase its public shareholding to at least 25% within a period of three years from the date of notification of Depository Receipts Scheme, 2014 or the Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014, as the case may be.

Index-Based Market-Wide Circuit Breaker System

Market-Wide Index-Based Circuit Breakers

Daily circuit breakers do not allow transactions beyond a certain level of price volatility. The index-based market-wide circuit breaker system (equity and equity derivatives) applies at three stages of the index movement, at 10%, 15% and 20%. These circuit breakers, when triggered, bring about a co-ordinated trading halt in all equity and equity derivative markets nationwide. The market-wide circuit breakers are triggered by movement of either the SENSEX of the BSE or the S&P CNX NIFTY of the NSE, whichever is breached earlier.

Price Bands

In addition to the market wide index based circuit filters, there are individual scrip wise price bands of 20% either way, for all scrips in the compulsory rolling settlement except for the scrips on which derivatives products are available or scrips included in indices on which derivative products are available. Appropriate individual scrip wise price bands upto 20% are applicable on those scrips on which no derivatives products are available but which are part of Index Derivatives.

BSE

Established in 1875, it is the oldest stock exchange in India. In 1956, it became the first stock exchange in India to obtain permanent recognition from the Government under the SCRA. It has evolved over the years into its present status as one of the premier stock exchange of India.

NSE

The NSE was established by financial institutions and banks to serve as a national exchange and to provide nationwide on-line satellite-linked screen-based trading facilities with electronic clearing and settlement for securities including government securities, debentures, public sector bonds and units. It has evolved over the years into its present status as one of the premier stock exchange of India. The NSE was recognised as a stock exchange under the SCRA in April 1993 and commenced operations in the wholesale debt market segment in June 1994.

Internet-based Securities Trading and Services

Internet trading takes place through order routing systems, which route client orders to exchange trading systems for execution. Stockbrokers interested in providing this service are required to apply for permission to the relevant stock exchange and also have to comply with certain minimum conditions stipulated under applicable law. The NSE became the first exchange to grant approval to its members for providing internet-based trading services. Internet trading is possible on both the “equities” as well as the “derivatives” segments of the NSE.

Trading Hours

Trading on both the BSE and the NSE occurs from Monday through Friday, from 9.15 a.m. to 3.30 p.m. The BSE and the NSE are closed on public holidays. The recognised stock exchanges have been permitted to set their own trading hours (in cash and derivatives segments) subject to the condition that (i) the trading hours are between 9:00 a.m. and 5:00 p.m.; and (ii) the stock exchange has in place risk management system and infrastructure commensurate to the trading hours.

Trading Procedure

In order to facilitate smooth transactions, the BSE replaced its open outcry system with BSE On-line Trading (“BOLT”) facility in 1995. This totally automated screen based trading in securities was put into practice nation-wide. This has enhanced transparency in dealings and has assisted considerably in smoothening settlement cycles and improving efficiency in back-office work. NSE also provides on-line trading facility through the National Exchange for Automated Trading (“NEAT”).

Disclosures under the Companies Act 2013 and SEBI ICDR Regulations

Under the Companies Act 2013, a public offering of securities in India must be made by means of a prospectus, which must contain information specified in the Companies Act and the SEBI ICDR Regulations. The prospectus must be filed with the Registrar of Companies having jurisdiction over the place where a company's registered office is situated, which in our case is currently the Registrar of Companies, Maharashtra, located in Mumbai. A company's directors and promoters shall be subject to civil and criminal liability for misrepresentation in a prospectus. The Companies Act 2013 also sets forth procedures for the acceptance of subscriptions and payment of commission rates for the sale of securities. Pursuant to the provisions of the SEBI Act, the SEBI has issued detailed guidelines concerning disclosures by public companies and to further investor protection. The SEBI ICDR Regulations permit companies to price their domestic issues of securities in consultation with the lead merchant banker or through the book building process. All companies, including public limited companies, are required under the Companies Act to prepare, file with the Registrar of Companies and circulate to their shareholders audited annual accounts, which comply with the disclosure requirements of the Companies Act and regulations governing their manner of presentation, which include sections pertaining to corporate governance and the management's discussion and analysis. In addition, a listed company is subject to continuing disclosure requirements pursuant to the terms of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 with the relevant stock exchange, including the requirement to publish un-audited financial statements on a quarterly basis, and is required to inform stock exchanges immediately regarding any stock price-sensitive information.

Takeover Regulations

Disclosure and mandatory bid obligations for listed Indian companies under Indian law are governed by the specific regulations in relation to substantial acquisition of shares and takeover. After listing on the Stock Exchanges, the provisions of the Takeover Regulations will apply to the Company. Once the equity shares of a company are listed on a stock exchange in India, the provisions of the Takeover Regulations will apply to any acquisition of the company's shares/voting rights/control. The Takeover Regulations prescribes certain thresholds or trigger points in the shareholding a person or entity has in the listed Indian company, which give rise to certain obligations on part of the acquirer. Acquisitions up to a certain threshold prescribed under the Takeover Regulations mandate specific disclosure requirements, while acquisitions crossing particular thresholds may result in the acquirer having to make an open offer of the shares of the target company. The Takeover Regulations also provide for the possibility of indirect acquisitions, imposing specific obligations on the acquirer in case of such indirect acquisition.

The Takeover Code requires that if an acquirer (together with any persons action in concert with him): (a) acquires shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company; or (b) already holds shares or voting rights entitling them to exercise 25% or more of the voting rights in a listed company, and acquires shares or voting right entitling them to exercise more than 5% of the voting rights in the listed company during any financial year; or (c) acquires control directly or indirectly over a listed company, such acquirer will have to make an open offer for at least 26% of the total shares of the listed company. These provisions may discourage or prevent certain types of transactions involving an actual or threatened change in control of the Company even if a change in control would result in the purchase of the Equity Shares at a premium to the trading price or would otherwise be beneficial to the holders of the Equity Shares.

Insider Trading Regulations

Specific regulations have been notified by SEBI to prohibit and penalize insider trading in India. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015 (the "**Insider Trading Regulations**"), which came into effect on May 15, 2015, govern the communication of unpublished price sensitive information relating to listed and "proposed to be listed" companies or securities in India. Pursuant to the Insider Trading Regulations, subject to certain exceptions, an insider (i.e., a "connected person" as defined under the Insider Trading Regulations and a person who is in possession of or having access to unpublished price sensitive information) is not allowed to (i) provide, or allow access to any unpublished price sensitive information, relating to a company or securities listed or proposed to be listed, to any person including other insiders except where such communication is in furtherance of legitimate purposes, performance of duties or discharge of legal obligations; and (ii) trade in securities that are listed or proposed to be listed on a stock exchange when in possession of unpublished price sensitive information.

The Insider Trading Regulations define the term “unpublished price sensitive information” to mean any information, relating to a company or its securities, directly or indirectly, that is not generally available which upon becoming generally available, is likely to materially affect the price of its securities and ordinarily includes but is not restricted to information relating to the following: (a) financial results; (b) dividends; (c) change in capital structure; (d) mergers, de-mergers, acquisitions, de-listings, disposals and expansion of business and such other transactions; (e) changes in key managerial personnel; and (f) material events in accordance with the listing agreement. The Insider Trading Regulations define the term “generally available information” to mean information that is accessible to the public on a non-discriminatory basis.

Buy-back

A company may buy-back its shares subject to compliance with the requirements of Section 68 of the Companies Act and the SEBI (Buy-Back of Securities) Regulations, 1998, as amended (the “SEBI Buy-Back Regulations”). Under Section 68 of the Companies Act, a company may buy its shares out of its free reserves or securities premium account or the proceeds of any new issue of shares or other specified securities, other than proceeds of an earlier issue of the same kind of shares or other specified securities. If such buy-back constitutes more than 10% of the total paid-up equity capital and free reserves of the company, it shall require the approval of shareholders of the company by way of a special resolution. A company buying back its securities is required to extinguish and physically destroy the securities that are bought back within seven days of the last date of completion of the buy-back. The company buying back its securities is not permitted to buy back any securities for a period of one year from the buy-back or to issue the same kind of shares or specified securities (including in a rights issue) for six months from the buy-back except by way of bonus issue or in the discharge of subsisting obligations such as conversion of warrants, stock option schemes, sweat equity or conversion of preference shares or debentures into equity shares.

Other conditions include:

(a) the buy-back must be limited to less than 25% of the total paid-up capital and free reserves accrued in the last year; (b) the ratio of the aggregate secured and unsecured debts owed by the company must be not more than twice the paid-up capital and free reserves after such buy-back; (c) the buy-back must be authorised by the articles of association of the company; and (d) all the shares or other specified securities for buy-back must be fully paid-up.

Under Section 70 of the Companies Act, a company is prohibited from, directly or indirectly, purchasing its own shares or specified securities through any subsidiary company, including its own subsidiary companies, or through any investment company or group of investment companies. - We operate in a highly competitive and fragmented industry with low barriers to entry and may be unable to compete successfully against existing or new competitors, particularly in the unorganized segment.***

The staffing services market is highly fragmented and competitive. We compete in national and regional markets with both full-service and specialized temporary staffing companies. While a majority of our competitors are smaller than us in terms of revenues and number of Associate Employees, several competitors, including the Indian affiliates or India-based operations of global players such as Adecco S.A., Manpower Inc., Randstad Holding N.V. and Kelly Services, Inc. and Indian human resources companies such as Quess Corp Limited, have substantial marketing and financial resources at their disposal. We also face competition from various regional players. Price competition in the staffing industry is intense, particularly for qualified industrial personnel. We expect that the level of competition will remain high, which could directly impact the size of our workforce and therefore potentially limit our ability to maintain or increase our market share or profitability. We also face the risk of our current or prospective clients deciding to utilize their internal workforce or use independent contractors or service providers in the unorganized segment. Our continued success depends on our ability to compete effectively against our existing and future competitors. With the potential influx of new competitors, our ability to retain our existing clients and to attract new clients is critical to our continued success. As a result, there can be no assurance that we will not encounter increased competition in the future. Nor can there be any assurance that our Company will, in light of competitive pressures, be able to remain profitable or, if profitable, maintain its current profit margins. Further, our global competitors might be able to realign themselves with change in global macro-economic environment more effectively than us.

- Our business is significantly affected by fluctuations in general economic activity.***

Demand for staffing services is significantly affected by the general level of commercial activity and economic conditions in the regions and sectors in which we operate. An economic downturn in a region or sector in which we operate may adversely affect our operations in that region or sector, as the use of temporary employees may decrease or fewer permanent employees may be hired. Many of our Company's top clients are multi-national corporations, and a downturn in the global markets may adversely affect their operations, thereby affecting our business, financial conditions or results of operations. When economic activity increases, temporary employees or contract workers are often added before full-time employees are hired. During period of economic downturn, however, many companies reduce their use of temporary employees before laying off full-time employees. We may also experience more competitive pricing pressure during periods of economic downturn. Also, declining unemployment levels can make it harder for us to identify Associate Employees to place with our clients. Any significant economic downturns, such as those in 2008 and 2009, in India or in the global markets could have a material adverse effect on our business, financial condition and results of operations.

4. ***Our business is subject to extensive government regulation, which may restrict the types of services we are permitted to offer or result in additional tax or other costs that reduce our revenues and earnings.***

The staffing services sector is subject to complex laws and regulations. These laws and regulations cover the following such as Minimum Wages Act, ESI Act, CLRA Act, EPF Act and ID Act, which vary from state to state in India and are subject to change. These laws and regulations sometimes limit the size and growth of staffing services markets. Changes in laws or government regulations may result in prohibition or restriction of certain types of employment services we are permitted to offer, or the imposition of new or additional licensing or tax requirements that could reduce our revenues and earnings. There can be no assurance that we will be able to increase the fees charged to our clients in a timely manner and by a sufficient amount to cover increased costs as a result of any changes in laws or government regulations. Any future changes in laws or government regulations, including changes in tax laws and rates of taxation, may make it more onerous for us to provide staffing services and could have a material adverse effect on our business, financial condition and results of operations. Further, labour laws in India are complex and subject to sporadic change, and non-compliance with any requirements thereunder may result in penalties, loss of business and damage to our reputation. In particular, a large portion of our Associate Employee base is unskilled or semi-skilled workers whose wages are at or slightly above the prescribed minimum wage levels. In the event that regional minimum wage levels are increased by relevant Governmental authorities and we are not immediately made aware of these changes, there could be short periods of time when we could be technically non-compliant with minimum wage rules and regulations, until our clients absorb the increase in wages.

For further details on the laws and regulations applicable to us, please refer to the section “Regulations and Policies” on page 142. These effects may occur notwithstanding the assurance over key risks that our internal processes to identify risks, allocate risk owners and monitor actions provide.

5. ***Loss of major clients or the deterioration of their financial condition or prospects could have a material adverse effect on our business.***

The business contribution of our top five clients for the years ended March 31, 2013, 2014 and 2015 are 13.20%, 13.86% and 17.64% respectively of our Revenue from Operations (Gross). While our strategy is intended to enable us to increase our revenues and earnings from our major corporate clients, the strategy also exposes us to increased risks arising from the possible loss of major clients accounts. In addition, some of our clients are in industries that have experienced adverse business and financial conditions during economic downturn. The deterioration of the financial condition or business prospects of these clients could reduce their need for temporary employment services, and result in a significant decrease in the revenues and earnings we derive from these clients. Since receipts from clients generally are made after we pay salaries to Associate Employees, the bankruptcy of a major client could have a material adverse impact on our ability to meet our working capital requirements. Further, as a result of alleged contractual noncompliance, we could be excluded from participating in government contracts.

6. ***We may be unable to fully realize the anticipated benefits of any future acquisitions successfully or within our intended timeframe.***

Our Company may in the future undertake acquisitions consistent in line with our future growth strategy. The successful implementation of acquisitions depends on a range of factors, including funding arrangements, cultural compatibility and integration. To the extent that we fail to successfully integrate acquisitions with our existing business or should the acquisitions not deliver the intended results as was the case with the acquisition of IIJT, our financial performance could be negatively affected.

Potential difficulties that we may encounter as part of the integration process could *inter-alia* include the following:

- **Á** underestimated costs associated with the acquisition;
- **Á** increased costs of integration;

- the possibility that the full benefits anticipated to result from the acquisition will not be realized;
- over-valuation by us of acquired companies;
- delays in the integration of strategies, operations and services;
- diversion of the attention of our management as a result of the acquisition;
- attrition, differences in business backgrounds, corporate cultures and management philosophies that may delay successful integration;
- retaining key executives and other employees;
- challenges associated with creating and enforcing uniform standards, controls, procedures and policies;
- insufficient indemnification from the selling parties for legal liabilities incurred by the acquired company prior to the acquisition;
- potential unknown liabilities and unforeseen increased expenses or delays associated with the acquisition;
- the disruption of, or the loss of momentum in, our ongoing businesses; and
- changes in regulatory environment.

If we are unable to successfully overcome the potential difficulties associated with the integration process and achieve our objectives following an acquisition, the anticipated benefits and synergies of any future acquisitions may not be realized fully, or at all, or may take longer to realize than expected. Any failure to timely realize these anticipated benefits could have a material adverse effect on our business, financial condition, results of operations or cash flows. Possible impairment losses on goodwill and intangible assets with an indefinite life, or restructuring charges could also occur.

7. *We depend on our ability to attract and retain qualified temporary personnel.*

We depend on our ability to attract qualified temporary personnel who possess the skills and experience necessary to meet the staffing requirements of our clients. We must continually evaluate our base of available qualified personnel to keep pace with changing client needs. Competition for individuals with proven professional skills is intense, and demand for these individuals is expected to remain strong for the foreseeable future. Intense competition may limit our ability to attract and retain the qualified personnel necessary for us to meet our clients' staffing needs. There can be no assurance that qualified personnel will continue to be available in sufficient numbers and on terms of employment acceptable to us. Our success is substantially dependent on our ability to recruit and retain qualified temporary personnel.

8. *Our inability to obtain, renew or maintain our statutory and regulatory permits and approvals required to operate our business may have a material adverse effect on our business, financial condition and results of operations.*

We will be required to renew such permits and approvals in relation to our existing operations and obtain new permits and approvals for any proposed operations as may be required under the applicable laws of the sector or region that we are operating in. There can be no assurance that the relevant authorities will renew or issue any of such permits or approvals in the time-frame anticipated by us or at all. Our failure to renew, maintain or obtain the required permits or approvals may result in the interruption of our operations and may have a material adverse effect on our business, financial condition and results of operations.

Compliance with many of the regulations applicable to our operations may involve incurring significant costs and otherwise may impose restrictions on our operations. We cannot assure you that we will not be subject to any adverse regulatory action in the future. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and the business of our Company could be adversely affected. If we fail to obtain or retain any of these approvals or licenses, or renewals thereof, in a timely manner, or at all, our business may be adversely affected. If we fail to comply, or a regulator claims we have not complied, with any of the terms and conditions stipulated under any of our licenses or permits, one or several of our licenses and certificates may be suspended or cancelled and we shall not be able to carry on the activities permitted thereunder.

9. *We propose to utilize the Net Proceeds to undertake an acquisition for which the target has not been identified.*

We propose to utilize ₹ 250 million from our Net Proceeds towards undertaking an acquisition. However, as the date of filing this Prospectus, we have not entered into any definitive agreements towards such acquisitions or strategic initiatives. The estimates are based solely on management estimates of the amounts to be utilised towards an acquisition, considering our discussions and negotiations with potential targets and partners and other relevant considerations. The actual deployment of funds will depend on a number of factors, including the timing, nature, size and number of strategic initiatives undertaken, as well as general factors affecting our results of operation, financial condition and access to capital. In the interim, the Net Proceeds proposed to be utilized towards this object shall be deposited only in the scheduled commercial banks included in the Second Schedule of the Reserve Bank of India Act, 1934. While we believe that the acquisition will be undertaken during Fiscal 2016, we cannot assure you that the acquisition will be undertaken in a timely manner. For further details in relation to this object, please refer to “Objects of the Offer” on page 90.

10. *If we are unable to identify expansion opportunities or experience delays or other problems in implementing such projects, our growth, business, financial condition, results of operations and prospects may be adversely affected.*

Our growth strategy depends on our ability to acquire and manage new human resource businesses, particularly in the areas of IT staffing, healthcare and hospitality staffing services etc. We have identified a few such opportunities, and are continuously evaluating other projects, including acquisition opportunities, some of which we may realize in the imminent future and which may be material to our business, financial condition or results of operations. Such acquisitions and expansions are capital expenditure intensive. We may not be able to identify suitable acquisition candidates or opportunities, negotiate attractive terms for such projects, or expand, improve and augment our existing businesses. The number of attractive expansion opportunities may be limited, and attractive opportunities may command high valuations for which we may be unable to secure the necessary financing. If we are not able to successfully identify opportunities to build, acquire or expand our additional and existing human resource businesses or if we face difficulties in the process of developing, acquiring or expanding such operations, our business, financial condition, results of operations and prospects may be materially and adversely affected.

11. *Inability to effectively manage our growth and related issues could materially and adversely affect our business and impact our future financial performance.*

During the past few years, we have experienced consistent growth in our staffing business operations. This has occurred primarily through organic growth. Our rapid growth exposes us to a wide range of risks within India, including business risks, operational risks, fraud risks and regulatory and legal risks.

If we are not successful in executing our growth strategy, we may not achieve our planned revenues, therefore negatively impacting future profitability. Our growth strategy may involve significant risks which may have a material adverse effect on our business due to unexpected or underestimated costs. The Company’s ability to continue to grow consistently will depend on and a number of factors beyond its control, including the level of competition for opportunities for inorganic growth and our ability to successfully manage our organic growth.

12. *Due to the nature of the staffing services business, we may be exposed to employment-related claims and losses that could have a material adverse effect on our business and reputation.*

We employ and assign our Associate Employees in the workplaces of our clients. Our ability to control the workplace environment in such circumstances is limited, and the risks associated with these activities, *inter-alia*, include possible claims relating to:

- Á actions or inactions of our Associate Employees, including matters for which we may have to indemnify our client;
- Á discrimination and harassment (including claims relating to actions of our clients);
- Á wrongful termination or retaliation;
- Á violations of employment rights related to employment screening or privacy issues;
- Á failure to verify candidates’ and temporary employees’ backgrounds and qualifications;

- Á apportionment between us and our client of legal obligations as an employer of temporary employees;
- Á violation of health and safety regulations;
- Á retroactive entitlement to employee benefits and other similar employment claims; and
- Á failure to comply with leave policy requirements.

As on September 30, 2015, our Associate Employee related claims and losses, including claims of the nature described above, aggregate to ₹ 8.16 million.

We are also subject to potential risks relating to misuse of client proprietary information, misappropriation of funds, death or injury to our Associate Employees, damage to the client's facilities due to negligence of Associate Employees, criminal activity or torts and other similar claims. We may incur fines and other losses or negative publicity with respect to these claims. In addition, these claims may give rise to litigation, which could be time-consuming and may incur significant costs. While such claims have not historically had a material adverse effect upon our Company, there can be no assurance that the corporate policies we have in place to help reduce our exposure to these risks will be effective or that we will not experience losses as a result of these risks. There can also be no assurance that the insurance policies we have purchased to insure against certain risks will be adequate or that insurance coverage will remain available on reasonable terms or be sufficient in amount or scope of coverage.

13. *Our training business agreements generally have minimum requirements which could be breached.*

The agreements we have with the Central and State Governments and various government agencies generally require us to ensure that a certain number of students are provided employment pursuant to the skills training services we provide. In the event that we fail to ensure placement or employment of students enrolled in our vocational training programs, the relevant government agencies may be entitled to not pay us the balance amount payable to us under such contracts and also enforce underlying bank guarantees, if applicable. Further, poor placement ratios of students on our vocational training programs may have an adverse impact on our reputation, which, in turn, may hinder us in our efforts to increase the number of partnerships with Central and State Governments in order to expand our vocational training business.

In the past, we have at no time encountered any instances of failure to ensure the minimum threshold of placements or employment of students enrolled in vocational training programs. As per our agreements with government agencies, we receive payment either on a pro-rata basis or 100% on achieving a minimum threshold level of placements/employment. In cases where the placement percentage is below the minimum threshold levels, as stipulated in the agreements, our Company shall not be entitled to receive any payment.

14. *We derive a significant portion of our revenues from some of our clients; factors that adversely affect our ability to do business with them may adversely affect our business.*

We have in the past derived, and we believe that we will continue to derive, a significant portion of our revenues from companies such as Godrej Industries Limited and PNB Housing Finance Limited. During the financial year ended at March 31, 2015, we derived 17.64% of our revenues from our top five clients and 24.56% of our total revenues from our top ten clients. Any downsizing by these clients may reduce their spending on the services provided by us. This, along with the loss of any one or more of these clients, could have a material adverse effect on our business, profits and results of operations.

15. *Our retail training business is operated through a franchise model and hence we may not be able to have complete control over the costs or quality of all the franchisee activities.*

Our retail training business operates through a franchise model. As of November 30, 2015 we had 75 franchisees. While we have a tracking mechanism to monitor this business closely, it may not be possible for us to have complete control over some of the franchisee activities which may result in cost and quality issues. Moreover, the retail training business also faces possible claims by students which can adversely affect our reputation and may result in contingent liabilities. As on September 30, 2015, the claims made by students aggregate to ₹ 1.50 million.

16. *Our use of multiple external consultants in our institutional training and regulatory compliance businesses may result in inconsistent delivery and potential client dissatisfaction*

The business model of our institutional training and regulatory compliance businesses require us to work with a number of third party service providers in locations where we do not have a presence. We currently do not have a mechanism to measure the quality standards of these service providers. This could result in inconsistent delivery of contracted service obligations leading to client dissatisfaction.

17. *If we fail to successfully develop new service offerings and adapt to client needs we may be unable to retain current clients and gain new clients and our revenues would decline.*

The process of developing new service offerings requires accurate anticipation of clients' changing needs and emerging technological trends. This may require that we make long-term investments and commit significant resources before knowing whether these investments will eventually result in service offerings that achieve client acceptance and generate the revenues required to provide desired returns. If we fail to accurately anticipate and meet our clients' needs through the development of new service offerings, our competitive position could be weakened and that could materially adversely affect our results of operations and financial condition.

18. *Our ability to operate our business, maintain our competitive position and implement our business strategy is dependent to a significant extent on our senior management team and other key personnel.*

We are highly dependent on the continued efforts of our officers and our senior management and the performance and productivity of our local managers and field personnel. Our core management team oversees the day-to-day operations, implementation of strategy and growth of our business. If one or more members of our core management team were unable or unwilling to continue in their present positions, such persons may be difficult to replace, and our business and results of operation could be adversely affected.

In addition, if any member of our senior management team or any of our other key personnel joins a competitor or forms a competing company, we may consequently lose our proprietary know-how for the benefit of our competitors. Our key management personnel have entered into confidentiality and/or non-competition agreements with us. However, if any disputes arise between any of our key management personnel and us, it may be difficult for us to enforce these agreements.

Our ability to attract and retain business is also significantly affected by local relationships and the quality of service rendered. Our success depends to a significant extent upon the quality of the decisions of the business heads, the senior management and the members of the Board of Directors of our Company, whose performance is largely supported by their experience in the human resource services sector. Competition for experienced management personnel in the business sectors we operate in is intense, the pool of qualified candidates is limited, and we may not be able to retain our senior executives or key personnel or attract and retain skilled senior executives or key personnel in the future. Consequently, there can be no assurance that these individuals will continue to make their services available to us in the future.

Our success depends heavily upon the continuing services of our Individual Promoters Manish Mahendra Sabharwal and Ashok Kumar Nedurumalli who have been our leaders since our inception. Manish Mahendra Sabharwal and Ashok Kumar Nedurumalli currently serve as our Directors and their experience and vision have played a key role in obtaining our current market position. Mohitkaran Virendra Gupta (previous co heading our staffing business) has now stepped down from direct executive responsibilities and is currently engaged with our Company in an advisory capacity. If all or any of our Individual Promoters are unable or unwilling to continue to serve in their present positions, we may not be able to replace them with an executive of similar calibre and experience or at all, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

We are also highly dependent on the performance and productivity of our business development team and client managers. The loss of any of key personnel may cause a significant disruption in our

business. In addition, the loss of any of our local managers or field personnel may jeopardize existing client relationships with businesses that use our services based on relationships with these individuals.

19. *Client contracts are generally of a short duration and contain termination provisions that could decrease our revenues and earnings.*

Most of our client contracts can be terminated by the client on short notice without penalty. Majority of our client contracts are for a period of one year or less. Our clients, therefore, are not contractually obligated to continue to do business with us in the future. This creates uncertainty with respect of revenues and earnings from our client contracts.

20. *Clients may delay or default in making payments for services which could affect the cash-flows and liquidity of the Company.*

Cash collection trends measured by days outstanding have a material impact on the cash receipts and, consequently, on our cash flows. In general, an increase in bad debts or aged debtors leads to greater usage of operating working capital and increased interest costs. Trade receivables constitute a significant portion of our assets and are, therefore, a major business investment. Successful control of the trade receivables process demands development of appropriate contracting, invoicing, credit, collection and financing policies. Our failure to maintain such policies could have a negative effect on its business, financial condition and results.

The Company has an accounting policy with respect to provision for delayed and doubtful debts wherein, any receivable outstanding for a period more than 180 days is considered as 'delayed and doubtful' and provided for in the Financial Statements.

Delayed and doubtful payments for the financial year ended at March 31, 2013, 2014 and 2015 and for the six months ended September 30, 2015 amounted to ₹ 62.05 million, ₹ 60.65 million, ₹ 65.48 million and ₹ 70.46 million respectively. It may be noted that while the Company has provided for the same, a substantial portion of the amounts provided for have been subsequently received. The irrecoverable portion of the receivables or default payments has been written off as bad debts.

Defaults written off as bad debts for the Financial Year ended at March 31, 2013, 2014 and 2015 and for the six months ended September 30, 2015 amounted to ₹ 19.02 million, ₹ 16.35 million, ₹ 12.36 million and ₹ 11.19 million respectively.

21. *The schedule of our estimated deployment of Net Proceeds is subject to inherent uncertainties and you should not place undue reliance on it.*

Á

In accordance with regulatory requirements for public offerings in India, we have prepared a schedule of the estimated implementation and deployment of Net Proceeds, including funding our working capital requirements, for the years ending March 31, 2016, 2017 and 2018. These estimates are set forth under "Objects of the Offer" in this RHP. We did not prepare this information with a view towards compliance with published guidelines of the U.S. Securities and Exchange Commission and the American Institute of Certified Public Accountants ("AICPA") for the preparation and presentation of projected or forecasted financial information. Accordingly, this information does not include disclosures of all information required by the AICPA guidelines on projected or forecasted financial information. We prepared this information in accordance with local regulatory requirements in India. This information necessarily is based upon a number of assumptions and forecasts that, while presented with numerical specificity and considered reasonable by us, are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control, and upon assumptions with respect to future business decisions which are subject to change. The forecast deployment of Net Proceeds presented in this RHP may vary materially from actual deployment. We make no representation that this deployment will be achieved. You should not place undue reliance on this information. For further details refer to "Forward-Looking Statements" on page 13.

22. *We have not paid any dividends in the past. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and investments or acquisitions.*

As with any business, our ability to generate returns for shareholders is dependent on a host of factors that impact our business and financial condition. Our Company has not paid any dividend on its Equity Shares during the last five Financial Years. The amount of future dividend payments, if any, will depend upon a number of factors, such as our future earnings, financial condition, cash flows, working capital requirements, contractual obligations, applicable Indian legal restrictions, capital expenditures and cost of indebtedness. In addition, our ability to pay dividends may be impacted by a number of factors, including restrictive covenants under the loan or financing agreements our Company may enter into. Even in years in which we may have profits, we may decide to retain all of our earnings to finance the development and expansion of our business and, therefore, may not declare dividends on our Equity Shares. We may also require the consent of our lenders to be able to declare dividend, which consent may be withheld by our lenders in their absolute discretion. There can therefore be no assurance that we will be able to pay dividends in the future. For further details, please refer to "Dividend Policy" on page 188.

23. Some of our Group Companies have incurred losses in the last three financial years.

The following Group Companies have incurred losses in the last three financial years:

(in ₹ million)

I tqwr 'Eqo rcp lgu'	4237''	Hqt 'vj g' Hpc pek nif gct''	4235''
ICAP Institutional Stock Exchange	(0.19)	(1.90)	(2.15)
Hansini	(3.29)	(4.58)	-

We cannot assure you that our Group Companies will not incur losses in the future. For further details of our Group Companies, please refer to "Our Group Companies" on page 181.

24. Excess pay-outs to associates could result in irrecoverable loss.

In our business, from time to time we receive stop pay instructions during the closure of the payroll cycle at a time when some of the corresponding payments may have been already made. Also, excess payments may happen on account of a change of instructions, or system or human errors. It is possible that the amounts released in excess may not be recoverable from clients or Associate Employees, resulting in the incurrence of losses.

25. We may be unable to perform background verification procedures on our Associate Employees prior to placing them with our clients.

Our internal policies require us to perform background verification procedures on all our Associate Employees prior to employing them. However, given the high volume of Associate Employees that we employ each month, and the quality of sufficiently reliable information being unavailable in some cases, we may be unable to fully perform background verification procedures on each of our Associate Employees. Our inability to perform these procedures fully could result in insufficient vetting of our Associate Employees, which could in turn result in an adverse effect on our reputation, results of operations and business prospects if such Associate Employees engaged in illegal or fraudulent activities during the course of their employment.

26. Our training business could experience cost overruns and payment delays.

Our institutional training business, including our placement-linked vocational training business, could incur cost overruns and payment delays from our partnerships with the Central and State Governments, which may adversely affect our business, financial condition and results of operations. Payments from the Central and State Governments may be, and have been, subject to several delays, and have at times been received after a period of between nine and 12 months due to regulatory scrutiny and long procedural formalities. Our institutional training business accounts for 0.43% of our total revenue. Payments from Central and State Governments account for all of our revenue from our institutional training business.

If payments under our contracts with Central and State Governments in the vocational training segment are delayed, our working capital requirements would be adversely affected, resulting in additional finance costs and an increase in our realization cycle. Further, any change in Central or State Governments may result in a change in policy and reassessment of existing contracts. Any change in the terms of conditions of existing or future contracts may result in rendering all or some projects unviable, which may, in turn, result in a reduction of our revenues from this segment.

27. *Our investment in technology may not yield the intended results.*

The success of our businesses depends in part upon the ability to store, retrieve, process and manage substantial amounts of information. We have developed in-house software tools such as Associate Life Cycle System (“CNEU”), Candidate Life Cycle System (“ENEU”) and Regulatory Life Cycle System (“TNEU”) platforms to manage activities and processes relating to staffing business, permanent recruiting business and our regulatory consulting business respectively. Although this technology initiative is intended to increase productivity and operating efficiencies, the project may not yield its intended results. Any delays in completing or an inability to successfully complete this technology initiative, or an inability to achieve the anticipated efficiencies, could affect our operations, liquidity and financial condition.

We are also investing in other technological upgrades to achieve our strategic objectives and to remain competitive. In this regard, we intend to continue to develop and enhance our localized information systems, which might require the acquisition of equipment and software and the development, either internally or through independent consultants, of new proprietary software. Our new systems, infrastructure and technologies may not perform satisfactorily, or be used effectively, and we may also fail to adapt our service platforms to reflect our increased size and scale, user requirements or emerging trends and industry standards. If we do not effectively manage our growth and appropriately expand and upgrade or downsize and scale back our systems and platforms, as appropriate, in a timely manner and at a reasonable cost, we may lose market opportunities, which may adversely affect our business, financial condition and results of operations.

28. *Improper disclosure of sensitive or private information could result in liability and damage to our reputation.*

Our business involves the processing, storage and transmission of large amounts of data including personnel and payment information, about our Associate Employees, clients, associates and candidates, a portion of which is confidential and/ or potentially sensitive. In doing so, we rely on our own technology and systems, and those of third party vendors for a variety of processes. Additionally, our Associate Employees may have access or exposure to client data and systems, the misuse of which could result in legal liability. Cyber-attacks, including attacks against our industry, and against us in particular, may disable or damage our systems. We are dependent on, and are ultimately responsible for, the security provisions of vendors who have custodial control of our data.

We have established policies and procedures to help protect the security and privacy of this information. However, it is possible that our security controls over personal and other data and the other practices we follow may not prevent the improper access to, or disclosure of, personally identifiable or otherwise confidential information. Such disclosure or damage to our systems could harm our reputation and subject us to liability under our contracts and laws that protect personal data and confidential information, resulting in increased costs or loss of revenue.

Data privacy is also subject to frequently evolving rules and regulations. Any failure to adhere to or successfully implement processes in response to changing regulatory requirements in this area could result in legal liability, additional compliance costs, missed business opportunities or impair our reputation in the marketplace.

29. *We have certain contingent liabilities that may adversely affect our financial condition.*

As of September 30, 2015, we had the following contingent liabilities and not provided for in the books of accounts on a consolidated basis:

- Á With respect to an Employee State Insurance demand raised in 2006, we have furnished documents to justify no Employee State Insurance liability for the balance amount of ₹ 0.50 million, which is pending for approval from the Employee State Insurance Corporation.
- Á We have received a Demand Order under section 201(1) and 201(1A) of the Income Tax Act for tax deducted at source of ₹ 0.77 million for the Assessment Year 2010-11. We have filed an appeal against the aforesaid demand with the CIT(A).
- Á We have received a demand of ₹ 14.94 million inclusive of penalty during the year 2011-12 from the Commissioner of Service Tax and the said demand was disposed of in our favour by Central Excise and Service Tax Appellate Tribunal (CESTAT). The Commissioner of Service Tax Department filed the case against this CESTAT order with the High Court of Karnataka, Bengaluru. This petition was disposed of by the High Court on April 02, 2014 in our favour. In May 2015, the Commissioner of Service Tax Department filed a case with the Supreme Court of India for condonation of delay in filing the special leave to appeal. Against this petition, condonation is granted by Supreme Court of India and hearing is scheduled in the month of March 2016.

If the aforementioned contingent liabilities materialise, our profitability and cash flows may be adversely affected. For further details of contingent liabilities, see "Financial Statements" on page 189.

30. *Impairment charges relating to our goodwill and long-lived assets may affect our results of operations.*

We regularly monitor our long-lived assets for impairment indicators. Changes in economic or operating conditions impacting our estimates and assumptions could result in the impairment of our long-lived assets. In the event that we determine that our goodwill or long-lived assets are impaired, we may be required to record a significant non-cash charge to earnings that could adversely affect our results of operations.

31. *We have experienced negative cash flows in the past. Any operating loose or negative cash flows in the future could affect our financial condition and results of operations.*

We have in the past, and may in the future, experience negative cash flows. For example, as per our Restated Consolidated Financial Information, our net cash used in operating activities, after working capital adjustments, for the years ended at March 31, 2011, 2012 and 2013 was ₹ 53.91 million, ₹ 300.73 million and ₹ 7.24 million respectively, primarily on account of higher operating expenses incurred towards running of own training centres which have been subsequently closed and converted into franchise model; net cash used in financing activities for the years ended at March 31, 2015 and 2014 was ₹ 9.61 million and ₹ 114.84 million respectively, primarily on account of repayment of short term and long term borrowing. Negative cash flows over extended periods or significant negative cash flows in the short term, could materially impact our financial condition and results of operations. For details, please refer to "Financial Statements" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" on pages 189 and 346, respectively of this Prospectus.

32. *Our insurance coverage may be inadequate, as a result of which the loss or destruction of our assets could have a material adverse effect on our financial condition and results of operations.*

While we maintain insurance coverage, in amounts which we believe are commercially appropriate, including insurance against damage, loss of profit and business interruption and third party liability, we may not have sufficient insurance coverage to cover all possible economic losses, including when the loss suffered is not easily quantifiable and in the event of severe damage to our reputation. For the year ended March 31, 2015 and in the six months ended September 30, 2015, we incurred employee insurance expenses of ₹ 71.52 million and ₹ 46.99 million, respectively. We determine the amounts, coverage limits and deductibility provisions of insurance, with a view to maintaining appropriate insurance coverage on our assets at a commercially reasonable cost and on suitable terms. This may result in insurance coverage that, in the event of a substantial loss, would not be sufficient to pay the full current market value or current replacement cost of its assets. Any large uninsured loss or insured loss which significantly exceeds the insurance coverage could adversely affect our business, financial condition, results of operations and prospects.

Even if we have made a claim under an existing insurance policy, we may not be able to successfully assert our claim for any liability or loss under such insurance policy. Additionally, there may be various other risks and losses for which we are not insured either because such risks are uninsurable or not insurable on commercially acceptable terms. The occurrence of an event for which we are not adequately or sufficiently insured could have an adverse effect on our business, results of operations, financial condition and cash flows. If we are subject to litigation or claims or our operations are interrupted for a sustained period, we cannot assure you that our insurance policies will be adequate to cover the losses that may be incurred as a result of such interruption.

The occurrence of an event for which we are not adequately or sufficiently insured or the successful assertion of one or more large claims against us that exceed available insurance coverage, or changes in our insurance policies (including premium increases or the imposition of large deductible or co-insurance requirements), could have an adverse effect on our business, reputation, results of operations, financial condition and cash flows.

33. *Our ability to raise capital for our future growth and expansion may be limited.*

We may need to raise additional capital in the future, depending on business conditions, and our acquisition strategy. The factors that would require us to raise additional capital could be business growth beyond what our current balance sheet can sustain; additional capital requirements imposed due to changes in the regulatory regime or new guidelines; or significant depletion in our existing capital base due to unusual operating losses.

There can be no assurance that we will be able to raise adequate additional capital in the future on terms favorable to us or at all and this may adversely affect the growth of our business. Indian laws constrain our ability to raise capital outside India through the issuance of equity or convertible debt securities and restrict the ability of non-Indian companies to invest in us. Foreign investment in, or an acquisition of, an Indian company may be subject to approval from the relevant government authorities in India, including the Reserve Bank of India and the Foreign Investment Promotion Board. Our failure to obtain sufficient financing could result in the delay or abandonment of our expansion plans. Our business and future results of operations may be adversely affected if we delay or are unable to implement our expansion strategy.

We may not have sufficient documentary evidence for past cases where penalties were imposed by the relevant authorities on our Company, Subsidiaries, Directors, Promoters or Group Companies included in “Outstanding Litigation and Material Developments” on page 360. 35. *Security breaches and any disruption to our information technology could adversely impact our business.*

We seek to protect our computer systems and network infrastructure from security breaches and other disruptive problems caused by our increased internet connectivity. We employ security systems, including firewalls and password encryption, designed to minimize the risk of security breaches but there can be no assurance that these security measures will be successful. Breaches of our security measures could affect the security of information stored in and transmitted through these computer systems and network infrastructure. A failure in security measures could have a material adverse effect on our business and our future financial performance.

”

36. ***Certain of our existing shareholders together may be able to exert substantial voting control over us after the Offer, which may limit your ability to influence corporate matters and may cause us to take actions that are not in our best interest.***

Certain of our existing shareholders representing our five largest shareholders beneficially own, in the aggregate, approximately 91.37% of our Company's Equity Share capital. Upon completion of this Offer, such shareholders may continue to own substantial shareholding in our Company. This concentration of ownership could limit your ability to influence corporate matters requiring shareholders' approval. These existing shareholders will be able to exercise considerable influence over all matters requiring shareholders' approval, including the election of directors, approval of lending and investment policies and the approval of corporate transactions, such as a merger or other sale of our Company or its assets. In addition, if our shareholders do not act together, such matters requiring shareholders' approval may be delayed or not occur at all, which could adversely affect our business. Moreover, except for the Promoters, these shareholders are not obligated to provide any business opportunities to us. If such other shareholders invest in another company in competition with us, we may lose the support provided to us by them, which could materially and adversely affect our business, financial condition and results of operations.

37. ***Failure to recover loans from TeamLease Education Foundation on a timely manner might affect our financial condition***

As of March 31, 2015, we have given unsecured loans and / or advances of ₹ 155.25 million and ₹ 9.19 million to TeamLease Education Foundation ("VNGH") and TeamLease Skills University ("VNUW"), respectively. TLEF, has in turn utilised this loan and/or advance for setting up of the university. TLSU is a private university established under the aegis of the Gujarat Private Universities Act. Currently, TLSU does not generate or earn any profits and there can be no guarantee that these loans, or any other loans that we may extend to TLEF or TLSU in the future, will be recovered, in part or at all. Failure to recover these loans, or any future loans, in a timely manner might affect our financial condition.

38. ***One of our Directors, Gopal Jain, is a director in a company which is in the same line of business as that of our Company.***

One of our Directors, Gopal Jain, is also a director on the board of a company which is engaged in vocational training. Vocational training is also one of our business segments, which contributed 0.75% of our consolidated revenues for the year ended March 31, 2015. For further details in relation to Gopal Jain's directorships, please refer to "Our Management" on page 157.

39. ***Failure to maintain adequate financial and management processes and controls could lead to material misstatements in our financial reporting.***

During the year ended March 31 2015, we have not had any discrepancies in our financial reporting. However, during the year ended March 31, 2014, our fixed assets were physically verified by our management and certain discrepancies were noticed on such verification, the total impact of which was ₹ 7.49 million on 'loss of sale of Fixed Assets', were properly dealt with in the books of account by charging the loss of ₹ 7.49 million to the profit and loss account for the Financial Year ended March 31, 2014. In the future, similar inability to maintain adequate financial and management personnel, processes and controls, may result in an inaccurate reporting of our financial performance and financial position, which could have a negative effect on our stock price. inability to maintain adequate financial and management personnel, processes and controls, may result in an inaccurate reporting of our financial performance and financial position, which could have a negative effect on our stock price.

40. ***We have entered into, and will continue to enter into, related party transactions.***

We have entered into transactions with several related parties, including our Promoters, Directors and Group Companies. The transactions we have entered into and any future transactions with our related parties have involved or could potentially involve conflicts of interest. For more information regarding our related party transactions, please refer to the statement of related party transactions contained in Annexure V in the "Financial Statements" on page 242. These transactions may involve conflicts of

interests which may be detrimental to our Company. We cannot assure you that such transactions could not have been made on more favorable terms with unrelated parties.

41. *Our intellectual property rights may be infringed upon or we may infringe the intellectual property rights of third parties*

We have been using our trademark “TeamLease” to conduct our business. However, there is no assurance that our trademark will not be infringed upon. Depending on whether we are able to discover any such infringement of our trademark or successfully enforce our legal rights in the jurisdictions where such infringements may occur, our business and branding may suffer as a result of any misuse of our trademark. In such circumstances, our reputation and business may be adversely affected. Further, if we decide to pursue action against such infringements to protect our reputation, it could result in diversion of our resources and our financial results may be adversely affected.

Similarly, we may also infringe the intellectual property rights of third parties in the use of our various trademarks in our operations. Although we are not aware of any such infringement by us, there is no assurance that we will not infringe or have not infringed the intellectual property rights of any third party. In the event of any such infringement, we may be subject to our claims or actions and our business, reputation, financial condition and results of operations may be adversely affected.

42. *We do not own any immovable property and failure to renew, any revocation or adverse changes in the terms of our leases may have an adverse effect on our business, prospects, results of operations and financial condition.*

We have entered into lease agreements in respect of all our immovable properties including our Registered Office, Corporate Office and regional branch offices. There is no assurance that we will be able to renew any or all of these leases. Failure to renew any of these leases, or early termination may force us to relocate the affected operations. We cannot be certain that we will be able to renew our leases on commercially acceptable terms or at all. In the event that we are required to vacate our current premises, we would be required to make alternative arrangements for new offices and other infrastructure, and we cannot be certain that the new arrangements would be on commercially acceptable terms. If any of the owners of these premises revokes the arrangements under which we occupy the premises or imposes terms and conditions that are unfavourable to us, we may suffer a disruption in our operations or may have to pay increased rent, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

43. *We will be controlled by our Promoters so long as they control a majority of the Equity Shares.*

After the completion of this Offer, our Promoters will control, directly or indirectly, approximately 44.81% of our Company’s outstanding Equity Shares. As a result, our Promoters will continue to exercise significant control over us. Our Promoters may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders, such as actions which delay, defer or cause a change of our control or a change in our capital structure, merger, consolidation, takeover or other business combination involving us, or which discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us. We cannot assure you that our Promoters and members of our Promoter Group will act in our interest while exercising their rights in such entities.

44. *Our funding requirements and proposed deployment of the Net Proceeds are based on management estimates and have not been independently appraised, and may be subject to change based on various factors, some of which are beyond our control.*

Our funding requirements and the proposed deployment of the Net Proceeds are based on management estimates, current quotations from suppliers and our current business plan, and have not been appraised by an independent entity. Furthermore, in the absence of such independent appraisal, or the requirement for us to appoint a monitoring agency in terms of the SEBI ICDR Regulations, the deployment of the net proceeds is at our discretion. We may have to revise our expenditure and funding requirements as a result of variations in costs, estimates, quotations or other external factors, which may not be within the control of our management. This may entail rescheduling, revising or cancelling planned expenditure and funding requirements at the discretion of our Board. Further, current

quotations from suppliers are only valid for limited periods and there can be no assurance that we will be able to obtain new quotations from these or other suppliers on the same terms.

Further we intend to utilise ₹ 184.10 million from the Net Proceeds for general corporate purposes. The Net Proceeds of the Offer earmarked for general corporate purposes based on the Offer Price constitutes 13.30% of the Net Proceeds of the Offer. The management has not made any specific commitments with respect to utilisation of the Net Proceeds that will be raised for general corporate purposes and therefore, will not be able to make adequate disclosures with regard to such utilization. See also, the segment on 'General Corporate Purpose' in the section "Objects of the Offer" on page 95 of this Prospectus.

45. *India has stringent labor legislations that protect the interests of workers, and if our Associate Employees unionize, we may be subject to industrial unrest, slowdowns and increased wage costs.*

India has stringent labor legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. Although our Associate Employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our Associate Employees unionize, it may become difficult for us to maintain flexible labor policies, and our business may be adversely affected. For details of labor proceedings involving a trade union, please refer to "Outstanding Litigation and Material Developments" on page 361.

Further, most of our businesses operate in a labor-intensive industry. If we are unable to negotiate with the workmen or the contractors, it could result in work stoppages or increased operating costs as a result of higher than anticipated wages or benefits. In addition, we may not be able to procure required casual labor for our existing or future businesses. Additionally, a large number of labourers we employ come from different parts of India. There is a trend among these labourers to return to their home states after a short period of time. If we are unable to substitute these labourers when required, our business, financial conditions, results of operations and cash flow could be adversely affected.

46. *Our ability to raise foreign capital may be constrained by Indian law.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies. Such regulatory restrictions limit our financing sources and hence could constrain our ability to obtain financings on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that any required regulatory approvals for borrowing in foreign currencies will be granted to us without onerous conditions, or at all. Limitations on foreign debt may have an adverse effect on our business growth, financial condition and results of operations.

47. *Any downgrading of India's debt rating by a domestic or international rating agency could adversely affect our business.*

India's sovereign debt rating could be downgraded due to various factors, including changes in tax or fiscal policy or a decline in India's foreign exchange reserves, which are outside our control. Any adverse revisions to India's credit ratings for domestic and international debt by domestic or international rating agencies may adversely impact our ability to raise additional financing, and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance, ability to obtain financing for capital expenditures and the price of the Equity Shares.

48. *If the rate of Indian price inflation increases, our results of operations and financial condition may be adversely affected.*

In recent years, India's wholesale price inflation index has indicated an increasing inflation trend compared to prior periods. An increase in inflation in India could cause a rise in the cost of transportation, wages, raw materials or any other expenses. If this trend continues, we may be unable to reduce our costs or pass our increased costs on to our clients and our results of operations and financial condition may be adversely affected.

49. ***We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could adversely affect our business.***

The Competition Act, 2002, as amended (the "Competition Act"), regulates practices having an appreciable adverse effect on competition in the relevant market in India. Under the Competition Act, any formal or informal arrangement, understanding or action in concert, which causes or is likely to cause an appreciable adverse effect on competition is considered void and results in the imposition of substantial monetary penalties. Further, any agreement among competitors which directly or indirectly involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area, type of goods or services or number of clients in the relevant market or directly or indirectly results in bid-rigging or collusive bidding is presumed to have an appreciable adverse effect on competition. The Competition Act also prohibits abuse of a dominant position by any enterprise.

On March 4, 2011, the Government issued and brought into force the combination regulation (merger control) provisions under the Competition Act with effect from June 1, 2011. These provisions require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to and pre-approved by the Competition Commission of India (the "CCI"). Additionally, on May 11, 2011, the CCI issued the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011, as amended, which sets out the mechanism for implementation of the merger control regime in India. The Competition Act aims to, among others, prohibit all agreements and transactions which may have an appreciable adverse effect on competition in India. Further, the CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination occurring outside India if such agreement, conduct or combination has an appreciable adverse effect on competition in India.

The applicability or interpretation of the Competition Act to any merger, amalgamation or acquisition proposed or undertaken by us, or any enforcement proceedings initiated by CCI for alleged violation of provisions of the Competition Act may adversely affect our business, financial condition or results of operation.

50. ***Fluctuations in the exchange rate of the Rupee and other currencies could have a material adverse effect on the value of the Equity Shares, independent of our financial results.***

The Equity Shares will be quoted in ₹ on the BSE and the NSE. Any dividends in respect of the Equity Shares will be paid in ₹ and subsequently converted into appropriate foreign currency for repatriation. Any adverse movement in exchange rates during the time it takes to undertake such conversion may reduce the net dividend to investors. In addition, any adverse movement in exchange rates during a delay in repatriating the proceeds from a sale of Equity Shares outside India, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares, may reduce the net proceeds received by shareholders.

51. ***A slowdown in economic growth in India could cause our businesses to suffer.***

Our performance and the growth of our business are necessarily dependent on the health of the overall Indian economy. As a result, a slowdown in the Indian economy could adversely affect our business. India's economy could be adversely affected by a general rise in interest rates, inflation, natural calamities, increases in commodity prices, and protectionist efforts in other countries or various other factors. In addition, the Indian economy is in a state of transition. It is difficult to gauge the impact of these fundamental economic changes on our business. Any slowdown in the Indian economy or future volatility in global commodity prices could adversely affect our business.

52. ***Changing laws, rules and regulations and legal uncertainties in India, including adverse application of tax laws and regulations, may adversely affect our business and financial performance.***

Our business and financial performance could be adversely affected by changes in law or interpretations of existing, or the promulgation of new, laws, rules and regulations in India applicable

to us and our business. Please refer to the section “Regulations and Policies” on page 142 for details of the laws currently applicable to us.

There can be no assurance that the Central or the State Governments in India may not implement new regulations and policies which will require us to obtain approvals and licenses from the central or the State Governments in India and other regulatory bodies or impose onerous requirements and conditions on our operations. Any such changes and the related uncertainties with respect to the implementation of the new regulations may have a material adverse effect on all our business, financial condition and results of operations. In addition, we may have to incur capital expenditures to comply with the requirements of any new regulations, which may also materially harm our results of operations.

For instance, the Government has proposed a comprehensive national goods and services tax (“**I UV**”) regime that will combine taxes and levies by the Central and State Governments into a unified rate structure. Given the limited availability of information in the public domain concerning the GST, we are unable to provide any assurance as to the tax regime following implementation of the GST. The implementation of this new structure may be affected by any disagreement between certain State Governments, which could create uncertainty. Any such future amendments may affect our overall tax efficiency, and may result in significant additional taxes becoming payable.

Further, the Government has proposed various amendments to the labour law regime in India in the shape of the Factories (Amendment) Bill, 2014, the Child Labour (Prevention and Regulation) (Amendment) Bill, 2014, the Apprentices (Amendment) Bill, 2014, the Small Factories (Regulation of Employment and Conditions of Services) Bill, 2014 and the Labour Laws (Exemption from Furnishing Returns and Maintaining Registers) Bill, 2011. While some of these amendments have been passed by the Parliament and the Union Cabinet, the subsequent implementation of these amendments may create uncertainty in the extant labour law regime in India, and may have an adverse impact on our business operations.

53. *Insufficiently stamped agreements may have an adverse impact on the agreements executed by us and our Subsidiaries.*

Our Company and our Subsidiaries may have entered into agreements which are inadequately stamped. Failure to stamp a document does not affect the validity of the transaction embodied therein, but renders the document inadmissible in evidence in India (unless stamped prior to enforcement with payment of requisite penalties, which may be up to ten times the stamp duty payable, and other such fees that may be levied by the authorities). Further, documents which are insufficiently stamped are capable of being impounded by a public officer. We cannot assure you that such agreements which are inadequately stamped can be enforced by us or our Subsidiaries. In addition imposition of penalties by the authorities on us or our Subsidiaries for inadequate stamping of such agreements may have a material adverse effect on our business, financial condition and results of operations.

54. *The preparation requirement and presentation format of financial statements of our Company subsequent to the listing of its Equity Shares will not be in the same manner and same format as being prepared and presented for this Prospectus*

Our audited financial statements, are prepared in accordance with Indian GAAP & the applicable provisions of the Companies Act and the Restated Financial Information included in this Prospectus are restated in accordance with the applicable provisions of Companies Act and relevant SEBI ICDR Regulations, as amended from time to time. In order to comply with the requirements applicable to public companies in India, subsequent to our Equity Shares getting successfully listed on the Stock Exchanges, we will be required to prepare our annual and interim financial statements in terms of the Companies Act and Indian GAAP or Ind AS, as applicable. The preparation requirement and the presentation format prescribed under the SEBI ICDR Regulations for Restated Financial Information differs in certain respects from Indian GAAP and Ind AS. Therefore, the preparation and presentation of our financial statements post-listing may be not be comparable with, or may be substantially different from, the manner in which the Restated Financial Information is being disclosed in this Prospectus.

55. *Significant differences exist between Indian GAAP and other accounting principles, such as U.S. GAAP and IFRS, which may be material to investors' assessments of our financial condition.*

Our Restated Financial Information included in this Prospectus is prepared in accordance with Companies Act and the SEBI ICDR Regulations. We have not attempted to quantify the impact of U.S. GAAP or IFRS on the Restated Financial Information included in this Prospectus, nor do we provide a reconciliation of our Restated Financial Information to those of U.S. GAAP or IFRS. Each of U.S. GAAP and IFRS differs in significant respects from Indian GAAP. Accordingly, the degree to which the Restated Financial Information included in this Prospectus will provide meaningful information is entirely dependent on the reader's level of familiarity with Indian accounting practices, Indian GAAP, the Companies Act and SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices, Indian GAAP, the Companies Act and SEBI ICDR Regulations on the financial disclosures presented in this Prospectus should accordingly be limited.

56. *Companies in India, including our Company, may be required to prepare financial statements under the new Indian Accounting Standards in the future*

Our Company currently prepares its annual and interim financial statements under Indian GAAP. The Ministry of Corporate Affairs ("MCA"), government of India, has through notification dated February 20, 2015 set out the Indian Accounting Standards ("Ind AS") and the timeliness for their implementation post listing. In accordance therewith, our Company may have to prepare its financial statements in accordance with Ind AS in future, depending upon its listing or network.

Ind AS is different in many respects from Indian GAAP under which our financial statements are currently prepared. Moreover, Ind AS also differs materially in certain respects from IFRS. There can be no assurance that our financial statements in future will not appear materially different under Ind AS from that under Indian GAAP or IFRS. Further, as our Company adopts Ind AS reporting, it may encounter difficulties in the process of implementing and enhancing our Company's management information systems for such implementation. Our management may also have to divert its time and other resources for successful and timely implementation of Ind AS. Our Company cannot, therefore, assure you that the adoption of Ind AS will not adversely affect its reported results of operations or financial condition. Further, our inability to successfully implement Ind AS in accordance with the prescribed timelines will subject us to regulatory action and other legal consequences.

57. *Political instability or a change in economic liberalization and deregulation policies could seriously harm business and economic conditions in India generally and our business in particular.*

The GoI has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business is also impacted by regulation and conditions in the various states in India where we operate. Our businesses and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in GoI policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. The GoI has in recent years sought to implement economic reforms and the current government has implemented policies and undertaken initiatives that continue the economic liberalization policies pursued by previous governments. There can be no assurance that liberalization policies will continue in the future. The rate of economic liberalization could change, and specific laws and policies affecting sectors such as food & beverages, logistics, real estate, hospitality, financial services, foreign investment and other matters affecting investment in our securities could change as well. Any significant change in such liberalization and deregulation policies could adversely affect business and economic conditions in India, generally, and our business, prospects, financial condition and results of operations, in particular.

58. *GoI regulation of foreign ownership of Indian securities may have an adverse effect on the price of the Equity Shares.*

Foreign ownership of Indian securities is subject to government regulation. In accordance with foreign exchange regulations currently in effect in India, under certain circumstances the RBI must approve the sale of the Equity Shares from a non-resident of India to a resident of India or vice-versa if the sale does not meet the requirements of the RBI Circular dated October 04, 2004, as amended by the RBI Circular dated May 04, 2010 and the RBI Circular dated July 15, 2014. The RBI must approve the conversion of the Rupee proceeds from any such sale into foreign currency and repatriation of that foreign currency from India unless the sale is made on a stock exchange in India through a stock broker at the market price. There are also restrictions on sales between two non-residents if the acquirer is

impacted by the prior joint venture or technical collaboration. The approval from the RBI or any other government agency may not be obtained on terms favorable to a non-resident investor in a timely manner or at all. Because of possible delays in obtaining requisite approvals, investors in the Equity Shares may be prevented from realizing gains during periods of price increase or limiting losses during periods of price decline.

59. *Terrorist attacks, civil unrests and other acts of violence or war in India and around the world could adversely affect the financial markets, result in a loss of business confidence and adversely affect our business, results of operations, financial condition and cash flows.*

Terrorist attacks, civil unrests and other acts of violence or war in India and around the world may adversely affect worldwide financial markets and result in a loss of business confidence and ultimately adversely affect our business, results of operations, financial condition and cash flows. India has, from time to time, experienced instances of civil unrest and political tensions and hostilities in some parts of the country and among neighbouring countries. Such political and social tensions could create a perception that investment in Indian companies involves higher degrees of risk could have a possible adverse effect on the Indian economy, future financial performance and the trading prices of our Equity Shares.

60. *Foreign investors may have difficulty enforcing foreign judgments against us or our management.*

Our company is incorporated under the laws of India. All our Directors and executive officers are residents of India and a substantial portion of our assets and those of such persons are located in India. As a result, it may not be possible for investors to effect service of process upon us or such persons in jurisdictions outside India, or to enforce against us or such parties judgments obtained in courts outside India based upon the liability provisions of foreign countries, including the civil liability provisions of the federal securities laws of the United States.

The recognition and enforcement of foreign judgments is provided for under Section 13 and Section 44A of The Code of Civil Procedure, 1908 of India (as amended) (the “**Code of Civil Procedure**”). Section 13 of the Civil Code provides that a foreign judgment shall be conclusive as to any matter directly adjudicated upon except: (i) where the judgment has not been pronounced by a court of competent jurisdiction; (ii) where the judgment has not been given on the merits of the case; (iii) where it appears on the face of the proceedings that the judgment is founded on an incorrect view of international law or a refusal to recognize the law of India in cases in which such law is applicable; (iv) where the proceedings in which the judgment was obtained were opposed to natural justice; (v) where the judgment has been obtained by fraud; and (vi) where the judgment sustains a claim founded on a breach of any law in force in India. Section 44A of the Civil Code provides that where a foreign judgment has been rendered by a superior court in any country or territory outside India which the Central Government has by notification declared to be in a reciprocating territory, it may be enforced in India by proceedings in execution as if the judgment had been rendered by the relevant court in India. However, Section 44A of the Civil Code is applicable only to monetary decrees not being in the nature of any amounts payable in respect of taxes or other charges of a like nature or in respect of a fine or other penalty.

The United States has not been declared by the Central Government to be a reciprocating territory for the purpose of Section 44A of the Civil Code. However, the UK, Singapore and Hong Kong have been declared by the Central Government to be reciprocating territories. Accordingly, a judgment of a court in the United States or another jurisdiction which is not a reciprocating territory may be enforced only by a fresh suit upon the judgment and not by proceedings in execution. The suit must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. Furthermore, it is unlikely that an Indian court would enforce a foreign judgment if it viewed the amount of damages awarded as excessive or inconsistent with public policy. A party seeking to enforce a foreign judgment in India is required to obtain approval from the RBI to execute such a judgment or to repatriate outside India any amount recovered.

61. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

61. *You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.*

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of Equity Shares in an Indian company are generally taxable in India. Any gain realized on the sale of listed equity shares on a stock exchange held for more than 12 months will not be subject to capital gains tax in India if Securities Transaction Tax (“UVV”) has been paid on the transaction. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Any gain realized on the sale of equity shares held for more than 12 months, which are sold other than on a recognized stock exchange and on which no STT has been paid to an Indian resident, will be subject to long term capital gains tax in India. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India’s ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

- 62. *We cannot assure you that our Equity Shares will be listed on the Stock Exchanges, which may restrict your ability to dispose of the Equity Shares.***

In accordance with Indian law and practice, permission for listing of the Equity Shares will not be granted by the Stock Exchanges until after the Equity Shares offered in the Offer have been Allotted. In addition, we are required to deliver the Red Herring Prospectus and this Prospectus to the RoC for registration under the applicable provisions of the Companies Act and the SEBI ICDR Regulations. Such approval will require all other relevant documents authorizing the issuance of the Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on the Stock Exchanges. Any failure or delay in obtaining such approval would restrict your ability to dispose of your Equity Shares.

- 63. *Our Company's Equity Shares have never been publicly traded and the Offer may not result in an active or liquid market for our Equity Shares. Further, the price of our Equity Shares may be volatile, and you may be unable to resell your Equity Shares at or above the Offer Price, or at all.***

Prior to the Offer, there has been no public market for our Company's Equity Shares. There can be no assurance that an active trading market for the Equity Shares will develop or be sustained after the Offer. The Offer Price of the Equity Shares is proposed to be determined by the Company and the Selling Shareholders in consultation with the BRLMs through a book-building process and may not be indicative of the market price of the Equity Shares at the time of commencement of trading of the Equity Shares or at any time thereafter. The market price of the Equity Shares may be subject to significant fluctuations in response to, among other factors, variations in our operating results, market conditions specific to the industry we operate in, developments relating to India and volatility in the stock exchanges and securities markets elsewhere in the world.

- 64. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors’ fiduciary duties and liabilities, and shareholders’ rights may differ from those that would apply to a company in another jurisdiction. Shareholders’ rights under Indian law may not be as extensive as shareholders’ rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

- 65. *Any future issuance of Equity Shares may dilute your shareholdings, and sale of our Equity Shares by our Promoter or other major shareholders may adversely affect the trading price of the Equity Shares.***

Any future equity issuances by us may lead to dilution of investors' shareholdings in the Company. In addition, any sales of substantial amounts of our Equity Shares in the public market after the completion of this Offer, including by our Promoter or other major shareholders, or the perception that such sales could occur, could adversely affect the market price of our Equity Shares and could materially impair our future ability to raise capital through offerings of our Equity Shares. Prior to the

Offer, our Promoter held an aggregate of 50.97% of our outstanding Equity Shares. After the completion of the Offer, our Promoter and members of our Promoter Group will continue to hold 44.81% of our outstanding Equity Shares. We cannot predict what effect, if any, market sales of our Equity Shares held by our Promoter or other major shareholders or the availability of these Equity Shares for future sale will have on the market price of our Equity Shares.

66. *Holders of Equity Shares may be restricted in their ability to exercise pre-emptive rights under Indian law and thereby suffer future dilution of their ownership position.*

Under the Companies Act, a company incorporated in India must offer its equity shareholders pre-emptive rights to subscribe and pay for a proportionate number of equity shares to maintain their existing ownership percentages prior to issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the equity shares voting on such resolution.

However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without our filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights, unless we make such a filing. If we elect not to file a registration statement, the new securities may be issued to a custodian, who may sell the securities for your benefit. The value such custodian receives on the sale of any such securities and the related transaction costs cannot be predicted. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in the Company may be reduced.

67. *You will be able to achieve liquidity with respect to the Equity Shares Allotted as part of the Offer only upon completion of a number of listing and depository related actions. There is no assurance that we will be able to complete these in a timely manner.*

Under the SEBI ICDR Regulations, we are permitted to list the Equity Shares within six working days of the Bid/Offer Closing Date. Consequently, the Equity Shares you purchase in the Offer may not be credited to your dematerialised electronic account with Depository Participants until approximately six working days after the Bid/Offer Closing Date. You can start trading in the Equity Shares only after they have been credited to your dematerialised electronic account and final listing and trading approvals are received from the Stock Exchanges. There can be no assurance that final listing and trading approvals will be obtained from the Stock Exchanges on time or at all. Further, there can be no assurance that the Equity Shares allocated to you will be credited to your dematerialised electronic account, or that trading in the Equity Shares will commence within the specified time periods. In addition, pursuant to India regulations, certain actions are required to be completed before the Equity Shares can be listed and trading may commence. Investors' book entry or dematerialised electronic accounts with depository participants in India are expected to be credited only after the date on which the offer and allotment is approved by our Board of Directors. There can be no assurance that the Equity Shares allocated to prospective Investors will be credited to their dematerialised electronic accounts, or that trading will commence on time after allotment has been approved by our Board of Directors, or at all.

India's GDP growth is experiencing an upswing following a slump between 2010 and 2013. Estimates from various agencies suggest that the country's economy is gradually on the road to recovery. The Central Statistical Office placed the country's GDP growth for 2013-2014 at 4.9%, which was higher than the 4.5% estimated.

In 2015-2016, GDP is estimated to grow by around 7.9%. As the economy recovers and grows, flexi-staffing is expected to become an integral part of the expansion plans of companies.

Staffing industry transformation

India is the world's second largest labor market. Only around 10% of India's labour force works in formal employment. Redefining the nature of employment and having a greater amount of workers in formal employment will be critical if India's economic development is to become more broad-based, not only in terms of regions, but also in terms of social inclusion.

There should be a move from informal to formal employment which will lead to an increasing play thereon of the formal sector.

Indian labour market transformation

India's poverty is about low productivity. India is on the cusp of a transformation of its five geographies of work-

- Á Physical geography of work;
- Á Enterprise geography of work;
- Á Sectoral geography of work;
- Á Education geography of work; and
- Á Legislative geography of work.

Flexi Staffing Industry Overview

Globally, the staffing industry has grown considerably over the past few years. According to the CIETT Economic Report 2014, the industry size had reached 11.5 million workers by the end of 2012. Thus, despite the slump in the aftermath of the financial crisis, and the resultant economic slowdown, the industry still had a 7% growth rate over the last decade.

Indian flexi-staffing industry overview

A gradual movement towards a more formal set up to employment is anticipated to occur due to various factors such as the increasing number of enterprises turning formal, skills development and regulatory amends in favour of formal and flexi-staffing industries.

Overall current industry size

- **k p f w a m { ' u k g <**The flexi-staffing industry in India as of 2013-2014 in value terms is around ₹ 180-220 billion. The average wages of flexi-staffing worker is assumed to be around ₹ 8,000-10,000 (which reflects weighted average wages for organised and unorganised players)."

The flexi-staffing industry is marked by the presence of many large multinationals (such as Adecco and Randstad) and Indian players (such as TeamLease, Quesscorp and Innovsource). However, the industry in India remains largely unorganised, with small and medium players accounting for nearly 70-80% of the overall industry

Overall current industry growth

Employment

The overall workforce is expected to grow at a CAGR of 2-3% during 2011-2012 to 2018-2019. Sectors such as manufacturing, financial, real estate, business services and retail will continue to have a relatively higher proportion of the workforce. Sectors such as IT enabled services and banking, financial services and insurance are expected to have relatively higher growth in overall employment as compared to other sectors.

Total Industry Employment (Data excludes employment in Agriculture)

Note: E: Estimated; P: Projected
Source: CRISIL Research

The formal workplace is expected to grow at a CAGR of 9-10% during 2011-12 to 2018-2019. This increase will be across sectors as newer labour laws come into force, and the general overall workforce grows. Apart from manufacturing, which is expected to constitute a large amount of the overall formal employee base, sectors such as fast moving consumer goods and logistics are expected to account for a significant proportion of the formal workforce.

Finally, flexi-staffing is expected to grow at a CAGR of around 20-25% between 2013-2014 and 2018-2019. Although there are new upcoming sectors such as e-commerce that will create fresh demand for flexi-staffing in India, the dominance of manufacturing (which has large proportion of unorganised players) in the industry will increase. Amendments to labour laws will increase the occurrence of flexi-staffing being used.

We are one of India's leading providers of human resource services in the organized segment delivering a broad range of human resource services to various industries with a vision of putting India to work. We deliver a broad range of human resource services to various industries and diverse functional roles across India to meet the needs of small and large business clients as well as those of qualified job seekers or "Associate Employees". Our services span the entire supply chain of human resources in India, covering aspects of employment, employability and education. Our employment services include temporary staffing solutions, permanent recruitment services and regulatory consultancy for labor law compliance; our employability offerings include different types of learning and training solutions, including retail learning solutions, institutional learning solutions and enterprise learning solutions. We had 104,946 Associate Employees as of November 30, 2015, making us one of India's leading people supply chain companies. All of our businesses operate on an asset-light model with low capital expenditure requirements.

Our core business is providing staffing solutions across industry sectors and diverse functional areas. The majority of our Associate Employees are engaged in sales, logistics and customer service functions. We focus on people, processes and technology to enhance business productivity by enabling our clients to outsource their staffing requirements and allowing them to focus on operating and growing their core businesses. As on March 31, 2015 we have provided employment to approximately 1.12 million Associate Employees since 2002. As of November 30, 2015, we served 1,252 clients with a network of nine offices and 1,218 full-time employees across India. We are managed professionally by a high quality management team with deep extensive market and industry expertise, exhibiting thought leadership on matters of public policy. We had 979, 1,057 and 1,218 full-time employees as of March 31, 2014, March 31, 2015 and November 30, 2015, respectively.

We have provided services under the TeamLease brand for more than ten years and IIJT brand for more than five years. We have grown largely organically, driven by our strong operational and technological excellence. From time to time we also identify and complete acquisitions to improve operational synergies, acquire new clients or enter new sectors. While we traditionally have not been focused on any particular industry sector in providing human resource services, we are currently exploring opportunities to enter the growing information technology (IT) and healthcare and hospitality services sectors.

Our IT department, comprising 77 employees as of November 30, 2015, has been at the forefront of our business development by continuously producing upgrades to our various software applications and platforms. We believe that our technology infrastructure is robust and offers high levels of utility and functionality that can manage the demands of a rapidly scaling business. Our focus now is on improving the scale and reach of our technology platforms, with plans to improve the front-end user interface.

Staffing is a critical function for businesses. Customer demand is dependent upon the state of the economy, overall strength of the labor market as well as an established trend towards greater workforce flexibility. Demand is generally immediate and short term, and so our ability to service this demand gives us a competitive advantage. More liberal labor market laws, particularly for temporary staffing, are beneficial for the industry and have been a driver for greater workforce flexibility. We have championed the cause for labor reforms in India, particularly with regard to labor laws and public policy, for many years and have helped create and expand the market for our services in India. Manish Mahendra Sabharwal, our Chairman, was selected to be a member of the Planning Commission Committee for labor reforms. As a member of the said committee and the Prime Minister's Skill Council, he chaired the sub-committee on remodeling of apprenticeship training. Our strong focus on regulatory compliance has enabled us establish a regulatory consulting business, whereby we provide regulatory services to clients with respect to maintenance of registers and compliance with various labor laws.

Our business is also strongly influenced by the macroeconomic cycle, which typically results in growing demand for employment services during periods of economic expansion and, conversely, contraction of demand during periods of economic downturn. Due to the sensitivity to the economic cycle and the low visibility in the temporary staffing sector, forecasting demand for staffing and human resource services is difficult. Typically, clients are not able to provide much advance notice of changes in their staffing needs. Responding swiftly to the customer's fluctuating staffing requirements in a flexible way is a key element of our strategy.

Our consolidated total revenues were ₹ 12,157.93 million, ₹20,184.60 million and ₹15,375.25 million and our profit after taxation as restated was ₹ 109.72 million, ₹296.90 million and ₹178.57 million, respectively, in the six months ended September 30, 2015, and in the years ended March 31, 2015 and 2014.

Equilibrium

Market leading position with scale

According to CRISIL, we are one of India's leading organized staffing companies with a market share of approximately 5% in terms of Associate Employees in 2014. According to CRISIL, we have a larger market share than our competitors, both Indian companies as well as the Indian operations of global staffing, in terms of revenues. We have grown our revenues and the number of our Associate Employees significantly over the years. Our growth has been largely organic, and as of November 30, 2015, we had 1,252 clients, and as of November 30, 2015, we had 104,946 Associate Employees, making us one of the leading organized temporary staffing services companies in India with a significant brand value, which enables us to grow our business by attracting new customers as well as Associate Employees.

We use our presence across India, our well trained, diverse and large Associate Employee base and our scale of operations to leverage our centralized operations to provide comprehensive and cost-effective solutions to a diversified client base across sectors with a short turn-around time. Our Associate Employees are spread across India with our offices located in Ahmedabad, Bengaluru, Chennai, Delhi, Hyderabad, Kolkata, Mumbai and Pune. Our large geographical presence enables us to offer services to clients who have operations at multiple locations across India. Our scale also allows for workforce specialization by industry vertical markets and helps us to deliver staffing services that are most relevant to the needs of our clients.

Strong compliance practices that enable us to build longstanding relationships with clients

We place tremendous emphasis on compliance with applicable labor laws and regulations in an industry that is for the most part highly unorganized and fragmented. We believe that our focus on regulatory compliance gives us a significant competitive advantage, particularly in light of the evolving policy environment in India concerning labor laws with most of the larger clients shifting to organized service providers to comply with applicable regulations. Our strict adherence to labor laws and regulations sets us apart from our competitors, particularly those operating in the unorganized market, by providing us credibility and enabling us to build and maintain longstanding relationships with our clients. Our robust internal compliance mechanism has enabled us to set up a regulatory compliance vertical to service third parties. We had a team of 116 persons as of November 30, 2015 which focuses on staffing and labor compliance issues as well as on corporate and legal compliance issues. We believe that we are a trusted and preferred partner to our clients and are therefore able to attract, and provide temporary staffing services to, large Indian and multi-national companies such as Vodafone, E.I.Dupont India Private Limited and ATC Telecom Tower Corporation Private Limited. We also experience high levels of repeat customers. Repeat customers are clients on-boarded in the previous financial years representing 95.81% and 93.21% of our total revenues in the years ended March 31, 2014 and March 31, 2015, respectively. We define repeat customers as those customers who are not billed for the first time during the relevant year. Five of our top ten clients by revenue in the year ended March 31, 2015 have been with TeamLease for a term exceeding six years.

Technological and operational excellence

We have implemented processes and systems that have resulted in us achieving operational excellence, particularly in our ability to identify the right human resources to suit the customer requirements and to provide our clients consistently high levels of quality and reliability. We have undertaken a series of actions that have streamlined our operations. We have centralized our operations, finance, IT and regulatory compliance teams in Bengaluru. This enables us to remove branch level accountability for operations which can result in inconsistent

and inefficient client service delivery. We have also standardized processes for client, by choosing broad templates that can be applied uniformly to all our clients. We believe that standardizing our processes has enabled us to offer consistently high levels of service to our clients and reduce the turn-around time. Most importantly, we have made significant investments in our proprietary technological platforms that have contributed significantly to operational efficiencies and the scale of our operations. Using our technology platform, we have implemented a steady migration of our operations from manual to automation in phases over the last five years. Our technology infrastructure has been designed in a manner that it can be configured according to specific requirements of our clients. For further details on our technology infrastructure, please refer "Technology" below.

We have been recognized for our operational and technological excellence on various forums and our Promoters have won various awards, including the FICCI Leapvault Skills Champion award, 2012 and the Forbes Leadership award, 2011. Our operational excellence is also reflected in our track record of making on-time payments in line with the agreed upon payroll due calendar (PDC) with our clients. Our Company also has been showcased in a case study published by the London Business School and the Harvard Business School. We believe that our technological and operational excellence gives us a key competitive advantage in the markets that we operate in.

Strong functional knowledge and expertise across industry sectors

We deliver our staffing services across various industries including the consumer durables, chemicals, manufacturing, media and telecom, retail, Banking, Financial Services and Insurance ("DHUK), e-commerce, pharmaceuticals and healthcare sectors. Owing to our scale of operations and diverse client base, we have developed deep expertise around the human resources functions across sectors for our staffing services. Sales, customer service and logistics functions are segments where we deploy the majority of our Associate Employees. Our direct sales force and go-to-market strategy is aligned with our broad sector-neutral reach, which enhances our client value proposition and allows us to leverage our strong institutional knowledge to further expand our presence in the market. We believe that our ability to handle complexity allows us to target clients across a range of industries with varying levels of service requirements based on their human resource environment and required employee experience while we look forward to extend target our services to sectors such as IT, healthcare and hospitality services. Our company publishes the following reports regularly that demonstrates the depth of knowledge, thought leadership and expertise in the sector: (i) India Labour report, which covers various aspects of the Indian labour market; and (ii) Salary Primer, which gives an indicative range of salaries for different trades and professions across the country.

Strong management and thought leadership in public policy initiatives and backing by marquee private equity investors

We are a professionally managed company, and our high quality senior management team provides the right balance of experience, expertise and strategic vision, contributing significantly to our growth. Our management team is backed by our individual Promoters, who have a extensive experience in the human resources services industry in general and staffing industry in particular, with distinct, specific and defined roles in nurturing our Company. Our Chairman, Manish Mahendra Sabharwal, provides leadership at the Board level and sets our strategy and direction. He is also our official spokesperson. He was selected to be a member of the Planning Commission Committee for labor reforms. As a member of the said committee and the Prime Minister's Skill Council, he chaired the sub-committee on remodeling of apprenticeship training that has led to reforms in Apprenticeship regime. He is also on the Niti Aayog committee and received the CAFE nomination. He serves on the executive committee of the chief minister's advisory council, planning department of the Government of Rajasthan. Our Managing Director, Ashok Kumar Nedurumalli, oversees our operations and represents us in forums with major clients. Mohitkaran Virendra Gupta, in his capacity as a whole-time Director was primarily responsible for the operational performance of our staffing business. Going forward Mohitkaran Virendra Gupta will continue to be engaged with the staffing business in an advisory capacity. Our management team also benefits from inputs from our key investors, GCIF, GAPL, GIL and IAF. Our senior management team, Promoters and investors share a strategic vision for our Company and play an important role in the success of our growth and market-leading position. Our Promoters are also champions of labor reforms in India, helping to create a market for our services in an otherwise unorganized sector and building the TeamLease brand. We believe that the thought leadership demonstrated by our Promoters to reform India's labor laws, together with our focus on regulatory compliance and technology, provides us with significant competitive advantages in any resulting market size expansion.

Our business strategy is to grow our business by increasing the scale and reliability of our business, and building trust with our Associate Employees and clients. The individual components of our business strategy are set forth below.

Develop new areas of growth by diversifying service offerings across the human resources value chain

Our track record and deep experience in providing staffing solutions across industry sectors has given us deep and substantive knowledge of the staffing needs of a diverse range of clients in different industries. This enables us to provide a bundled solution of services to each client that is tailored to its specific needs and to attract sales professionals with industry expertise. We have commenced expanding our services to span the entire chain of human resources in India, covering aspects of employment, employability and education. In this regard, in our employment services we intend to grow (a) our permanent recruitment services by adding newer forms of recruitment like Recruitment Process Outsourcing (“**TRQ**”) and (b) our regulatory consultancy for labor law compliance businesses by having dedicated personnel for business development/marketing activities; in our employability offerings we intend to improve our (a) retail learning solutions by expanding our foot print of franchise network and converting our franchise network into employment centers, (b) institutional learning solutions.

We intend to expand the breadth of human resource services in order to be a one-stop provider of human resources services from temporary staffing to payroll processing, recruitment, compliance and training services. To achieve this, we have adopted a “match, repair and prepare” strategy that will enable us to match the requirements of our clients with the right human resource, assist in repairing for any skill deficits of our Associate Employees’ training and prepare people to enter the workforce by equipping them with vocational skills. We believe that our “match, repair and prepare” strategy will enable us to access a better quality workforce, help us expand our service offerings and evolve from a staffing solutions provider to a training and learning based human resource service provider. Furthermore, while we have traditionally been sector agnostic and focused on providing temporary staffing solutions for sales, logistics and customer service functions, which are relatively low margin services, we intend to offer higher margin services by providing specialized service offerings in service sectors such as IT, hospitality and healthcare. We also intend to strengthen our operations by hiring operations staff to support the growth in new verticals and service offerings.

Achieving scale in staffing through five key elements

We intend to achieve scale as a means to increase our revenues without incurring corresponding increases in operating expenditure. The following five elements are aimed to achieve scale in our staffing business:

1. Technology

Technology is at the forefront of our business, and is the key enabler of core staffing business, as well as for our non-staffing businesses. As of November 30, 2015, we employed a team of 77 software engineers, who continually develop various applications that enable us to grow our business while achieving efficiency and economies of scale. Set forth below are some of the key software applications developed by our in-house technology team.

- ***Associate Lifecycle System (ALCS)***

ALCS is a Microsoft systems based technology platform that drives our staffing business. Our ALCS platform provides automation to the entire associate lifecycle process from onboarding Associate Employees, to requesting relevant monthly information from clients, such as incentives payable and leave of absences, to raising invoices, billing clients and making collections to releasing monthly salary payments to our Associate Employees. Our technology team rolls out annual versions that reflect significant upgrades to our system towards achieving increasing levels of automation of our business processes. We are currently on version 9.0, and are working on version 10.0. The primary business objective of version 10.0 is to reduce the time taken to process our approximately 100,000 payroll records across 1,252 clients as of November 30, 2015. We currently take 117 hours to process these payrolls and processes through a system of sequential processing; version 10.0 will reduce this to approximately four hours using a parallel processing system. This parallel processing system will have the capacity to process a million Associate Employee payrolls, thereby helping us to scale up our operations significantly. Future versions will focus

on improving the usability of the system, making the user interface more easily accessible internally as well as by our clients. The ALCS system is modular, which helps us in implementing monthly and quarterly upgrades that enable us to improve functionality without having to wait for new versions. Our ALCS platform also helps us to manage an associate count of as low as one to as high as couple of thousands within a particular system.

• **Á** *Candidate Lifecycle System (CLCS)*

CLCS was developed principally for our permanent recruiting business but is also used in the sourcing side of our staffing business. CLCS is a Microsoft systems based platform that automates the candidate lifecycle from processing job requirements provided by clients, to registering mandates, searching for matching candidates in our database using artificial intelligence, to sending profiles to clients, processing client shortlists of candidates, tracking interviews and raising invoices in the case of permanent recruitment candidates or migrating them to the ALCS system in the case of temporary staffing candidates. We are currently on version 3.1. The business objective of version 4.0 is to create market place for job seekers. We believe that this will help us reduce hiring costs for our sourcing and permanent recruitment businesses.

• **Á** *Regulatory Lifecycle System (RLCS)*

RLCS is a Microsoft systems based technology platform designed for our regulatory consulting business. RLCS manages the entire consulting process. The system has an embedded store of all relevant labor laws in India and is designed to accept inputs of client data, perform automatic audits of our clients' regulatory compliance status and generate reports, which we can send to clients as part of our consulting services. We are currently on version 7.0. Our technology team is working on developing version 8.0, which will have improved usability that will make work flows self-guided and user friendly.

• **Á** *Center Operation Management System (COMS)*

COMS is a Microsoft systems based technology platform that manages our retail learning solutions business operating under the IIJT brand. COMS manages the franchisee operations from candidate registration to tracking courses and classes to collecting royalties from franchisees.

2. Operations

The back end operations for staffing consists of the following teams: operations, customer relations, operational finance, legal / compliance, quality management, information technology and management information systems. We moved from a distributed operational model to a centralised model during the year 2009-2010. Centralising all the operational teams has helped us maintain consistency in delivery and improved performance. Our constant endeavor has been to improve our staffing operations systematically through people, process and technology. While focused training of the employees and constant improvement in processes help us on the quality front, interventions on the technology front has helped us with scale. All of the above functions constantly strive towards improving key metrics around associates paid on time and client satisfaction.

3. Compliance

We intend to continue to improve our regulatory compliance processes. We believe that the adoption of labor reforms in India which will enforce minimum wage compliance, provide options to low-wage employees to determine their portion of statutory contribution to PF, ESIC etc., will significantly expand the market for organized temporary staffing service providers by curbing the dominance of the unorganized temporary staffing market. Our individual Promoters will continue to demonstrate their thought leadership in advocating labor reforms at the highest levels of public discourse in India. Our objective in focusing on regulatory compliance is to be well prepared to capitalize on market opportunities that present themselves as a consequence of labor reforms being adopted in India.

4. Business development and brand promotion

Given the unique nature of the industry we operate in whereby the organized staffing companies have only a 1% share of the total staffing market, we intend to aggressively expand our reach and service offerings by increasing the size of our business development teams and brand building activities. Our brand building

activities would largely be centered around undertaking advertising campaigns on (i) television (heavy seasonal bursts supported by thin presence across the period); (ii) radio (this will be in addition to the television advertising in select cities); (iii) digital (continuous presence throughout the campaign period on Google, Facebook and Youtube); and (iv) print media (promotional supplement in English daily newspapers that are targeted at our metro city audiences).

5. *Associate Employee hiring*

Hiring of Associate Employees is a key element of the staffing business and leads to enhanced customer satisfaction. This activity is being carried out by our sourcing department through a dedicated team of 158 full-time employees, as of November 30, 2015, in addition to certain vendors at locations where we do not have a physical presence. In the years ended March 31, 2014 and 2015, approximately 6% and 10%, respectively, of Associate Employee applicants were successfully matched to temporary staffing roles with our clients. We believe that we can improve the rate at which we can match Associate Employee applicants to jobs by further improving our already strong technology platforms. We also intend to increase the total number of associates hired for the staffing business through the following means: (i) establishing a portal whereby job-seekers across the country are able to submit their information for jobs that are currently posted or for other opportunities that may arise in the future; and (ii) converting all of our retail training centers into private employment exchanges.

Continue to grow through strategic acquisitions.

We intend to pursue strategic acquisitions that will enable us to leverage our existing assets and offer our clients more comprehensive and attractive services. We intend to enhance and expand our presence in both existing and new segments and target industries, as well as expand our solution and technology platform. Strategic acquisitions could also enable us to establish our presence in newer sectors such as IT and healthcare and hospitality given the specialized human resources requirements.

Investors should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes bidding by Anchor Investors.

Bidders can bid at any price within the price band. For instance, assume a price band of ₹ 20 to ₹ 24 per share, Offer size of 3,000 equity shares and receipt of five bids from bidders, details of which are shown in the table below. A graphical representation of the consolidated demand and price would be made available at bidding centres during the bidding period. The illustrative book given below shows the demand for the equity shares of the issuer company at various prices and is collated from bids received from various investors.

Dkf 'S wcpvskf ''	Dkf 'Co qwpv'₹+'	Ewo wv vkp'g'S wcpvskf ''	Uwduet lr vkp''
500	24	500	16.7%
1,000	23	1,500	50.0%
1,500	22	3,000	100.0%
2,000	21	5,000	166.7%
2,500	20	7,500	250.0%

The price discovery is a function of demand at various prices. The highest price at which the issuer is able to issue the desired number of equity shares is the price at which the book cuts off, i.e., ₹ 22.00 in the above example. The issuer, in consultation with the book running lead managers and each Selling Shareholder, will finalise the issue price at or below such cut-off price, i.e., at or below ₹ 22.00. All bids at or above this issue price and cut-off bids are valid bids and are considered for allocation in the respective categories.

Steps to be taken by Bidders for Bidding:

- 1.Á Check eligibility for making a Bid (please refer to “Offer Procedure – Who Can Bid?” on page 397);
- 2.Á Ensure that you have a demat account and the demat account details are correctly mentioned in the Bid cum Application Form;
- 3.Á Except for Bids (i) on behalf of the Central or State Governments and the officials appointed by courts, who, in terms of a SEBI circular dated June 30, 2008, may be exempt from specifying their PAN for transacting in the securities market, and (ii) Bids by persons resident in the State of Sikkim, who, in terms of the SEBI circular dated July 20, 2006, may be exempted from specifying their PAN for transacting in the securities market, for Bids of all values, ensure that you have mentioned your PAN allotted under the Income Tax Act in the Bid cum Application Form. In accordance with the SEBI ICDR Regulations, the PAN would be the sole identification number for participants transacting in the securities market, irrespective of the amount of transaction (please refer to “Offer Procedure” on page 413);
- 4.Á Ensure that the Bid cum Application Form is duly completed as per the instructions given in the Red Herring Prospectus and in the Bid cum Application Form;
- 5.Á Bids (except by Anchor Investors), were submitted only through the ASBA process;
- 6.Á Ensure the correctness of your PAN, DP ID and Client ID given in the Bid cum Application Form. Based on these parameters, the Stock Exchanges will validate the electronic Bid details with the Depositories records for PAN, DP ID and Client; and

Means of finance

Of the aggregate ₹ 1,058.75 million estimated towards this Object, we intend to fund ₹ 800 million from the Net Proceeds. Additional payments towards this Object are intended to be funded through our existing, identifiable internal accruals. Accordingly, we confirm that there is no requirement to make firm arrangements of finance under Regulation 4(2)(g) of the SEBI ICDR Regulations through verifiable means towards at least 75% of the stated means of finance, excluding the amount to be raised through the Offer or through existing identifiable internal accruals.

2. Acquisitions and other strategic initiatives

In pursuit of our strategy of inorganic growth through strategic acquisitions and alliances, we continue to evaluate opportunities for continued backward integration and to identify targets or partners for forward integration, including by way of selectively evaluating targets or partners for strategic acquisitions and investments, so as to strengthen our range of services and our customer portfolio, and

to benefit from economies of scale, leveraging multi locational operational synergies, knowledge sharing and acquiring new product platforms in order to strengthen our position as an integrated human resource services provider. Our strategy is to seek to acquire businesses with high growth potential, along with their existing customer relationships and product and process competencies, and to integrate and grow their businesses through enhanced quality and servicing parameters, integration of information technology systems and platforms coupled with our management know-how and experience. In particular, we intend to explore opportunities in the information technology, health care and hospitality services sectors to complement our existing business and to leverage our existing assets to offer our clients a wider, flexible and more comprehensive range of services. We may also seek to expand our nationwide operations, based on demand and workforce logistics in various geographies, to fuel our growth, going forward.

We believe that we have benefited significantly from the acquisitions undertaken by us in the past. Our acquisition of the corporate and institutional training business of IIJT in 2012 strengthened the employability aspect of our services by enabling us to set up a network of training centres across India by identifying and appointing franchisees, mobilizing and enrolling trainees and offering placement services for retail learning trainees. Similarly, our acquisition of the staffing and manpower services business of PEPL in 2012 enabled us to scale up our staffing operations in line with our growth objectives. For further details in relation to our retail training and staffing services, please refer to “Our Business” on page 136.

As on the date of this Prospectus, we have not entered into any definitive agreements towards any such potential acquisitions or strategic initiatives. This amount is based on our management's current estimates of the amounts to be utilised towards this Object, considering our discussions and negotiations with potential targets and partners and other relevant considerations. The actual deployment of funds will depend on a number of factors, including the timing, nature, size and number of strategic initiatives undertaken, as well as general factors affecting our results of operation, financial condition and access to capital. These factors will also determine the form of investment for these potential strategic initiatives, i.e., whether they will involve equity, debt or any other instrument or combination thereof. At this stage, our Company cannot determine whether the form of investment will be equity, debt or any other instrument or combination thereof. The portion of the Net Proceeds allocated towards this Object may not be the total value or cost of any such strategic initiatives, but is expected to provide us with sufficient financial leverage to enter into binding agreements. In the event that there is a shortfall of funds required for such strategic initiatives, such shortfall shall be met out of the portion of the Net Proceeds allocated for general corporate purposes and/or through our internal accruals or bridge financing or any combination thereof.

This may also include rescheduling the proposed utilization of Net Proceeds and increasing or decreasing expenditure for a particular object i.e., the utilization of Net Proceeds. 2.1.3 As per Section 111A of the Act, STCG on sale of equity shares or units of an equity oriented fund, where the transaction of such sale is subject to STT, may be chargeable to income-tax at a concessional rate of 15% (plus applicable surcharge and education cess). STCG arising from transfer of shares/units, other than those covered by Section 111A of the Act, may be subject to tax at the rate as applicable to the Company i.e. 30% (plus applicable surcharge and education cess).

2.1.4 As per section 112 of the Act, LTCG [to the extent not exempt under section 10(38) of the Act] may be subject to tax in the hands of the Company at the rate of 20% (plus applicable surcharge and education cess).

However, as per the proviso to section 112(1) of the Act, if the tax on LTCG resulting from transfer of listed securities (other than a unit) or zero coupon bond [to the extent not exempt under section 10(38) of the Act], calculated at the rate of 20% (with indexation benefit) exceeds the tax on long term gains computed at the rate of 10% (without indexation benefit), then such gains may be chargeable to tax at the concessional rate of 10% (without indexation benefit) (plus applicable surcharge and education cess).

2.5.Á As per Section 54EC of the Act and subject to the conditions specified therein, LTCG, can be claimed as exempt from tax to the extent such capital gains are invested in certain notified bonds (currently bonds issued by National Highways Authority of India and Rural Electrification Corporation Limited have been notified for this purpose) within six months after the date of transfer. If only part of the capital gains is so reinvested, the exemption shall be allowed proportionately. However, it is also provided under Section 54EC that investments made on or after April 1, 2007 in such bonds, should not exceed Rs. 5,000,000 during any financial year.

Further, it may be noted that if such bonds are transferred or converted into money, within a period of three years from the date of their acquisition, the amount of capital gains exempted earlier, may become chargeable to tax as LTCG in the year in which the bonds are so transferred or converted into money.

2.6.Á According to the provisions of Section 74 of the Act, Short-Term Capital Loss arising during the year can be set-off against STCG as well as LTCG of the said year. Balance loss, if any, could be carried forward for 8 AYs for claiming set-off against subsequent years' STCG as well as LTCG. As per Section 74 of the Act, Long-Term Capital Loss suffered during the year can be set-off only against LTCG. Balance loss, if any, could be carried forward for 8 AYs for claiming set-off against subsequent years' LTCG only.

India's GDP growth is experiencing an upswing following a slump between 2010 and 2013. Estimates from various agencies suggest that the country's economy is gradually on the road to recovery. The Central Statistical Office placed the country's GDP growth for 2013-2014 at 4.9%, which was higher than the 4.5% estimated.

In 2015-2016, GDP is estimated to grow by around 7.9%. As the economy recovers and grows, flexi-staffing is expected to become an integral part of the expansion plans of companies.

Employment growth

Even during India's high growth years, contrasting trends have been observed between GDP growth and employment elasticity. Between 1999-2000 and 2011-2012, the economy grew at a CAGR of around 7.3%. GDP growth between 2004-2005 and 2011-2012 was higher than between 1999-2000 and 2004-2005. At the same time, however, employment elasticity (defined as the percentage increase in employment for every percentage point increase in GDP) of the non-agricultural sector deteriorated sharply during these high growth years.

India's growth during the boom years was largely driven by less labour-intensive sectors. In the seven fiscals to 2011-2012, information technology, financial services, real estate and other business services grew at over 11% per year, and contributed significantly (22%) to overall growth.

But the labour intensity of manufacturing also fell sharply during 2004-2005 to 2011-2012 because as a large part of the manufacturing (industry) sector's growth came from fast-growing, capital intensive industries such as petrochemicals. Also, rising substitution of manual labour due to complicated labour laws (rigid rules for hiring and firing of workers) and technological progress led to higher automation. As a result, by 2011-12, the manufacturing sector needed almost half the number of workers it did in 2004-2005 to produce ₹one million of real output. In 2011-2012, the manufacturing sector had the highest industry share of employment, at around 52% of total employment.

At the same time, high growth in services did not result in large incremental employment as it requires only about one to two people to produce ₹ one million of real value-added GDP. By contrast, the more labour-dependent services subsectors grew at a much slower pace. For instance, health, education and recreation services, which require nine people to produce ₹ one million of real GDP, grew at 6.8% between 2004-2005 and 2011-2012. As a result, employment addition in these sectors was limited.

Estimates by various agencies suggest that India's economy is gradually on the road to recovery. In 2015-2016, overall GDP is estimated to grow by around 7.9%. The government managed to increase allocation for capital expenditure (up by 25.5% to ₹ 2,414 billion) for 2015-2016 because of the headroom created from savings in oil subsidies and hike in excise duties on petrol and diesel. As a share of GDP, capital expenditure will increase from 1.5% in 2014-2015 to 1.7% in 2015-2016. The budget is likely to have a positive impact on the manufacturing sector on the back of anticipated investments in infrastructure and improvement in domestic investment.

Various factors therefore have an implication on the employment levels of each industry segment. The levels of employment do not merely track the progression of GDP.

Working group population and characteristics

•Á Working group population

In India, people aged between 15 to 59 years are typically considered working age population. According to census data, this employable population has experienced a 24.7% growth between 2001 and 2011. This increase far exceeds the growth in India's general population for the same period of 17.7%. The proportion of India's population who are part of the working group population has risen from around 57% in 2001 to 62% in 2011-2012.

The majority of India's population is therefore potentially employable. They can be imparted with the training and skills to make them attractive to employers. As per census data, India's population reached 1,211 million in 2011. India's population therefore has great potential to meet the future demands of the world and become a global sourcing hub for a skilled workforce.

•Á Working group characteristics

The proportion of illiterate people in India's working group population has declined by 3-4% between 2004/2005 - 2011/2012. Among the literate group in the working population, there has been growth in the amount of workers with graduate and above and higher secondary education.

However, a large proportion of the working group population are yet to attain secondary level of education. Those workers with an education profile below secondary level of education primarily work in the informal sector (being self-employed or working in unincorporated proprietary or partnership enterprises). By contrast, those with higher education levels are employed in the formal sector (such as in government entities, public/private limited companies and other registered organisations).

A high level of unemployment has been witnessed in many areas across India. The unemployment rate is higher in regions where the education profile of the population is weak, indicating the significance of skill development.

The East of India has the highest percentage of illiterate persons, whilst West India is one of the regions with the highest share of education levels of “Secondary and Above”. This has a clear effect on the levels of unemployment in the respective regions, with states in East India having amongst the highest rates of unemployment, and states in West India having amongst the lowest.

Due to the lack of employment opportunities and poor skill-sets, workers are forced to either look for work as low-paid casual workers or become self-employed. More than half of the workforce is self-employed owing to lack of employment opportunities. Poverty and lack of education are major constraints to employment. The proportion of self-employed and casual labourers is around 82.1% of the total workforce.

Employment in formal vs informal sectors

India's informal sector is currently driving employment. The informal sector comprises all unincorporated proprietary, partnership enterprises and enterprises whose activities or collection of data is not regulated under any legal provision and/or which do not maintain any regular accounts. About 80% of India's workers are in the informal sector, with particularly high levels of informal workers evident in the manufacturing and construction industries.

Formal vs Informal employment by Industry sector (2011-2012)

Source: NSSO, CRISIL Research

The cumulative effect of low levels of literacy, less-than-adequate skill-sets, and lack of employment opportunities is a high level of self employment, due to which informal employment dominates employment in most sectors. Complex and tough labour laws have hampered job creation in the formal sector. Many workers also prefer the higher take-home pay that the unorganised framework for a job can provide.

Staffing industry transformation

India is the world's second largest labour market. Only around 10% of India's labour force works in formal employment. Redefining the nature of employment and having a greater amount of workers in formal employment will be critical if India's economic development is to become more broad-based, not only in terms of regions, but also in terms of social inclusion.

Both industry and the government are increasingly recognising that if the current employment scenario continues, the situation will become increasingly untenable and a hurdle to growth and economic and social development.

The biggest challenges confronting the Indian employment industry today, and thus the focus points for industry and the government are:

- Á bringing jobs to people wherever they are located;
- Á improving skill-sets of the workforce and ensuring employment generation keeps pace with rising literacy;
- Á regulatory measures to increase formalization of enterprises;
- Á reducing informal employment to increase social security;
- Á regulatory push towards formal employment; and
- Á the introduction of vocational education and training.

Industrialisation in India has been focused on a few states, whilst those workers with the requisite skills are more widely located. This means that there are inadequate workers with the requisite skill-sets in regions where industry is concentrated, and not enough employment opportunities in their home regions for people with the appropriate skills. For instance, a large percentage of the enterprises in India are located in South and West India, yet the largest proportion of working age population belongs to North and East India.

Lack of opportunities in their domestic zones is putting pressure on people from less-developed regions to migrate, causing social and familial dislocations and putting pressure on civic and social infrastructure. By contrast, service industries such as IT/IT enabled services, banking and telecom services are facing a shortage of people with the necessary skill-sets.

Due to lack of opportunities in their home regions, many workers are turning entrepreneurs, or end up doing lower paying jobs or casual work. This is reflected in the large number of enterprises in the country being operated informally.

Due to a confluence of such factors, a greater proportion of jobs are still being created in the informal sector. On the one hand, the industry is unable to find enough people with the adequate skill-sets, and on the other hand there are large numbers of people working in jobs far below what their educational qualifications or skill-sets demand.

Numerous efforts are underway to mitigate this situation. The Central and State Governments are providing incentives for industry to set up enterprises in relatively unindustrialised areas. Governments are also increasing the allocation of education and setting up more such institutions in less-industry intensive areas. This will enhance the skill-set of the population and hone them for the formal industry. The result of this will be new employee-catchment areas for companies and encouragement for them to set up industries in such areas.

India's employment growth going forward will be concentrated in a few functions (sales, service, logistics) and employment intensive industries (healthcare, FMCG, FMCD, hospitality, construction, etc.). These functions in industries are much more likely to use formal staffing companies relative to old industries.

There is also a focus on consolidating skills development and increasing the education, literacy and skill-sets of the general population. The National Skills Development Mission through Skill Development and Entrepreneurship Ministry is just one of these initiatives, that has resulted in the establishment of the National Skills Development Corporation.

Finally, the government is focusing on introducing regulatory measures to increase the formalization of enterprises and push towards an increase in formal employment. Amendments to India's complex and antiquated labour laws are already underway, and the government is focused on formalizing both enterprises and employment.

There should be a move from informal to formal employment and will lead to an increasing play thereon of the formal sector.

The transformation from formal to informal employment will happen in the following three phases-

- Á Phase 1: operations/risk/compliance
- Á Phase 2: hiring

• Phase 3: quality of employees

As the government and industry work to address the problems facing the employment sector in India, and to increase the rates of formal employment, there is likely to be huge opportunities generated for the flexi-staffing industry.

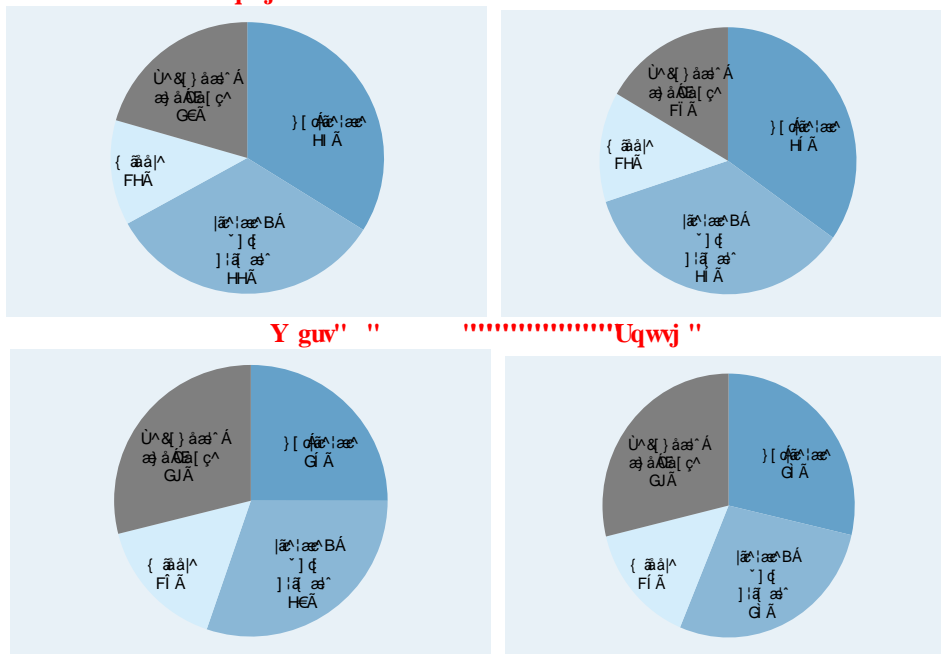

Indian labour market transformation

India's poverty is about low productivity. India is on the cusp of a transformation of its five geographies of work.

• Physical geography of work

To boost their presence and meet demand for their products/services, companies are aggressively expanding in tier II and tier III cities. Finding the right manpower for such locations is a challenge. Education levels across the regions vary, with lower education levels evident in the North and East of India.

The vast employee requirement versus availability can also be seen from the high concentration of factories in select major states.

Nearly 50 percent of factories are setup in five states which leads to significant demand-supply gap of workforce. Here flexi staffing plays a key role in taking jobs to people and people to jobs

India's physical landscape is still largely rural, with six lac villages (of which two lac have less than 500 people). Companies are incurring huge costs to locate, hire and then retrain the right talent. Flexi-staffing agencies with a significant national footprint will be at an advantage as they can cater to the requirements of employers by bringing in flexi-staff from distant locations. However, it is a challenge to bring people and jobs together.

The government has recently announced that it was willing to fund and dedicate contracts to the business process outsourcing industry to create jobs in the North-east and tier II and III cities in the country. There are also 100 'smart cities' planned to be established. This will create jobs in locations outside the traditional industrialised areas. The various training initiatives currently underway will assist to provide employees with skills in the necessary areas to make them more employable in the formal sector. Flexi-staffing companies will be in an ideal place to assist with the provision of labour as companies expand their operations into less industrialised areas.

The big question for public policy is whether India is going to take jobs to people or people to jobs. The history of economic development is about taking people to jobs.

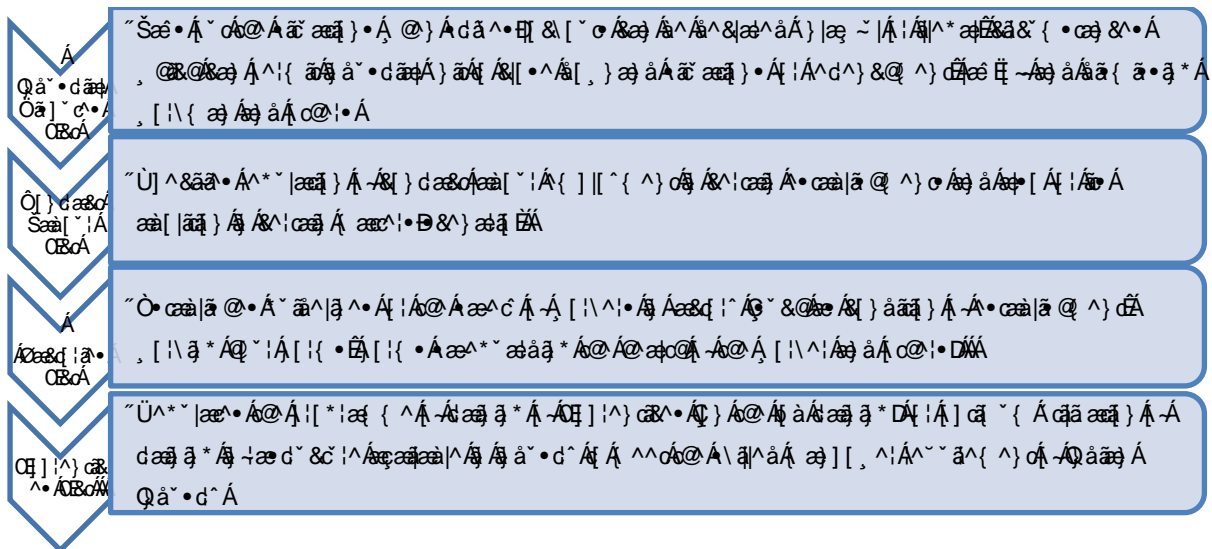

•Ā *Enterprise geography of work*

The total number of establishments in India is around 58 million, as per the 6th Economic Census. In the years ahead, the number of enterprises in the country will rise due to factors such as higher GDP growth, an expected increase in the share of establishments located in urban areas and regulatory policy initiatives to attract fresh industry to hitherto less-industrialised areas. Overall, this will lead to an increase in the number of formal enterprises and improve the migration of informal labour into the organized workforce.

•Ā *Legislative geography of work*

India has a multitude of antiquated employment laws, which reflect dated attitudes and thinking. The number, complexity and outdated nature of these laws can operate to deter industry from giving permanent employment to people, leading to a greater number of jobs being created in the informal sector. Central government is committed to the reform of labour laws and the repeal of outdated legislation.

Recent regulation amendments in the interests of flexi-staffing industries include the ID Act, CLRA Act, the Factories Act and the Apprentices Act.

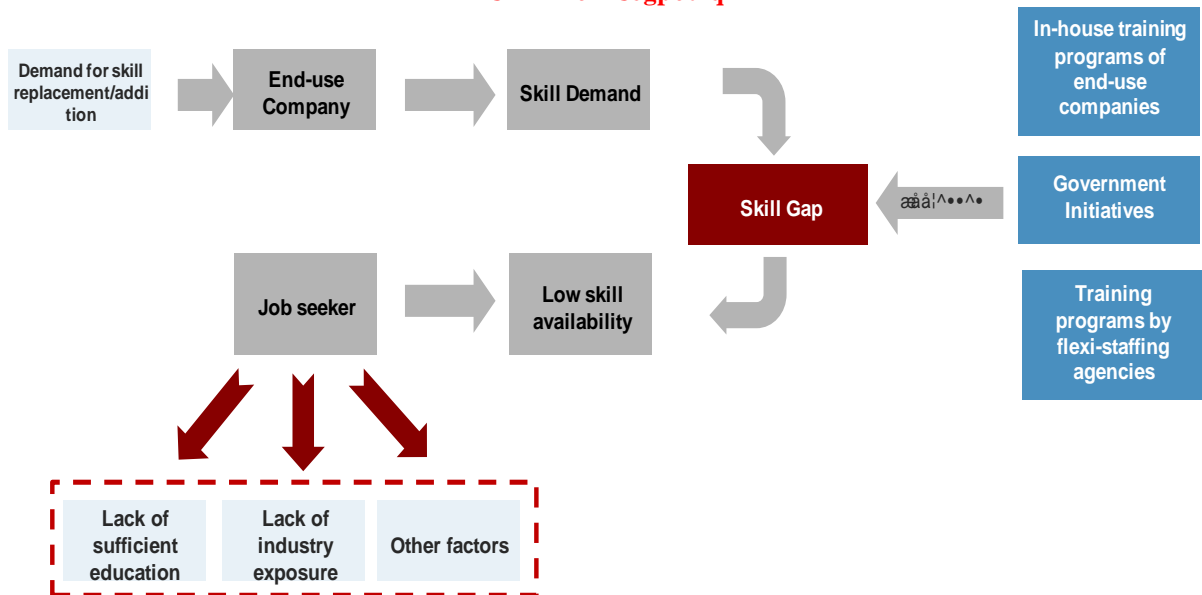

Source: CRISIL Research

Stakeholders believe that these amendments will have a positive impact on flexi-staffing agencies. Certain states have recently taken the lead in reforming employment norms, which should contribute to an increase in the formal employment market share.

• *Education geography of work*

The government, end-use companies and staffing companies are all undertaking efforts to address the skill gap between companies' demand for skilled employees and the low skill availability.

Unkrl cr 'Uegpctkq'

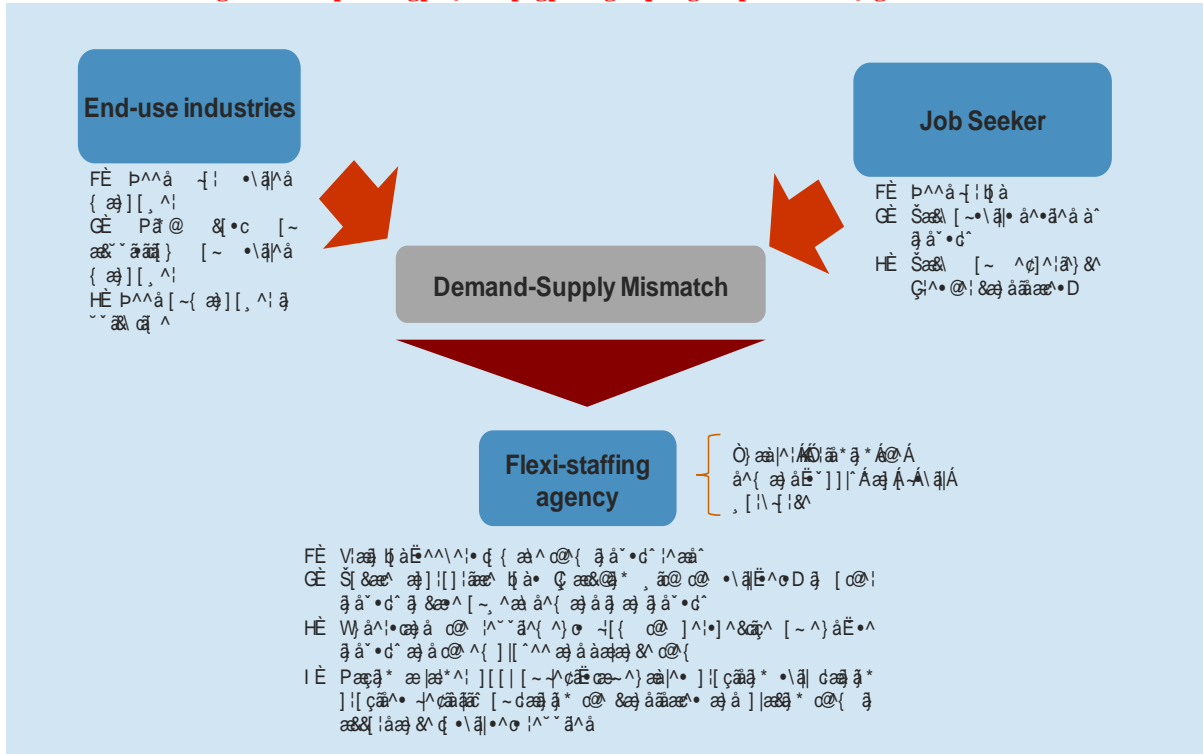

Source: CRISIL Research

The government is undertaking a clear push for skills development. In 2009, the government adopted the National Skill Development Policy with the aim to skill/reskill 500 million people by 2022. The main intention behind the policy is to equip people with skills and enhance employability. The target of providing skills is split across 17 ministries and the National Skill Development Corporation (a non-profit organization focused on providing training). Many programmes implemented by the different ministries, such as the skill development programmes run by the Ministry of Human Resource and Development, the Ministry of Rural Development, the Ministry of Urban Development, the Ministry of Labour and the Ministry of Minority Affairs will operate to train/retrain labour and provide value-added services, which will increase job opportunities for employees.

Staffing companies are also playing an active role in skills development. As flexi-staffing agencies act as an intermediary between end-use organisations and employees, the flexi-staffing industry has a continuous understanding of the skill demand and supply trends for end-use companies. The flexi-staffing industry acts as an enabler, by providing job seekers with training on the requested skills of end-use industry to make them job-ready for the end-use organizations. Job-seekers are provided with better prospects, and end-use companies are provided with more skilled potential employees.

Flexi-staffing companies are therefore able to offer end-use companies with ready-trained employees. This reduces the costs that would be incurred by the employer in training their new employees.

Finally, various vocational skill programmes have been set up by various stakeholders joining together, such as the NETAP (enabled by TeamLease, the Confederation of Indian Industry, and the National Skill Development Corporation). These impart vocational training on employees, again further increasing their employability and attractiveness to end use companies.

•Á Sectoral geography of work

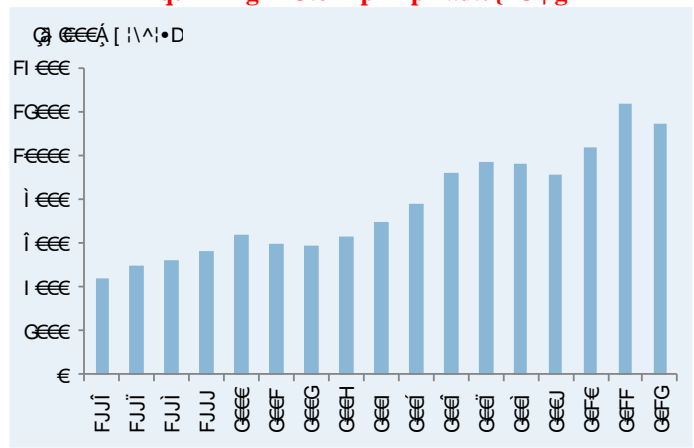

The low productivity of India's labor force working in agriculture means that most of India's self-employed are part of India's working poor; people who make enough money to live but not enough money to get out of poverty.

Only 11% of the labour force works in manufacturing, which is the same percentage as in post-industrial United States. The government aims to double the labour force working in manufacturing. This will create opportunities for flexi-staffing companies to provide the required workers.

Flexi Staffing Industry Overview

Globally, the staffing industry has grown considerably over the past few years. According to the CIETT Economic Report 2014, the industry size had reached 11.5 million workers by the end of 2012. Thus, despite the slump in the aftermath of the financial crisis, and the resultant economic slowdown, the industry still had a 7% growth rate over the last decade.

Amongst 11.5 million workers, Europe employed the largest number of people in 2012. South America and North America represented around 38% of the total number of workers. The Asia/Pacific region employs another 16%.

In the past few years, organised flexi-staffing companies have mushroomed in response to corporate India's demand for labour with adequate skill-sets. In 2012, India's flexi-staffing penetration rate based on the total workforce was only 0.3%. It is therefore an acutely underpenetrated market, with vast opportunities.

There is a growing awareness among corporates globally of the advantages of flexi-staffing. Over the next few years, this will encourage more companies to consider flexi-staffing as a viable employment option.

Indian flexi-staffing industry overview

A gradual movement towards a more formal set up to employment is anticipated to occur due to various factors such as the increasing number of enterprises turning formal, skills development and regulatory amends in favour of formal and flexi-staffing industries.

Opportunities for Flexi-Staffing Companies

Source: CRISIL Research, NSSO

There are therefore favourable circumstances for flexi-staffing agencies due to the gradual transformation towards formalization from casual workers over the longer term.

There are opportunities for the flex-staffing industry to take advantage of across various segments of employment. The various segments and their respective opportunities are as follows:

- **Logistics and Telecom Services**

Logistics and Telecom Services includes telecom services, the cold chain industry, warehousing and domestic freight transportation services. An increase in the need for flexi-staffers is expected to incur as e-commerce players expand their operations.

- **Manufacturing**

The manufacturing industry is expected to witness growth led by government support for labour-intensive sectors such as textiles, food processing, construction and tourism. The manufacturing industry is the largest driver of the flexi staffing industry, constituting nearly 30% of the total flexi-staffing market in India. However, the industry mainly uses the unorganised sector for its labour requirement.

- **Retail, Fast Moving Consumer Goods and Hospitality**

The retail section of this segment has faced a slowdown in growth in recent years. The growth momentum is likely to accelerate with the generally more positive economic outlook. The fast moving consumer goods section is amongst the largest sectors in the economy, and is expected to see continued strong growth levels. Positive movement in the economy will also boost the hospitality segment. As expansion occurs in tier II and III cities, flexi-staff will be increasingly required in this segment.

- **IT/IT enabled services**

IT enabled services exports in India are to experience high levels of growth in 2013-14, primarily driven by higher volumes of finance and accounting and knowledge-based services. Domestic IT enabled services are also seeing revenue grows. There are healthy growth prospects for the flexi-staffing industry, as companies attempt to find people with technical expertise and domain knowledge.

• **Banking, Financial Services and Insurance**

As banking and financial institutions look forward to increase their customer outreach, the need for sales/distributors (essentially front-end roles) is expected to increase in tier II and tier III cities. Consequently, the penetration of flexi-staffing is expected to pick up as financial institutions are anticipated to look forwards to flexi-staffers for these non-core activities.

Overall current industry size

- **Ip f w m t { ' u k g** The flexi-staffing industry in India as of 2013-2014 in value terms is around ₹ 180-220 billion. The average wages of flexi-staffing worker is assumed to be around ₹8,000-10,000 (which reflects weighted average wages for organised and unorganised players)."

Flexi-staffing benefits all stakeholders

Flexi-staffing brings benefits to both industry and the work force:

• **Industry**

Flexi-staffing offers companies savings on hiring, training and integration costs. Time and resources ordinarily expended searching for talent, providing on-the-job training and carrying out other joining and on board formalities (such as payroll) can be used by the company in other areas of their business. Attrition rates are also on the rise in certain industries, and flexi-staffing allows a company to manage attrition and reduce the costs involved.

By using flexi-staffing, a company's workforce can also react and be flexible to economic, business and seasonal requirements, which means that the company does not expend resources retaining employees who are surplus to requirements. This flexibility is increasingly becoming possible due to the enhancement of the skill-sets of workers being undertaken by the flexi-staffing industry. The flexi-staffing industry is increasingly able to match the demand from industry with the required skill-set.

Finally, flexi-staffing can be particularly useful for non-core operations. Firms are constantly looking to outsource non-core activities where revenue flows are not recurring or activities undertaken are not directly linked to business performance. Flexi-staffing can play a key role for these non-core operations, and enable companies to focus their efforts and resources on their core activities and staff.

•Á Work force

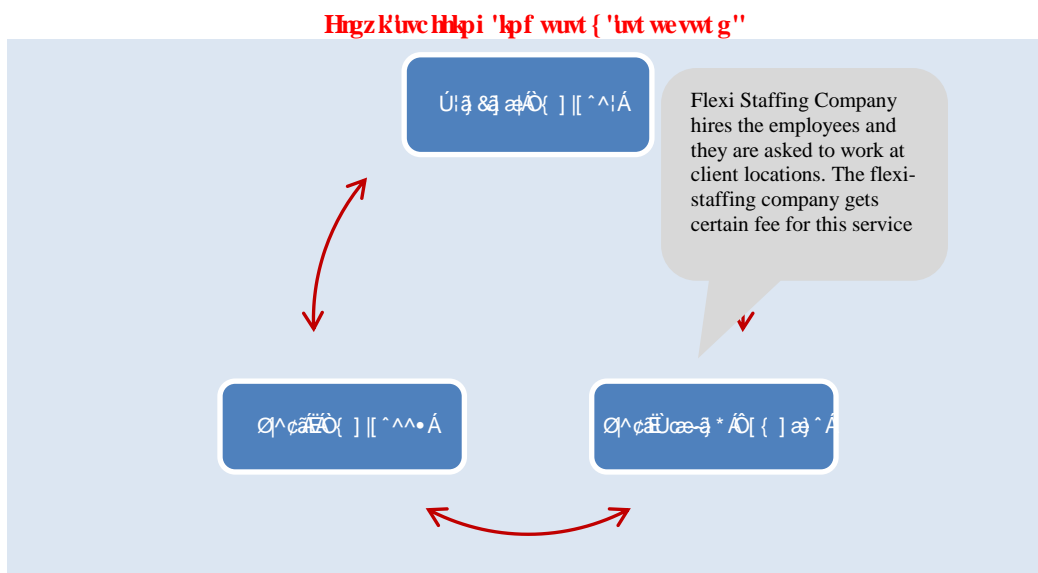

Flexi-staffing helps people to find an appropriate job and provides job security. The employee has access to the broad range of job opportunities accessible through the flexi-staffing industry.

Once the employee is placed in a job through the flexi-staffing industry, they will have access to social security and associated benefits, which a significant part of the workforce do not have access to. As flexi-staffing is able to provide such benefits, workers are likely to gradually shift from the unorganised sector to the organised space. Employees also potentially have the opportunity to be made a permanent employee of their principal employer, if their work product is satisfactory.

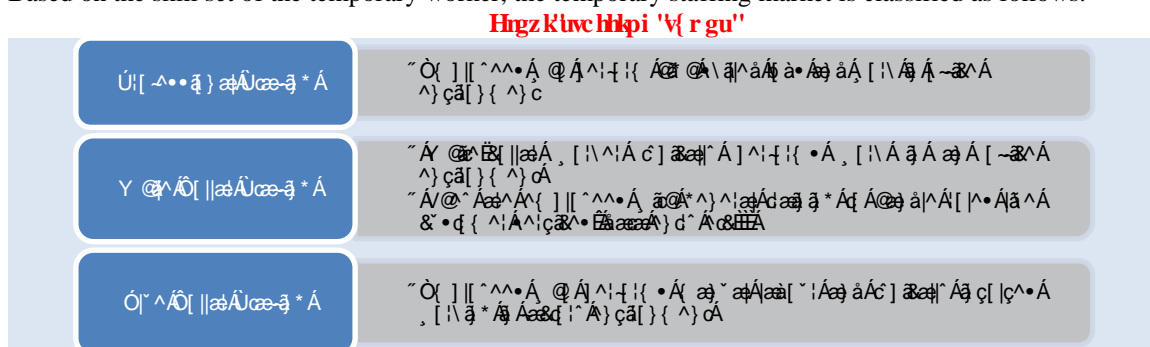

Flexi-staffing also provides training, which improves the employee's skill-set and makes them more attractive to other employers and opportunities. Employees have the opportunity to gain industry knowledge and on-the-job experience, which makes them more employable in the future, and more likely to be absorbed into the regular workforce.

Industry structure & competition

Flexi-staffing companies operate using a tri-party agreement between the flexi-worker, the staffing intermediary and the end user. The flexi-staffing company receives a percentage of every employee's salary, remuneration and other applicable benefits.

Based on the skill set of the temporary worker, the temporary staffing market is classified as follows:

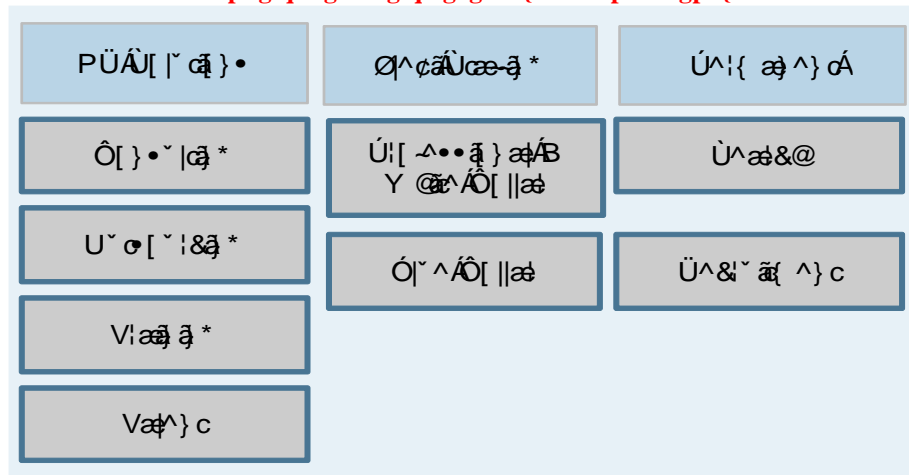

The flexi-staffing industry includes around six large sized players and many small and medium sized players, having a pan-India presence. Typically the larger sized players have flexi-staffing strength of over 25,000

employees. Unorganized players, which cumulatively account for a huge share of the overall flexi-staffing market, offer services limited to specific regions or cities.

The larger agencies have diversified their product portfolio from only offering flexi-staffing solutions, to becoming a one-stop-shop offering solutions for the entire range of human resource needs for a given industry or company. The HR solutions offered now include permanent recruitment, talent management, advisory services etc. Thus, employers have the option of availing multiple services from a single agency.

Source: Crisil Research

The range of HR services offered includes:

- **Vtchhpi** : being an interface between the employee and the end-user employer, flexi-staffing agencies have a deeper understanding of the dynamics of flex-staff and principal employers. They can therefore provide relevant vocational courses and help flexi-staffers to attain expertise in imparting specialist training. This helps to differentiate the flexi-staffing company from the competition. There is large scope for vocational training, particularly in the retail and construction segments.
- **Tget wlsó gpv'r t qegui'qwuqwt elpi** : In a recruitment process outsourcing arrangement, the employer outsources its entire or partial recruitment activities to a third-party. Organisations in India are gradually starting to outsource more and more recruitment functions to third-party providers. Flexi-staffing companies can provide these services.
- **Rc{ tqm'qwuqwt elpi** : Effective payroll functioning requires specialisation and understanding of applicable laws. Recent trends indicate that many companies in India are outsourcing the payroll function for effective management of this critical function, so that they can focus on core revenue generating activities.

The flexi-staffing industry is marked by the presence of many large multinationals (such as Adecco, Randstad and global Innovsource) and Indian players (such as TeamLease, Quesscorp, etc.). However, the industry in India remains largely fragmented, with small and medium players accounting for nearly 70-80% of the overall industry

Overall current industry growth

Source: CRISIL Research

The absence of strict compliance and regulations pertaining to the flexi-staffing industry has led to the entry of many unorganised players, who often discard the cost of compliance and, as a result, offer employees at a relatively economical cost compared to organised flexi-staffing companies who follow all the compliance procedures and incur the reflective costs. The use of these unorganised players is particularly common in certain industries, such as manufacturing. The flexi-staffing industry is therefore relatively fragmented.

Flexi-staffing players, during their genesis had specialization in specific domains and limited geographical presence. As the market has evolved, the only way for the larger companies to compete has been to become a one-stop-shop for flexi-staffing solutions for various domains and sectors. Many of the large flexi-staffing companies in India have undergone inorganic growth, by consolidating with or acquiring small to medium players. This gives the larger player the speciality or forte of the small to medium player acquired. The larger player is then able to widen their product portfolio.

The following illustrates the number of consolidations and acquisitions by the larger players historically:

Year	Consolidations	Acquisitions	Total
2001-to date	16	6	15
1991-2000	14	1	5
1981-1990	2	1	0
1971-1980	2	0	0

An example of an acquisition is that of Manpower, which majorly focused on recruitment and general staffing, who in the last 3 years acquired Web Development Company (WDC) to cater to professional staffing (IT services, etc.).

Employment

The overall workforce is expected to grow at a CAGR of 2-3% during 2011-12 to 2018-2019. Sectors such as manufacturing, financial, real estate and business services and retail will continue to have a relatively higher proportion of the workforce. Sectors such as IT enabled services and banking, financial services and insurance are expected to have relatively higher growth in overall employment as compared to other sectors.

The formal workplace is expected to grow at a CAGR of 9-10% during 2011-2012 to 2018-2019. This increase will be across sectors as newer labour laws come into force, and the general overall workforce grows. Apart from manufacturing, which is expected to constitute a large amount of the overall formal employee base, sectors such as fast moving consumer goods and logistics are expected to account for a significant proportion of the formal workforce.

Finally, flexi-staffing is expected to grow at a CAGR of around 20-25% between 2013-2014 and 2018-2019. Although there are new upcoming sectors such as e-commerce that will create fresh demand for flexi-staffing in India, the dominance of manufacturing (which has large proportion of unorganised players) in the industry will increase. Amendments to labour laws will increase the occurrence of flexi-staffing being used.

• **Á Penetration of flexi staffing within overall employment**

The penetration of flexi-staffing is expected to witness strong growth owing to various factors which include increasing number of enterprises turning formal, skill development and regulatory amendments in favour of formal and flexi-staffing industry. The initiatives taken by the flexi-staffing industry, such as training services, are also likely to add to the industry growth over the long term. The growth in penetration levels expected to be witnessed over the next 5 years is largely in line with many global economies who witnessed similar growth pattern.

Supported by factors such as adequate regulatory push and healthy GDP increase, there is scope for India's flexi-staffing industry to increase its penetration in the workforce in the future, as was/is the case in other major economies. The long term prospects for India's flexi-staffing industry are bright. The pace of the industry's growth will be a gradual process and is likely to be similar to what has been witnessed in more advanced countries.

• **Industry size**

The flexi-staffing industry in India as of 2013-2014 in value terms was around 180-220 billion. The average wages for the flexi-staffing workers is assumed to be around ₹ 8,000-10,000 (which reflects weighted average of wages for organised and unorganised players). Over the next 5 years, the flexi-staffing industry is expected to grow by 25-30% to attain a value of around ₹ 610-640 billion.

Source: CRISIL Research

This growth is owing to various factors, including an increasing number of enterprises turning formal, skill development and regulatory amendments in favour of formal employment.

• **Segmental mix**

Over the long term, it is expected that the manufacturing sector will increase the outsourcing of its labour force to third-party staffers. The other end-use sectors are expected to largely remain stable, except for a sharp decline in the retail segment owing to the large-scale increase in e-retailing. Nevertheless, fast moving consumer goods & retail are expected to constitute a significant proportion of the overall flexi-staff industry due to end-use size.

The IT segment is expected to drive flexi-staffing demand in the future. The need for technically upgraded skill-sets coupled with the high cost of acquiring talent is expected to encourage the industry to consider flexi-staffing as a potential solution. The demand for flexi-staff in logistics and telecommunications is also likely to grow on

account of the increasing reach of service providers and the penetration of e-commerce across various regions of the country.

We are one of India's leading providers of human resource services in the organized segment delivering a broad range of human resource services to various industries with a vision of putting India to work. We deliver a broad range of human resource services to various industries and diverse functional roles across India to meet the needs of small and large business clients as well as those of qualified job seekers or "Associate Employees". Our services span the entire supply chain of human resources in India, covering aspects of employment, employability and education. Our employment services include temporary staffing solutions, permanent recruitment services and regulatory consultancy for labor law compliance; our employability offerings include different types of learning and training solutions, including retail learning solutions, institutional learning solutions and enterprise learning solutions, we had 104,946 Associate Employees as of November 30, 2015, making us one of India's leading people supply chain companies. All of our businesses operate on an asset-light model with low capital expenditure requirements.

Our core business is providing staffing solutions across industry sectors and diverse functional areas. The majority of our Associate Employees are engaged in sales, logistics and customer service functions. We focus on people, processes and technology to enhance business productivity by enabling our clients to outsource their staffing requirements and allowing them to focus on operating and growing their core businesses. As on March 31, 2015, we have provided employment to approximately 1.12 million Associate Employees since 2002. As of November 30, 2015, we served 1,252 clients with a network of nine offices and 1,218 full-time employees across India. We are managed professionally by a high quality management team with deep extensive market and industry expertise, exhibiting thought leadership on matters of public policy. We had 979, 1,057 and 1,218 full-time employees as of March 31, 2014, March 31, 2015 and November 30, 2015, respectively.

We have provided services under the TeamLease brand for more than ten years and IJT brand for more than five years. We have grown largely organically, driven by our strong operational and technological excellence. From time to time we also identify and complete acquisitions to improve operational synergies, acquire new clients or enter new sectors. While we traditionally have not been focused on any particular industry sector in providing human resource services, we are currently exploring opportunities to enter the growing IT, healthcare and hospitality services sectors.

Our IT department, comprising 77 employees as of November 30, 2015, has been at the forefront of our business development by continuously producing upgrades to our various software applications and platforms. We believe that our technology infrastructure is robust and offers high levels of utility and functionality that can manage the demands of a rapidly scaling business. Our focus now is on improving the scale and reach of our technology platforms, with plans to improve the front-end user interface.

Staffing is a critical function for businesses. Customer demand is dependent upon the state of the economy, overall strength of the labor market as well as an established trend towards greater workforce flexibility. Demand is generally immediate and short term, and so our ability to service this demand gives us a competitive advantage. More liberal labor market laws, particularly for temporary staffing, are beneficial for the industry and have been a driver for greater workforce flexibility. We have championed the cause for labor reforms in India, particularly with regard to labor laws and public policy for many years and have helped create and expand the market for our services in India. Manish Mahendra Sabharwal, our Chairman, was selected to be a member of the Planning Commission Committee for labor reforms. As a member of the said committee and the Prime Minister's Skill Council, he chaired the sub-committee on remodelling of apprenticeship training. Our strong focus on regulatory compliance has enabled us establish a regulatory consulting business, whereby we provide regulatory services to clients with respect to maintenance of registers and compliance with various labor laws.

Our business is also strongly influenced by the macroeconomic cycle, which typically results in growing demand for employment services during periods of economic expansion and, conversely, contraction of demand during periods of economic downturn. Due to the sensitivity to the economic cycle and the low visibility in the temporary staffing sector, forecasting demand for staffing and human resource services is difficult. Typically, clients are not able to provide much advance notice of changes in their staffing needs. Responding swiftly to the customer's fluctuating staffing requirements in a flexible way is a key element of our strategy.

Our consolidated total revenues were ₹ 12,157.93 million, ₹20,184.60 million and ₹15,375.25 million and our profit after taxation as restated was ₹ 109.72 million, ₹296.90 million and ₹178.57 million, respectively, in the six months ended September 30, 2015, and in the years ended March 31, 2015 and 2014.

Market leading position with scale

According to CRISIL, we are one of India's leading organized staffing companies with a market share of approximately 5% in terms of Associate Employees in 2014. According to CRISIL, we have a larger market share than our competitors, both Indian companies as well as the Indian operations of global staffing, in terms of revenues. We have grown our revenues and the number of our Associate Employees significantly over the years. Our growth has been largely organic, and as of November 30, 2015, we had 1,252 clients, and as of November 30, 2015 we had 104,946 Associate Employees, making us one of the leading organized temporary staffing services companies in India with a significant brand value, which enables us to grow our business by attracting new customers as well as Associate Employees.

We use our presence across India, our well trained, diverse and large Associate Employee base and our scale of operations to leverage our centralized operations to provide comprehensive and cost-effective solutions to a diversified client base across sectors with a short turn-around time. Our Associate Employees are spread across India with our offices located in Ahmedabad, Bengaluru, Chennai, Delhi, Hyderabad, Kolkata, Mumbai and Pune. Our large geographical presence enables us to offer services to clients who have operations at multiple locations across India. Our scale also allows for workforce specialization by industry vertical markets and helps us to deliver staffing services that are most relevant to the needs of our clients.

Strong compliance practices that enable us to build longstanding relationships with clients

We place tremendous emphasis on compliance with applicable labor laws and regulations in an industry that is for the most part highly unorganized and fragmented. We believe that our focus on regulatory compliance gives us a significant competitive advantage, particularly in light of the evolving policy environment in India concerning labor laws with most of the larger clients shifting to organized service providers to comply with applicable regulations. Our strict adherence to labor laws and regulations sets us apart from our competitors, particularly those operating in the unorganized market, by providing us credibility and enabling us to build and maintain longstanding relationships with our clients. Our robust internal compliance mechanism has enabled us to set up a regulatory compliance vertical to service third parties. We had a team of 116 full time employees as of November 30, 2015 which focuses on staffing and labor compliance issues as well as on corporate and legal compliance issues. We believe that we are a trusted and preferred partner to our clients and are therefore able to attract, and provide temporary staffing services to, large Indian and multi-national companies such as Vodafone, E.I.Dupont India Private Limited and ATC Telecom Tower Corporation Private Limited. We also experience high levels of repeat customers. Repeat customers are clients on-boarded in the previous financial years representing 95.81% and 93.21% of our total revenues in the years ended March 31, 2014 and March 31, 2015, respectively. We define repeat customers as those customers who are not billed for the first time during the relevant year. Five of our top ten clients by revenue in the year ended March 31, 2015 have been with TeamLease for a term exceeding six years.

Technological and operational excellence

We have implemented processes and systems that have resulted in us achieving operational excellence, particularly in our ability to identify the right human resources to suit the customer requirements and to provide our clients consistently high levels of quality and reliability. We have undertaken a series of actions that have streamlined our operations. We have centralized our operations, finance, IT and regulatory compliance teams in Bengaluru. This enables us to remove branch level accountability for operations which can result in inconsistent and inefficient client service delivery. We have also standardized processes for client, by choosing broad templates that can be applied uniformly to all our clients. We believe that standardizing our processes has enabled us to offer consistently high levels of service to our clients and reduce the turn-around time. Most importantly, we have made significant investments in our proprietary technological platforms that have contributed significantly to operational efficiencies and the scale of our operations. Using our technology platform, we have implemented a steady migration of our operations from manual to automation in phases over the last five years. Our technology infrastructure has been designed in a manner that it can be configured according to specific requirements of our clients. For further details on our technology infrastructure, please refer "Technology" below.

We have been recognized for our operational and technological excellence on various forums and our Promoters have won various awards, including the FICCI Leapvault Skills Champion award, 2012 and the Forbes Leadership award, 2011. Our operational excellence is also reflected in our track record of making on-time payments in line with the agreed upon payroll due calendar (PDC) with our clients. Our Company also has been showcased in a case study published by the London Business School and the Harvard Business School. We believe that our technological and operational excellence gives us a key competitive advantage in the markets that we operate in.

Strong functional knowledge and expertise across industry sectors

We deliver our staffing services across various industries including the consumer durables, chemicals, manufacturing, media and telecom, retail, Banking Financial Services and Insurance ("DHUK), e-commerce, pharmaceuticals and healthcare sectors. Owing to our scale of operations and diverse client base, we have developed deep expertise around the human resources functions across sectors for our staffing services. Sales, customer service and logistics functions are segments where we deploy the majority of our Associate Employees. Our direct sales force and go-to-market strategy is aligned with our broad sector-neutral reach, which enhances our client value proposition and allows us to leverage our strong institutional knowledge to further expand our presence in the market. We believe that our ability to handle complexity allows us to target clients across a range of industries with varying levels of service requirements based on their human resource environment and required employee experience while we look forward to extend target our services to sectors such as IT, healthcare and hospitality services. Our company publishes the following reports regularly that demonstrates the depth of knowledge, thought leadership and expertise in the sector: (i) India Labour report, which covers various aspects of the Indian labour market; and (ii) Salary Primer, which gives an indicative range of salaries for different trades and professions across the country.

Strong management and thought leadership in public policy initiatives and backing by marquee private equity investors

We are a professionally managed company, and our high quality senior management team provides the right balance of experience, expertise and strategic vision, contributing significantly to our growth. Our management team is backed by our individual Promoters, who have a extensive experience in the Human Resources services industry in general and staffing industry in particular, with distinct, specific and defined roles in nurturing our Company. Our Chairman, Manish Mahendra Sabharwal, provides leadership at the Board level and sets our strategy and direction. He is also our official spokesperson. He was selected to be a member of the Planning Commission Committee for labor reforms. As a member of the said committee and the Prime Minister's Skill Council, he chaired the sub-committee on remodelling of apprenticeship training that has led to reforms in Apprenticeship regime. He is also on the Niti Aayog committee, serves as an advisor to Rajasthan and received the CIBE nomination. Our Managing Director, Ashok Kumar Nedurumalli, oversees our operations and represents us in forums with major clients. Mohitkaran Virendra Gupta, in his capacity as a whole-time Director was primarily responsible for the operational performance of our staffing business. Going forward Mohitkaran Virendra Gupta will continue to be engaged with the staffing business in an advisory capacity. Our management team also benefits from inputs from our key investors, GCIF, GAPL, GIL and IAF. Our senior management team, Promoters and investors share a strategic vision for our Company and play an important role in the success of our growth and market-leading position. Our Promoters are also champions of labor reforms in India, helping to create a market for our services in an otherwise unorganized sector and building the TeamLease brand. We believe that the thought leadership demonstrated by our Promoters to reform India's labor laws together with our focus on regulatory compliance and technology, provides us with significant competitive advantages in any resulting market size expansion.

This enables us to provide a bundled solution of services to each client that is tailored to its specific needs and to attract sales

professionals with industry expertise. We have commenced expanding our services to span the entire chain of human resources in India, covering aspects of employment, employability and education. In this regard, in our employment services we intend to grow (a) our permanent recruitment services by adding newer forms of recruitment like Recruitment Process Outsourcing (RPO) and (b) our regulatory consultancy for labor law compliance businesses by having dedicated personnel for business development/marketing activities; in our employability offerings we intend to improve our (a) retail learning solutions by expanding our foot print of franchise network and converting our franchise network into employment centers, (b) institutional learning solutions.

We intend to expand the breadth of human resource services in order to be a one-stop provider of human resources services from temporary staffing to payroll processing, recruitment, compliance and training services. To achieve this, we have adopted a “match, repair and prepare” strategy that will enable us to match the requirements of our clients with the right human resource, assist in repairing for any skill deficits of our Associate Employees’ training and prepare people to enter the workforce by equipping them with vocational skills. We believe that our “match, repair and prepare” strategy will enable us to access a better quality workforce, help us expand our service offerings and evolve from a staffing solutions provider to a training and learning based human resource service provider. Furthermore, while we have traditionally been sector agnostic and focused on providing temporary staffing solutions for sales, logistics and customer service functions, which are relatively low margin services, we intend to offer higher margin services by providing specialized service offerings in service sectors such as IT, hospitality and healthcare. We also intend to strengthen our operations by hiring operations staff to support the growth in new verticals and service offerings.

Achieving scale in staffing through five key elements

We intend to achieve scale as a means to increase our revenues without incurring corresponding increases in operating expenditure. The following five elements are aimed to achieve scale in our staffing business:

1. Technology

Technology is at the forefront of our business, and is the key enabler of core staffing business, as well as for our non-staffing businesses. As of November 30, 2015, we employed a team of 77 software engineers, who continually develop various applications that enable us to grow our business while achieving efficiency and economies of scale. Set forth below are some of the key software applications developed by our in-house technology team.

• *Associate Lifecycle System (ALCS)*

ALCS is a Microsoft systems based technology platform that drives our staffing business. Our ALCS platform provides automation to the entire associate lifecycle process from on boarding Associate Employees, to requesting relevant monthly information from clients, such as incentives payable and leave of absences, to raising invoices, billing clients and making collections to releasing monthly salary payments to our Associate Employees. Our technology team rolls out annual versions that reflect significant upgrades to our system towards achieving increasing levels of automation of our business processes. We are currently on version 9.0, and are working on version 10.0. The primary business objective of version 10.0 is to reduce the time taken to process our approximately 100,000 payroll records across 1,252 clients as of November 30, 2015. We currently take 117 hours to process these payrolls and processes through a system of sequential processing; version 10.0 will reduce this to approximately four hours using a parallel processing system. This parallel processing system will have the capacity to process a million Associate Employee payrolls, thereby helping us to scale up our operations significantly. Future versions will focus on improving the usability of the system, making the user interface more easily accessible internally as well as by our clients. The ALCS system is modular, which helps us in implementing monthly and quarterly upgrades that enable us to improve functionality without having to wait for new versions. Our ALCS platform also helps us to manage an associate count of as low as one to as high as couple of thousands within a particular system.

• *Candidate Lifecycle System (CLCS)*

CLCS was developed principally for our permanent recruiting business but is also used in the sourcing side of our staffing business. CLCS is a Microsoft systems based platform that automates the candidate lifecycle from processing job requirements provided by clients, to registering mandates, searching for matching candidates in our database using artificial intelligence, to sending profiles to clients, processing client shortlists of candidates,

tracking interviews and raising invoices in the case of permanent recruitment candidates or migrating them to the ALCS system in the case of temporary staffing candidates. We are currently on version 3.1. The business objective of version 4.0 is to create market place for job seekers. We believe that this will help us reduce hiring costs for our sourcing and permanent recruitment businesses.

• **Regulatory Lifecycle System (RLCS)**

RLCS is a Microsoft systems based technology platform designed for our regulatory consulting business. RLCS manages the entire consulting process. The system has an embedded store of all relevant labor laws in India and is designed to accept inputs of client data, perform automatic audits of our clients' regulatory compliance status and generate reports, which we can send to clients as part of our consulting services. We are currently on version 7.0. Our technology team is working on developing version 8.0, which will have improved usability that will make work flows self-guided and user friendly.

• **Center Operation Management System (COMS)**

COMS is a Microsoft systems based technology platform that manages our retail learning solutions business operating under the IIJT brand. COMS manages the franchisee operations from candidate registration to tracking courses and classes to collecting royalties from franchisees.

2. Operations

The back end operations for staffing consists of the following teams: operations, customer relations, operational finance, legal / compliance, quality management, information technology and management information systems. We moved from a distributed operational model to a centralised model during the year 2009-10. Centralising all the operational teams has helped us maintain consistency in delivery and improved performance. Our constant endeavor has been to improve our staffing operations systematically through people, process and technology. While focussed training of the employees and constant improvement in processes help us on the quality front, interventions on the technology front has helped us with scale. All of the above functions constantly strive towards improving key metrics around 'Associates paid on time and client satisfaction.

3. Compliance

We intend to continue to improve our regulatory compliance processes. We believe that the adoption of labor reforms in India which will enforce minimum wage compliance, provide options to low-wage employees to determine their portion of statutory contribution to PF, ESIC etc., will significantly expand the market for organized temporary staffing service providers by curbing the dominance of the unorganized temporary staffing market. Our individual Promoters will continue to demonstrate their thought leadership in advocating labor reforms at the highest levels of public discourse in India. Our objective in focusing on regulatory compliance is to be well prepared to capitalize on market opportunities that present themselves as a consequence of labor reforms being adopted in India.

4. Business development and brand promotion

Given the unique nature of the industry we operate in whereby the organized staffing companies have only a 1% share of the total staffing market, we intend to aggressively expand our reach and service offerings by increasing the size of our business development teams and brand building activities. Our brand building activities would largely be centered around undertaking advertising campaigns on (i) television (heavy seasonal bursts supported by thin presence across the period); (ii) radio (this will be in addition to the television advertising in select cities); (iii) digital (continuous presence throughout the campaign period on Google, Facebook and Youtube); and (iv) print media (promotional supplement in English daily newspapers that are targeted at our metro city audiences).

5. Associate Employee hiring

Hiring of Associate Employees is a key element of the staffing business and leads to enhanced customer satisfaction. This activity is being carried out by our sourcing department through a dedicated team of 160 full-time employees as of November 30, 2015, in addition to certain vendors at locations where we do not have a physical presence. In the years ended March 31, 2014 and 2015, approximately 6% and 10%, respectively, of

Associate Employee applicants were successfully matched to temporary staffing roles with our clients. We believe that we can improve the rate at which we can match Associate Employee applicants to jobs by further improving our already strong technology platforms. We also intend to increase the total number of associates hired for the staffing business through the following means: (i) establishing a portal whereby job-seekers across the country are able to submit their information for jobs that are currently posted or for other opportunities that may arise in the future; and (ii) convert all of our retail training centers into private employment exchanges.

Continue to grow through strategic acquisitions.

We intend to pursue strategic acquisitions that will enable us to leverage our existing assets and offer our clients more comprehensive and attractive services. We intend to enhance and expand our presence in both existing and new segments and target industries, as well as expand our solution and technology platform. Strategic acquisitions could also enable us to establish our presence in newer sectors such as IT and healthcare and hospitality given the specialized human resources requirements.

Our portfolio of recruitment services are provided under our TeamLease brand. We have provided services under our core TeamLease brand for over ten years that has resulted in providing temporary staffing to the functional areas of logistics, retail and sales. We provide retail training services under the IIJT brand. Our experience and expertise allow us to accurately assess candidates' workplace potential and technical skills to match them to the needs of our clients. We operate through nine branch offices in India, in Ahmedabad, Bengaluru, Chennai, Delhi, Hyderabad, Kolkata, Mumbai and Pune.

Our staffing business

Our core business is providing staffing solutions to our clients in India. We offer temporary staffing services under our staffing business. We are one of India's largest companies providing temporary staffing and payroll services in the organized sector by revenues and by the number of Associate Employees. We provide businesses with rapid access to a highly qualified and productive pool of candidates to give them the flexibility and agility they need to respond to changing business needs. We identify qualified job seekers across locations, industry and functions, whom we hire as our Associate Employees prior to placing them with our clients.

By offering a comprehensive range of staffing solutions and services, we help companies at varying stages in their evolution to increase productivity, quality and efficiency in order to achieve their business goals. Our experience and expertise allow us to accurately assess candidates' workplace potential and technical skills to match them to the needs of our clients. We plan to focus on business development initiatives and operational excellence to continue to build our brand and attract the talent our clients need as skills shortages arise. We also plan to utilize various modes of sourcing Associate Employees, such as job fairs and taking over employment exchanges under the public private partnership model.

Anticipating trends in demand is also important in managing our internal cost structure. This coupled with our ability to optimize our resources and to enhance competitive advantage through our wide variety of services and extensive network while maintaining standards of quality to both our clients and Associate Employees are key components to achieving profitability targets during any part of the economic cycle.

Client demand for workforce solutions and services is dependent on the overall strength of the labor market and trends toward greater workforce flexibility within the markets in which we operate. Improving economic growth typically results in increasing demand for labor, resulting in greater demand for our staffing services. Correspondingly, during sustained periods of weak economic growth or economic contraction, the demand for our staffing services typically declines. However, in periods of short-term economic downturn, there can be an increase in the demand for temporary staffing.

During the last several years, secular trends toward greater workforce flexibility have had a favorable impact on demand for our innovative workforce solutions and services. As companies attempt to increase the variability of their cost base, the workforce solutions we provide help them to effectively address the fluctuating demand for their products or services.

We offer temporary staffing services under our staffing business.

Our temporary staffing business requires us to identify Associate Employees that fit the skills requirements of our clients and to then place them with our clients while the Associate Employees themselves remain on our rolls as employees. We earn a one-time fee for every Associate Employee we identify in addition to a monthly fee on their salaries. Our key clients in this business include Vodafone, ATC Telecom Tower Corporation Private Limited, E.I.Dupont India Private Limited, Levis Strauss India Private Limited, Godrej Industries Limited, YOU Broadband India Private Limited, PNB Housing Finance Limited and ZTE Telecom India Private Limited.

As of November 30, 2015, we had 104,946 Associate employees, serving 1,021 clients and 1,218 full time employees making us one of India's leading people supply chain companies. The table below shows the growth of the number of our Associate employees from March 31, 2010 onwards.

HR Services business"

Permanent recruitment

Our permanent recruitment business constitutes a small but strategically important part of our portfolio of human resources services.

We identify permanent staff for our clients in India and charge clients a one-time recruitment fee for each successful recruitment. We mainly serve clients in the following four industry sectors: BFSI, IT, manufacturing and services sectors. By leveraging our trusted brand, industry knowledge and expertise, we place the right talent in the right role to help our clients access the people they need on a timely basis. Our permanent recruitment business is supported and enhanced by our Candidate Lifecycle System technology platform. We have a team of approximately 101 recruitment consultants. Our permanent recruitment business serves our clients well, particularly because most of our clients have temporary as well as permanent staffing requirements and we can now cater to both of these needs.

With increased economic activities, the need for hiring permanent employees also increased, therefore, we have recently commenced providing Recruitment Process Outsourcing (RPO) services. We define RPO services as those permanent recruitment mandates for which we have exclusive authority to fill personnel for 50 or more

vacancies per mandate on behalf of our clients. For the financial year ending on March 31, 2015, we had carried out RPO mandates for five clients.

In the years ended March 31, 2014 and 2015 and in the six months ended September 30, 2015, our consolidated revenues from recruitment services were ₹ 112.95 million and ₹ 137.71 million and ₹ 82.03 million, respectively which primarily consists of permanent recruitment business.

We use our RLCS platform, which is our proprietary end-to-end labor compliance management software that can create, maintain, track and update a client's compliance activities. Each client is also provided with a password protected web portal for real time updates on compliance activities as well as a repository of the documents and data. We follow a franchisee model in implementing our retail learning solutions business. We offer training programs in IT, Finance and Retail. We set up a network of training centers operating under the IIJT brand across India by identifying and appointing franchisees, we mobilize and enroll trainees and provide training materials and also offer placement services for trainees. We collect royalties from franchisees for the use of our materials as well as a percentage of fees they collect from trainees. Historically, this business was operated by IIJT, which we acquired in 2010-2011. Until 2013, we operated the training centers through franchisees as well some centers ourselves by leasing out premises across India. We are now moving into a completely franchisee model. We have also partnered with the National Skill Development Corporation (“PUFE”) to offer various training programs. As at financial year ended on March 31, 2015, we provided training to approximately 17,691 persons under the Star Scheme of NSDC programme for which our centers are entitled to receive approximately ₹9,000 per person subject to certain conditions set by NSDC.

Institutional learning solutions

As of November 30, 2015, this business was operated by 24 full time employees. Our clients in this business line are State Governments or governmental agencies. We provide placement skills training on behalf of various State Governments. We are awarded these projects on the basis of public tenders. Pursuant to our partnership with NSDC, we are prequalified to bid for tenders. In addition, we received a grant from the government of Kerala to offer skills training program. Dwlpgru'Fgxgr o gpv'

Our business development team is spread across seven locations namely Bengaluru, Delhi, Kolkata, Mumbai, Pune, Chennai and Hyderabad with a total head-count of 77 as of November 30, 2015. Ego rgvskp''

We compete in the employment services industry by offering a broad range of services, including permanent, temporary and contract recruitment, project-based workforce solutions, assessment and selection, training, career and talent management.

Our industry is large and fragmented, comprised of thousands of firms employing millions of people and generating billions of Indian rupees in annual revenues with the top 10 staffing companies commanding approximately 27% market share (Source: CRISIL) In most areas, no single company has a dominant share of the employment services market. In addition to us, other large companies specializing in recruitment services are Adecco, S.A. (Switzerland), Manpower Inc. (U.S.), Kelly Services (U.S.) and Randstad Holding N.V. (Netherlands). We also compete against a variety of regional or specialized companies such as Innovsource and Qess Corp Limited. It is a highly competitive industry, reflecting several trends in the global marketplace such as the notably increasing demand for skilled people, employers' desire for more flexible working models and consolidation among clients and in the employment services industry itself. We manage these trends by leveraging established strengths, including being one of the Indian employment services industry's most recognized and respected brands; geographic diversification; size and service scope; an innovative product mix; recruiting and assessment expertise; and a strong client base. While staffing is an important aspect of our business, our strategy is focused on providing both the skilled employees our clients need and high-value workforce management, outsourcing and consulting solutions.

Our client mix consists of both small and medium size businesses, which are based upon a local or regional relationship with our presence in each market, and large national/multinational client relationships. These large national and multinational clients will frequently enter into non-exclusive arrangements with several firms, with the ultimate choice among them being left to the local managers. As a result, employment services firms with a large network of offices compete most effectively for this business which generally has agreed-upon pricing or mark-up on services performed. Client relationships with small- and medium-size businesses tend to rely less upon longer-term contracts, and the competitors for this business are primarily locally-owned businesses.

Tgi wcvkp''

The employment services industry is closely regulated in markets in which we operate. Employment services firms are generally subject to one or more of the following types of government regulation:

- Á regulation of the employer/employee relationship between the firm and its temporary and contract employees;
- Á registration, licensing, record keeping and reporting requirements; and
- Á substantive limitations on the operations or the use of temporary and contract employees by clients.

The existence or absence of collective bargaining agreements with labor organizations has a significant impact on our operations and the ability of clients to use our services. In some sectors, labor agreements are structured on an industry-wide, rather than company-by-company, basis. Changes in these collective bargaining

agreements have occurred in the past and are expected to occur in the future and may have a material impact on the operations of employment services firms, including us.

In India, workforce solutions and services firms are considered the legal employers of temporary and contract workers. Therefore, laws regulating the employer/employee relationship, such as tax withholding or reporting, social security or retirement, anti-discrimination and workers' compensation, govern the firm.

Entry into the employment services market may also be restricted by the requirement to register with, or obtain licenses from, a government agency. In addition, a wide variety of ministerial requirements may be imposed, such as record keeping, written contracts and reporting.

In addition to licensing or registration requirements, local rules impose substantive restrictions on the use of temporary and contract workers. Such restrictions include regulations affecting the types of work permitted, the maximum length of assignment, wage levels or reasons for which temporary and contract workers may be employed.

Trademarks

We maintain a number of registered trademarks, trade names and service marks in India. We believe that the TeamLease trademark has significant value and is materially important to our business. In addition, we maintain other intangible property rights. The trademarks have been assigned an indefinite life based on our expectation of renewing the trademarks, as required, without material modifications and at a minimal cost, and our expectation of positive cash flows beyond the foreseeable future.

Employees

We had 1,218 full-time employees as of November 30, 2015.

As described above, we, as the employer of our temporary and contract workers or as otherwise required by applicable law, are responsible for employment administration. This administration includes collection of withholding taxes, employer contributions for social security or its equivalent, workers' compensation and fidelity and liability insurance, and other governmental requirements imposed on employers. In most jurisdictions where such benefits are not legally required, we provide health and life insurance, paid holidays and paid vacations to qualifying temporary and contract employees.

Remuneration to our permanent employees comprises a fixed component as well as variable pay. Variable pay consists of direct incentives and shared incentives. Our direct and shared incentives are linked to performance targets being achieved by employees. We have an annual performance appraisal system for all employees. Annual increments are awarded only for employees who meet minimum performance standards in their job.

Insurance

We maintain insurance coverage on all our assets located at our head office and on all our movable assets in branch premises owned by us against fire, earthquake and related perils. We also maintain insurance against burglaries at our offices, and against loss by riots, strikes or terrorist activities, cash in transit and employee theft. Our insurance policies are generally annual policies that we renew regularly. Set forth below is a list of certain insurance policies that we maintain:

- (i) Group medical and personal accident policy;
- (ii) Employee deposit link insurance;
- (iii) Group term life insurance ;
- (iv) Commercial general liability;

Child Labour (Prohibition and Regulation) Act, 1986

The Child Labour (Prohibition and Regulation) Act, 1986, (“ENRTC” Cev”) provides for prohibiting engagement of children below 14 years in factories, mines and hazardous employments and regulates the conditions of their employment in certain other employments. The CLPRA Act aims to regulate the number of hours, period of work and holidays to be given to child labourers. It specifies that the employer has to mandatorily furnish certain information regarding employment of child labour to the inspector and maintain a register which would contain details regarding the child labourers. The CLPRA Act also provides for health and safety measures to be complied with by the employer.

Shops and Commercial Establishments Acts

The establishment and operation of shops and commercial establishments is regulated by state specific shops and establishments legislations. Hence, we are subject to the provisions of the Andhra Pradesh Shops and Establishments Act, 1988, the Karnataka Shops and Commercial Establishments Act, 1961, the Delhi Shops and Establishments Act, 1954, the Maharashtra Shops and Establishments Act, 1948, the Gujarat Shops and Establishments Act, 1948, the Tamil Nadu Shops and Establishments Act, 1947, the West Bengal Shops and Establishments Act, 1963 and the rules prescribed thereunder. Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013

The Sexual Harassment at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (“UJ Y RRT” Cev”) aims to provide women protection against sexual harassment at the workplace and prevention and redressal of complaints of sexual harassment. The SHWPPR Act defines ‘sexual harassment’ to include any unwelcome sexually determined behaviour (whether directly or by implication). Workplace under the SHWPPR Act has been defined widely to include government bodies, private and public sector organisations, non-governmental organisations, organisations carrying on commercial, vocational, educational, entertainment, industrial, financial activities, hospitals and nursing homes, educational institutes, sports institutions and stadiums used for training individuals. The SHWPPR Act requires an employer to set up an ‘internal complaints committee’ at each office or branch, of an organization employing at least 10 employees. The government in turn is required to set up a

'local complaint committee' at the district level to investigate complaints regarding sexual harassment from establishments where our internal complaints committee has not been constituted.

The Apprentices Act, 1961

The Apprentices Act, 1961, as amended (the “**Cr r t g p v l e g u ' C e v**”) regulates and controls the programme of training of apprentices and matters connected therewith. The term 'apprentice' means a person who is undergoing apprenticeship training in pursuance of a contract of apprenticeship. 'Apprenticeship training' means a course of training in any industry or establishment undergone in pursuance of a contract of apprenticeship and under prescribed terms and conditions which may be different for different categories of apprentices. Every person engaging as an apprentice is required to enter into a contract of apprenticeship with the employer which is reviewed and registered by the apprenticeship advisor.

The Contract Labour (Regulation and Abolition) Act, 1970

The Contract Labour (Regulation and Abolition) Act, 1970 (“**ENTC" C e v**”) regulates the employment of contract labour in certain establishments and to provides for its abolition in certain cases. The CLRA Act applies to every establishment in which 20 or more workmen are employed or were employed in the preceding 12 months as contract labour and to every contractor who employs or employed on any day during the last 12 months, 20 workmen or more. The CLRA Act prescribes measures to be undertaken by the principal employer for the welfare of contract labourers. The CLRA Act requires the principal employer of the concerned establishment to make an application to the registering officer appointed by the appropriate government under the CLRA Act for registration of the establishment and obtain registration within the prescribed time period, failing which contract labour cannot be employed in the particular establishment. Likewise, every contractor to whom the CLRA Act applies, is required to obtain a license and not to undertake or execute any work through contract labour, except under and in accordance with such license. The CLRA Act provides for the establishment of canteens, restrooms, first aid facility and provision for drinking water by the contractor within the specified time period and on failure on part of the contractor to provide such facility, the principal employer is responsible to make provision for the same. The contravention of the provisions of the CLRA and the rules and regulations thereunder is punishable with imprisonment up to three months and in case of a continuing contravention with an additional fine which may extend to ₹ 1,000 for every day during which the contravention continues.

The Employees' Provident Fund and Miscellaneous Provisions Act, 1952

The Employees Provident Fund and Miscellaneous Provisions Act, 1952 (“**GRH' C e v**”) provides for the institution of provident fund, pension fund and deposit linked insurance funds for the benefit of eligible employees in factories, notified establishments and establishment which are factories engaged in certain specified industries which employ more than 20 persons. A liability is placed on the employers to make certain contributions to the funds mentioned above after obtaining the necessary registrations. The current rate of contribution is 12 % of the wage of the employee including dearness allowance and retaining allowance, if any. This contribution also attracts an interest, currently 12 per cent p.a., and the accumulated amount is paid on retirement to the employee along with the interest that has accrued. The EPF Act requires all such establishments to be registered with the Regional Provident Fund Commissioner and requires the employers and their employees to contribute in equal proportion to the employees' provident fund, the prescribed percentage of basic wages and dearness and other allowances payable to employees. The EPF Act also requires the employer to maintain registers and submit a monthly return to the Regional Provident Fund Commissioner.

The Employees' State Insurance Act, 1948

The Employees' State Insurance Act, 1948, as amended (“**GUK' C e v**”) applies to all factories that are non seasonal in nature and establishments that are notified by the appropriate government in consultation with the Central Government from time to time. iv) Intangible Assets:

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. A rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use is considered by the management. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

Internal development of intangible assets are capitalised either individually or as a knowledge bank in the form of software, once their technical feasibility and ability to generate future economic benefits is established in accordance with the requirement of Accounting Standard 26. Expenditure directly attributable to the development of an Intangible asset in accordance with the requirements of Accounting Standard 26 are capitalized.

All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

vi) Impairment of Assets:

Assessment is done at each balance sheet date as to whether there is any indication that an asset (tangible or intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable group of assets that generates cash inflows from continuing use that are largely independent of the cash flows from other assets or groups of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount.

Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its disposal at the end of its useful life. Assessment is done at each balance sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased.

Investments that are readily realisable and are intended to be held for not more than one year from the date are classified as current investments. However, provision for diminution is made to recognize a decline, other than temporary, in the value of investments, such reduction being determined and made for each investment individually.

In case of investments in units of a mutual fund, the net asset value of units is considered at the market / fair value.

viii) Valuation of Inventories:

Inventories are stated at lower of cost and net realisable value. Cost is determined using the weighted average method and includes applicable costs incurred in bringing the inventory to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated cost necessary to make the sale.

2. Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in India requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results may differ from those estimates. The management believes that the estimates used in preparation of the financial statements are prudent and reasonable. Difference between the actual results and estimates are recognized in the period in which results are known or materialized.

Annexure IV- Basis of Preparation and Significant Accounting Policies

3. Significant Accounting Policies :

a) Tangible Assets:

Tangible Assets are stated at acquisition cost, net of accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance.

Items of fixed assets that have been retired from active use or held for disposal are stated at the lower of their net book value and net realizable value and are shown separately in the financial statements. Any expected loss is recognized immediately in the Statement of Profit and Loss. Losses arising from retirement of, and gains or losses arising from disposal of fixed assets which are carried at cost are recognised in the Statement of Profit and Loss.

Depreciation is calculated on a pro-rata basis from/upto the date of add/deletion on the straight-line method over the useful lives of the assets prescribed under Schedule II to the Companies Act, 2013. The company has changed the estimates of useful life from the useful life being followed earlier under the Schedule XIV of the Companies Act, 1956, to Schedule II of the Companies Act 2013. Accordingly the carrying amount of the asset as on April 1, 2014, is depreciable over the remaining useful life of the asset. Where the remaining useful life of an asset on April 1, 2014 is nil, the carrying amount of the asset is fully depreciated and charged to the Statement of Profit and Loss. The residual value of all assets is assumed as zero based on historical trend of the Company. Leasehold Improvements are amortized over the period of lease. Assets costing less than Rs. 5,000 are fully depreciated in the year of acquisition.

b) Intangible Assets:

Intangible Assets are stated at acquisition cost, net of accumulated amortization and accumulated impairment losses, if any. Intangible assets are amortised on a straight line basis over their estimated useful lives. A rebuttable presumption that the useful life of an intangible asset will not exceed ten years from the date when the asset is available for use is considered by the management. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

Internal development of Intangible Assets are capitalised either individually or as a knowledge bank in the form of software, once their technical feasibility and ability to generate future economic benefits is established in accordance with the requirement of Accounting Standard 26. Expenditure directly attributable to the development of an Intangible asset in accordance with the requirements of Accounting Standard 26 are capitalized.

Gain or loss arising from the retirement or disposal of an intangible asset is determined as the difference between the net disposal proceeds and the carrying amount of the asset and recognised as income or expense in the Statement of Profit and Loss.

Annexure IV- Basis of Preparation and Significant Accounting Policies

c) Borrowing Costs:

Borrowing costs include interest and amortization of ancillary costs incurred in connection with the arrangement of borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognized in the Statement of Profit and Loss in the period in which they are incurred.

d) Impairment of Assets:

Assessment is done at each balance sheet date as to whether there is any indication that an asset (tangible or intangible) may be impaired. For the purpose of assessing impairment, the smallest identifiable Company of assets that generates cash inflows from continuing use that are largely independent of the cash flows from other assets or Companies of assets, is considered as a cash generating unit. If any such indication exists, an estimate of the recoverable amount of the asset/cash generating unit is made. Assets whose carrying value exceeds their recoverable amount are written down to the recoverable amount.

Recoverable amount is higher of an asset's or cash generating unit's net selling price and its value in use. Value in use is the present value of estimated future cash flows expected to arise from the continuing use of the asset and its disposal at the end of its useful life. Assessment is done at each balance sheet date as to whether there is any indication that an impairment loss recognized for an asset in prior accounting periods may no longer exist or may have decreased.

e) Investments:

Investments are classified into long term investments and current investments. Investments that are readily realisable and are intended to be held for not more than one year from the date are classified as current investments. All other investments are classified as long term investments. Current investments are carried at cost or fair value, whichever is lower. Long term investments are carried at cost. However, provision for diminution is made to recognize a decline, other than temporary, in the value of investments, such reduction being determined and made for each investment individually.

In case of investments in units of a mutual fund, the net asset value of units is considered at the market / fair value.

f) Inventories:

Inventories are stated at lower of cost and net realisable value. Cost is determined using the weighted average method and includes applicable costs incurred in bringing the inventory to their present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated cost of completion and the estimated cost necessary to make the sale.

Annexure IV- Basis of Preparation and Significant Accounting Policies

Overview

We are one of India's leading providers of human resource services in the organized segment delivering a broad range of human resource services to various industries with a vision of putting India to work. We deliver a broad range of human resource services to various industries across India to meet the needs of small and large business clients as well as those of qualified job seekers or "Associate Employees". Our services span the entire supply chain of human resources in India, covering aspects of employment, employability and education. Our employment services include temporary staffing solutions, permanent recruitment services and regulatory consultancy for labor law compliance; our employability offerings include different types of learning and training solutions, including retail learning solutions, institutional learning solutions and enterprise learning solutions. According to CRISIL, we are one of the largest temporary staffing companies in India in terms of revenues and number of Associate Employees in 2014. As of November 30, 2015, we had 104,946 Associate Employees, making us one of India's leading people supply chain companies. All of our businesses operate on an asset-light model with low capital expenditure requirements.

Our core business is providing staffing solutions across industry sectors and diverse functional areas. Even though we are agnostic to functional areas, a majority of our Associate Employees are engaged in sales, logistics and customer service functions across different industry sectors. We focus on people, processes and technology to enhance business productivity by enabling our clients to outsource their staffing requirements and allowing them to focus on operating and growing their core businesses. As on March 31, 2015, we have provided employment to approximately 1.12 million Associate Employees since 2002. As of November 30, 2015, we served 1,252 clients with a network of nine offices and 1,218 full-time employees across India. We are managed professionally by a high quality management team with deep extensive market and industry expertise, exhibiting thought leadership on matters of public policy. We had 979, 1,057 and 1,218 full-time employees as of March 31, 2014, March 31, 2015 and November 30, 2015, respectively.

Our business is also strongly influenced by the macroeconomic cycle, which typically results in growing demand for employment services during periods of economic expansion and, conversely, contraction of demand during periods of economic downturn. Due to the sensitivity to the economic cycle and the low visibility in the temporary staffing sector, forecasting demand for staffing and human resource services is difficult. Typically, clients are not able to provide much advance notice of changes in their staffing needs. Responding swiftly to the customer's fluctuating staffing requirements in a flexible way is a key element of our strategy.

Our consolidated total revenues were ₹ 12,157.93 million, ₹20,184.60 million and ₹15,375.25 million and our profit after taxation as restated was ₹ 109.72 million, ₹296.90 million and ₹178.57 million, respectively, in the six months ended September 30, 2015, and in the years ended March 31, 2015 and 2014.

Factors Affecting Results of Operations

Our ability to scale up our staffing business, including entering into high margin staffing verticals

Our core staffing business is a low margin business that relies on scale and volumes for overall profitability. We believe that we have the operational and technological infrastructure in place to continue to scale up our operations. We also intend to pursue strategic acquisitions that will enable us to leverage our existing assets and offer our clients more comprehensive and attractive services. We intend to enhance and expand our presence in both existing and new target industries, as well as expand our solution and technology platform. Strategic acquisitions could also enable us to establish a foothold in newer sectors such as IT given the specialized human resources needs of such sectors. If we are able to conclude such acquisitions, we will be able to move up the value chain and enter a more profitable segment of the staffing services market thereby improving the results of our operations further. On the other hand, failure to enter high margin sectors will adversely affect our business strategy and our future results of operations. We also continue to explore ways to improve our processes and systems and strengthen our operational infrastructure, enabling us to achieve operation excellence, particularly in our ability to identify the right human resources and to provide our clients consistently high levels of quality and reliability. Our overall operational targets remain: to improve Associate Employee paid on-time levels; and to maintain and improve our service levels to our clients in terms of quality and reliability. We believe that performing well on these operational metrics will drive our revenue growth as well as improve our profitability.

The regulatory environment for the labor market in India

The staffing services sector is subject to complex laws and regulations, which vary from state to state in India and are subject to change. These laws and regulations sometimes limit the size and growth of HR services markets. Changes in laws or government regulations may result in prohibition or restriction of certain types of employment services we are permitted to offer, or the imposition of new or additional benefit, licensing or tax requirements that could reduce our revenues and earnings. Alternatively, labor law reforms can expand the market for our services and have a favorable effect on our result of operations.

Staffing is a mission-critical function for businesses. Customer demand is dependent upon the overall strength of the labor market as well as an established trend towards greater workforce flexibility. More liberal labor market laws, particularly for temporary staffing, are beneficial for the industry and have been a driver for greater workforce flexibility. We have championed the cause for labor reforms in India, particularly with regard to labor laws and public policy, for many years and have helped create and expand the market for our services in India. Our strong focus on regulatory compliance has resulted in us establishing a regulatory consulting business, whereby we provide regulatory services to clients with respect to maintenance of registers and compliance with various labor laws. In the event that labor law reforms are adopted in India, our business and results of operations will grow significantly.

The macroeconomic cycle

Demand for staffing services is significantly affected by the general level of economic activity and economic conditions in the various regions and sectors in which we operate. An economic downturn in a region or sector in which we operate may adversely affect our operations in that region or sector, as the use of temporary employees may decrease or fewer permanent employees may be hired. Many of the Company's top clients are multi-national corporations, and thereby a downturn in the global markets may affect their operations in India. When economic activity increases, temporary employees or contract workers are often added before full-time employees are hired. During period of economic downturn, however, many companies reduce their use of temporary employees before laying off full-time employees. However it is also possible that during periods of temporary economic downturn, companies choose to engage temporary workforce as opposed to permanent employees. We could experience more competitive pricing pressure during periods of economic downturn. Also, declining unemployment levels can make it harder for us to identify Associate Employees to place with our clients. However, this scenario is unlikely in India given the number of new persons expected to join the workforce over the next 20 years.

Competition

The staffing services market is highly fragmented and competitive. We compete in national, regional and local markets with full-service and specialized temporary staffing companies. While many of our competitors are

smaller than us, several competitors, including the Indian affiliates or India-based operations of global industry leaders such as Adecco S.A., Manpower Inc., Randstad Holding N.V. and Kelly Services and Indian human resources companies such as Qness Corp Limited, Genius Consultants and Innovsource, have substantial marketing and financial resources at their disposal. We also face competition from various local regional players. Price competition in the staffing industry is intense, particularly for qualified industrial personnel. We expect that the level of competition will remain high, which could limit our ability to maintain or increase our market share or profitability. We also face the risk that our current or prospective clients may decide to provide similar services internally or use independent contractors. Our continued success depends on our ability to compete effectively against our existing and future competitors. With the potential influx of new competitors, our ability to retain our existing clients and to attract new clients is critical to our continued success.

We also experienced an increase in income from regulatory services to ₹ 32.54 million in the six months ended September 30, 2015 from ₹ 21.51 million in the six months ended September 30, 2014. These increases were partially offset by a decrease in our skills and development income to ₹ 26.46 million in the six months ended September 30, 2015 from ₹ 47.44 million in the six months ended September 30, 2014 primarily comprising our institutional training business. However, our other income decreased because we received interest on income tax refund of ₹ 15.56 million in the six months ended September 30, 2014, whereas we did not receive any such refund in the six months ended September 30, 2015. Liquidity and Capital Resources

Our principal sources of cash are from operations. We anticipate that our primary uses of cash will be to provide working capital and finance capital expenditures, wherever applicable, though the company largely uses the leasing model for acquiring information technology assets.

We have constantly strived to diversify our sources of capital. We have been able to fund the growth of our operations through internal cash accruals.

As of September 30, 2015, March 31, 2015 and 2014, we had cash and cash equivalents available of ₹354.83 million, ₹218.49 million and ₹128.80 million, respectively, which is available for use in our operations. We currently use working capital facilities funded by our fixed deposits and also invest our surplus cash reserves in short term bank deposits. Based upon our current level of expenditure, we believe our current working capital, together with cash flows from operating activities and the proceeds from the offerings contemplated herein, will be adequate to meet our anticipated cash requirements for capital expenditures and working capital for, at least, the next 24 months.

Cash Flows

The following table sets forth certain our consolidated cash flows for the periods indicated:

Operating Activities

Six months ended September 30, 2015

For the six months ended September 30, 2015, cash flows generated from operating activities were ₹112.93 million, whereas our restated net profit before taxation was ₹ 165.37 million. The main working capital adjustments were an increase in other current and non-current liabilities of ₹ 884.58 million, which was offset by an increase in trade receivables of ₹394.47 million, an increase in other current assets of ₹ 349.20 million and an increase in other non-current assets of ₹ 73.21 million. The increase in other current and non-current liabilities was mainly attributable to an increase in employee benefits payable as a result of accounting for bonus payments to be made to our permanent and associate employees in the month of September 2015 in connection with important festivals that occurred in September 2015. In previous years, these bonus payments were accounted for later in the year (usually in October). We also were required to make bonus payments to our employees pursuant a government notification that provided for bonus payments to be made to all employees drawing less than Rs.21,000.00 in monthly salaries. Previously, this bonus was only payable to employees making less than Rs.10,000 per month. We are reimbursed these additional bonus payments from our clients, and have invoiced them for these payments, which is the reason for the increase in trade receivables and unbilled revenues.

Six months ended September 30, 2014

Civil Proceedings

The SEBI had filed an appeal bearing C.A. No. 5275/2006 ("**SC Appeal**") before the Supreme Court against ICAP India Private Limited ("**ICAP**") in relation to a SAT order dated August 14, 2006 ("**SAT Order**"). On March 28, 2003, ICAP filed a statement of turnover details, disclosing its turnover as "NIL". In response, the SEBI addressed a letter dated August 4, 2003 to the NSE stating that brokers would be liable to pay fees based on annual turnover and that no concessional rate would be available for any kind of transaction. Through letters dated August 20, 2003 and August 22, 2003, ICAP made representations before the NSE and SEBI, respectively, stating that the interpretation of the term 'total turnover' by SEBI is not correct in light of Schedule III of the SEBI (Stock Brokers and Sub-Brokers) Regulations, 1992 ("**Brokers Regulations**"). Under

Regulation 10 of the Brokers' Regulations, every stock broker is required to pay such registration fees as specified in schedule III to the Brokers Regulations. As per para 1(bb) (ii) of schedule III of the Brokers Regulations, in respect of transactions involving government securities, bonds issued by any public sector undertaking and units traded in similar manner, the fee payable by the broker is to be computed at the rate of one thousandth of one percent of the turnover.

Subsequently, on August 29, 2003, ICAP made a payment of ₹ 24.22 million under protest and without prejudice, towards registration fees and interest. In response to the ICAP letters dated August 22, 2003 and August 29, 2003, SEBI held a personal hearing on October 31, 2003, and passed an order dated November 28, 2003 ("**SEBI Order**") wherein ICAP was held liable to make a payment of ₹ 335.15 million towards principal and an amount of ₹ 37.83 million towards interest as on November 30, 2003. Aggrieved by the SEBI Order, ICAP filed an appeal before the SAT bearing appeal no. 56 of 2004 wherein it challenged the SEBI Order and SEBI's interpretation of 'annual turnover'. On August 14, 2006, the SAT passed an order in favour of ICAP, holding that as a stock broker in the wholesale debt market does not receive any amount from the sale and purchase of securities in WDM segment, such transactions cannot be included towards the calculation of annual turnover ("**SAT Order**"). Aggrieved, the SEBI filed the SC Appeal, praying for quashing of the SAT Order. As part of the SC Appeal, ICAP filed an interim application bearing I.A. No. 4 of 2014 for the refund of the amount paid by ICAP under protest. Through its order dated March 09, 2015, ("**Interim Appeal Order**") the Supreme Court allowed ICAP's application and directed SEBI to deposit the amount with the Supreme Court Registry with liberty to ICAP to withdraw it on furnishing of a bank guarantee. However, subsequently, pursuant to its order and judgment dated November 24, 2015, ("**SC Judgment**") the Supreme Court set aside the SAT Order as being erroneous in law, and remanded the matter back to the SAT for a consideration of other grounds previously raised by ICAP, in accordance with law. Pursuant to the SC Judgment, the Supreme Court has directed the SAT for deciding on relevant issues and grounds as per law at an early date, preferably within six months. Further, in terms of the SC Judgment, the amount submitted by SEBI with the Supreme Court pursuant to the Interim Appeal Order is required to be refunded to the SEBI without any delay."

5.6 BASIS OF ALLOCATION

- (a) The SEBI ICDR Regulations specify the allocation or Allotment that may be made to various categories of Bidders/ Applicants in an Offer depending on compliance with the eligibility conditions. Certain details pertaining to the percentage of Offer size available for allocation to each category is disclosed overleaf of the Bid cum Application Form and in the RHP/ Prospectus. For details in relation to allocation, the Bidder/ Applicant may refer to the RHP/ Prospectus.
- (b) Under-subscription in any category (except the QIB portion) is allowed to be met with spill-over from any other category or combination of categories at the discretion of the Issuer and in consultation with the BRLMs and the Designated Stock Exchange and in accordance with the SEBI ICDR Regulations. Unsubscribed portion in QIB category is not available for subscription to other categories.
- (c) In case of under subscription in the Net Offer, spill-over to the extent of such under-subscription may be permitted from the Reserved Portion to the Net Offer. For allocation in the event of an under-subscription applicable to the Issuer, Bidders/ Applicants may refer to the RHP.
- (d) **Illustration of the Book Building and Price Discovery Process**

Bidders should note that this example is solely for illustrative purposes and is not specific to the Offer; it also excludes bidding by Anchor Investors.

Bidders can bid at any price within the Price Band. For instance, assume a Price Band of ₹20 to ₹24 per share, Offer size of 3,000 Equity Shares and receipt of five Bids from Bidders, details of which are shown in the table below. The illustrative book given below shows the demand for the Equity Shares of the Issuer at various prices and is collated from Bids received from various investors.

Bid Quantity	Bid Amount (₹)	Cumulative Quantity	Subscription
500	24	500	16.67%
1,000	23	1,500	50.00%
1,500	22	3,000	100.00%
2,000	21	5,000	166.67%
2,500	20	7,500	250.00%

The price discovery is a function of demand at various prices. The highest price at which the Issuer is able to Offer the desired number of Equity Shares is the price at which the book cuts off, i.e., ₹22.00 in the above example. The Issuer, in consultation with the BRLMs, may finalise the Offer Price at or below such Cut-Off Price, i.e., at or below ₹22.00. All Bids at or above this Offer Price and cut-off Bids are valid Bids and are considered for allocation in the respective categories.

- (e) **Alternate Method of Book Building**

In case of FPOs, Issuers may opt for an alternate method of Book Building in which only the Floor Price is specified for the purposes of bidding (“Alternate Book Building Process”).

The Issuer may specify the Floor Price in the RHP or advertise the Floor Price at least one Working Day prior to the Bid/ Offer Opening Date. QIBs may Bid at a price higher than the Floor Price and the Allotment to the QIBs is made on a price priority basis. The Bidder with the highest Bid Amount is allotted the number of Equity Shares Bid for and then the second highest Bidder is Allotted Equity Shares and this process continues until all the Equity Shares have been allotted. RIBs, NIIs and Eligible Employees are Allotted Equity Shares at the Floor Price and allotment to these categories of Bidders is made proportionately. If the number of Equity Shares Bid for at a price is more than available quantity then the allotment may be done on a proportionate basis. Further, the Issuer may place a cap either in terms of number of specified securities or percentage of issued capital of the Issuer that may be allotted to a single Bidder, decide whether a Bidder be allowed to revise the bid upwards or downwards in terms of price and/ or quantity and also decide whether a Bidder be allowed single or multiple bids.

SECTION 6: OFFER PROCEDURE IN FIXED PRICE ISSUE

Applicants may note that there is no Bid cum Application Form in a Fixed Price Issue. As the Offer Price is mentioned in the Fixed Price Issue therefore on filing of the Prospectus with the RoC, the Application so submitted is considered as the application form.

Applicants may only use the specified Application Form for the purpose of making an Application in terms of the Prospectus which may be submitted through the Designated Intermediary.

Applicants may submit an Application Form either in physical form to any of the Designated Intermediaries or in the electronic form to the SCSB or the Designated Branches of the SCSBs authorising blocking of funds that are available in the bank account specified in the Application Form only (“**ASBA Account**”). The Application Form is also made available on the websites of the Stock Exchanges at least one day prior to the Bid/ Offer Opening Date.

In a fixed price Issue, allocation in the net issue to the public category is made as follows: minimum fifty per cent to Retail Individual Bidders; and remaining to (i) individual investors other than Retail Individual Bidders; and (ii) other Applicants including corporate bodies or institutions, irrespective of the number of specified securities applied for. The unsubscribed portion in either of the categories specified above may be allocated to the Applicants in the other category.

If the aggregate demand in this category is greater than the allocation to in the Retail Category at or above the Offer Price, then the maximum number of RIBs who can be Allotted the minimum Bid Lot will be computed by dividing the total number of Equity Shares available for Allotment to RIBs by the minimum Bid Lot (“**Maximum RII Allottees**”). The Allotment to the RIBs will then be made in the following manner:

- (a) In the event the number of RIBs who have submitted valid Bids in the Offer is equal to or less than Maximum RII Allottees, (i) all such RIBs shall be Allotted the minimum Bid Lot; and (ii) the balance available Equity Shares, if any, remaining in the Retail Category shall be Allotted on a proportionate basis to the RIBs who have received Allotment as per (i) above for the

balance demand of the Equity Shares Bid by them (i.e. who have Bid for more than the minimum Bid Lot).

- (b) In the second instance, Allotment to all QIBs may be determined as follows: (i) In the event of oversubscription in the QIB Category, all QIBs who have submitted Bids above the Offer Price may be Allotted Equity Shares on a proportionate basis for up to 95% of the QIB Category; (ii) Mutual Funds, who have received allocation as per (a) above, for less than the number of Equity Shares Bid for by them, are eligible to receive Equity Shares on a proportionate basis along with other QIBs; and (iii) Under-subscription below 5% of the QIB Category, if any, from Mutual Funds, may be included for allocation to the remaining QIBs on a proportionate basis.

In the event of the Offer being over-subscribed, the Issuer may finalise the Basis of Allotment in consultation with the Designated Stock Exchange in accordance with the SEBI ICDR Regulations.

- (a) Bidders may be categorized according to the number of Equity Shares applied for;
- (b) The total number of Equity Shares to be Allotted to each category as a whole may be arrived at on a proportionate basis, which is the total number of Equity Shares applied for in that category (number of Bidders in the category multiplied by the number of Equity Shares applied for) multiplied by the inverse of the over-subscription ratio;

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The government bodies responsible for granting foreign investment approvals are the FIPB and the RBI.

The Government has from time to time made policy pronouncements on foreign direct investment (“**FDI**”) through press notes and press releases. The Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India (“**DIPP**”), issued Consolidated FDI Policy, Circular of 2015 which with effect from May 12, 2015, which consolidates and supersedes all previous press notes, press releases and clarifications on FDI Policy issued by the DIPP that were in force and effect as on May 11, 2015. However, press note 4 of 2015, dated April 24, 2015, regarding policy on foreign investment in the pension sector, will remain effective. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, the Consolidated FDI Policy of 2015 will be valid until the DIPP issues an updated circular.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the FIPB or the RBI, provided that (i) the activities of the investee company are under the automatic route under the FDI Policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/ RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

- (d) For the purpose of enforcing such lien, the Board may sell the shares, subject thereto in such manner as they shall think fit, and for that purpose may cause to be issued a duplicate certificate in respect of such shares and may authorise one of their Shareholders to execute and register the transfer thereof on behalf of and in the name of any purchaser. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings in reference to the sale.

Provided that no sale shall be made:

- (i) unless a sum in respect of which the lien exists is presently payable; or
- (ii) until the expiration of 14 days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the share or the person entitled thereto by reason of his death or insolvency.

The net proceeds of any such sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable. The residue, if any, shall (subject to a like lien for sums not presently payable as existed upon the shares before the sale) be paid to the Person entitled to the shares at the date of the sale.

- (d) For the purpose of enforcing such lien, the Board may sell the Debentures, subject thereto in such manner as they shall think fit, and for that purpose may cause to be issued a duplicate certificate in respect of such Debentures and may authorize the debenture trustee acting as trustee for the holders of Debentures or one of the holder of Debentures to execute and register the transfer thereof on behalf of and in the name of any purchaser. The purchaser shall not be bound to see to the application of the purchase money, nor shall his title to the Debentures be affected by any irregularity or invalidity in the proceedings in reference to the sale.

Provided that no sale shall be made:

- (i) unless a sum in respect of which the lien exists is presently payable; or
- (ii) until the expiration of 14 days after a notice in writing stating and demanding payment of such part of the amount in respect of which the lien exists as is presently payable, has been given to the registered holder for the time being of the Debenture or the person entitled thereto by reason of his death or insolvency.

The net proceeds of any such sale shall be received by the Company and applied in payment of such part of the amount in respect of which the lien exists as is presently payable. The residue, if any, shall (subject to a like lien for sums not presently payable as existed upon the Debentures before the sale) be paid to the Person entitled to the Debentures at the date of the sale.

- (e) No holder of Debentures shall exercise any voting right in respect of any Debentures registered in his name on which any calls or other sums presently payable by him have not been paid, or in regard to which the Company has exercised any right of lien.

Company may have had any notice of such equitable right, title or interest or notice prohibiting registration of such transfer, and may have entered such notice or referred thereto, in any book of the Company and the Company shall not be bound or required to regard or attend or give effect to any notice which may be given to it of any equitable right, title or interest or be under any liability whatsoever for refusing or neglecting so to do, though it may have been entered or referred to in some book of the Company but the Company shall nevertheless be at liberty to regard and attend to any such notice, and give effect thereto if the Board shall so think fit.

Provided however, if the sale by the Selling Promoters results in more than 25% (twenty five percent) of the issued and paid up capital of the Company being transferred to such Buyer, then the Non-Purchasing Investors shall be entitled to require the Buyer to purchase up to all the Shares held by the Non-Purchasing Investors, in priority to the sale of the Sale Shares by the Selling Promoters, on a pro rata basis amongst the Non-Purchasing Investors (“Full Tag Along Right”). The other terms of Article 7.3.1 and 7.3.2 shall apply mutatis mutandis to the Full Tag Along Right.

- 7.3.5 The Selling Promoters shall not be entitled to sell any of the Sale Shares to the Buyer unless the Buyer first purchases the Tag Along Shares in accordance with the provisions of this Article. If the Non-Purchasing Investor has exercised its Tag-Along Rights and the Buyer fails to purchase the Tag Along Shares from the Non-Purchasing Investor, the Selling Promoters shall not sell the Sale Shares held by them to the Buyer, and if purported to be made, such transfer shall be void and shall not be binding on the Company and shall be deemed to be a breach of the terms of these Articles.
- 7.3.6 The purchase of the Sale Shares of the Promoters and/or Tag Along Shares, as the case may be, by the Buyer shall be held at the principal office of the Company within 30 (thirty) days after the expiry of the Tag-Along Offer Period or at such other time and place as the parties to the transaction may mutually agree.
