CREDIT SUISSE FUND MANAGEMENT S.A.

société d'investissement à capital variable, 5, rue Jean Monnet, L-2180 Luxembourg, R.C.S. B 134528
(the "Company")

Credit Suisse Solutions (Lux)

Dear Sir/Madam

The Board of Directors of the Company has decided to restate the prospectus as set out below in the course of bringing it into line with the provisions of the Grand Duchy of Luxembourg of December 17, 2010 on undertakings for collective investment (the "Law"):

1. The following amendments have been made in the Prospectus:
 - Additional useful information was added in the section on Information for Prospective Investors.
 - In the section on the summary of share classes, the minimum initial investment and the minimum holding in Share Class S denominated in CHF has been decreased from CHF 5,000,000 to CHF 3,000,000.
 - The section on the Company has been revised.
 - In the section on Credit Suisse Solutions (Lux), the conditions for investing between the individual subfunds of the Company were set and added as part of the investment policy of the subfunds. The Company may from now on also compulsorily redeem all shares held by a shareholder in any circumstances in which the Company determines that such compulsory redemption would avoid material legal, regulatory, pecuniary, tax, economic, proprietary, administrative, or other disadvantages to the Company.
 - The section on investment principles has been revised. It has now been clarified that every subfund may from now on use permitted derivative financial instruments for the purposes of hedging, efficient portfolio management, and/or implementing its investment strategy.
 - In the section on risk factors, investment restrictions and risk information have been generally revised and new risk or regulatory information added.
 - The net asset value section has been revised. One of the amendments is that the net asset value of the shares will from now on only be determined on full bank business days in Luxembourg.

- Amendments have been made to the section on expenses and taxes; the Company will from now on also bear the costs for collateral management in conjunction with derivatives transactions.
 - The section on the life of the company and liquidation and merger of subfunds has been revised. It is now stipulated that the Company may make redemptions as payments in kind or in cash in the event of liquidation or liquidation of a subfund in the interests of shareholders. The provisions relating to the merger of the Company and subfunds have been adapted to the provisions of the Law.
2. The Credit Suisse Solutions (Lux) Megatrends subfund will apply single swing pricing, i.e. the net asset value of the shares will be adjusted to counter the effect of dilution from net subscription or redemption requests on a specific valuation date in accordance with the provisions specified in the prospectus. The net asset value is adjusted on every valuation day based on the net transactions carried out, irrespective of the volume of net capital flows (i.e. no specific threshold for net capital flows must be exceeded for the net asset value to be adjusted). The effective date for introducing the net asset value adjustment mechanism will be determined by the Company at a later date and will be published in accordance with Section 14, "Information for Shareholders," of the prospectus.

The General Meeting of Shareholders has resolved to amend the articles of incorporation as follows: The following sections of the articles of incorporation have been revised: "Powers of the Board of Directors", "Buyback of Shares", "Calculation of Net Asset Value," and "Dissolution and Merger." Among other items, the articles of incorporation now set out the rules for investments between the individual subfunds of the Company and master-feeder structures. If the Company intends to implement master-feeder structures, the prospectus will be amended accordingly.

Shareholders in the Company who do not agree with the change referred to under item two may redeem their shares free of charge until 3 p.m. (CET) on October 24, 2011. The sales prospectus, the key investor information document, the wording of the changes, a copy of the articles of incorporation and copies of the latest semi-annual and annual report are available free of charge from the representative in Switzerland.
