Indicate by check mark whether the registrant files or will file annual reports under cover of Form 20-F or Form 40-F.

Form 20-F

Form 40-F

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(1):

Note: Regulation S-T Rule 101(b)(1) only permits the submission in paper of a Form 6-K if submitted solely to provide an attached annual report to security holders.

Indicate by check mark if the registrant is submitting the Form 6-K in paper as permitted by Regulation S-T Rule 101(b)(7):

Note: Regulation S-T Rule 101(b)(7) only permits the submission in paper of a Form 6-K if submitted to furnish a report or other document that the registrant foreign private issuer must furnish and make public under the laws of the jurisdiction in which the registrant is incorporated, domiciled or legally organized (the registrant's "home country"), or under the rules of the home country exchange on which the registrant's securities are traded, as long as the report or other document is not a press release, is not required to be and has not been distributed to the registrant's security holders, and, if discussing a material event, has already been the subject of a Form 6-K submission or other Commission filing on EDGAR.

Explanatory note

On July 29, 2021, the Credit Suisse Financial Report 2Q21 was published. A copy of the Financial Report is attached as an exhibit to this report on Form 6-K. This report on Form 6-K (including the exhibits hereto) is hereby (i) incorporated by reference into the Registration Statement on Form F-3 (file no. 333-238458) and the Registration Statements on Form S-8 (file nos. 333-101259, 333-208152 and 333-217856), and (ii) shall be deemed to be “filed” for purposes of the Securities Exchange Act of 1934, as amended, except, in the case of both (i) and (ii), (a) the sections of the attached Financial Report entitled “Investor information” and “Financial calendar and contacts” shall not be incorporated by reference into, or be deemed “filed”, with respect to any such Registration Statements, (b) the information under “Group and Bank differences” and any exhibits hereto or information contained therein which relate exclusively to Credit Suisse AG or the Bank shall not be incorporated by reference into, or be deemed “filed”, with respect to the Registration Statements on Form S-8 (file nos. 333-101259, 333-208152 and 333-217856) and (c) the section of the attached Financial Report entitled “II – Treasury, risk, balance sheet and off-balance sheet – Capital management – Bank regulatory disclosures” shall not be incorporated by reference into, or be deemed “filed”, with respect to the Registration Statements on Form S-8 (file nos. 333-101259, 333-208152 and 333-217856).

Credit Suisse Group AG and Credit Suisse AG file an annual report on Form 20-F and file quarterly reports, including unaudited interim financial information, and furnish or file other reports on Form 6-K with the US Securities and Exchange Commission (SEC) pursuant to the requirements of the Securities Exchange Act of 1934, as amended. The SEC reports of Credit Suisse Group AG and Credit Suisse AG are available to the public over the internet at the SEC’s website at www.sec.gov. The SEC reports of Credit Suisse Group AG and Credit Suisse AG are also available under “Investor Relations” on Credit Suisse Group AG’s website at www.credit-suisse.com and at the offices of the New York Stock Exchange, 20 Broad Street, New York, NY 10005.

Unless the context otherwise requires, references herein to “Credit Suisse Group,” “Credit Suisse,” “the Group,” “we,” “us” and “our” mean Credit Suisse Group AG and its consolidated subsidiaries and the term “the Bank” means Credit Suisse AG, the direct bank subsidiary of the Group, and its consolidated subsidiaries.

SEC regulations require certain information to be included in registration statements relating to securities offerings. Such additional information for the Group and the Bank is included in this report on Form 6-K, which should be read together with the Group’s and the Bank’s annual report on Form 20-F for the year ended December 31, 2020 (Credit Suisse 2020 20-F) filed with the SEC on March 18, 2021, the Group’s financial report for the first quarter of 2021 (Credit Suisse Financial Report 1Q21), filed with the SEC on Form 6-K on May 6, 2021, and the Group’s financial report for the second quarter of 2021 (Credit Suisse Financial Report 2Q21), filed with the SEC as Exhibit 99.1 hereto.

Credit Suisse AG, a Swiss bank and joint stock corporation established under Swiss law, is a wholly-owned subsidiary of the Group. Credit Suisse AG’s registered head office is in Zurich, and it has additional executive offices and principal branches in London, New York, Hong Kong, Singapore and Tokyo.

References herein to “CHF” are to Swiss francs.

Forward-looking statements

This Form 6-K and the information incorporated by reference in this Form 6-K include statements that constitute forward-looking statements. In addition, in the future the Group, the Bank and others on their behalf may make statements that constitute forward-looking statements.

When evaluating forward-looking statements, you should carefully consider the cautionary statement regarding forward-looking information, the risk factors and other information set forth in the Credit Suisse 2020 20-F, subsequent annual reports on Form 20-F filed by the Group and the Bank with the SEC, the Group’s and the Bank’s reports on Form 6-K furnished to or filed with the SEC, and other uncertainties and events.

Operating and financial review and prospects

SEC regulations require that a discussion of the results for the first six months of the current year compared to the first six months of the previous year be included in registration statements relating to securities offerings. The following discussion of the Group's results for the six months ended June 30, 2021 (6M21) compared to the six months ended June 30, 2020 (6M20) supplements, and should be read in conjunction with, the Group's financial reports for the first and second quarters of 2021. The Credit Suisse Financial Report 2Q21, filed as Exhibit 99.1 hereto, includes unaudited financial statements for 6M21 and 6M20.

Credit Suisse includes the results of our reporting segments and the Corporate Center. The Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group and certain expenses and revenues that have not been allocated to the segments. It also includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

In managing the business, revenues are evaluated in the aggregate, including an assessment of trading gains and losses and the related interest income and expense from financing and hedging positions. For this reason, individual revenue categories may not be indicative of performance.

Certain reclassifications have been made to prior periods to conform to the current presentation.

Results summary

In 6M21, Credit Suisse reported net income attributable to shareholders of CHF 1 million compared to CHF 2,476 million in 6M20. The 6M21 results included a loss of CHF 5,024 million in respect of the failure by a US-based hedge fund, Archegos Capital Management (Archegos), to meet its margin commitments, consisting of CHF 493 million of trading losses as a result of market movements during the process of closing out the fund positions, a provision for credit losses of CHF 4,500 million and operating expenses of CHF 31 million mainly relating to severance-related costs and professional services fees.

Net revenues of CHF 12,677 million increased 6% compared to 6M20, primarily reflecting higher net revenues in the Corporate Center, Asia Pacific and the Investment Bank.

Provision for credit losses of CHF 4,369 million was primarily driven by net provision for credit losses of CHF 4,364 million in the Investment Bank, including the charge of CHF 4,500 million related to the Archegos matter.

Total operating expenses of CHF 8,252 million were stable compared to 6M20, reflecting lower compensation and benefits, mainly relating to lower discretionary compensation expenses, offset by an increase in general and administrative expenses and restructuring expenses of CHF 70 million.

Income tax expense of CHF 40 million recorded in 6M21 resulted in an effective tax rate of 71.4%, mainly reflecting the estimated effective tax rate for the full year, as applied to the 6M21 results. This primarily reflects the loss related to the Archegos matter, for which only a partial tax benefit could be recognized, and the application of a valuation allowance for the remainder of the loss. Other key drivers of the full year estimated effective tax rate were the impact of the geographical mix of results, the non-deductible funding costs, and an additional valuation allowance in the Group's operating entities in the UK. Overall, net deferred tax assets increased CHF 486 million to CHF 3,623 million during 6M21.

Segment results

In 6M21, **Swiss Universal Bank** reported income before taxes of CHF 1,390 million and net revenues of CHF 2,926 million. Compared to 6M20, net revenues were stable, with lower transaction-based revenues and lower net interest income, offset by higher recurring commissions and fees and higher other revenues. Other revenues in 6M21 included gains on the equity investment in Allfunds Group of CHF 138 million and an insurance claim refund of CHF 49 million relating to a major litigation case reflected in Corporate & Institutional Clients. Other revenues in 6M20 included a revaluation gain of CHF 134 million relating to our equity investment in Pfandbriefbank reflected in Private Clients and a gain related to the completed transfer of the InvestLab fund platform to Allfunds Group of CHF 25 million reflected in Corporate & Institutional Clients.

Net revenues in *Private Clients* decreased 9% compared to 6M20, mainly driven by lower other revenues and lower transaction-based revenues, partially offset by higher recurring commissions and fees. Other revenues in 6M20 included the Pfandbriefbank equity investment revaluation gain of CHF 134 million. Transaction-based revenues decreased 12%, primarily reflecting lower revenues from Global Trading Solutions (GTS) and lower brokerage and product issuing fees. Net interest income was stable compared to 6M20, with lower deposit margins on slightly lower average deposit volumes and stable loan margins on slightly lower average loans volumes, offset by higher treasury revenues. Recurring commissions and fees increased 7%, mainly driven by higher investment product management fees, higher discretionary mandate management fees and higher security account and custody services fees.

Net revenues in *Corporate & Institutional Clients* increased 11% compared to 6M20, primarily driven by higher other revenues and higher recurring commissions and fees, partially offset by lower transaction-based revenues. Other revenues in 6M21 included the gains on the equity investment in Allfunds Group of CHF 138 million and the insurance claim refund of CHF 49 million relating to a major litigation case, while other revenues in 6M20 included the gain of CHF 25 million related to the completed transfer of the InvestLab fund platform. Recurring commissions and fees increased 7%, mainly reflecting higher investment product management fees, higher fees from lending activities and higher banking services fees. Transaction-based revenues decreased 7%, mainly driven by lower revenues from GTS and lower brokerage and product issuing fees, partially offset by higher fees from foreign exchange client business. Net interest income decreased 2%, driven by lower deposit margins on higher average deposit volumes and lower treasury revenues, partially offset by lower loan margins on higher average loan volumes.

In 6M21, we recorded a provision for credit losses of CHF 5 million compared to CHF 152 million recorded in 6M20. Provision for credit losses in 6M21 mainly reflected several individual cases across various industries in 1Q21, largely offset by a release of CECL provisions in 2Q21. Provision for credit losses in 6M20 were related to the impact on our commodity trade finance and Swiss

corporate portfolios from the expected deterioration of macro-economic factors under the new CECL methodology and our consumer finance business.

Total operating expenses decreased 4% compared to 6M20, mainly reflecting lower compensation and benefits. General and administrative expenses were stable.

In 6M21, **International Wealth Management** reported income before taxes of CHF 748 million and net revenues of CHF 1,917 million.

Net revenues were stable compared to 6M20, mainly reflecting lower transaction- and performance-based revenues and lower net interest income, offset by higher other revenues and higher recurring commissions and fees. Transaction- and performance-based revenues decreased 19%, mainly driven by lower client activity including lower structured product issuances and lower revenues from GTS. Net interest income decreased 16%, primarily due to lower deposit margins on higher average deposit volumes. Other revenues in 6M21 included gains on the equity investment in Allfunds Group of CHF 185 million, while other revenues in 6M20 included a gain related to the completed transfer of the InvestLab fund platform of CHF 15 million. Recurring commissions and fees increased 8%, primarily driven by higher investment product management fees, higher discretionary mandate management fees and higher security account and custody services fees, partially offset by lower banking services fees.

In 6M21, a release of provision for credit losses of CHF 25 million was recorded, compared to provision for credit losses of CHF 71 million recorded in 6M20. The release of provision for credit losses in 6M21 primarily reflected a release of CECL provisions, partially offset by four individual cases. Provision for credit losses in 6M20 mainly related to ship finance.

Total operating expenses decreased 6% compared to 6M20, mainly reflecting lower compensation and benefits, partially offset by higher general and administrative expenses.

In 6M21, **Asia Pacific** reported income before taxes of CHF 774 million and net revenues of CHF 1,858 million. Net revenues increased 13% compared to 6M20, reflecting higher transaction-based revenues, higher other revenues and higher recurring commissions and fees, partially offset by lower net interest income. The increase in transaction-based revenues primarily reflected higher financing revenues and higher brokerage and product issuing fees, partially offset by lower revenues from GTS and lower structured equity structured origination revenues. Financing revenues in 6M21 mainly reflected lower unrealized mark-to-market losses, net of hedges, of CHF 11 million on our fair valued portfolio compared to mark-to-market losses, net of hedges, of CHF 219 million in 6M20. Other revenues in 6M21 included gains on the equity investment in Allfunds Group of CHF 138 million, while other revenues in 6M20 included a gain related to the completed transfer of the InvestLab fund platform of CHF 25 million. The increase in recurring commissions and fees was mainly due to higher investment product management fees, higher discretionary mandates management fees, increased investment advisory fees and higher security account and custody services fees. The decrease in net interest income was mainly due to significantly lower deposit margins on higher average deposit volumes and lower loan margins on stable average loan volumes, partially offset by higher treasury revenues.

In 6M21, we recorded a provision for credit losses of CHF 33 million compared to CHF 185 million recorded in 6M20. Provision for credit losses in 6M20 was primarily related to four single cases across various industries.

Total operating expenses were stable compared to 6M20, as higher general and administrative expenses and restructuring expenses were offset by lower compensation and benefits and lower commission expenses.

In 6M21, **Asset Management** reported income before taxes of CHF 219 million and net revenues of CHF 790 million.

Net revenues of CHF 790 million decreased 2% compared to 6M20, reflecting lower investment and partnership income, partially offset by higher performance and placement revenues and management fees.

Investment and partnership income of CHF 82 million decreased 70% due to a 6M20 gain related to the transfer of the InvestLab fund platform of CHF 203 million. Performance and placement revenues of CHF 139 million increased significantly due to positive investment-related gains compared to losses in 6M20 as well as higher performance fees and carried interest and higher placement fees. Management fees of CHF 569 million increased 9% due to higher average assets under management.

In 6M21, Asset Management recorded a provision for credit losses of CHF 1 million compared to CHF 2 million recorded in 6M20.

Total operating expenses increased 3%, mainly reflecting higher commission expenses, which increased 35%. Compensation and benefits and general and administrative expenses remained stable.

In 6M21, **Investment Bank** reported a loss before taxes of CHF 2,543 million, driven by a loss of CHF 5,024 million in respect of the failure by Archegos to meet its margin commitments. Net revenues of CHF 5,153 million increased 4% compared to 6M20, reflecting significantly higher capital markets and securitized products revenues, partially offset by losses related to Archegos. During the first half of the year, market conditions were characterized by normalized levels of volatility, tightening of spreads and continued low interest rates.

Revenues from fixed income sales and trading of CHF 2,240 million decreased 9% compared to 6M20, which benefited from more favorable market conditions, reflecting reduced trading activity in macro and global credit products, partially offset by significantly higher securitized products and increased emerging markets revenues. Macro products revenues decreased significantly, driven by lower revenues in our rates and foreign exchange businesses due to significantly reduced volumes and volatility. In addition, global credit products revenues decreased, mainly reflecting lower investment grade trading activity compared to a strong prior year, which benefited from significantly higher trading volumes and client activity. These decreases were partially offset by higher securitized products revenues, reflecting significantly higher non-agency trading activity and increased asset finance revenues. In addition, emerging markets revenues increased, driven by increased financing activity in Latin America and Europe, Middle East and Africa (EMEA) as well as higher trading in Asia and EMEA.

Revenues from equity sales and trading of CHF 874 million decreased 36% compared to 6M20, mainly reflecting a loss of CHF 493 million related to Archegos in prime services. Excluding this loss, revenues were stable compared to a strong 2Q20, as increased equity derivatives revenues were offset by reduced prime services and cash equities revenues. Prime services revenues significantly decreased, primarily due to the loss related to Archegos and reduced capital usage as we significantly de-risked and resized the business. Cash equities revenues decreased slightly, reflecting lower trading activity in the US, partially offset by higher trading activity in Asia, driven by increased client activity. These declines were partially offset by significantly higher equity derivatives revenues, reflecting increased structured trading activity.

Revenues from capital markets of CHF 1,886 million increased 99% compared to 6M20, reflecting strong client activity across equity and debt capital markets, driven by increased issuance activity. Equity capital markets revenues increased significantly, driven by higher initial public offering (IPO) and follow-on issuance activity. Debt capital markets revenues increased significantly, reflecting higher leveraged finance issuance activity.

Revenues from advisory of CHF 307 million decreased 3% compared to 2Q20, driven by lower revenues from completed M&A transactions.

In 6M21, we recorded a provision for credit losses of CHF 4,364 million compared to CHF 447 million recorded in 6M20. The provision for credit losses in 1H21 was driven by a charge of CHF 4,500 million, related to Archegos.

Total operating expenses of CHF 3,332 million decreased 5% compared to 6M20, reflecting lower compensation and benefits, partially offset by higher general and administrative expenses. Compensation and benefits of CHF 1,736 decreased 13%, primarily due to decreased discretionary compensation expenses, primarily reflecting the impact of the Archegos losses. General and administrative expenses of CHF 1,255 increased 4%, primarily due to increased expenses related to real estate disposals and costs related to Archegos. In 6M20, we incurred costs related to Archegos of CHF 31 million, mainly relating to severance-related costs and professional services fees. In 6M20, we had restructuring expenses of CHF 46 million.

Corporate Center reported a loss before taxes of CHF 532 million in 6M21 compared to CHF 693 million in 6M20. Net revenues of CHF 33 million increased CHF 319 million compared to negative net revenues of CHF 286 million in 6M20, primarily reflecting decreased negative treasury results and higher other revenues. Negative treasury results of CHF 37 million in 6M21 primarily reflected negative revenues of CHF 44 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs, and losses of CHF 11 million relating to hedging volatility. Negative revenues and losses were partially offset by gains of CHF 18 million with respect to structured notes volatility. In 6M20, negative treasury results of CHF 271 million primarily reflected losses of CHF 286 million with respect to structured notes volatility, mainly relating to own credit spread movements, mostly in March, amid continued market volatility surrounding the COVID-19 pandemic and central bank stimulus announcements, and negative revenues of CHF 92 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs. Negative revenues and losses were partially offset by gains of CHF 96 million relating to fair value option volatility on own debt.

In the Asset Resolution Unit, we reported negative net revenues of CHF 76 million in 6M21 compared to CHF 95 million in 6M20. Compared to 6M20, the improvement was primarily driven by lower asset funding costs.

Other revenues of CHF 146 million increased CHF 66 million compared to 6M20, mainly reflecting a valuation adjustment on a legacy exposure and a positive valuation impact from long-dated legacy deferred compensation and retirement programs.

In 6M21, we recorded a release of provision for credit losses of CHF 9 million compared to provision for credit losses of CHF 7 million in 6M20.

Total operating expenses increased CHF 174 million compared to 6M20, mainly reflecting an increase in general and administrative expenses and in compensation and benefits. General and administrative expenses of CHF 377 million increased CHF 98 million, primarily reflecting increased litigation provisions, mainly related to legacy litigation matters. Compensation and benefits of CHF 158 million increased CHF 82 million, primarily due to higher deferred compensation expenses from prior-year awards, the impact of corporate function allocations and higher expenses for long-dated legacy deferred compensation and retirement programs, partially offset by lower discretionary compensation expenses.

Group and Bank differences

The business of the Bank is substantially the same as the business of the Group, and substantially all of the Bank's operations are conducted through the Swiss Universal Bank, International Wealth Management, Asia Pacific and the Investment Bank. Effective April 1, 2021, the Asset Management business has been separated from the International Wealth Management division and is managed as a new division of the Group. Certain Corporate Center activities of the Group, such as hedging activities relating to share-based compensation awards, are not applicable to the Bank. Certain other assets, liabilities and results of operations, primarily relating to Credit Suisse Services AG (our Swiss service company) and its subsidiary, are managed as part of the activities of the Group's segments. However, they are legally owned by the Group and are not part of the Bank's consolidated financial statements.

Commissioners:

We are aware that our report dated July 29, 2021 on our review of interim financial information of Credit Suisse Group AG and its subsidiaries (the "Group"), which is included in this Current Report on Form 6-K, is incorporated by reference in the Registration Statement on Form F-3 (No. 333-238458) and in the Registration Statements on Form S-8 (No. 333-101259, No. 333-208152 and No. 333-217856) of the Group. Pursuant to Rule 436(c) under the Securities Act of 1933 (the Act), such report should not be considered a part of such registration statements and is not a report within the meaning of Sections 7 and 11 of the Act.

Very truly yours,

/s/ PricewaterhouseCoopers AG

Exhibit 23.2

July 29, 2021

Securities and Exchange Commission
100 F Street, N.E.
Washington, DC 20549

Commissioners:

We are aware that our report dated July 29, 2021 on our review of interim financial information of Credit Suisse AG and its subsidiaries (the "Bank"), which is included in this Current Report on Form 6-K, is incorporated by reference in the Registration Statement on Form F-3 (No. 333-238458) and in the Registration Statements on Form S-8 (No. 333-101259, No. 333-208152 and No. 333-217856) of the Bank. Pursuant to Rule 436(c) under the Securities Act of 1933 (the Act), such report should not be considered a part of such registration statements and is not a report within the meaning of Sections 7 and 11 of the Act.

Very truly yours,

/s/ PricewaterhouseCoopers AG

75 Condensed consolidated financial statements – unaudited

154	List of abbreviations
155	Investor information
156	Financial calendar and contacts
157	Cautionary statement regarding forward-looking information

For purposes of this report, unless the context otherwise requires, the terms “Credit Suisse,” “the Group,” “we,” “us” and “our” mean Credit Suisse Group AG and its consolidated subsidiaries. The business of Credit Suisse AG, the direct bank subsidiary of the Group, is substantially similar to the Group, and we use these terms to refer to both when the subject is the same or substantially similar. We use the term “the Bank” when we are only referring to Credit Suisse AG and its consolidated subsidiaries.

Abbreviations are explained in the List of abbreviations in the back of this report.

Publications referenced in this report, whether via website links or otherwise, are not incorporated into this report.

In various tables, use of “–” indicates not meaningful or not applicable.

Mandatory Convertible Notes

These materials are not an offer to sell securities or the solicitation of any offer to buy securities, nor shall there be any offer of securities, in any jurisdiction in which such offer or sale would be unlawful.

These materials are not an offer of securities for sale in the United States or to U.S. persons (“U.S. persons”) as defined in Regulation S under the U.S. Securities Act of 1933, as amended (the “U.S. Securities Act”). The mandatory convertible notes described in these materials and the shares of Credit Suisse Group AG issuable on their conversion have not been and will not be registered under the U.S. Securities Act and may not be offered or sold in the United States or to, or for the account or benefit of, U.S. persons, absent registration or an applicable exemption from registration under the U.S. Securities Act.

Credit Suisse at a glance

Credit Suisse

Our strategy builds on Credit Suisse's core strengths: its position as a leading global wealth manager, its specialist investment banking capabilities and its strong presence in our home market of Switzerland. We seek to follow a balanced approach with our wealth management activities, aiming to capitalize on both the large pool of wealth within mature markets as well as the significant growth in wealth in Asia Pacific and other emerging markets. Founded in 1856, we today have a global reach with operations in about 50 countries and 49,240 employees from over 150 different nations. Our broad footprint helps us to generate a more geographically balanced stream of revenues and net new assets and allows us to capture growth opportunities around the world. We serve our clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by our Asset Management and Investment Bank divisions. Our business divisions cooperate closely to provide holistic financial solutions, including innovative products and specially tailored advice.

Swiss Universal Bank

The Swiss Universal Bank division offers comprehensive advice and a wide range of financial solutions to private, corporate and institutional clients primarily domiciled in our home market of Switzerland, which offers attractive growth opportunities and where we can build on a strong market position across our key businesses. Our Private Clients business has a leading franchise in our Swiss home market and serves ultra-high-net-worth individual, high-net-worth individual, affluent and retail clients. Our Corporate & Institutional Clients business serves large corporate clients, small and medium-sized enterprises, institutional clients, external asset managers, financial institutions and commodity traders.

Asia Pacific

The Asia Pacific division delivers an integrated wealth management, financing, underwriting and advisory offering to our target ultra-high-net-worth, entrepreneur and corporate clients. We provide a comprehensive suite of wealth management products and services to our clients in Asia Pacific and provide a broad range of advisory services related to debt and equity underwriting of public offerings and private placements as well as mergers and acquisitions. Our close collaboration with the Investment Bank supports and enables our wealth management activities in the region through the delivery of holistic, innovative products and tailored advice.

Investment Bank

The Investment Bank division delivers client-centric sales and trading products, services and solutions across all asset classes and regions as well as advisory, underwriting and financing services. Our range of products and services includes global securities sales, trading and execution, prime brokerage, capital raising and comprehensive corporate advisory services. Additionally, our Global Trading Solutions platform provides centralized trading and sales services to the Group's other business divisions. Our clients include financial institutions and sponsors, corporations, governments, ultra-high-net-worth individuals, sovereigns and institutional investors.

International Wealth Management

The International Wealth Management division offers comprehensive advisory services and tailored investment and financing solutions to entrepreneurial, ultra-high-net-worth and high-net-worth individuals, to classic private banking clients and to external asset managers. In Europe, the Middle East, Africa and Latin America we serve our clients along a client-centric and needs-based delivery model, utilizing the broad spectrum of Credit Suisse's global capabilities.

Asset Management

The Asset Management division offers investment solutions and services globally to a broad range of clients, including pension funds, governments, foundations and endowments, corporations and individuals, with a strong presence in our Swiss home market. Backed by the Group's global presence, Asset Management offers active and passive solutions in traditional investments as well as alternative investments. We apply environmental, social and governance (ESG) criteria at various points in the investment process with an active sustainability offering, which invests in line with the Credit Suisse Sustainable Investment Framework, and passive ESG index and exchange traded funds.

Operating environment

Service sector activity picked up as vaccinations against COVID-19 progressed in major economies. Global equity markets ended the quarter higher and volatility decreased further. Major government bond yields were mixed, and the US dollar was generally slightly lower against major currencies in 2Q21.

COVID-19 pandemic

The COVID-19 pandemic continued to affect the economic environment. Equity and credit markets performed well in 2Q21 on the increased prospect that 2021 would bring a strong economic recovery due to significant fiscal supports, accommodative monetary policies, accelerating vaccination programs and the easing of economic and social activity lockdowns. However, a recent and growing resurgence in COVID-19 infection rates globally, in particular among unvaccinated persons, is attributed to the so-called Delta variant strain of the coronavirus, which appears to be more infectious than the original strain, and may negatively affect the expected recovery. India suffered a severe second COVID-19 infection wave in March and April 2021 that put its public health-care system under acute pressure. The infection wave subsided in May and June but began to rise again in July. Economic and social activity lockdown measures tightened during the initial infection wave. The lockdowns eased in May and June but in July have tightened again in some states.

Economic environment

Service sector activity picked up as vaccinations against COVID-19 progressed and infection rates declined in most major economies. Inflation increased in many economies, partly driven by base effects from second quarter weakness last year, but also due to price pressures from global goods supply shortages, higher

shipping costs and rapid business reopenings in the services sector. In the US, fiscal stimulus continued to support household disposable income and goods consumption. European economic resurgence lagged behind the US due to slower vaccination rates and availability, but gathered pace in June. In China, growth moderated as supply issues disrupted manufacturing. Some emerging economies, most notably India and Latin America, were hit by large waves of COVID-19 cases.

The US Federal Reserve (Fed) kept rates close to zero and continued large-scale asset purchases, but signaled discussions on asset purchase reductions could start soon amid upgraded economic projections. The European Central Bank (ECB) and the Bank of Japan continued asset purchases and kept rates unchanged. The Bank of England (BoE) reduced the pace of asset purchases. The Swiss National Bank (SNB) kept policy rates unchanged.

The anticipation of fading social distancing requirements and the effects of economic reopening had a positive impact on global equity market prices in 2Q21. Compared to 1Q21, the US equity market gained 8.8%. European equity markets underperformed the US equity market ending the quarter 5.8% higher. The Swiss equity market gained 9.5% and was one of the stronger markets. Within emerging markets, stocks in the Latin America region outperformed, whereas Asia underperformed. Information technology, real estate and communication services outperformed utilities, industrials and materials, which were the worst underperformers.

Yield curves

Yield curves remained at low levels in 2Q21. The US dollar curve flattened.

Source: Bloomberg, Credit Suisse

Equity markets

Global equity markets ended 2Q21 higher. World bank stocks underperformed global equity markets.

Volatility

%

■ VDAX
■ VIX Index

Source: Bloomberg, Credit Suisse

The Chicago Board Options Exchange Market Volatility Index (VIX) increased significantly in May, and then decreased again towards the end of 2Q21. The Credit Suisse Hedge Fund Index increased 3.0% in 2Q21 compared to 1Q21.

World bank stocks underperformed against global equity markets and European bank stocks underperformed world bank stocks in 2Q21. At the end of 2Q21, world bank stocks traded 5.2% higher compared to 1Q21 (refer to the charts under "Equity markets").

In fixed income, following the publication of US inflation measures and the June Federal Open Market Committee (FOMC) meeting, the US yield curves flattened somewhat. Credit spreads remained at a tight level (refer to "Yield curves" and "Credit spreads" for further information). Both investment-grade and emerging market hard currency sovereign bonds delivered a positive return in 2Q21. Furthermore, shorter-duration segments, such as high yield, continued to be resilient, and corporate default rates globally normalized further, especially in the US and Europe.

The US dollar ended 2Q21 slightly lower against other major currencies. The outcome of the June FOMC meeting supported the US dollar and helped recoup some of its losses in the first half of the quarter. Low-yielding currencies such as the Japanese yen, the Swiss franc and the euro depreciated after the FOMC meeting. Nevertheless, with the European recovery stronger than initially expected, the euro gained nearly 1% against the US dollar in 2Q21. The Swiss franc held up well, gaining almost 2% against the US dollar in 2Q21, while both the pound sterling and Japanese yen were stable over the period. The more cyclical currencies had a mixed performance in 2Q21 with the Canadian dollar gaining and the Australian dollar declining against the US dollar.

Commodities extended their recovery in 2Q21 and the Credit Suisse Commodities Benchmark ended the quarter 16% higher. Energy markets and oil outperformed as demand recovered amid COVID-19 vaccination progress and continued OPEC+ (Organization of the Petroleum Exporting Countries Plus) supply restraint helped shrink global inventories. Agriculture prices rose due to declining crop inventories and mixed harvests in Latin America. Industrial metals gained while precious metals underperformed.

Credit spreads

Credit spreads remained tight.

¹ Represent revenues on a product basis which are not representative of business results within our business segments as segment results utilize financial instruments across various product types.

² Based on tangible shareholders' equity, a non-GAAP financial measure, which is calculated by deducting goodwill and other intangible assets from total shareholders' equity as presented in our balance sheet. Management believes that these metrics are meaningful as they are measures used and relied upon by industry analysts and investors to assess valuations and capital adequacy.

Credit Suisse reporting structure

Credit Suisse includes the results of the five reporting segments and the Corporate Center. Effective April 1, 2021, the Asset Management business has been separated from the International Wealth Management division and is managed as a new division of the Group. Prior periods have been restated to conform to the current presentation.

Results summary

2Q21 results

In 2Q21, Credit Suisse reported net income attributable to shareholders of CHF 253 million compared to net income attributable to shareholders of CHF 1,162 million in 2Q20 and a net loss attributable to shareholders of CHF 252 million in 1Q21. In 2Q21, Credit Suisse reported income before taxes of CHF 813 million, compared to income before taxes of CHF 1,551 million in 2Q20 and a loss before taxes of CHF 757 million in 1Q21.

The 2Q21 results included a loss of CHF 594 million in respect of the failure by a US-based hedge fund, Archegos Capital Management (Archegos), to meet its margin commitments, consisting of CHF 493 million of trading losses as a result of market movements during the process of closing out the fund positions, a provision for credit losses of CHF 70 million and operating expenses of CHF 31 million, mainly relating to severance-related costs and professional services fees.

→ Refer to "Archegos Capital Management" in Other information for further information.

Results details

Net revenues

In 2Q21, we reported net revenues of CHF 5,103 million, which decreased 18% compared to 2Q20, primarily reflecting lower net revenues in the Investment Bank. The decrease in the Investment Bank reflected a loss of CHF 493 million related to Archegos and lower results across most businesses compared to a strong prior year period, which benefited from robust volumes and higher volatility, and, in light of the Archegos matter, we de-risked and resized the Investment Bank, notably in our prime services business.

Compared to 1Q21, net revenues decreased 33%, primarily reflecting lower net revenues in the Investment Bank and Asia

Pacific. The decrease in the Investment Bank reflected the loss related to Archegos compared to robust revenues in 1Q21. The decrease in Asia Pacific reflected lower transaction-based revenues and lower net interest income, partially offset by higher other revenues and higher recurring commissions and fees.

Provision for credit losses

In 2Q21, the release of provision for credit losses of CHF 25 million mainly reflected releases in current expected credit loss (CECL) provisions. The release of CECL provisions was driven by an improved global economic outlook reflected in amended scenario weights, an overall improvement of macroeconomic factors as well as a recalibration of qualitative overlays. The release was partially offset by a charge of CHF 70 million related to Archegos in the Investment Bank. In 1Q21, provision for credit losses of CHF 4,394 million included a charge of CHF 4,430 million in respect of the Archegos matter.

Total operating expenses

Compared to 2Q20, total operating expenses of CHF 4,315 million decreased 1%, primarily reflecting a 9% decrease in compensation and benefits, mainly relating to lower discretionary compensation expenses due to the impact of Archegos losses. This decrease was partially offset by restructuring expenses of CHF 45 million and a 10% increase in general and administrative expenses, primarily driven by higher litigation provisions, mainly related to legacy litigation matters, higher professional services fees and higher IT, machinery and equipment expenses, partially offset by lower other expenses.

Compared to 1Q21, total operating expenses increased 10%, primarily reflecting a 15% increase in general and administrative expenses, mainly driven by higher litigation provisions, primarily related to legacy litigation matters, higher professional services fees, partially offset by lower other expenses and a 7% increase in compensation and benefits, mainly due to higher deferred compensation awards and higher salaries.

Income tax

In 2Q21, the income tax expense of CHF 566 million, resulting in an effective tax rate of 69.6% for the quarter, mainly reflected the estimated effective tax rate for the full year, as applied to the 2Q21 results. The effective tax rate is expected to remain at significantly elevated levels for the remainder of the year. This continues to primarily reflect the loss related to Archegos, for which only a partial tax benefit could be recognized, and the application of a valuation allowance for the remainder of the loss. Other key drivers of the full year estimated effective tax rate were the impact of the geographical mix of results, the non-deductible funding costs, and an additional valuation allowance in the Group's operating entities in the UK. Overall, net deferred tax assets increased CHF 216 million to CHF 3,623 million during 2Q21.

Regulatory capital

As of the end of 2Q21, our Bank for International Settlements (BIS) common equity tier 1 (CET1) ratio was 13.7% and our risk-weighted assets (RWA) were CHF 283.6 billion.

→ Refer to "Capital management" in II – Treasury, risk, balance sheet and off-balance sheet for further information on regulatory capital.

Employees and other headcount

Employees and other headcount

end of	2Q21	1Q21	2Q20
Employees (full-time equivalents)			
Swiss Universal Bank	13,250	13,220	13,210
International Wealth Management	8,000	7,940	7,760
Asia Pacific	7,090	6,950	7,030

A significant portion of our business requires inter-regional coordination in order to facilitate the needs of our clients. The methodology for allocating our results by region is dependent on management judgment. For the wealth management business, results are allocated based on the management reporting structure of our relationship manager organization. For the investment banking business, trading results are allocated based on where the risk is primarily managed, while also reflecting certain revenue transfers to regions where the relevant sales teams and clients are domiciled.

Reconciliation of adjustment items

Results excluding certain items included in our reported results are non-GAAP financial measures. Management believes that such results provide a useful presentation of our operating results for purposes of assessing our Group and divisional performance consistently over time, on a basis that excludes items that management does not consider representative of our underlying performance. Provided below is a reconciliation of our adjusted results, our adjusted results excluding significant items and our adjusted results excluding significant items and the Archegos matter to the most directly comparable US GAAP measures. Restructuring charges are excluded in the presentation of these metrics.

Other information

Allfunds Group initial public offering

As previously disclosed, during 2019 and 2020 Credit Suisse held an equity investment in Allfunds Group following the transfer of the Group's open architecture investment fund platform Credit Suisse InvestLab AG to Allfunds Group. On April 23, 2021, Allfunds Group announced a successful initial public offering (IPO) on the Euronext Amsterdam exchange with an initial market capitalization of EUR 7.24 billion on the day of the listing. Following the IPO, the Group holds an equity interest in Allfunds Group of 9.4%, which has been reclassified to trading assets from other investments. Net revenues included a gain of CHF 317 million reflecting the share price development after the IPO as well as the reduction of our equity interest from 14.0% to 9.4%. Operating expenses included CHF 19 million of costs directly related to the IPO of Allfunds Group. In accordance with historical practice, the impact is reflected in the Swiss Universal Bank, International Wealth Management and Asia Pacific divisions.

Archegos Capital Management

As previously reported, we recorded a provision for credit losses of CHF 4,430 million in 1Q21 in respect of the failure by Archegos to meet its margin commitments. Certain Group subsidiaries were notified by the fund that it would be unable to return margin advances previously extended and recognized as collateral receivable by the Group. Following the failure of the fund, we initiated the process of exiting the fund positions and that process is now complete. We have incurred additional losses with regard to this matter in 2Q21 of CHF 594 million, consisting of CHF 493 million of trading losses as a result of market movements during the process of closing out the fund positions, a provision for credit losses of CHF 70 million and operating expenses of CHF 31 million mainly reflecting severance-related costs and professional services fees. In 2Q21, we have significantly reduced RWA and leverage exposure in the Investment Bank by USD 20.4 billion and USD 41.5 billion, respectively, including a substantial resizing of our prime services business.

As previously reported, the Board of Directors (Board) had initiated an externally-led investigation of the Archegos matter, which was supervised by a special committee of the Board. On July 29, 2021, Credit Suisse published on its website the report based on this independent external investigation, as well as a summary of management's responses to this report to date.

→ Refer to "Risk factor" in I – Credit Suisse results – Credit Suisse in the Credit Suisse Financial Report 1Q21 for further information on risks that may arise in relation to this matter. For a description of the regulatory and legal developments relating to this matter, refer to "Note 33 – Litigation" in III – Condensed consolidated financial statements – unaudited for further information.

As a consequence of the Archegos losses and the findings of the externally-led investigation of this matter, approximately USD 70 million of previously granted compensation awards will be recovered from certain individuals through malus and clawback provisions.

Supply chain finance funds matter

As previously reported, in early March 2021, the boards of four supply chain finance funds managed by certain Group subsidiaries (collectively, the SCFFs) decided to suspend redemptions and subscriptions of those funds to protect the interests of the funds' investors, to terminate the SCFFs and to proceed to their liquidation. Credit Suisse Asset Management (Schweiz) AG (CSAM) acts as the portfolio manager of the SCFFs.

The assets held by the SCFFs largely consist of notes backed by existing and future receivables. These notes were originated and structured by Greensill Capital (UK) Limited or one of its affiliates (Greensill Capital). Greensill Capital filed for insolvency in the UK on March 8, 2021, and the portfolio manager is working closely with the administrators of Greensill Capital, Grant Thornton, and with other parties to facilitate the liquidation of the SCFFs.

The last published net asset value of the SCFFs in late February 2021 was approximately USD 10 billion in the aggregate. To date, together with the cash already distributed to investors and cash remaining in the funds, total cash collected in the SCFFs amounts to approximately USD 6.6 billion including the cash position in the funds at the time of suspension. Redemption payments totaling approximately USD 5.5 billion have been made to their investors in three cash distributions, and a fourth cash distribution of approximately USD 0.4 billion is planned, which would bring the total amount returned to investors to approximately USD 5.9 billion. The portfolio manager continues to work to liquidate the remaining assets of the SCFFs, including by engaging directly with potentially delinquent obligors and other creditors as appropriate. However, there remains considerable uncertainty regarding the valuation of a significant part of the remaining assets, including the fact that certain of the notes underlying the funds were not paid when they fell due and the portfolio manager has been informed that further notes will not be paid when they fall due in the future. It therefore can be assumed that the investors of the SCFFs will suffer a loss. CSAM intends to take all necessary steps to collect outstanding amounts from debtors and insurers, but can give no assurance as to the final amount that may be recovered for the SCFFs under such notes. The amount of loss of the investors therefore is currently unknown.

Based on currently available information, losses for the investors can be expected to occur predominantly in positions that, prior to March 31, 2021, had a net asset value of approximately USD 2.3 billion in the aggregate. These positions relate primarily to three groups of companies: "GFG Alliance", Kattera and Bluestone. For these three focus areas, more time is required to assess the situation accurately. CSAM continues to invest substantial efforts to maximize and expedite recovery in these positions, including pursuing consensual restructuring in addition to preparing insurance claims and seeking legal enforcement of the funds' claims where appropriate. Given the complexity of the situation and negotiations, any predictions on recovery rates for these focus areas would be premature.

We continue to analyze this matter, including with the assistance of external counsel and other experts. The Board has initiated an externally-led investigation of this matter, which is being supervised by a special committee of the Board.

Redemptions and subscriptions of certain other funds managed by CSAM or CSAM subsidiaries that invested in part in the SCFFs were also suspended in early March 2021. The illiquid part of these funds' assets was subsequently separated into a separate share class to allow for subscriptions and redemptions of the original share classes, reflecting the liquid part of the funds' assets, to resume as of April 7, 2021. The separate share class reflecting the illiquid assets is in the process of being liquidated, and shareholders receive pro rata payments of the redemption proceeds.

With respect to our outstanding collateralized bridge loan of USD 90 million to Greensill Capital, we have marked its fair value down to USD 56 million as of the end of 2Q21, down from USD 60 million as of the end of 1Q21.

For a description of the regulatory and legal developments relating to this matter, refer to "Note 33 – Litigation" in III – Condensed consolidated financial statements – unaudited for further information.

Significant negative consequences of the supply chain finance funds and Archegos matters

There can be no assurance that any additional losses, damages, costs and expenses, as well as any further regulatory and other investigations and actions or any further downgrade of our credit ratings, will not be material to us, including from any impact on our business, financial condition, results of operations, prospects, liquidity or capital position.

→ Refer to "Risk factor" in I – Credit Suisse results – Credit Suisse in the Credit Suisse Financial Report 1Q21 for further information on risks that may arise in relation to these matters. For a description of the regulatory and legal developments relating to these matters, refer to "Note 33 – Litigation" in III – Condensed consolidated financial statements – unaudited for further information.

Changes to the Executive Board

On July 5, 2021, the Board announced the appointment of Joanne Hannaford as Chief Technology & Operations Officer and a member of the Executive Board, effective January 1, 2022. James Walker, the current Chief Operating Officer, will step down from the Executive Board and will become the deputy chief executive officer of Credit Suisse Holdings (USA), Inc. as of January 1, 2022.

On July 27, 2021, the Board announced the appointment of David Wildermuth as Chief Risk Officer (CRO) and a member of the Executive Board as of February 1, 2022 at the latest. Joachim Oechsli will continue to serve as ad interim CRO until David Wildermuth joins and will then reassume a senior role as Strategic Advisor to the Group Chief Executive Officer.

Mandatory Convertible Notes Offering

On April 22, 2021, the Group announced that it placed two series of mandatory convertible notes (MCNs), Series A MCNs and

Series B MCNs, which will be convertible into 100 million shares and 103 million shares of Credit Suisse Group AG, respectively. The MCNs settled on May 12, 2021. The aggregate principal amount of Series A MCNs issued was CHF 865 million and the aggregate principal amount of Series B MCNs issued was CHF 891 million. The shares of Credit Suisse Group AG underlying the Series A MCNs were issued from Credit Suisse Group AG's conditional capital. The shares of Credit Suisse Group AG underlying the Series B MCNs were issued from Credit Suisse Group AG's authorized capital. As of the end of 2Q21, MCNs with a principal value of CHF 924,000 have been early converted into 106,805 shares of Credit Suisse Group AG. The remaining shares of Credit Suisse Group AG are held by Credit Suisse Group (Guernsey) VII Limited, the issuing entity of the MCNs for delivery to holders of MCNs upon conversion of the MCNs.

Legacy RMBS settlement relating to consumer relief

As previously disclosed, on January 18, 2017, Credit Suisse Securities (USA) LLC (CSS LLC) and its current and former US subsidiaries and US affiliates reached a settlement with the US Department of Justice (DOJ) related to its legacy residential mortgage-backed securities (RMBS) business, a business conducted through 2007. The settlement resolved potential civil claims by the DOJ related to certain of those Credit Suisse entities' packaging, marketing, structuring, arrangement, underwriting, issuance and sale of RMBS. Pursuant to the terms of the settlement a civil monetary penalty was paid to the DOJ in January 2017. The settlement also required the above-mentioned entities to provide certain levels of consumer relief measures, including affordable housing payments and loan forgiveness, and the DOJ and Credit Suisse agreed to the appointment of an independent monitor to oversee the completion of the consumer relief requirements of the settlement. A reassessment of progress towards satisfaction of this consumer relief commitment within the five-year period provided in the settlement has resulted in a plan of a revised approach pursuant to which the Group may include acquiring and modifying loan assets on a principal basis and an expectation that the Group may only complete the consumer relief conditions by 2026 or later, subject to market conditions and the Group's risk appetite. In light of Credit Suisse's current plans as to how it will satisfy these obligations, Credit Suisse expects to incur additional costs beyond those previously anticipated in relation to satisfying those obligations. Credit Suisse has also recorded an additional litigation provision in 2Q21 with regard to these matters. This estimated additional cost is highly sensitive to certain parameters, including market conditions in the US housing market, which at present are dynamic, the assumed eligibility and classification of consumer relief already completed and the acceptance rate on such completed consumer relief by the monitor. A lower acceptance rate on such completed activity may result in a higher volume of principal activity under the planned revised approach. The amount of consumer relief Credit Suisse must provide also will increase after 2021 pursuant to the original settlement by 5% per annum of the outstanding amount due until these obligations are settled. The monitor publishes reports periodically on these consumer relief matters.

COVID-19 pandemic

The COVID-19 pandemic continued to affect the economic environment. Equity and credit markets generally performed well in 2Q21 on the increased prospect that 2021 would bring a strong economic recovery due to significant fiscal supports, accommodative monetary policies, accelerating vaccination programs and the easing of economic and social activity lockdowns. However, a recent and growing resurgence in COVID-19 infection rates globally, in particular among unvaccinated persons, is attributed to the so-called Delta variant strain of the coronavirus, which appears to be more infectious than the original strain, and may negatively affect the expected recovery. India suffered a severe second COVID-19 infection wave in March and April 2021 that put its public healthcare system under acute pressure. The infection wave subsided in May and June but began to rise again in July. Economic and social activity lockdown measures tightened during the initial infection wave. The lockdowns eased in May and June but in July have tightened again in some states. Credit Suisse has a significant presence in India primarily in the cities of Mumbai, Pune and Bangalore. At the start of the second COVID-19 infection wave, India office locations rolled back to minimal staff occupancy levels. We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

The Swiss government, the SNB and the Swiss Financial Market Supervisory Authority FINMA (FINMA) have taken various measures to mitigate the consequences of the COVID-19 pandemic on the economy and the financial system. Governments and regulators in other jurisdictions where we have operations have also taken and continue to take measures to address the financial and economic pressures arising from the COVID-19 pandemic.

→ Refer to "COVID-19 pandemic and related regulatory measures" in II – Operating and financial review – Credit Suisse and "Key risk developments" in III – Treasury, Risk, Balance Sheet and Off-balance sheet – Risk management in the Credit Suisse Annual Report 2020 and "COVID-19 pandemic" in I – Credit Suisse results – Credit Suisse – Other information in the Credit Suisse Financial Report 1Q21 for a discussion of other developments pertaining to COVID-19, including regulatory developments, and further information.

Goodwill

In accordance with US GAAP, the Group continually assesses whether or not there has been a triggering event requiring a review of goodwill. The Board of Directors of the Group is currently conducting a review of the Group's overall business strategy and risk appetite in addition to business reviews and potential personnel and organizational changes contemplated in response to both the Archegos and the supply chain finance fund matters previously disclosed. The Group has determined that these strategy and business reviews, and the associated and anticipated changes to the financial plans arising from these reviews, were goodwill triggering events for 2Q21 impacting all reporting units of the Group.

As previously disclosed, effective April 1, 2021, the Asset Management business was separated from the International Wealth

Management division and managed as a new separate division of the Group. For goodwill testing purposes the new Asset Management division is considered a reporting unit of the Group.

Based on its goodwill impairment analysis performed, the Group concluded that the estimated fair value for all of the reporting units with goodwill exceeded their related carrying values and no impairments were necessary as of June 30, 2021. The fair value of the Investment Bank reporting unit exceeded its related carrying value by only 4%. The goodwill allocated to this reporting unit became more sensitive to an impairment due to the uncertainties arising from the Archegos matter and the strategy and business reviews. The Board of Directors has constrained, in conjunction with FINMA, the amount of risk-weighted assets and leverage exposure for both the Investment Bank and the Group until such time as the strategy and business reviews are complete. There is a significant risk of a future goodwill impairment for the Investment Bank if these reviews have an adverse impact on the financial plans for this reporting unit.

→ Refer to "Note 20 – Goodwill" in III – Condensed consolidated financial statements – unaudited for further information.

Format of presentation

In managing our business, revenues are evaluated in the aggregate, including an assessment of trading gains and losses and the related interest income and expense from financing and hedging positions. For this reason, specific individual revenue categories in isolation may not be indicative of performance. Certain reclassifications have been made to prior periods to conform to the current presentation.

Return on regulatory capital

Credit Suisse measures firm-wide returns against total shareholders' equity and tangible shareholders' equity, a non-GAAP financial measure also known as tangible book value. In addition, it also measures the efficiency of the firm and its divisions with regard to the usage of capital as determined by the minimum requirements set by regulators. Prior to 3Q20, regulatory capital was calculated as the worst of 10% of RWA and 3.5% of leverage exposure and return on regulatory capital, a non-GAAP financial measure, was calculated using income/(loss) after tax and assumed a tax rate of 30%. In 3Q20, we updated our calculation approach, following which regulatory capital is calculated as the average of 10% of RWA and 3.5% of leverage exposure and return on regulatory capital is calculated using income/(loss) after tax and assumes a tax rate of 30% for periods prior to 2020 and 25% from 2020 onward. For periods in 2020, for purposes of calculating Group return on regulatory capital, leverage exposure excludes cash held at central banks, after adjusting for the dividend paid in 2020. For the Investment Bank, return on regulatory capital is based on US dollar denominated numbers. Return on regulatory capital excluding certain items included in our reported results is calculated using results excluding such items, applying the same methodology.

End of / in 2Q21 (CHF billion)

Shareholders' equity			43.6
Return on equity	2.3%		
Tangible shareholders' equity		38.7	4.8
Return on tangible equity	2.6%		
Regulatory capital		30.2	8.5
Return on regulatory capital	7.8%		

Fair valuations

Fair value can be a relevant measurement for financial instruments when it aligns the accounting for these instruments with how we manage our business. The levels of the fair value hierarchy as defined by the relevant accounting guidance are not a measurement of economic risk, but rather an indication of the observability of prices or valuation inputs.

As of the end of 2Q21, 33% and 23% of our total assets and total liabilities, respectively, were measured at fair value.

The majority of our level 3 assets are recorded in our investment banking businesses. As of the end of 2Q21, total assets at fair value recorded as level 3 decreased CHF 2.2 billion to CHF 12.8 billion compared to the end of 1Q21, primarily reflecting net transfers out, mainly in other investments and trading assets, and net settlements, mainly in loans and loans held-for-sale.

As of the end of 2Q21, our level 3 assets comprised 2% of total assets and 5% of total assets measured at fair value, stable compared to the end of 1Q21.

We believe that the range of any valuation uncertainty, in the aggregate, would not be material to our financial condition; however, it may be material to our operating results for any particular period, depending, in part, upon the operating results for such period.

→ Refer to "Fair valuations" in II – Operating and financial review – Credit Suisse in the Credit Suisse Annual Report 2020 and "Note 31 – Financial instruments" in III – Condensed consolidated financial statements – unaudited for further information.

Subsidiary guarantee information

Certain wholly owned finance subsidiaries of the Group, including Credit Suisse Group Funding (Guernsey) Limited, which is a Guernsey incorporated non-cellular company limited by shares, have issued securities fully and unconditionally guaranteed by the Group. There are various legal and regulatory requirements, including the satisfaction of a solvency test under Guernsey law for the Guernsey subsidiary, applicable to some of the Group's subsidiaries that may limit their ability to pay dividends or distributions and make loans and advances to the Group.

The Group and the Bank have issued full, unconditional and several guarantees of Credit Suisse (USA), Inc.'s outstanding SEC-registered debt securities, which as of June 30, 2021 consisted of a single outstanding issuance with a balance of USD 742 million maturing in July 2032. Credit Suisse (USA), Inc. is an indirect, wholly owned subsidiary of the Group, and the guarantees

have been in place since March 2007. In accordance with the guarantees, if Credit Suisse (USA), Inc. fails to make a timely payment under the agreements governing such debt securities, the holders of the debt securities may demand payment from either the Group or the Bank, without first proceeding against Credit Suisse (USA), Inc., but to date there has been no occasion where holders of the debt securities have demanded payment under the guarantees. The guarantee from the Group is subordinated to senior liabilities, and the guarantees from the Group and the Bank are structurally subordinated to liabilities of any of the subsidiaries of the Group or the Bank that do not guarantee the debt securities.

Regulatory developments and proposals

Government leaders and regulators continued to focus on reform of the financial services industry, including capital, leverage and liquidity requirements, changes in compensation practices and systemic risk.

On June 4, 2021, the European Commission published its new standard contractual clauses (SCCs) for transferring personal data from the EU to third countries pursuant to the General Data Protection Regulation (GDPR). Other countries, such as Switzerland and the UK, are in parallel considering their approach to this new development. The previous set of SCCs will be repealed effective September 27, 2021, and any contracts implementing the old SCCs will no longer be deemed to provide appropriate safeguards under the GDPR from December 27, 2022, requiring organizations to revise their existing contractual structures.

On June 28, 2021, the European Commission adopted two adequacy decisions under the GDPR and the Law Enforcement Directive in respect of the UK, prior to the expiry of the provisions on transfer of personal data within the EU-UK Trade and Cooperation Agreement at the end of June 2021. As such, personal data can continue to freely flow from the EU to the UK, and no standard contractual clauses are required. The adequacy decisions incorporate a new "sunset clause", which limits the duration of the adequacy to four years. After the four years, the adoption process will need to be restarted by the European Commission to assess whether the adequacy finding should be renewed.

During its meeting on June 18, 2021, the Swiss Federal Council enacted the remaining provisions of the Law on Distributed Ledger Technology (DLT-Law), which, together with the implementing ordinance, will enter into force on August 1, 2021. One of the key aspects of these provisions is the introduction of a new licensing category under the Financial Market Infrastructure Act for DLT-trading facilities, which are financial market infrastructures that enable the trading of DLT securities. Further, the provisions will increase legal certainty under the Swiss insolvency regime by explicitly regulating the segregation of crypto-based assets in bankruptcy proceedings.

On June 18, 2021, the Swiss Parliament adopted the amendment of the Federal Withholding Tax Act to extend the exemption of interest on “Too Big to Fail” (TBTF) instruments from withholding tax until the end of 2026. On June 18, 2021, the Swiss Parliament also adopted the amendment of the Federal Stamp Duty Act to abolish the 1% issue tax on Swiss equity securities. Both amendments are subject to an optional referendum, which may be called until October 7, 2021.

On June 24, 2021, the Board of Governors of the Federal Reserve System (Fed) announced the results of its annual supervisory stress tests, as implemented pursuant to the Dodd-Frank Act. Our US intermediate holding company (IHC) remained above its risk-based minimum capital requirements. Restrictions on payment of dividends and share repurchases put in place by the Fed during the COVID-19 pandemic have ended as of June 30, 2021. Our US IHC is now permitted to make distributions to its parent, subject to its applicable stress capital buffer requirement. If our US IHC does not maintain this buffer above minimum risk-based capital requirements, it will be limited in its ability to pay dividends and make discretionary bonus payments and other earnings distributions.

On July 1, 2021, the revised FINMA Circular 2016/01 “Disclosure – Banks” entered into force (Circular). Under the Circular, the Swiss Financial Market Supervisory Authority FINMA (FINMA) has further clarified and specified the disclosure obligations applicable to banks relating to climate risks. Pursuant to the Circular, large banks, such as Credit Suisse, are required to describe the major climate-related financial risks and their impact on the business strategy, business model and financial planning. In addition, they must disclose (i) the process for identifying, assessing and managing climate-related financial risks (risk management) as well as (ii) quantitative information (including a description of the applied methodology) on their climate-related financial risks. These disclosure obligations will apply to our annual reporting for the 2021 financial year.

On July 9, 2021 the Prudential Regulation Authority published a policy statement, including near-final rules, implementing some of the Basel III standards in the UK. The rules include, among other things, revised standards concerning the definition of capital, prudent valuation for market risk and market risk management requirements, counterparty credit risk, large exposures and liquidity coverage requirements. The policy is intended to take effect on January 1, 2022.

→ Refer to “Regulation and supervision” in I – Information on the company in the Credit Suisse Annual Report 2020 for further information and “Regulatory framework” in II – Treasury, risk, balance sheet and off-balance sheet – Liquidity and funding management and Capital management for further information.

Swiss Universal Bank

In 2Q21, we reported income before taxes of CHF 725 million and net revenues of CHF 1,477 million. Income before taxes increased 11% and 9% compared to 2Q20 and 1Q21, respectively.

Results summary

2Q21 results

In 2Q21, income before taxes of CHF 725 million increased 11% compared to 2Q20. Net revenues of CHF 1,477 million were stable, with higher recurring commissions and fees and higher other revenues, offset by lower transaction-based revenues and lower net interest income. Other revenues in 2Q21 included a gain on the equity investment in Allfunds Group of CHF 95 million and an insurance claim refund of CHF 49 million relating to a major litigation case reflected in Corporate & Institutional Clients. Other revenues in 2Q20 included a Pfandbriefbank equity investment revaluation gain of CHF 134 million reflected in Private Clients. In 2Q21, we recorded a release of provision for credit losses of CHF 21 million, mainly reflecting a release of CECL provisions, compared to provision for credit losses of CHF 28 million in 2Q20. Total operating expenses of CHF 773 million decreased 2%, mainly reflecting lower compensation and benefits, partially offset by higher general and administrative expenses.

Compared to 1Q21, income before taxes increased 9%. Net revenues increased 2%, driven by higher other revenues and higher recurring commissions and fees, partially offset by lower transaction-based revenues and lower net interest income. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group and the insurance claim refund relating

to a major litigation case. Other revenues in 1Q21 included an Allfunds Group equity investment revaluation gain of CHF 43 million reflected in Corporate & Institutional Clients. In 2Q21, we recorded a release of provision for credit losses of CHF 21 million, mainly reflecting the release of CECL provisions, compared to provision for credit losses of CHF 26 million in 1Q21. Total operating expenses increased 2%, mainly driven by higher general and administrative expenses, partially offset by lower compensation and benefits.

We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

→ Refer to "COVID-19 pandemic" in Credit Suisse – Other information for further information.

Capital and leverage metrics

As of the end of 2Q21, we reported RWA of CHF 82.8 billion, CHF 2.2 billion lower compared to the end of 1Q21, mainly related to internal model and parameter updates in operational risk, reflecting our update to the operational risk allocation keys, movement in risk levels, mainly in credit risk, and the foreign exchange impact. Leverage exposure of CHF 303.7 billion was CHF 1.3 billion lower compared to the end of 1Q21, mainly driven by the foreign exchange impact and lower high-quality liquid assets (HQLA).

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage fees, fees from foreign exchange client transactions, trading and sales income, equity participations income and other transaction-based income. Other revenues include fair value gains/(losses) on synthetic securitized loan portfolios and other gains and losses.

Private Clients

Results details

In 2Q21, income before taxes of CHF 259 million decreased 25% compared to 2Q20, primarily reflecting lower net revenues, partially offset by lower provision for credit losses and lower total operating expenses. Compared to 1Q21, income before taxes decreased 8%, driven by lower net revenues.

Net revenues

Compared to 2Q20, net revenues of CHF 718 million decreased 14%, mainly driven by lower other revenues and lower transaction-based revenues, partially offset by higher recurring commissions and fees. Other revenues in 2Q20 included the Pfandbriefbank equity investment revaluation gain of CHF 134 million. Transaction-based revenues of CHF 109 million decreased 13%, driven by lower revenues from Global Trading Solutions (GTS) and lower brokerage and product issuing fees, partially offset

by higher fees from foreign exchange client business. Recurring commissions and fees of CHF 210 million increased 17%, reflecting higher investment product management fees, higher security account and custody services fees, higher discretionary mandate management fees and higher revenues from our investment in Swisscard. Net interest income of CHF 399 million was stable.

Compared to 1Q21, net revenues decreased 3%, mainly driven by lower transaction-based revenues, partially offset by higher recurring commissions and fees. Transaction-based revenues decreased 20%, mainly due to lower revenues from GTS and lower client activity, partially offset by higher equity participations income. Net interest income was stable. Recurring commissions and fees increased 6%, driven by higher revenues from our investment in Swisscard, higher investment product management fees and higher discretionary mandate management fees.

Provision for credit losses

The Private Clients loan portfolio is substantially comprised of residential mortgages in Switzerland and loans collateralized by securities and, to a lesser extent, consumer finance loans.

In 2Q21, Private Clients recorded provision for credit losses of CHF 5 million compared to provision for credit losses of CHF 28 million in 2Q20 and CHF 5 million in 1Q21. The provisions were primarily related to our consumer finance business.

Total operating expenses

Compared to 2Q20, total operating expenses of CHF 454 million decreased 2%, mainly reflecting lower compensation and benefits, partially offset by higher general and administrative expenses. Compensation and benefits of CHF 267 million decreased 8%, primarily driven by lower discretionary compensation expenses and lower allocated corporate function costs. General and administrative expenses of CHF 163 million increased 6%, mainly reflecting higher allocated corporate function costs and higher advertising and marketing expenses, partially offset by lower professional services fees.

Compared to 1Q21, total operating expenses were stable, reflecting higher general and administrative expenses, offset by lower compensation and benefits. General and administrative expenses increased 9%, driven by higher allocated corporate function costs, higher occupancy expenses and higher advertising and marketing expenses. Compensation and benefits decreased 4%, mainly driven by lower allocated corporate function costs.

Margins

Our **gross margin** was 134 basis points in 2Q21, a decrease of 33 basis points compared to 2Q20, primarily reflecting lower other revenues and a 7.0% increase in average assets under management, partially offset by higher recurring commissions and fees. Compared to 1Q21, our gross margin was eight basis points lower, mainly driven by lower transaction-based revenues and a 3.1% increase in average assets under management, partially offset by higher recurring commissions and fees.

→ Refer to "Assets under management" for further information.

Our **net margin** was 48 basis points in 2Q21, a decrease of 21 basis points compared to 2Q20, mainly reflecting lower net revenues and the higher average assets under management, partially offset by lower provision for credit losses. Compared to 1Q21, our net margin was six basis points lower, mainly driven by lower net revenues and the higher average assets under management.

Corporate & Institutional Clients

Results details

In 2Q21, income before taxes of CHF 466 million increased 49% compared to 2Q20, mainly driven by higher net revenues and lower provision for credit losses. Compared to 1Q21, income before taxes increased 21%, reflecting higher net revenues and lower provision for credit losses, partially offset by higher total operating expenses.

Net revenues

Compared to 2Q20, net revenues of CHF 759 million increased 19%, driven by higher other revenues and higher recurring commissions and fees, partially offset by lower transaction-based revenues and lower net interest income. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group of CHF 95 million and the insurance claim refund of CHF 49 million relating to a major litigation case. Recurring commissions and fees of CHF 181 million increased 8%, mainly reflecting higher investment product management fees, higher investment advisory fees and higher fees from lending activities. Transaction-based revenues of CHF 183 million decreased 13%, mainly driven by

lower revenues from GTS, partially offset by higher revenues from our Swiss investment banking business and higher fees from foreign exchange client business. Net interest income of CHF 265 million decreased 4%, with lower deposit margins on higher average deposit volumes and lower treasury revenues, partially offset by lower loan margins on higher average loan volumes.

Compared to 1Q21, net revenues increased 7%, mainly reflecting higher other revenues, partially offset by lower transaction-based revenues and lower net interest income. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group and the insurance claim refund relating to a major litigation case, while other revenues in 1Q21 included the Allfunds Group equity investment revaluation gain of CHF 43 million. Transaction-based revenues decreased 17%, primarily driven by lower revenues from GTS and lower client activity, partially offset by higher revenues from our Swiss investment banking business. Net interest income decreased 5%, mainly reflecting lower treasury revenues. Recurring commissions and fees were stable, with lower fees from lending activities and lower banking services fees offset by higher investment product management fees.

Provision for credit losses

The Corporate & Institutional Clients loan portfolio has relatively low concentrations and is mainly secured by real estate, securities and other financial collateral.

In 2Q21, Corporate & Institutional Clients recorded a release of provision for credit losses of CHF 26 million compared to provision for credit losses of CHF 0 million in 2Q20 and CHF 21 million in 1Q21. Provision for credit losses in 2Q21 mainly reflected the release of CECL-related provisions of CHF 47 million, partially offset by provisions for newly impaired positions in small and medium-sized enterprises.

Total operating expenses

Compared to 2Q20, total operating expenses of CHF 319 million decreased 2%, mainly reflecting lower compensation and benefits. Compensation and benefits of CHF 193 million decreased 8%, mainly reflecting lower allocated corporate function costs and lower discretionary compensation expenses. General and administrative expenses of CHF 92 million increased 5%, driven by higher allocated corporate function costs. General and administrative expenses and commission expenses included expenses related to the IPO of Allfunds Group in 2Q21.

Compared to 1Q21, total operating expenses increased 4%, mainly driven by higher general and administrative expenses. General and administrative expenses increased 18%, primarily reflecting higher allocated corporate function costs. Compensation and benefits were stable.

Assets under management

As of the end of 2Q21, assets under management of CHF 504.8 billion were CHF 17.8 billion higher compared to the end of 1Q21, driven by favorable market movements and net new assets. Net new assets of CHF 1.5 billion reflected inflows from our external asset managers and pension business.

International Wealth Management

In 2Q21, we reported income before taxes of CHF 340 million and net revenues of CHF 930 million. Income before taxes increased 33% compared to 2Q20 and decreased 17% compared to 1Q21.

Results summary

2Q21 results

In 2Q21, income before taxes of CHF 340 million increased 33% compared to 2Q20. Net revenues of CHF 930 million increased 3%, driven by higher other revenues and higher recurring commissions and fees, partially offset by lower transaction- and performance-based revenues and lower net interest income. Other revenues in 2Q21 included a gain on the equity investment in Allfunds Group of CHF 127 million. In 2Q21, we recorded a release of provision for credit losses of CHF 25 million, mainly reflecting a release of CECL provisions, compared to provision for credit losses of CHF 32 million in 2Q20. Total operating expenses of CHF 615 million were stable, with lower compensation and benefits offset by higher general and administrative expenses.

Compared to 1Q21, income before taxes decreased 17%. Net revenues decreased 6%, driven by lower transaction- and performance-based revenues and lower net interest income, partially offset by higher other revenues and higher recurring commissions and fees. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group of CHF 127 million, while

other revenues in 1Q21 included an Allfunds Group equity investment revaluation gain of CHF 58 million. In 2Q21, we recorded a release of provision for credit losses of CHF 25 million, mainly reflecting the release of CECL provisions, compared to provision for credit losses of CHF 0 million in 1Q21. Total operating expenses increased 6%, mainly driven by higher compensation and benefits.

We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

→ Refer to "COVID-19 pandemic" in Credit Suisse – Other information for further information.

Capital and leverage metrics

As of the end of 2Q21, we reported RWA of CHF 34.3 billion, a decrease of CHF 1.5 billion compared to the end of 1Q21, mainly related to movements in risk levels, primarily in credit risk, internal model and parameter updates in operational risk, resulting from the updated operational risk allocation keys, and the foreign exchange impact. Leverage exposure of CHF 108.2 billion was CHF 2.5 billion higher compared to the end of 1Q21, mainly driven by higher HQLA.

Results details

Net revenues

Compared to 2Q20, net revenues of CHF 930 million increased 3%, driven by higher other revenues and higher recurring commissions and fees, partially offset by lower transaction- and performance-based revenues and lower net interest income. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group of CHF 127 million. Recurring commissions and fees of CHF 318 million increased 16%, mainly driven by higher investment product management fees, higher discretionary mandate management fees and higher security account and custody fees. Transaction- and performance-based revenues of CHF 216 million decreased 33%, mainly driven by lower revenues from GTS and lower client activity including lower structured product issuances. Net interest income of CHF 269 million decreased 14%, mainly reflecting lower deposit margins on stable average deposit volumes.

Compared to 1Q21, net revenues decreased 6%, reflecting lower transaction- and performance-based revenues and lower net interest income, partially offset by higher other revenues and higher recurring commissions and fees. Transaction- and performance-based revenues decreased 38%, driven by significantly lower revenues from GTS and lower client activity, partially offset by higher performance fees and higher equity participations income, which included a dividend from SIX Group of CHF 5 million. Net interest income decreased 6%, mainly driven by lower treasury revenues. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group, while other revenues in 1Q21 included the Allfunds Group equity investment revaluation gain of CHF 58 million. Recurring commissions and fees increased 7%, mainly reflecting higher investment product management fees, higher fees from lending activities, higher discretionary mandate management fees and higher security account and custody services fees.

Provision for credit losses

The loan portfolio primarily comprises lombard loans, mainly backed by listed securities, ship finance and real estate mortgages.

In 2Q21, a release of provision for credit losses of CHF 25 million was recorded, compared to provision for credit losses of CHF 32 million in 2Q20 and CHF 0 million in 1Q21. Provision for credit losses in 2Q21 mainly reflected the release of CECL-related provisions of CHF 50 million, partially offset by two individual cases. Provision for credit losses in 2Q20 mainly related to ship finance, and provision for credit losses in 1Q21 was primarily related to two cases, offset by a release of CECL-related provisions of CHF 5 million.

Total operating expenses

Compared to 2Q20, total operating expenses of CHF 615 million were stable, with lower compensation and benefits offset by higher general and administrative expenses, higher commission expenses and restructuring expenses of CHF 5 million in 2Q21. Compensation and benefits of CHF 390 million decreased 11%, mainly driven by lower discretionary compensation expenses and lower allocated corporate function costs. General and administrative expenses of CHF 178 million increased 21%, mainly driven by higher professional services fees and higher allocated corporate function costs. 2Q20 included a release of litigation provisions of CHF 32 million. General and administrative expenses and commission expenses included expenses related to the IPO of Allfunds Group in 2Q21.

Compared to 1Q21, total operating expenses increased 6%, reflecting higher compensation and benefits, higher commission expenses and restructuring expenses of CHF 5 million in 2Q21. Compensation and benefits increased 7%, primarily reflecting higher allocated corporate function costs and higher salary expenses. General and administrative expenses were stable, with higher litigation provisions and higher professional services fees offset by lower allocated corporate function costs.

Margins

Our **gross margin** was 95 basis points in 2Q21, a decrease of twelve basis points compared to 2Q20, driven by a 15.3% increase in average assets under management, lower transaction- and performance-based revenues and lower net interest income, partially offset by higher other revenues and higher recurring commissions and fees. Compared to 1Q21, our gross margin was ten basis points lower, mainly reflecting lower transaction- and performance-based revenues and a 3.9% increase in average assets under management, partially offset by higher other revenues.

→ Refer to "Assets under management" for further information.

Our **net margin** was 35 basis points in 2Q21, an increase of five basis points compared to 2Q20, mainly reflecting lower provision for credit losses and higher net revenues, partially offset by the higher average assets under management. Our net margin was nine basis points lower compared to 1Q21, mainly reflecting lower net revenues, higher total operating expenses and the higher average assets under management, partially offset by lower provision for credit losses.

Assets under management

As of the end of 2Q21, assets under management of CHF 399.5 billion were CHF 13.3 billion higher compared to the end of 1Q21, mainly driven by favorable market movements. Net asset outflows of CHF 0.3 billion mainly reflected outflows in emerging markets, partially offset by inflows in Western Europe.

¹ Includes CHF 2.4 billion relating to the reclassification to assets under custody for our clients' assets that were impacted by the suspension and ongoing liquidation of the supply chain finance funds.

Asia Pacific

In 2Q21, we reported income before taxes of CHF 250 million and net revenues of CHF 798 million. Income before taxes increased 28% compared to 2Q20 and decreased 52% compared to 1Q21.

Results summary

2Q21 results

In 2Q21, income before taxes of CHF 250 million increased 28% compared to 2Q20. Net revenues of CHF 798 million were stable, as lower transaction-based revenues and lower net interest income were offset by higher other revenues and higher recurring commissions and fees. Other revenues in 2Q21 included a gain on the equity investment in Allfunds Group of CHF 95 million. Provision for credit losses was CHF 6 million in 2Q21 compared to CHF 86 million in 2Q20. Total operating expenses of CHF 542 million increased 3%, mainly due to higher general and administrative expenses.

Compared to 1Q21, income before taxes decreased 52%. Net revenues decreased 25%, primarily driven by lower transaction-based revenues, partially offset by higher other revenues. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group of CHF 95 million, while other revenues in 1Q21

included an Allfunds Group equity investment revaluation gain of CHF 43 million. Provision for credit losses was CHF 6 million compared to CHF 27 million in 1Q21. Total operating expenses increased 6%, mainly due to higher compensation and benefits and higher general and administrative expenses.

We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

→ Refer to "COVID-19 pandemic" in Credit Suisse – Other information for further information.

Capital and leverage metrics

As of the end of 2Q21, we reported RWA of CHF 28.6 billion, CHF 1.4 billion lower compared to the end of 1Q21, mainly driven by movements in risk levels in credit risk relating to reduced lending exposures and a foreign exchange impact. Leverage exposure of CHF 79.1 billion was CHF 4.1 billion lower compared to the end of 1Q21, mainly reflecting lower business usage, a foreign exchange impact and lower HQLA.

Net interest income includes a term spread credit on stable deposit funding and a term spread charge on loans. Recurring commissions and fees includes investment product management, discretionary mandate and other asset management-related fees, fees for general banking products and services and revenues from wealth structuring solutions. Transaction-based revenues arise primarily from brokerage and product issuing fees, fees from foreign exchange client transactions, trading and sales income including revenues from GTS, financing, underwriting and advisory fees, equity participations income and other transaction-based income. Financing revenues include unrealized mark-to-market movements on our fair valued portfolio.

¹ Net revenues divided by average assets under management.

Results details

Net revenues

Compared to 2Q20, net revenues of CHF 798 million were stable, as lower transaction-based revenues and lower net interest income were offset by higher other revenues and higher recurring commissions and fees. Transaction-based revenues decreased 26% to CHF 345 million, primarily reflecting lower revenues from GTS, lower structured equity origination revenues, lower equity underwriting revenues and lower revenues from completed mergers and acquisitions (M&A) transactions, partially offset by higher financing revenues. Financing revenues in 2Q21 mainly reflected lower unrealized mark-to-market losses, net of hedges, of CHF 7 million on our fair valued portfolio compared to mark-to-market losses, net of hedges, of CHF 44 million in 2Q20. Net interest income decreased 3% to CHF 252 million, mainly reflecting significantly lower deposit margins on higher average deposit volumes and lower loan margins on higher average loan volumes, partially offset by higher treasury revenues. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group of CHF 95 million. Recurring commissions and fees increased 31% to CHF 105 million, reflecting higher revenues across the majority of our product categories.

Compared to 1Q21, net revenues decreased 25%, reflecting lower transaction-based revenues and lower net interest income, partially offset by higher other revenues and higher recurring commissions and fees. Transaction-based revenues decreased 48%, primarily reflecting lower revenues from GTS, lower client activity, lower revenues from completed M&A transactions and lower equity underwriting revenues. Net interest income decreased 3%, mainly reflecting lower treasury revenues and stable loan margins on slightly lower average loan volumes. Other revenues in 2Q21 included the gain on the equity investment in Allfunds Group of CHF 95 million, while other revenues in 1Q21 included the Allfunds Group equity investment revaluation gain of CHF 43 million. Recurring commissions and fees increased 6%, mainly reflecting higher revenues across the majority of our product categories.

Provision for credit losses

The loan portfolio primarily comprises lombard loans, which are mainly backed by listed securities, share-backed loans and secured and unsecured loans to corporates.

In 2Q21, we recorded provision for credit losses of CHF 6 million, compared to provision for credit losses of CHF 86 million in 2Q20 and CHF 27 million in 1Q21. The provision for credit losses in 2Q21 was driven primarily by provisions related to three individual cases, partially offset by a release of CECL-related provisions of CHF 17 million.

Total operating expenses

Total operating expenses of CHF 542 million increased 3% compared to 2Q20, primarily reflecting higher general and administrative expenses. General and administrative expenses of CHF 162 million increased 6%, primarily due to higher professional services fees. Compensation and benefits of CHF 337 million were stable, mainly reflecting higher salary expenses offset by lower discretionary compensation expenses. General and administrative expenses and commission expenses included expenses related to the IPO of Allfunds Group in 2Q21.

Compared to 1Q21, total operating expenses increased 6%, primarily reflecting higher compensation and benefits and higher general and administrative expenses. Compensation and benefits increased 7%, mainly reflecting higher salary expenses and higher allocated corporate function costs. General and administrative expenses increased 6%, mainly due to higher allocated corporate function costs and higher professional services fees.

Margins

Our **gross margin** was 136 basis points in 2Q21, 19 basis points lower compared to 2Q20, primarily due to lower transaction-based revenues and a 12.3% increase in average assets under management, partially offset by the gain on the equity investment in Allfunds Group in 2Q21. Compared to 1Q21, our gross margin was 48 basis points lower, mainly reflecting lower transaction-based revenues.

→ Refer to "Assets under management" for further information.

Our **net margin** was 43 basis points in 2Q21, five basis points higher compared to 2Q20, mainly reflecting lower provision for credit losses, partially offset by the increase in average assets under management and higher total operating expenses. Compared to 1Q21, our net margin was 48 basis points lower, mainly reflecting lower transaction-based revenues.

Assets under management

As of the end of 2Q21, assets under management of CHF 236.3 billion were CHF 5.6 billion lower compared to the end of 1Q21, mainly reflecting net asset outflows and unfavorable foreign exchange-related movements, partially offset by favorable market movements. Net asset outflows of CHF 6.1 billion reflected outflows mainly from Southeast Asia, Japan and China and de-risking measures taken during the quarter.

Asset Management

In 2Q21, we reported income before taxes of CHF 104 million and net revenues of CHF 404 million. Income before taxes increased 24% compared to 2Q20 and decreased 10% compared to 1Q21.

Results summary

2Q21 results

In 2Q21, we reported income before taxes of CHF 104 million, an increase of 24% compared to 2Q20, driven by higher net revenues, partially offset by higher total operating expenses. Net revenues were CHF 404 million, an increase of 12% compared to 2Q20, driven by higher management fees and performance and placement revenues, partially offset by lower investment and partnership income. Total operating expenses of CHF 299 million increased 9% compared to 2Q20, mainly due to higher commission expenses, compensation and benefits and general and administrative expenses.

Compared to 1Q21, income before taxes decreased 10%, driven by higher total operating expenses, partially offset by higher net revenues. Net revenues increased 5%, mainly due to stronger

investment and partnership income, partially offset by lower performance and placement revenues. Total operating expenses increased 10%, mainly due to higher compensation and benefits and general and administrative expenses.

We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

→ Refer to "COVID-19 pandemic" in Credit Suisse – Other information for further information.

Capital and leverage metrics

As of the end of 2Q21, we reported RWA of CHF 9.9 billion, an increase of CHF 0.6 billion compared to the end of 1Q21, mainly related to movements in risk levels in market risk. Leverage exposure of CHF 2.8 billion was CHF 0.4 billion lower compared to the end of 1Q21, mainly driven by lower HQLA and redemptions of principal investments.

Management fees include fees on assets under management, asset administration revenues and transaction fees related to the acquisition and disposal of investments in the funds being managed. Performance revenues relate to the performance or return of the funds being managed and includes investment-related gains and losses from proprietary funds. Placement revenues arise from our third-party private equity fundraising activities and secondary private equity market advisory services. Investment and partnership income includes equity participation income from seed capital returns and from minority investments in third-party asset managers, income from strategic partnerships and distribution agreements and other revenues.

Results detail

Net revenues

Compared to 2Q20, net revenues of CHF 404 million increased 12%, driven by higher management fees and performance and placement revenues, partially offset by lower investment and partnership income. Management fees of CHF 285 million increased 14% compared to 2Q20, mainly reflecting higher average assets under management. Performance and placement revenues of CHF 66 million increased 38% compared to 2Q20, mainly due to higher performance fees and carried interest, primarily from the

sale of a private equity investment in a fund, and higher placement fees, partially offset by higher investment related gains in 2Q20. Investment and partnership income of CHF 53 million decreased 15%, mainly due to higher revenues from our systematic market making business in 2Q20.

Compared to 1Q21, net revenues increased 5%, mainly due to stronger investments and partnership income. Investment and partnership income increased 83%, primarily driven by higher equity participation income. Management fees were stable with higher average assets under management, offset by lower real

estate-related transaction fees. Performance and placement revenues decreased 10% primarily driven by higher investment related gains in 1Q21, partially offset by higher placement fees in 2Q21.

Total operating expenses

Total operating expenses of CHF 299 million increased 9%, compared to 2Q20, mainly reflecting higher commission expenses, compensation and benefits and general and administrative expenses. Compensation and benefits of CHF 174 million increased 4%, driven by higher salary expenses and deferred compensation, primarily due to the departure of an alternative investment fund team and the sale of a private equity investment in a fund, partially offset by lower discretionary compensation expenses. General and administrative expenses of CHF 96 million increased 8%, mainly reflecting increased professional services fees relating to the wind down and administration of our supply chain finance funds.

Compared to 1Q21, total operating expenses increased 10%, mainly reflecting higher compensation and benefits and general and administrative expenses. Compensation and benefits increased 11%, driven by higher salary expenses and deferred compensation, primarily due to the departure of an alternative investment fund team. General and administrative expenses increased 12%, mainly driven by the increased professional services fees relating to the wind down and administration of our supply chain finance funds.

Assets under management

As of the end of 2Q21, assets under management of CHF 471.4 billion were CHF 13.4 billion higher compared to the end of 1Q21, reflecting favorable market movements and net new assets. Net new assets of CHF 1.3 billion reflected inflows from traditional investments and alternative investments.

¹ Includes outflows for private equity assets reflecting realizations at cost and unfunded commitments on which a fee is no longer earned.

² Includes CHF 7.9 billion relating to the exit of our supply chain finance funds business.

Investment Bank

In 2Q21, we reported a loss before taxes of CHF 76 million and net revenues of CHF 1,610 million, including a loss related to Archegos. Excluding this loss, net revenues were resilient compared to a strong prior year, which benefitted from more favorable market conditions.

Results summary

2Q21 results

In 2Q21, we reported a loss before taxes of CHF 76 million compared to income before taxes of CHF 912 million in 2Q20, driven by a loss of CHF 594 million in respect of the failure by Archegos to meet its margin commitments. Net revenues of CHF 1,610 million decreased 44%, reflecting losses of CHF 493 million related to Archegos and lower results across most businesses compared to a strong prior year which benefitted from robust volumes and higher volatility. We recorded provision for credit losses of CHF 14 million in 2Q21 compared to CHF 143 million in 2Q20, driven by a charge of CHF 70 million in 2Q21 related to Archegos, partially offset by a release of CECL-related provisions of CHF 54 million. Total operating expenses of CHF 1,672 million decreased 7% compared to 2Q20, primarily reflecting lower compensation and benefits, due to the impact of the Archegos losses.

Compared to 1Q21, the loss before taxes decreased 97%, primarily due to a charge of CHF 4,430 million related to Archegos in 1Q21. Net revenues decreased 55%, reflecting the loss related to Archegos and compared to robust revenues in 1Q21. We recorded provision for credit losses of CHF 14 million in 2Q21, compared to CHF 4,350 million in 1Q21, which was driven by the charge of CHF 4,430 million in 1Q21 related to Archegos. Total operating expenses increased slightly, as lower commission expenses were offset by higher compensation and benefits.

In light of the Archegos matter, we de-risked and resized the Investment Bank by reducing leverage exposure, notably in our prime services business. As a result of our more conservative approach to capital and risk management, we ended 2Q21 with RWA below year-end 2020 levels.

→ Refer to "Archegos Capital Management" in Credit Suisse – Other information for further information.

We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

Capital and leverage metrics

As of the end of 2Q21, RWA were USD 78.4 billion, a decrease of USD 20.4 billion compared to the end of 1Q21, primarily driven by business reductions and the removal in 2Q21 of the FINMA-imposed temporary add-on of USD 6.1 billion to our credit risk

RWA related to the Archegos matter. Leverage exposure was USD 329.4 billion, a decrease of USD 41.5 billion compared to the end of 1Q21, primarily due to business reductions in prime services, partially offset by increased HQLA allocations.

The Group's global capital markets and advisory business operates across the Investment Bank, Asia Pacific and Swiss Universal Bank. In order to reflect the global performance and capabilities of this business and for enhanced comparability versus its peers, the table above aggregates total capital markets and advisory fees for the Group into a single metric in US dollar terms.

Results details

Fixed income sales and trading

In 2Q21, fixed income revenues of CHF 811 million decreased 37% compared to a strong 2Q20, which benefited from more favorable market conditions including high levels of volatility, increased trading volumes and low interest rates. Emerging markets revenues decreased significantly, driven by reduced trading, financing and structured credit activity across regions. Global credit products revenues decreased significantly compared to a strong prior year, reflecting lower investment grade and leveraged finance trading revenue due to reduced volatility and trading volumes. In addition, macro products revenues decreased significantly compared to a strong prior year, driven by lower revenues in our rates and foreign exchange businesses. This decrease was partially offset by higher securitized products revenues, driven by increased non-agency trading and asset finance client activity.

Compared to a strong 1Q21, revenues decreased 43%, reflecting lower trading volumes and a seasonal decrease in client activity. Securitized products revenues decreased, driven by lower agency and non-agency trading activity. Macro revenues decreased significantly, driven by lower client activity in our rates and foreign exchange businesses. Global credit products revenues decreased, reflecting lower leveraged finance and investment grade trading activity. In addition, emerging markets revenues decreased, reflecting lower client activity in trading and structured credit, particularly in Asia and EMEA.

Equity sales and trading

In 2Q21, negative equity sales and trading revenues of CHF 23 million were down substantially compared to 2Q20, mainly reflecting a loss of CHF 493 million related to Archegos in prime services. Prime services revenues significantly decreased, primarily due to the loss related to Archegos and reduced capital usage as we significantly de-risked and resized the business. Equity derivatives revenues decreased, driven by significantly lower corporate and flow equity derivatives revenues due to lower volatility compared to elevated levels in the prior year, partially offset by

higher structured equity derivatives trading activity. In addition, cash equities revenues decreased, mainly due to lower secondary trading volumes, particularly in the US.

Compared to 1Q21, revenues decreased substantially, reflecting a loss in prime services and lower revenues across all businesses. Prime services revenues significantly decreased, primarily due to the loss related to Archegos and reduced capital usage as we significantly de-risked and resized the business. Equity derivatives revenues decreased compared to a strong prior quarter, driven by significantly lower structured and flow equity derivatives trading activity. In addition, cash equities revenues decreased, reflecting lower secondary trading volumes, particularly in the US.

Capital markets

In 2Q21, capital markets revenues of CHF 798 million decreased 10% compared to 2Q20, primarily due to lower debt capital markets issuance activity, partially offset by higher equity capital markets revenues. Debt capital markets revenues decreased compared to a strong prior year, primarily due to lower investment grade client activity, partially offset by higher leveraged finance issuance activity due to favorable market conditions. This decrease was partially offset by higher equity capital markets revenues, driven by IPO issuance activity.

Compared to 1Q21, revenues decreased 27%, driven by lower client activity across equity and debt capital markets compared to a strong prior quarter. Equity capital markets revenues decreased, driven by lower IPO issuance activity. Debt capital markets decreased, reflecting lower leveraged finance and investment grade issuance activity.

Advisory and other fees

In 2Q21, advisory revenues of CHF 112 million decreased 37% compared to 2Q20, driven by lower revenues from completed M&A transactions.

Compared to 1Q21, revenues decreased 43%, driven by lower revenues from completed M&A transactions.

Provision for credit losses

In 2Q21, we recorded provision for credit losses of CHF 14 million, compared to provision for credit losses of CHF 143 million in 2Q20 and provision for credit losses of CHF 4,350 million in 1Q21. The provision for credit losses in 2Q21 was driven by a charge of CHF 70 million related to Archegos, partially offset by the release of CECL-related provisions of CHF 54 million. The provision for credit losses in 1Q21 was driven by the charge of CHF 4,430 million related to Archegos.

Total operating expenses

In 2Q21, total operating expenses of CHF 1,672 million decreased 7% compared to 2Q20, reflecting lower compensation and benefits. Compensation and benefits of CHF 876 million

decreased 15%, reflecting decreased discretionary compensation, due to the impact of the Archegos losses. General and administrative expenses of CHF 626 million were stable. In 2Q21, we incurred costs related to Archegos of CHF 31 million, mainly reflecting severance-related costs and professional services fees. In 2Q21, we had restructuring expenses of CHF 29 million.

Compared to 1Q21, total operating expenses increased slightly, mainly due to higher compensation and benefits. Compensation and benefits increased slightly, reflecting higher deferred compensation expenses from prior-year awards and increased discretionary compensation expenses. General and administrative expenses were stable.

Corporate Center

In 2Q21, we reported a loss before taxes of CHF 530 million compared to losses of CHF 553 million in 2Q20 and CHF 2 million in 1Q21.

Corporate Center composition

Corporate Center includes parent company operations such as Group financing, expenses for projects sponsored by the Group, including costs associated with the evolution of our legal entity structure to meet developing and future regulatory requirements, and certain other expenses and revenues that have not been allocated to the segments. Corporate Center further includes consolidation and elimination adjustments required to eliminate intercompany revenues and expenses.

Treasury results include the impact of volatility in the valuations of certain central funding transactions such as structured notes issuances and swap transactions. Treasury results also include additional interest charges from transfer pricing to align funding costs to assets held in the Corporate Center and legacy funding costs.

The Asset Resolution Unit is separately presented within our Corporate Center disclosures, including related asset funding costs.

Certain activities not linked to the underlying portfolio, such as legacy funding costs, legacy litigation provisions, a specific client compliance function and noncontrolling interests without significant economic interest are recorded in the Corporate Center and are not reflected in the Asset Resolution Unit.

Other revenues primarily include required elimination adjustments associated with trading in own shares, treasury commissions charged to divisions, the cost of certain hedging transactions executed in connection with the Group's RWA and valuation hedging impacts from long-dated legacy deferred compensation and retirement programs mainly relating to former employees.

Compensation and benefits include fair value adjustments on certain deferred compensation plans not allocated to the segments and fair value adjustments on certain other long-dated legacy deferred compensation and retirement programs mainly relating to former employees.

Results summary

2Q21 results

In 2Q21, we reported a loss before taxes of CHF 530 million compared to losses of CHF 553 million in 2Q20 and CHF 2 million in 1Q21. Negative net revenues of CHF 116 million in 2Q21 were primarily driven by negative treasury results. Total operating expenses of CHF 414 million increased 25% compared to 2Q20, mainly reflecting higher general and administrative expenses, primarily reflecting increased litigation provisions, mainly related to legacy litigation matters. Compared to 1Q21, total operating expenses increased 159%, mainly driven by higher general and administrative expenses, primarily reflecting increased litigation provisions, mainly related to legacy litigation matters, and higher compensation and benefits.

Capital and leverage metrics

As of the end of 2Q21, we reported RWA of CHF 55.5 billion, an increase of CHF 5.6 billion compared to the end of 1Q21, primarily driven by external model and parameter updates in operational risk related to provisions for mortgage-related matters recorded in 4Q20 and the settlement with MBIA Insurance Corp in 1Q21. Leverage exposure was CHF 118.3 billion as of the end of 2Q21, a decrease of CHF 3.5 billion compared to the end of 1Q21, primarily related to a decrease in our centrally held balance of HQLA.

Results details

Net revenues

In 2Q21, we reported negative net revenues of CHF 116 million compared to negative net revenues of CHF 216 million in 2Q20 and net revenues of CHF 149 million in 1Q21.

Negative treasury results of CHF 141 million in 2Q21 primarily reflected losses of CHF 63 million relating to hedging volatility, losses of CHF 52 million with respect to structured notes volatility and negative revenues of CHF 33 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs. In 2Q20, negative treasury results of CHF 228 million primarily

reflected losses of CHF 145 million on fair-valued money market instruments, partially reversing gains of CHF 179 million in 1Q20, and negative revenues of CHF 70 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs. In 1Q21, positive treasury results of CHF 104 million primarily reflected gains of CHF 70 million with respect to structured notes volatility and gains of CHF 52 million relating to hedging volatility, partially offset by negative revenues of CHF 11 million relating to funding activities, excluding Asset Resolution Unit-related asset funding costs.

In the Asset Resolution Unit, we reported negative net revenues of CHF 43 million in 2Q21 compared to CHF 38 million in 2Q20 and CHF 33 million in 1Q21. Compared to 2Q20, the movement was driven by lower revenues from portfolio assets, partially offset by lower asset funding costs. Compared to 1Q21, the movement was mainly driven by lower revenues from portfolio assets.

In 2Q21, other revenues of CHF 68 million increased CHF 18 million compared to 2Q20, mainly reflecting a valuation adjustment on a legacy exposure, partially offset by the negative valuation impact from long-dated legacy deferred compensation and retirement programs. Compared to 1Q21, other revenues decreased CHF 10 million.

Provision for credit losses

In 2Q21, provision for credit losses was CHF 0 million compared to provision for credit losses of CHF 5 million in 2Q20 and a release of provision for credit losses of CHF 9 million in 1Q21.

Total operating expenses

Total operating expenses of CHF 414 million increased CHF 82 million compared to 2Q20, mainly reflecting an increase in general and administrative expenses. General and administrative expenses of CHF 272 million increased CHF 88 million, primarily reflecting higher litigation provisions, mainly related to legacy litigation matters. Compensation and benefits decreased CHF 9 million, mainly driven by lower deferred compensation expenses from prior-year awards and lower expenses for long-dated legacy deferred compensation and retirement programs, partially offset by the impact of corporate function allocations.

Compared to 1Q21, total operating expenses increased CHF 254 million, mainly reflecting increases in general and administrative expenses and compensation and benefits. General and administrative expenses increased CHF 167 million, primarily reflecting higher litigation provisions, mainly related to legacy litigation

matters. Compensation and benefits increased CHF 80 million, primarily reflecting higher discretionary compensation expenses, higher deferred compensation expenses from prior-year awards and higher expenses for long-dated legacy deferred compensation and retirement programs.

Assets under management

As of the end of 2Q21, assets under management were CHF 1,632.0 billion, 2.3% higher compared to the end of 1Q21 with net asset outflows of CHF 4.7 billion in 2Q21.

Assets under management

Assets under management comprise assets that are placed with us for investment purposes and include discretionary and advisory counterparty assets. Discretionary assets are assets for which the client fully transfers the discretionary power to a Credit Suisse entity with a management mandate. Discretionary assets are reported in the business in which the advice is provided as well as in the business in which the investment decisions take place. Assets managed by the Asset Management division for other businesses are reported in each applicable business and eliminated at the Group level. Advisory assets include assets placed with us where the client is provided access to investment advice but retains discretion over investment decisions.

Assets under management and net new assets include assets managed by consolidated entities, joint ventures and strategic participations. Assets from joint ventures and participations are counted in proportion to our share in the respective entity.

Net new assets

Net new assets include individual cash payments, delivery of securities and cash flows resulting from loan increases or repayments.

Interest and dividend income credited to clients and commissions, interest and fees charged for banking services as well as changes in assets under management due to currency and market volatility are not taken into account when calculating net new assets. Any such changes are not directly related to the Group's success in acquiring assets under management. Similarly, structural effects mainly relate to asset inflows and outflows due to acquisition or divestiture, exit from businesses or markets or exits due to new regulatory requirements and are not taken into account when calculating net new assets. The Group reviews relevant policies regarding client assets on a regular basis.

→ Refer to "Note 39 – Assets under management" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information.

¹ Represents assets managed by Asset Management for the other businesses.

² Client assets is a broader measure than assets under management as it includes transactional accounts and assets under custody (assets held solely for transaction-related or safe-keeping/custody purposes) and assets of corporate clients and public institutions used primarily for cash management or transaction-related purposes.

2Q21 results

As of the end of 2Q21, assets under management of CHF 1,632.0 billion increased CHF 36.0 billion compared to the end of 1Q21. The increase was driven by favorable market movements, partially offset by unfavorable foreign exchange-related movements and net asset outflows of CHF 4.7 billion.

Net asset outflows of CHF 4.7 billion in 2Q21 mainly reflected outflows across the following businesses. Net asset outflows of CHF 6.1 billion in Asia Pacific reflected outflows mainly from Southeast Asia, Japan and China and de-risking measures taken

during the quarter. Net asset outflows of CHF 0.9 billion in the Private Clients business of Swiss Universal Bank mainly reflected outflows in the UHNW and HNW client segments. Net asset outflows of CHF 0.3 billion in International Wealth Management mainly reflected outflows in emerging markets, partially offset by inflows in Western Europe. These outflows were partially offset by net new assets of CHF 1.5 billion in the Corporate & Institutional Clients business of Swiss Universal Bank, reflecting inflows from our external asset managers and pension business and net new assets of CHF 1.3 billion in Asset Management reflecting inflows from traditional investments and alternative investments.

Liquidity and funding management	48
Capital management	53
Risk management	62
Balance sheet and off-balance sheet	72

Liquidity and funding management

In 2Q21, we maintained a strong liquidity and funding position. The majority of our unsecured funding was generated from core customer deposits and long-term debt.

Liquidity management

In response to regulatory reform, since 2015 we have primarily focused our issuance strategy on offering long-term debt securities at the Group level for funding and capital purposes. Prior to that, securities for funding and capital purposes were primarily issued by the Bank, our principal operating subsidiary and a US registrant. We also issue short and medium-term debt securities at the Bank level for funding diversification. Our primary source of liquidity is funding through consolidated entities. Proceeds from issuances are lent to operating subsidiaries and affiliates on both a senior and subordinated basis, as needed; the latter typically to meet going and gone concern capital requirements and the former as desired by management to support business initiatives and liquidity needs.

Our liquidity and funding profile reflects our strategy and risk appetite and is driven by business activity levels and the overall operating environment. We have adapted our liquidity and funding profile to reflect lessons learned from the financial crisis, the subsequent changes in our business strategy and regulatory developments. We have been an active participant in regulatory and industry forums to promote best practice standards on quantitative and qualitative liquidity management. Our internal liquidity risk management framework is subject to review and monitoring by the FINMA, other regulators and rating agencies.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2020 for further information on liquidity and funding management.

Regulatory framework

BIS liquidity framework

The Basel Committee on Banking Supervision (BCBS) established the Basel III international framework for liquidity risk measurement, standards and monitoring. The Basel III framework includes a liquidity coverage ratio (LCR) and a net stable funding ratio (NSFR). Credit Suisse is subject to the Basel III framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks (Swiss Requirements).

The LCR addresses liquidity risk over a 30-day period. The LCR aims to ensure that banks have unencumbered high-quality liquid assets (HQLA) available to meet short-term liquidity needs under a severe stress scenario. The LCR is comprised of two components, the value of HQLA in stressed conditions and the total net cash outflows calculated according to specified scenario parameters. Under the BCBS framework, the minimum required ratio of liquid assets over net cash outflows is 100%.

The NSFR establishes criteria for a minimum amount of stable funding based on the liquidity of a bank's on- and off-balance sheet activities over a one-year horizon. The NSFR is a complementary measure to the LCR and is structured to ensure that illiquid assets are funded with an appropriate amount of stable long-term funds. The NSFR is defined as the ratio of available stable funding over the amount of required stable funding and, once implemented by national regulators, should always be at least 100%.

Swiss liquidity requirements

The Swiss Federal Council adopted a liquidity ordinance (Liquidity Ordinance) that implements Basel III liquidity requirements into Swiss law. Under the Liquidity Ordinance, systemically relevant banks like Credit Suisse are subject to a minimum LCR requirement of 100% at all times and the associated disclosure requirements.

→ Refer to [credit-suisse.com/regulatorydisclosures](https://www.credit-suisse.com/regulatorydisclosures) for additional information.

FINMA requires us to report the NSFR to FINMA on a monthly basis during an observation period that began in 2012. The reporting instructions are generally aligned with the final BCBS NSFR requirements. Although originally planned for January 1, 2018, the Federal Council had decided to postpone the introduction of the NSFR as a minimum standard in Switzerland. On September 11, 2020, the Federal Council adopted an amendment to the Liquidity Ordinance, implementing NSFR as a minimum standard beginning July 1, 2021, including the associated disclosure requirements. On November 12, 2020, FINMA published a partially revised "Liquidity risks – banks" Circular, which sets out FINMA's technical requirements and also came into force on July 1, 2021.

Our liquidity principles and our liquidity risk management framework as agreed with FINMA are in line with the Basel III liquidity framework.

Liquidity risk management

Our liquidity and funding policy is designed to ensure that funding is available to meet all obligations in times of stress, whether caused by market events or issues specific to Credit Suisse. We achieve this through a conservative asset/liability management strategy aimed at maintaining long-term funding, including stable deposits, in excess of illiquid assets. To address short-term liquidity stress, we maintain a liquidity pool, as described below, that covers unexpected outflows in the event of severe market and idiosyncratic stress. Our liquidity risk parameters reflect various liquidity stress assumptions that we believe are conservative. We manage our liquidity profile at a sufficient level such that, in the

event we are unable to access unsecured funding, we expect to have sufficient liquidity to sustain operations for a period of time in excess of our minimum limit. This includes potential currency mismatches, which are not deemed to be a major risk but are monitored and subject to limits, particularly in the significant currencies of euro, Japanese yen, pound sterling, Swiss franc and US dollar.

→ Refer to "Treasury management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2020 for further information on our approach to liquidity risk management, governance and contingency planning.

Liquidity metrics

Liquidity pool

Treasury manages a sizeable portfolio of HQLA comprised of cash held at central banks and securities. A portion of the liquidity pool is generated through reverse repurchase agreements with top-rated counterparties. We are mindful of potential credit risk and therefore focus our liquidity holdings strategy on cash held at central banks and highly rated government bonds and on short-term reverse repurchase agreements. These government bonds are eligible as collateral for liquidity facilities with various central banks including the SNB, the Fed, the ECB and the BoE. Our direct exposure on these bonds is limited to highly liquid, top-rated sovereign entities or fully guaranteed agencies of sovereign entities. The liquidity pool may be used to meet the liquidity requirements of our operating companies. All securities, including those obtained from reverse repurchase agreements, are subject to a stress level haircut in our barometer to reflect the risk that emergency funding may not be available at market value in a stress scenario.

We centrally manage this liquidity pool and hold it at our main operating entities. Holding securities in these entities ensures that we can make liquidity and funding available to local entities in need without delay.

As of the end of 2021, our liquidity pool managed by Treasury and the global liquidity group had an average HQLA value of CHF 204.5 billion. The liquidity pool consisted of CHF 122.2 billion of cash held at major central banks, primarily the SNB, the ECB and the Fed and CHF 82.3 billion market value of securities issued by governments and government agencies, primarily from the US and the United Kingdom (UK).

In addition to the above-mentioned liquidity pool, there is also a portfolio of unencumbered liquid assets managed by the businesses, primarily in the Investment Bank division, in cooperation with the global liquidity group. These assets generally include high-grade bonds and highly liquid equity securities that form part of major indices. In coordination with the businesses and the global liquidity group, Treasury can access these assets to generate liquidity if required. As of the end of 2021, this portfolio of liquid assets had a market value of CHF 21.0 billion, consisting of CHF 10.6 billion of high-grade bonds and CHF 10.4 billion of highly liquid equity securities. Under our internal model, an average stress-level haircut of 11% is applied to these assets. The haircuts applied to this portfolio reflect our assessment of overall market risk at the time of measurement, potential monetization capacity taking into account increased haircuts, market volatility and the quality of the relevant securities.

Liquidity pool – Group

					2021	1Q21	4Q20
average	Swiss franc	US dollar	Euro	Other currencies	Total	Total	Total
Liquid assets (CHF million)							
Cash held at central banks	66,254	21,336	31,816	2,787	122,193	115,286	114,429
Securities	10,416	46,880	6,405	18,559	82,260	89,745	86,867
Liquid assets ¹	76,670	68,216	38,221	21,346	204,453	205,031	201,296

Calculated using a three-month average, which is calculated on a daily basis.

¹ Reflects a pre-cancellation view.

Liquidity Coverage Ratio

Our calculation methodology for the LCR is prescribed by FINMA and uses a three-month average that is measured using daily calculations during the quarter. The FINMA calculation of HQLA takes into account a cancellation mechanism (post-cancellation view) and is therefore not directly comparable to the assets presented in the financial statements that could potentially be monetized under a severe stress scenario. The cancellation mechanism effectively excludes the impact of certain secured financing transactions from available HQLA and simultaneously adjusts the level of net cash outflows calculated. Application of the cancellation mechanism adjusts both the numerator and denominator of the LCR calculation, meaning that the impact is mostly neutral on the LCR itself.

Our HQLA measurement methodology excludes potentially eligible HQLA available for use by entities of the Group in certain jurisdictions that may not be readily accessible for use by the Group as a whole. These HQLA eligible amounts may be restricted for reasons such as local regulatory requirements, including large exposure requirements, or other binding constraints that could limit the transferability to other Group entities in other jurisdictions.

On this basis, the level of our LCR was 216% as of the end of 2021, an increase from 205% as of the end of 1Q21, representing an average HQLA of CHF 209.3 billion and average net cash outflows of CHF 97.0 billion. The ratio reflects a conservative liquidity position, including ensuring that the Group's branches and subsidiaries meet applicable local liquidity requirements and taking a prudent approach to liquidity management during the COVID-19 pandemic.

The increase in the LCR in 2021 compared to 1Q21 reflected a decrease in net cash outflows, which was partially offset by a lower level of average HQLA. The decrease in net cash outflows primarily resulted from an increase in net cash inflows associated with secured wholesale funding and secured lending activities and lower cash outflows from unsecured wholesale funding, mainly driven by a decrease in non-operational deposits, partially offset by an increase in unsecured debt. The lower level of HQLA reflected a decrease in the amount of securities held during the period, partially offset by an increase in the amount of cash held with central banks.

Calculated using a three-month average, which is calculated on a daily basis.

¹ Calculated as outstanding balances maturing or callable within 30 days.

² Calculated after the application of haircuts for high-quality liquid assets or inflow and outflow rates.

³ Consists of cash and eligible securities as prescribed by FINMA and reflects a post-cancellation view.

Funding management

Funding sources

We fund our balance sheet primarily through core customer deposits, long-term debt, including structured notes, and shareholders' equity. We monitor the funding sources, including their concentrations against certain limits, according to their counterparty, currency, tenor, geography and maturity, and whether they are secured or unsecured.

A substantial portion of our balance sheet is match funded and requires no unsecured funding. Match funded balance sheet items consist of assets and liabilities with close to equal liquidity durations and values so that the liquidity and funding generated or required by the positions are substantially equivalent.

Cash and due from banks and reverse repurchase agreements are highly liquid. A significant part of our assets, principally unencumbered trading assets that support the securities business, is comprised of securities inventories and collateralized receivables that fluctuate and are generally liquid. These liquid assets are available to settle short-term liabilities.

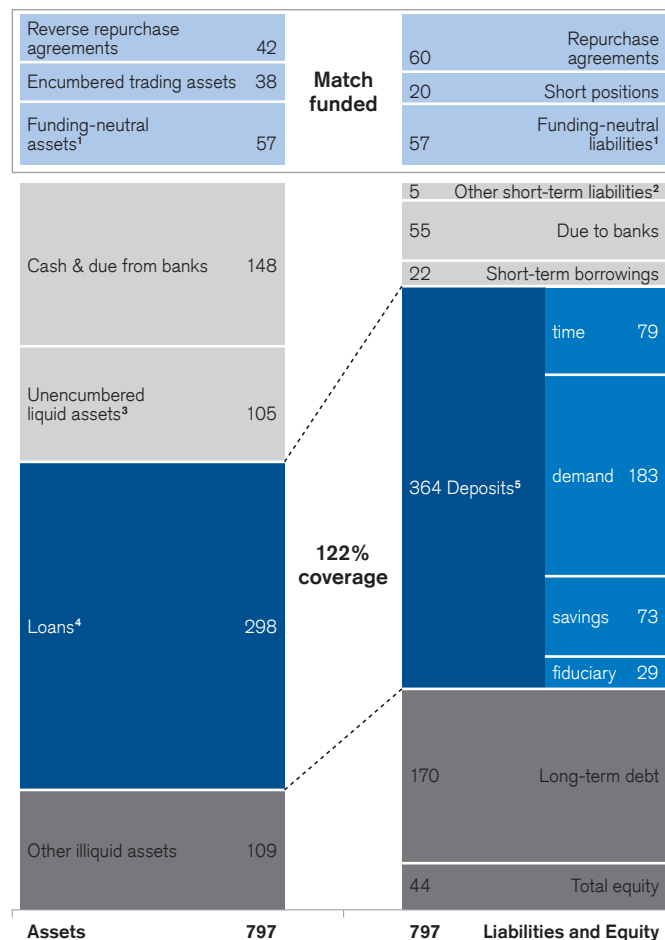

Loans, which comprise the largest component of our illiquid assets, are funded by our core customer deposits, with an excess coverage of 22% as of the end of 2Q21, compared to 23% as of the end of 1Q21, reflecting a small decrease in deposits. Loans decreased slightly compared to 1Q21. We fund other illiquid assets, including real estate, private equity and other long-term investments as well as the haircut for the illiquid portion of securities, with long-term debt and equity, in which we try to maintain a substantial funding buffer.

Our core customer deposits totaled CHF 364 billion as of the end of 2Q21, compared to CHF 370 billion as of the end of 1Q21, reflecting a small decrease in our customer deposit base in the private banking and corporate & institutional banking businesses in 2Q21, mainly driven by a small decrease in time and demand deposits. Core customer deposits are from clients with whom we have a broad and long-standing relationship. Core customer deposits exclude deposits from banks and certificates of deposit. We place a priority on maintaining and growing customer deposits, as they have proven to be a stable and resilient source of funding even in difficult market conditions. Our core customer deposit funding is supplemented by the issuance of long-term debt.

→ Refer to the chart "Balance sheet funding structure" and "Balance sheet" in Balance sheet and off-balance sheet for further information.

Balance sheet funding structure

as of June 30, 2021 (CHF billion)

- 1 Primarily includes brokerage receivables/payables, positive/negative replacement values and cash collateral.
- 2 Primarily includes excess of funding neutral liabilities (brokerage payables) over corresponding assets.
- 3 Primarily includes unencumbered trading assets, unencumbered investment securities and excess reverse repurchase agreements, after haircuts.
- 4 Excludes loans with banks.
- 5 Excludes due to banks and certificates of deposit.

Debt issuances and redemptions

As of the end of 2Q21, we had outstanding long-term debt of CHF 170.2 billion, which included senior and subordinated instruments. We had CHF 45.0 billion and CHF 16.3 billion of structured notes and covered bonds outstanding, respectively, as of the end of 2Q21 compared to CHF 48.2 billion and CHF 16.1 billion, respectively, as of the end of 1Q21.

→ Refer to "Issuances and redemptions" in Capital management for information on capital issuances, including buffer and progressive capital notes.

Short-term borrowings decreased 10% to CHF 22.4 billion as of the end of 2Q21, compared to CHF 24.9 billion as of the end of 1Q21, mainly related to net maturities of structured notes and commercial paper, partially offset by the issuance of mandatory convertible notes.

The following table provides information on long-term debt issuances, maturities and redemptions in 2Q21, excluding structured notes.

→ Refer to "Debt issuances and redemptions" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management in the Credit Suisse Annual Report 2020 for further information.

Debt issuances and redemptions

in 2Q21	Senior	Senior bail-in	Sub- ordinated	Long-term debt
Long-term debt (CHF billion, notional value)

of which unsecured	0.0	2.3	0.0	2.3
of which secured	0.0	0.0	0.0	0.0

Excludes structured notes.

Credit ratings

A downgrade in credit ratings could reduce our access to capital markets, increase our borrowing costs, require us to post additional collateral or allow counterparties to terminate transactions under certain of our trading and collateralized financing and derivative contracts. This, in turn, could reduce our liquidity and negatively impact our operating results and financial position. Our internal liquidity barometer takes into consideration contingent events associated with a two-notch downgrade in our credit ratings. The maximum impact of a simultaneous one, two or three-notch downgrade by all three major rating agencies in the Bank's long-term debt ratings would result in additional collateral requirements or assumed termination payments under certain derivative instruments of CHF 3 million, CHF 13 million and CHF 636 million, respectively, as of the end of 2Q21, and would not be material to our liquidity and funding planning. If the downgrade does not involve all three rating agencies, the impact may be smaller. In July 2021 Moody's Investors Service downgraded the long-term senior unsecured debt and deposit ratings of Credit Suisse AG by one notch from "Aa3" to "A1". At the same time, the rating agency affirmed the "Baa1" senior unsecured debt ratings of Credit Suisse Group AG. The outlook on these ratings has been revised from "negative" to "stable".

→ Refer to "Credit ratings" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Liquidity and funding management in the Credit Suisse Annual Report 2020 for further information relating to credit ratings and additional risks relating to derivative instruments.

Capital management

As of the end of 2Q21, our BIS CET1 ratio was 13.7% and our BIS tier 1 leverage ratio was 6.0%.

Regulatory framework

Credit Suisse is subject to the Basel III framework, as implemented in Switzerland, as well as Swiss legislation and regulations for systemically important banks (Swiss Requirements), which include capital, liquidity, leverage and large exposure requirements and rules for emergency plans designed to maintain systemically relevant functions in the event of threatened insolvency. Our capital metrics fluctuate during any reporting period in the ordinary course of business.

→ Refer to "Capital management" in III – Treasury, Risk, Balance sheet and Off-balance sheet in the Credit Suisse Annual Report 2020 for further information.

BIS requirements

The BCBS, the standard setting committee within the BIS, issued the Basel III framework, with higher minimum capital requirements and conservation and countercyclical buffers, revised risk-based capital measures, a leverage ratio and liquidity standards. The framework was designed to strengthen the resilience of the banking sector and requires banks to hold more capital, mainly in the form of common equity. The new capital standards became fully effective on January 1, 2019 for those countries that have adopted Basel III.

→ Refer to "BIS requirements" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2020 for a detailed discussion of the BIS requirements.

Swiss Requirements

The legislation implementing the Basel III framework in Switzerland in respect of capital requirements for systemically relevant banks, including Credit Suisse, goes beyond the Basel III minimum standards for systemically relevant banks.

Under the Capital Adequacy Ordinance, Swiss banks classified as systemically important banks operating internationally, such as Credit Suisse, are subject to two different minimum requirements for loss-absorbing capacity: such banks must hold sufficient capital that absorbs losses to ensure continuity of service (going concern requirement) and they must issue sufficient debt instruments to fund an orderly resolution without recourse to public resources (gone concern requirement).

Going concern capital and gone concern capital together form our total loss-absorbing capacity (TLAC). The going concern and gone concern requirements are generally aligned with the Financial Stability Board's total loss-absorbing capacity standard.

Capital frameworks for Credit Suisse

BIS Requirements

Countercyclical buffer up to 2.5% CET1

Swiss Requirements

Countercyclical buffer up to 2.5% CET1

¹ Does not include any rebates for resolvability and for certain tier 2 low-trigger instruments recognized in gone concern capital.

² Does not include the FINMA Pillar 2 capital add-on relating to the supply chain finance funds matter.

Additionally, there are FINMA decrees that apply to Credit Suisse, as a systemically important bank operating internationally, including capital adequacy requirements as well as liquidity and risk diversification requirements.

→ Refer to "Swiss Requirements" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2020 for a detailed discussion of the Swiss Requirements.

Other regulatory disclosures

In connection with the implementation of Basel III, certain regulatory disclosures for the Group and certain of its subsidiaries are required. The Group's Pillar 3 disclosure, regulatory disclosures, additional information on capital instruments, including the main features and terms and conditions of regulatory capital instruments and total loss-absorbing capacity-eligible instruments that form part of the eligible capital base and total loss-absorbing capacity resources, global systemically important bank (G-SIB) financial indicators, reconciliation requirements, leverage ratios and certain liquidity disclosures as well as regulatory disclosures for subsidiaries can be found on our website.

→ Refer to "credit-suisse.com/regulatorydisclosures" for additional information.

Swiss capital and leverage requirements for Credit Suisse

For 2021	Capital ratio	Leverage ratio
Capital components (%)		
CET1 – minimum	4.5	1.5
Additional tier 1 – maximum	3.5	1.5
Minimum component	8.0	3.0
CET1 – minimum	5.5	2.0
Additional tier 1 – maximum	0.8	0.0
Buffer component	6.3	2.0
Going concern	14.3	5.0
of which base requirement	12.86	4.5
of which surcharge	1.44	0.5
Gone concern	14.3	5.0
of which base requirement	12.86	4.5
of which surcharge	1.44	0.5
Total loss-absorbing capacity	28.6	10.0

Does not include the FINMA Pillar 2 capital add-on of CHF 1.9 billion relating to the supply chain finance funds matter, the effects of the countercyclical buffers and any rebates for resolvability and for certain tier 2 low-trigger instruments recognized in gone concern capital.

As of the end of 2Q21, for the Group, the rebates for resolvability and for certain tier 2 low-trigger instruments for the capital ratios were 2.565% and 0.437%, respectively, and for the Bank, they were 2.565% and 0.438%, respectively. For the Group, the rebates for resolvability and for certain tier 2 low-trigger instruments for leverage ratios were 0.9% and 0.135%, respectively, and for the Bank, they were 0.9% and 0.135%, respectively. Net of these rebates, the gone concern ratio for capital and leverage for the Group were 11.298% and 3.965%, respectively, and for the Bank they were 11.297% and 3.965%, respectively.

Regulatory developments

In June 2021, FINMA announced its reassessment of rebates for resolvability relating to the gone concern requirement. The eligibility for the rebates for resolvability is assessed on an annual basis. Effective July 1, 2021, for the Group and the Bank, the rebate for resolvability relating to the capital ratio was 3.135% and the rebate for resolvability relating to the leverage ratio was 1.1%.

Capital instruments

Higher Trigger Capital Amount

The capital ratio write-down triggers for certain of our outstanding capital instruments take into account the fact that other outstanding capital instruments that contain relatively higher capital ratios as part of their trigger feature are expected to convert into equity or be written down prior to the write-down of such capital instruments. The amount of additional capital that is expected to be contributed by such conversion into equity or write-down is referred to as the Higher Trigger Capital Amount.

With respect to the capital instruments that specify a trigger event if the CET1 ratio were to fall below 5.125%, the Higher Trigger Capital Amount was CHF 11.6 billion and the Higher Trigger Capital Ratio (i.e., the ratio of the Higher Trigger Capital Amount to the aggregate of all RWA of the Group) was 4.1%, both as of the end of 2Q21.

With respect to the capital instruments that specify a trigger event if the CET1 ratio were to fall below 5%, the Higher Trigger Capital Amount was CHF 16.2 billion and the Higher Trigger Capital Ratio was 5.7%, both as of the end of 2Q21.

→ Refer to the table "BIS capital metrics" for further information on the BIS metrics used to calculate such measures.

→ Refer to "Higher Trigger Capital Amount" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management – Capital instruments in the Credit Suisse Annual Report 2020 for further information on the Higher Trigger Capital Amount.

Issuances and redemptions

	Currency	Par value at issuance (million)	Coupon rate (%)	Description	Year of maturity
Issuances – callable bail-in instruments

¹ Includes certain adjustments, such as a cumulative dividend accrual.

² Net of deferred tax liability.

³ Includes reversals of cash flow hedge reserves and, in 4Q20, of unrealized gains on certain investments that are not eligible for CET1 recognition.

⁴ Amounts are shown on a look-through basis. Certain tier 2 instruments are subject to phase out through 2022. As of 2Q21, 1Q21 and 4Q20, total eligible capital was CHF 56,397 million, CHF 54,686 million and CHF 52,437 million, including CHF 252 million, CHF 258 million and CHF 273 million of such instruments and the total capital ratio was 19.9%, 18.1% and 19.1%, respectively.

2Q21 Capital movement – Group

CET1 capital (CHF million)

Balance at beginning of period	36,964
Net income attributable to shareholders	253
Foreign exchange impact ¹	(414)
Issuance of Mandatory Convertible Notes ²	1,652
Impact from the reduction of the investment in Allfunds Group ³	862
Other ⁴	(379)
Balance at end of period	38,938

Additional tier 1 capital (CHF million)

Balance at beginning of period	16,447
Foreign exchange impact	(245)
Other	12
Balance at end of period	16,214

Tier 2 capital (CHF million)

Balance at beginning of period	1,018
Foreign exchange impact	(17)
Other	(8)
Balance at end of period	993

Eligible capital (CHF million)

Balance at end of period	56,145
---------------------------------	---------------

¹ Includes US GAAP cumulative translation adjustments and the foreign exchange impact on regulatory CET1 adjustments.

² Reflects the regulatory capital impact of the issuance of the MCNs, net of fees and expenses.

³ Reflects regulatory adjustments relating to the IPO of Allfunds Group and the subsequent reduction of our equity investment to below 10%.

⁴ Includes a regulatory adjustment of defined benefit pension plan assets, a dividend accrual, the net effect of share-based compensation and deferred tax assets relating to net operating losses.

Our CET1 ratio was 13.7% as of the end of 2Q21 compared to 12.2% as of the end of 1Q21. Our tier 1 ratio was 19.4% as of the end of 2Q21 compared to 17.6% as of the end of 1Q21. Our total capital ratio was 19.8% as of the end of 2Q21 compared to 18.0% as of the end of 1Q21. The increase in the capital ratios was due to decreased RWA and higher capital balances.

CET1 capital was CHF 38.9 billion as of the end of 2Q21, a 5% increase compared to CHF 37.0 billion as of the end of 1Q21, mainly reflecting the regulatory capital impact of the issuance of MCNs, the impact from regulatory adjustment relating to the IPO of Allfunds Group and the subsequent reduction of our investment to below 10% and the net income attributable to shareholders, partially offset by a negative foreign exchange. Additional tier 1 capital of CHF 16.2 billion as of the end of 2Q21 was stable compared to CHF 16.4 billion as of the end of 1Q21. Total eligible capital was CHF 56.1 billion as of the end of 2Q21, a 3% increase compared to CHF 54.4 billion as of the end of 1Q21, mainly reflecting higher CET1 capital.

Risk-weighted assets

Our balance sheet positions and off-balance sheet exposures translate into RWA, which are categorized as credit, market and operational RWA. When assessing RWA, it is not the nominal size, but rather the nature (including risk mitigation such as collateral or hedges) of the balance sheet positions or off-balance sheet exposures that determines the RWA.

→ Refer to "Risk-weighted assets" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Capital management in the Credit Suisse Annual Report 2020 for a detailed discussion of RWA.

For capital purposes, FINMA, in line with BIS requirements, uses a multiplier to impose an increase in market risk capital for every regulatory value-at-risk (VaR) backtesting exception above four in the prior rolling 12-month period. In 2Q21, our market risk capital multiplier remained at FINMA and BIS minimum levels and we did not experience an increase in market risk capital.

→ Refer to "Market risk" in Risk management for further information.

RWA were CHF 283.6 billion as of the end of 2Q21, a 6% decrease compared to CHF 302.9 billion as of the end of 1Q21. The decrease in RWA was mainly related to movements in risk levels in credit risk and market risk and a foreign exchange impact. These decreases were partially offset by increases related to external model and parameter updates in operational risk.

Excluding the foreign exchange impact, the decrease in **credit risk** was primarily driven by movements in risk levels attributable to book size. The decrease in movements in risk levels attributable to book size was primarily driven by decrease in lending exposures and derivatives, mainly in the prime services business in the Investment Bank, partially offset by our equity exposures relating to our investment in Allfunds Group in International Wealth Management, Swiss Universal Bank and Asia Pacific. Movements in risk levels attributable to book size also reflected the removal in 2Q21 of the FINMA-imposed temporary add-on of CHF 5.8 billion (USD 6.1 billion) to our credit risk RWA in relation to the Archegos matter in the Investment Bank.

Excluding the foreign exchange impact, the decrease in **market risk** was primarily driven by movements in risk levels, mainly across businesses within the Investment Bank, partially offset by an increase in market risk in Asset Management.

Excluding the foreign exchange impact, the increase in **operational risk** was mainly driven by external model and parameter updates in the Corporate Center related to provisions for mortgage-related matters recorded in 4Q20 and the settlement with MBIA Insurance Corp in 1Q21. In addition, internal model and parameter updates reflected updated operational risk allocation keys, resulting in higher operational risk RWA in the Corporate Center, the Investment Bank, Asset Management and Asia Pacific, offset by lower operational risk RWA in Swiss Universal Bank and International Wealth Management.

Risk-weighted assets	81,288	34,017	26,589	8,983	77,872	46,335	275,084

Leverage metrics

Credit Suisse has adopted the BIS leverage ratio framework, as issued by the BCBS and implemented in Switzerland by FINMA. Under the BIS framework, the leverage ratio measures tier 1 capital against the end-of-period exposure. As used herein, leverage exposure consists of period-end balance sheet assets and prescribed regulatory adjustments.

Leverage exposure – Group

end of	2Q21	1Q21	4Q20
Leverage exposure (CHF million)			
Swiss Universal Bank	303,690	305,034	295,507
International Wealth Management	108,182	105,693	101,025
Asia Pacific	79,081	83,160	74,307
Asset Management	2,754	3,158	2,989
Investment Bank	304,896	348,982	319,339
Corporate Center	118,285	121,771	6,686
Leverage exposure	916,888	967,798	799,853

The leverage exposure was CHF 916.9 billion as of the end of 2Q21, a 5% decrease compared to CHF 967.8 billion as of the end of 1Q21. The significantly lower leverage exposure was mainly due to a decrease in the consolidated balance sheet, mainly due to lower operating activities, primarily due to business reductions in the prime services business in the Investment Bank, and the foreign exchange translation impact.

→ Refer to "Balance sheet and off-balance sheet" for further information on the movement in the Group's consolidated balance sheet.

Leverage exposure components – Group

end of	2Q21	1Q21	4Q20	% change QoQ
Leverage exposure (CHF million)				
Total assets	796,799	851,395	805,822	(6)
Adjustments				
Difference in scope of consolidation and tier 1 capital deductions ¹	(16,200)	(16,896)	(16,680)	(4)
Derivative financial instruments	65,914	76,027	68,577	(13)
Securities financing transactions	(30,145)	(43,306)	(39,009)	(30)
Off-balance sheet exposures	97,758	98,009	88,944	0

Total adjustments	120,089	116,403	(5,969)	3
Leverage exposure	916,888	967,798	799,853	(5)

¹ Includes adjustments for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation and tier 1 capital deductions related to balance sheet assets.

² Included cash held at central banks of CHF 110,677 million, after adjusting for the dividend paid in 2020.

BIS leverage metrics – Group

end of	2Q21	1Q21	4Q20	% change QoQ
Capital and leverage exposure (CHF million)				
CET1 capital	38,938	36,964	35,361	5
Tier 1 capital	55,152	53,411	51,202	3
Leverage exposure	916,888	967,798	799,853 ¹	(5)
Leverage ratios (%)				
CET1 leverage ratio	4.2	3.8	4.4	–
Tier 1 leverage ratio	6.0	5.5	6.4	–

¹ Leverage exposure excluded CHF 110,677 million of cash held at central banks, after adjusting for the dividend paid in 2020.

The CET1 leverage ratio was 4.2% as of the end of 2Q21, compared to 3.8% as of the end of 1Q21. The tier 1 leverage ratio was 6.0% as of the end of 2Q21, compared to 5.5% as of the end of 1Q21. The increases in the CET1 leverage ratio and the tier 1 leverage ratio were due to significantly lower leverage exposure.

Swiss metrics

Swiss capital metrics

As of the end of 2Q21, our Swiss CET1 capital was CHF 38.9 billion and our Swiss CET1 ratio was 13.7%. Our going concern capital was CHF 55.1 billion and our going concern capital ratio was 19.4%. Our gone concern capital was CHF 51.6 billion and our gone concern capital ratio was 18.2%. Our total loss-absorbing capacity was CHF 106.8 billion and our TLAC ratio was 37.6%.

Shareholders' equity

Our total shareholders' equity was CHF 43.6 billion as of the end of 2Q21 compared to CHF 44.6 billion as of the end of 1Q21. Total shareholders' equity was negatively impacted by losses on fair value elected liabilities relating to credit risk, foreign exchange-related movements on cumulative translation adjustments, dividends paid and transactions relating to the settlement of share based compensation awards, partially offset by an increase in the share-based compensation obligation and net income attributable to shareholders.

→ Refer to the "Consolidated statements of changes in equity (unaudited)" in III – Condensed consolidated financial statements – unaudited for further information on shareholders' equity.

¹ Management believes that tangible shareholders' equity and tangible book value per share, both non-GAAP financial measures, are meaningful as they are measures used and relied upon by industry analysts and investors to assess valuations and capital adequacy.

Risk management

As of the end of 2Q21, the Group had a gross loan portfolio of CHF 301.4 billion, gross impaired loans of CHF 3.2 billion and, in 2Q21, an average risk management VaR of USD 67 million.

Key risk developments

We are closely monitoring the following key risk and global economic developments as well as the potential effects on our operations and businesses, including through the reassessment of financial plans and the development of stress scenarios that take into account potential additional negative impacts.

Archegos and supply chain finance funds matters

As previously reported, the Group recorded a provision for credit losses of CHF 4,430 million in 1Q21 in respect of the failure by Archegos to meet its margin commitments. Certain Group subsidiaries were notified by the fund that it would be unable to return margin advances previously extended and recognized as collateral receivable by the Group. Following the failure of the fund, the Group initiated the process of exiting the fund positions and that process is now complete. The Group has incurred additional losses with regard to this matter in 2Q21 of CHF 594 million. Additionally, it is reasonably possible that we will incur a loss in respect of the separate supply chain finance funds matter, though it is not yet possible to estimate the size of such a reasonably possible loss. In 2Q21, we have significantly reduced RWA and leverage exposure in the Investment Bank by USD 20.4 billion and USD 41.5 billion, respectively, including a substantial resizing of our prime services business.

A Group-wide risk appetite review was concluded with various deep dives and risk reviews across credit, market and liquidity risks, followed by further potential refinements throughout the second half of 2021 in alignment with the broad strategic review.

With respect to the Archegos matter, we continued to strengthen control governance across first and second line risk management with new limits and a restriction implemented for the onboarding of new clients with static margin arrangements. Additionally, we completed a reduction of arrangements with static margining for a majority of counterparties as well as a majority of Credit Suisse exposures to such counterparties. Furthermore, following the supply chain finance funds matter, we have enhanced our due diligence by strengthening governance as well as reinforcing the product approval process across Asset Management.

As previously reported, the Board had initiated an externally-led investigation of the Archegos matter, which was supervised by a special committee of the Board. On July 29, 2021, Credit Suisse published on its website the report based on this independent external investigation, as well as a summary of management's responses to this report to date. We continue to analyze these matters, including with the assistance of external counsel and other experts.

→ Refer to "Other information" in I – Credit Suisse results – Credit Suisse and "Risk factor" in I – Credit Suisse results – Credit Suisse in the Credit Suisse Financial Report 1Q21 for information on the Archegos and supply chain finance funds matters.

Inflation concerns

Annual inflation rates have risen strongly in recent months in Europe and in the US. Investors are concerned that this rise may cause major central banks to shift their policies, which may have potentially adverse impacts on major global equity and credit markets as well as on certain emerging markets. Based on an internal review of our exposures in 2Q21, we adjusted certain country risk and transaction limits. In addition, a stress test has been developed and frequently applied to assess market risk vulnerabilities.

SPACs underperformance

Special purpose acquisition companies (SPACs) are publicly listed shell companies created to merge with a private operating company. SPAC issuance rose strongly in 2020, peaked in February 2021 and slowed sharply in 2Q21. Many companies that completed a public listing through a SPAC merger in 2020 have underperformed the major equity markets and investor interest in SPACs has decreased. At the same time regulatory scrutiny has increased, particularly with regard to financial forecasts, due diligence and the accounting treatment of warrants issued when a SPAC is established. Credit Suisse is a major participant in the SPAC underwriting market through our equity capital markets business, and we have enhanced business oversight and deal selection criteria to reflect ongoing changes in regulatory, legal and reputational risks.

China

China-related market developments have continued to require intensified risk management of Credit Suisse exposures. China's policymakers in 2Q21 continued to allow more defaults in China's onshore corporate debt market while concerns grew over the rapid rise in local government and state-owned-enterprise debt levels. We are closely monitoring the risk management implications on our lombard loan portfolio and on trading book and lending book exposures to local government- and state-owned enterprises, as well as the rising default trend in the onshore corporate debt market. In addition, in early July China confirmed new rules that will tighten restrictions on the listing of Chinese companies in foreign countries.

Turkey

High interest rates and inflation far above the Turkish central bank target created the potential for a substantial weakening in gross domestic product (GDP) growth, a further large decrease in the value of the Turkish lira, a significant widening in

sovereign and corporate debt spreads and an increase in political and social risks. Domestic economic policymaking remained especially challenging to predict. Dependency on foreign capital inflows remained high in the context of Turkey's need to roll over significant amounts of debt in 2021 and 2022 while its foreign reserves are still close to historically low levels. We are continuing to monitor exposures and local funding conditions as well as potential reputational risks.

COVID-19 pandemic

The COVID-19 pandemic continued to affect the economic environment. Equity and credit markets generally performed well in 2021 on the increased prospect that 2021 would bring a strong economic recovery due to significant fiscal supports, accommodative monetary policies, accelerating vaccination programs and the easing of economic and social activity lockdowns. However, a recent and growing resurgence in COVID-19 infection rates globally, in particular among unvaccinated persons, is attributed to the so-called Delta variant strain of the coronavirus, which appears to be more infectious than the original strain, and may negatively affect the expected recovery. India suffered a severe second COVID-19 infection wave in March and April 2021 that put its public healthcare system under acute pressure. The infection wave subsided in May and June but began to rise again in July. Economic and social activity lockdown measures tightened during the initial infection wave. The lockdowns eased in May and June but in July have tightened again in some states. Credit Suisse has a significant presence in India primarily in the cities of Mumbai, Pune and Bangalore. At the start of the second COVID-19 infection wave, India office locations rolled back to minimal staff occupancy levels. We continue to closely monitor the COVID-19 pandemic and its effects on our operations and businesses.

Risk portfolio analysis

Credit risk

All transactions that are exposed to potential losses arising as a result of a borrower or counterparty failing to meet its financial obligations or as a result of deterioration in the credit quality of the borrower or counterparty are subject to credit risk exposure measurement and management. Credit risk arises from the

execution of our business strategy in the divisions and reflects exposures directly held in the form of lending products (including loans and credit guarantees) or derivatives, shorter-term exposures such as underwriting commitments, and settlement risk related to the exchange of cash or securities outside of typical delivery versus payment structures.

→ Refer to "Credit risk" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2020 for further information on credit risk.

→ Refer to "Note 18 – Loans", "Note 19 – Financial instruments measured at amortized cost and credit losses" and "Note 31 – Financial instruments" in III – Condensed consolidated financial statements – unaudited for further information on loans and impaired loans and counterparty credit risk, respectively.

The tables of the following sections provide divisional information on loans, collateralized loans, impaired loans, allowance for credit losses on loans and loan metrics. The Investment Bank includes the loans originated by Global Trading Solutions.

Loans

Compared to the end of 1Q21, gross loans decreased CHF 4.5 billion to CHF 301.4 billion as of the end of 2Q21, mainly driven by decreases in commercial and industrial loans, loans collateralized by securities and loans to the real estate sector, partially offset by increases in consumer finance loans and consumer mortgages and the US dollar translation impact. Commercial and industrial loans decreased CHF 2.6 billion, primarily due to decreases in Asia Pacific, Swiss Universal Bank and the Investment Bank. The net decrease of CHF 1.7 billion in loans collateralized by securities was mainly driven by a decrease in Asia Pacific. The net decrease of CHF 0.9 billion in loans to the real estate sector was primarily driven by a decrease in International Wealth Management. Consumer finance loans increased CHF 0.7 billion, primarily due to an increase in Swiss Universal Bank, partially offset by a decrease in International Wealth Management. The net increase of CHF 0.5 billion in consumer mortgages was driven by an increase in International Wealth Management.

On a divisional level, gross loans decreased CHF 2.7 billion in Asia Pacific, CHF 0.8 billion in the Investment Bank, CHF 0.6 billion in Swiss Universal Bank and CHF 0.4 billion in International Wealth Management.

Collateralized loans

The table "Collateralized loans" provides an overview of collateralized loans by division. For consumer loans, the balances reflect the gross carrying value of the loan classes "Mortgages" and "Loans collateralized by securities", of which substantially all are fully collateralized. Consumer finance loans are not included as the majority of these loans are unsecured. For corporate & institutional loans, the balances reflect the value of mortgages and financial and other collateral related to secured loans, considered up to the amount of the related loans.

Financial collateral is subject to frequent market valuation depending on the asset class. In the Group's private banking, corporate and institutional businesses, all collateral values for loans are regularly reviewed according to the Group's risk management policies and directives, with maximum review periods determined by collateral type, market liquidity and market transparency.

→ Refer to "Credit risk" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2020 for further information on collateralized loans and collateral valuation.

² Reflects the value of mortgages and financial and other collateral related to secured corporate & institutional loans, considered up to the amount of the related loans.

Impaired loans

Compared to the end of 1Q21, gross impaired loans decreased CHF 17 million to CHF 3.2 billion as of the end of 2Q21, mainly reflecting decreases in potential problem loans, partially offset by higher non-performing loans.

In the Investment Bank, gross impaired loans decreased CHF 96 million, mainly driven by a write-off related to the sale of a real estate company, the upgrade of an oil and gas company which exited bankruptcy and the partial repayment from a printing company. In International Wealth Management, gross impaired loans

decreased CHF 34 million, mainly driven by decreases in corporate loans, European mortgages and ship finance, partially offset by an increase in lombard lending. In Swiss Universal Bank, gross impaired loans increased CHF 96 million, mainly driven by newly impaired exposures in small and medium-sized enterprises, partially offset by upgrades and write-offs in small and medium-sized enterprises, a write-off in trade finance and exposure reductions in large Swiss corporates. In Asia Pacific, gross impaired loans increased CHF 18 million, mainly reflecting a newly impaired share-backed loan, partially offset by the partial repayment of two share-backed loans.

of which loans without a specific allowance	119	358	0	0	0	10	487

¹ Impaired loans are only based on loans that are not carried at fair value.

² Includes gross impaired loans of CHF 72 million, CHF 71 million and CHF 76 million as of the end of 2Q21, 1Q21 and 4Q20, respectively, which are mostly secured by guarantees provided by investment-grade export credit agencies.

In March 2020, US federal banking regulators issued the “Interagency Statement on Loan Modifications and Reporting for Financial Institutions Working with Customers Affected by the Coronavirus (Revised)” (Interagency Statement). According to the Interagency Statement, short-term modifications made on a good faith basis in response to the COVID-19 crisis to borrowers that were otherwise current prior to the relief being granted would not be considered to be troubled debt restructurings. This includes short-term modifications such as payment deferrals, fee waivers, repayment term extensions or payment delays that are insignificant. The Interagency Statement was developed in consultation

with the Financial Accounting Standards Board (FASB) and the Group has applied this guidance. The Group has granted short-term modifications to certain borrowers due to the COVID-19 crisis in the form of deferrals of capital and interest payments that are within the scope of this guidance and the loans subject to those deferrals have not been reported as troubled debt restructurings in restructured loans. As of the end of 2Q21, the Group had CHF 0.4 billion of loans held at amortized cost that were modified and not reported as troubled debt restructurings as a result of this relief and interpretative guidance.

Allowance for credit losses on loans

In 2Q21, the allowance for credit losses decreased CHF 115 million to CHF 1.4 billion, reflecting decreases in the Investment Bank, International Wealth Management and Swiss Universal Bank, partially offset by an increase in Asia Pacific. The net decrease in allowance for credit losses mainly reflected releases in CECL provisions. The release of CECL provisions was mainly driven by an improved global economic outlook reflected in amended scenario weights, an overall improvement of macroeconomic factors as well as a recalibration of qualitative overlays.

In the Investment Bank, the decrease in allowance for credit losses of CHF 48 million mainly reflected by the release of CECL provisions and a write-off related to the sale of a real estate company, partially offset by increased provisions relating to a loan to

a technology company. In International Wealth Management, the decrease in allowance for credit losses of CHF 46 million was mainly driven by the release of CECL provisions and write-offs in corporate loans and ship finance, partially offset by new specific provisions in lombard lending, corporate loans and aviation finance. The decrease in allowance for credit losses of CHF 31 million in Swiss Universal Bank mainly reflected a release of CECL provisions and write-offs in small and medium-sized enterprises and trade finance, partially offset by provisions for newly impaired positions in small and medium-sized enterprises. In Asia Pacific, the increase in allowance for credit losses of CHF 10 million mainly reflected increased provisions on two share-backed loans and a loan to a mining company, partially offset by the release of CECL provisions.

Gross loans and gross impaired loans exclude loans carried at fair value and the allowance for credit losses is only based on loans that are not carried at fair value.

Allowance for credit losses on other financial assets

In 2Q21 and 6M21, the Investment Bank has incurred a provision for credit losses of CHF 70 million and CHF 4,500 million, respectively, related to the failure by Archegos to meet its margin commitments after certain Group subsidiaries were notified by the fund that it would be unable to return margin advances previously extended and recognized as collateral receivable by the Group. On the Group's consolidated balance sheet as of the end of 2Q21, the related allowance for credit losses is reported in brokerage receivables.

- Refer to "Other information" in I – Credit Suisse results – Credit Suisse and "Risk factor" in I – Credit Suisse results – Credit Suisse in the Credit Suisse Financial Report 1Q21 for information on the Archegos matter.
- Refer to "Note 3 – Business developments and subsequent events", "Note 9 – Provision for credit losses", "Note 19 – Financial instruments measured at amortized cost and credit losses" and "Note 21 – Other assets and other liabilities" in III – Condensed consolidated financial statements – unaudited for further information.

Selected European credit risk exposures

- Refer to "Selected European credit risk exposures" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk portfolio analysis – Credit risk in the Credit Suisse Annual Report 2020 for further information on selected European credit risk exposures.

Market risk

Market risk is the risk of financial loss arising from movements in market risk factors. Market risks arise from both our trading and non-trading activities.

- Refer to "Market risk" in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2020 for further information on market risk including our VaR methodology.

Traded market risk

Market risks arise from our trading activities, primarily in the Investment Bank (which includes Global Trading Solutions). Our trading activities typically include fair-valued positions and risks arising from our involvement in primary and secondary market activities, for client facilitation and market-making purposes, including derivatives markets.

The Group is active globally in the principal trading markets, using a wide range of trading and hedging products, including derivatives and structured products. Structured products are customized transactions often using combinations of financial instruments and are executed to meet specific client or internal needs. As a result of our broad participation in products and markets, the Group's trading strategies are correspondingly diverse and exposures are generally spread across a range of risks and locations.

VaR is a risk measure that quantifies the potential loss on a given portfolio of financial instruments over a certain holding period that is expected not to be exceeded at a certain confidence level. VaR is an important tool in risk management and is used for measuring quantifiable risks from our activities exposed to market risk on a daily basis. In addition, VaR is one of the main risk measures for limit monitoring, financial reporting, calculation of regulatory capital and regulatory backtesting.

We regularly review our VaR model to ensure that it remains appropriate given evolving market conditions and the composition of our trading portfolio. In 2Q21, there were no material changes to our VaR methodology.

We have approval from FINMA, as well as from other regulators for our subsidiaries, to use our regulatory VaR model in the calculation of market risk capital requirements. Ongoing enhancements to our VaR methodology are subject to regulatory approval or notification

depending on their materiality, and the model is subject to regular reviews by regulators and the Group's independent Model Risk Management function.

Information required under Pillar 3 of the Basel framework related to market risk is available on our website.

→ Refer to "credit-suisse.com/regulatorydisclosures" for further information.

The tables entitled "One-day, 98% risk management VaR" and "Average one-day, 98% risk management VaR by division" show

our traded market risk exposure, as measured by one-day, 98% risk management VaR in Swiss francs and US dollars. As we measure VaR for internal risk management purposes using the US dollar as the base currency, the VaR figures were translated into Swiss francs using daily foreign exchange translation rates. VaR estimates are computed separately for each risk type and for the whole portfolio. The different risk types are grouped into five categories including interest rate, credit spread, foreign exchange, commodity and equity risks.

Excludes risks associated with counterparty and own credit exposures. Risk management VaR measures traded market risk and generally includes the trading book positions, banking book positions held at fair value and foreign exchange and commodity risk from banking book positions.

¹ Diversification benefit represents the reduction in risk that occurs when combining different, not perfectly correlated risk types in the same portfolio and is measured as the difference between the sum of the individual risk types and the risk calculated on the combined portfolio.

² As the maximum and minimum occur on different days for different risk types, it is not meaningful to calculate a portfolio diversification benefit.

4Q20 ²	0	2	20	5	62	4	(26)	67

Excludes risks associated with counterparty and own credit exposures. Risk management VaR measures traded market risk and generally includes the trading book positions, banking book positions held at fair value and foreign exchange and commodity risk from banking book positions.

¹ Difference between the sum of the standalone VaR for each division and the VaR for the Group.

² The restatement of divisional historical average risk management VaR under the new organization required certain additional assumptions, which will not be required for future periods.

We measure VaR in US dollars, as the majority of our trading activities are conducted in US dollars.

Period-end risk management VaR of USD 58 million as of the end of 2Q21 decreased 17% compared to the end of 1Q21, primarily due to reduced securitized products risk in the Investment Bank. Average risk management VaR in 2Q21 was stable at USD 67 million.

The chart entitled “Daily risk management VaR” shows the aggregated traded market risk on a consolidated basis.

Daily risk management VaR

— One-day risk management VaR (98%)

Excludes risks associated with counterparty and own credit exposures.

The histogram entitled “Actual daily trading revenues” compares the actual daily trading revenues for 2Q21 with those for 1Q21 and 4Q20. Actual daily trading revenues is an internally used metric, limited to the trading book only, and excludes the cost of carry, credit provisions and internal revenue transfers. The cost of carry is the change in value of the portfolio from one day to the next, assuming all other factors such as market levels and trade population remain constant, and can be negative or positive. The dispersion of trading revenues indicates the day-to-day volatility in our trading activities. In 2Q21, we had no loss days, compared to no loss days in 1Q21 and two loss days in 4Q20.

Actual daily trading revenues

VaR backtesting

Backtesting is one of the techniques used to assess the accuracy and performance of our VaR model used by the Group for risk management and regulatory capital purposes and serves to highlight areas of potential enhancements. Backtesting is used by regulators to assess the adequacy of regulatory capital held by the Group, the calculation of which includes regulatory VaR and stressed VaR. Backtesting involves comparing the results produced by the VaR model with the hypothetical trading revenues on the trading book. A backtesting exception occurs when a hypothetical trading loss exceeds the daily VaR estimate.

For capital purposes and in line with BIS requirements, FINMA increases the capital multiplier for every regulatory VaR backtesting exception above four in the prior rolling 12-month period, resulting in an incremental market risk capital requirement for the Group. For the rolling 12-month period through the end of 2Q21, we had no backtesting exception in our regulatory VaR model, remaining in the regulatory “green zone”.

→ Refer to “Market risk” in III – Treasury, Risk, Balance sheet and Off-balance sheet – Risk management – Risk coverage and management in the Credit Suisse Annual Report 2020 for further information on VaR backtesting.

→ Refer to "Risk-weighted assets" in Capital management for further information on the use of our regulatory VaR model in the calculation of trading book market risk capital requirements.

Non-traded market risk

Non-traded market risk primarily relates to asset and liability mismatch exposures in our banking book. Our businesses and Treasury have non-traded portfolios that carry market risks, mainly related to changes in interest rates but also to changes in foreign exchange rates.

We assume interest rate risks through lending and deposit-taking, money market and funding activities, and the deployment of our consolidated equity as well as other activities at the divisional level. Non-maturing products, such as savings accounts, have no contractual maturity date or direct market-linked interest rate and are risk-managed on a pooled basis using replication portfolios on behalf of the business divisions.

Interest rate risk on banking book positions is measured by estimating the impact resulting from a one basis point parallel increase in yield curves on the present value of interest rate-sensitive banking book positions. This is measured on the Group's entire banking book. Interest rate risk sensitivities disclosed below are in line with our internal risk management view.

→ Refer to credit-suisse.com/regulatorydisclosures for the Group's publication "Pillar 3 and regulatory disclosures 4Q20 – Credit Suisse Group AG" which includes additional information on regulatory interest rate risk in the banking book in accordance with FINMA guidance.

As of the end of 2Q21, the interest rate sensitivity of a one basis point parallel increase in yield curves was negative CHF 5.1 million, compared to negative CHF 5.7 million as of the end of 1Q21. The change was mainly driven by our regular management of banking book activities.

Balance sheet and off-balance sheet

As of the end of 2Q21, total assets of CHF 796.8 billion decreased 6% and total liabilities of CHF 752.9 billion decreased 7% compared to the end of 1Q21, reflecting lower operating activities and the foreign exchange translation impact.

The majority of our transactions are recorded on our balance sheet. However, we also enter into transactions that give rise to both on and off-balance sheet exposure.

Balance sheet

Total assets were CHF 796.8 billion as of the end of 2Q21, a decrease of CHF 54.6 billion, or 6%, from the end of 1Q21, reflecting lower operating activities and the foreign exchange translation impact. Excluding the foreign exchange translation impact, total assets decreased CHF 47.2 billion.

Compared to the end of 1Q21, trading assets decreased CHF 26.6 billion, or 17%, primarily reflecting decreases in equity and debt securities and derivative instruments. Brokerage receivables decreased CHF 14.6 billion, or 31%, primarily reflecting

decreases in margin lending and open trades and the foreign exchange translation impact. Net loans decreased CHF 4.3 billion, or 1%, mainly driven by decreases in commercial and industrial loans, loans collateralized by securities, and loans to the real estate sector, partially offset by increases in consumer finance loans and consumer mortgages. Cash and due from banks increased CHF 13.1 billion, or 10%, mainly driven by higher cash positions at the ECB and the SNB, partially offset by lower cash positions at the Fed. Central bank funds sold, securities purchased under resale agreements and securities borrowing increased CHF 3.5 billion or 4%, mainly reflecting an increase in reverse repurchase transactions from banks and customers, partially offset by the foreign exchange translation impact. All other assets decreased CHF 25.6 billion, or 22%, mainly reflecting a decrease of CHF 17.8 billion, or 32%, in securities received as collateral and a decrease of CHF 6.7 billion, or 14%, in other assets, mainly related to lower assets held-for-sale.

Balance sheet summary

Central bank funds purchased, securities sold under repurchase agreements and securities lending transactions	20,924	22,853	23,851	(8)	(12)
Trading liabilities	32,972	47,740	45,871	(31)	(28)
Long-term debt	170,227	170,453	161,087	0	6
Brokerage payables	20,432	26,890	21,653	(24)	(6)
All other liabilities	90,123	113,084	103,075	(20)	(13)
Total liabilities	752,924	806,511	762,881	(7)	(1)
Total shareholders' equity	43,580	44,590	42,677	(2)	2
Noncontrolling interests	295	294	264	0	12
Total equity	43,875	44,884	42,941	(2)	2
Total liabilities and equity	796,799	851,395	805,822	(6)	(1)

Total liabilities were CHF 752.9 billion as of the end of 2Q21, a decrease of CHF 53.6 billion, or 7%, from the end of 1Q21, reflecting lower operating activities and the foreign exchange translation impact. Excluding the foreign exchange translation impact, total liabilities decreased CHF 46.2 billion.

Compared to the end of 1Q21, trading liabilities decreased CHF 14.8 billion, or 31%, primarily due to a decrease in short positions and derivative instruments. Customer deposits decreased CHF 8.8 billion, or 2%, mainly due to lower savings deposits, demand and time deposits and certificates of deposits and the foreign exchange translation impact. Brokerage payables decreased CHF 6.5 billion, or 24%, mainly due to a decrease in margin lending. Central bank funds purchased, securities sold under repurchase agreements and securities lending transactions decreased CHF 1.9 billion, or 8%, primarily due to decreases in federal funds purchased and cash collateral, partially offset by an increase in repurchase transactions. Long-term debt was stable. Due to banks increased CHF 1.5 billion, or 8%, primarily driven by an increase in time deposits, partially offset by a decrease in demand deposits. All other liabilities decreased CHF 23.0 billion, or 20%, reflecting a decrease of CHF 17.8 billion, or 32%, in obligation to return securities received as collateral, a decrease of CHF 2.6 billion, or 8%, in other liabilities and a decrease of CHF 2.5 billion, or 10% in short-term borrowings.

→ Refer to "Funding sources" in Liquidity and funding management – Funding management and "Capital management" for further information, including our funding of the balance sheet and the leverage ratio.

Off-balance sheet

We enter into off-balance sheet arrangements in the normal course of business. Off-balance sheet arrangements are transactions or other contractual arrangements with, or for the benefit of, an entity that is not consolidated. These transactions include derivative instruments, guarantees and similar arrangements, retained or contingent interests in assets transferred to an unconsolidated entity in connection with our involvement with special purpose entities (SPEs), and obligations and liabilities (including contingent obligations and liabilities) under variable interests in unconsolidated entities that provide financing, liquidity, credit and other support.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and shareholders of Credit Suisse Group AG

Results of Review of Interim Financial Statements

We have reviewed the accompanying consolidated balance sheet of Credit Suisse Group AG and its subsidiaries (the "Group") as of June 30, 2021, and the related consolidated statements of operations, comprehensive income and changes in equity for the three-month and six-month periods ended June 30, 2021 and 2020 and the consolidated statement of cash flows for the six-month periods ended June 30, 2021 and 2020, including the related notes (collectively referred to as the "interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Group as of December 31, 2020, and the related consolidated statements of operations, comprehensive income, changes in equity and of cash flows for the year then ended (not presented herein), and in our report dated March 18, 2021, which included a paragraph describing a change in the manner of accounting for credit losses on certain financial instruments in the 2020 financial statements and a paragraph regarding adjustments made to the 2019 and 2018 financial statements to reflect the change in the composition of reportable segments, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2020, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived

Basis for Review Results

These interim financial statements are the responsibility of the Group's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Group in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Notes to the condensed consolidated financial statements – unaudited

1 Summary of significant accounting policies

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of Credit Suisse Group AG (the Group) are prepared in accordance with accounting principles generally accepted in the US (US GAAP) and are stated in Swiss francs (CHF). These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2020 included in the Credit Suisse Annual Report 2020.

→ Refer to "Note 1 – Summary of significant accounting policies" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for a description of the Group's significant accounting policies.

Certain financial information, which is normally included in annual consolidated financial statements prepared in accordance with US GAAP, but not required for interim reporting purposes, has been condensed or omitted. Certain reclassifications have been made to the prior period's consolidated financial statements to

conform to the current period's presentation. These condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the condensed consolidated financial statements for the periods presented. The 1Q21 consolidated statements of operations and comprehensive income, the 1Q21 consolidated balance sheet and the 1Q21 consolidated statement of changes in equity have been added for the convenience of the reader and are not a required presentation under US GAAP. The results of operations for interim periods are not indicative of results for the entire year.

In preparing these condensed consolidated financial statements, management is required to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the condensed consolidated balance sheets and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2 Recently issued accounting standards

Recently adopted accounting standards

The following provides the most relevant recently adopted accounting standards.

→ Refer to "Note 2 – Recently issued accounting standards" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for a description of accounting standards adopted in 2020.

ASC Topic 740 – Income Taxes

In December 2019, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2019-12, "Simplifying the Accounting for Income Taxes" (ASU 2019-12), an update to Accounting Standards Codification (ASC) Topic 740 – Income Taxes. The amendments in ASU 2019-12 eliminated certain exceptions related to the approach for intraperiod tax allocation, the methodology for calculating income taxes in an interim period and the accounting for basis differences when there are changes in foreign ownership. In addition, ASU 2019-12 included clarification and simplification of other aspects of the accounting for income taxes. The amendments were effective for annual reporting periods beginning after December 15, 2020 and for the interim periods within those annual reporting periods. Early adoption was permitted, including in an interim period. The adoption of ASU 2019-12 on January 1, 2021 did not have a material impact on the Group's financial position, results of operations or cash flows.

ASC Topic 848 – Reference Rate Reform

In March 2020, the FASB issued ASU 2020-04, "Facilitation of the Effects of Reference Rate Reform on Financial Reporting" (ASU 2020-04), creating ASC Topic 848 – Reference Rate Reform. The amendments in ASU 2020-04 provided optional guidance for a limited period of time to ease the potential burden in accounting for (or recognizing the effects of) reference rate reform on financial reporting. The amendments were elective and applied to contracts, hedging relationships and other transactions that reference the London Interbank Offered Rate (LIBOR) or other reference rates expected to be discontinued because of reference rate reform.

In January 2021, the FASB issued ASU 2021-01, "Reference Rate Reform, Scope" (ASU 2021-01), which expands the scope of ASC Topic 848 to apply certain optional expedients for contract modifications and hedge accounting provided in ASU 2020-04 to derivative instruments that use an interest rate for margining, discounting, or contract price alignment that is modified for reference rate reform. The guidance also applied to derivatives that do not reference LIBOR or other reference rates that are expected to be discontinued.

The amendments may be applied as of March 12, 2020 through December 31, 2022. The Group elected to apply ASU 2020-04 and retrospectively apply ASU 2021-01 during 2020. These elections did not have a material impact on the Group's financial position, results of operations and cash flows.

3 Business developments and subsequent events

Business developments

Allfunds Group initial public offering

As previously disclosed, during 2019 and 2020 Credit Suisse held an equity investment in Allfunds Group following the transfer of the Group's open architecture investment fund platform Credit Suisse InvestLab AG to Allfunds Group. On April 23, 2021, Allfunds Group announced a successful IPO on the Euronext Amsterdam exchange with an initial market capitalization of EUR 7.24 billion on the day of the listing. Following the IPO, the Group holds an equity interest in Allfunds Group of 9.4%, which has been reclassified to trading assets from other investments. Net revenues included a gain of CHF 317 million reflecting the share price development after the IPO as well as the reduction of our equity interest from 14.0% to 9.4%. Operating expenses included CHF 19 million of costs directly related to the IPO of Allfunds Group.

Archegos Capital Management

As previously reported, the Group recorded a provision for credit losses of CHF 4,430 million in 1Q21 in respect of the failure by Archegos to meet its margin commitments. Certain Group subsidiaries were notified by the fund that it would be unable to return margin advances previously extended and recognized as collateral receivable by the Group. Following the failure of the fund, the Group initiated the process of exiting the fund positions and that process is now complete. Losses related to the exiting of fund positions that were in excess of the margin advances previously extended and recognized as collateral receivable were included in trading revenues. The Group has incurred additional losses with regard to this matter in 2Q21 of CHF 594 million, consisting of CHF 493 million of trading losses as a result of market movements during the process of closing out the fund positions, a provision for credit losses of CHF 70 million and operating expenses of CHF 31 million mainly reflecting severance-related costs and professional services fees.

Supply chain finance funds matter

As previously reported, in early March 2021, the boards of four supply chain finance funds managed by certain Group subsidiaries (collectively, the SCFFs) decided to suspend redemptions and subscriptions of those funds, to protect the interests of the funds' investors, to terminate the SCFFs and to proceed to their liquidation. Credit Suisse Asset Management (Schweiz) AG (CSAM) acts as the portfolio manager of the SCFFs.

The assets held by the SCFFs largely consist of notes backed by existing and future receivables. These notes were originated and structured by Greensill Capital (UK) Limited or one of its affiliates (Greensill Capital). Greensill Capital filed for insolvency in the UK on March 8, 2021, and the portfolio manager is working closely with the administrators of Greensill Capital, Grant Thornton, and with other parties to facilitate the liquidation of the SCFFs.

The last published net asset value of the SCFFs in late February 2021 was approximately USD 10 billion in the aggregate. To date, together with the cash already distributed to investors and cash remaining in the funds, total cash collected in the SCFFs amounts to approximately USD 6.6 billion including the cash position in the funds at the time of suspension. Redemption payments totaling approximately USD 5.5 billion have been made to their investors in three cash distributions, and a fourth cash distribution of approximately USD 0.4 billion, which would bring the total amount returned to investors to approximately USD 5.9 billion. The portfolio manager continues to work to liquidate the remaining assets of the SCFFs, including by engaging directly with potentially delinquent obligors and other creditors as appropriate. However, there remains considerable uncertainty regarding the valuation of a significant part of the remaining assets, including the fact that certain of the notes underlying the funds were not paid when they fell due and the portfolio manager has been informed that further notes will not be paid when they fall due in the future. It therefore can be assumed that the investors of the SCFFs will suffer a loss. CSAM intends to take all necessary steps to collect outstanding amounts from debtors and insurers, but can give no assurance as to the final amount that may be recovered for the SCFFs under such notes. The amount of loss of the investors therefore is currently unknown.

Based on currently available information, losses for the investors can be expected to occur predominantly in positions that, prior to March 31, 2021, had a net asset value of approximately USD 2.3 billion in the aggregate. These positions relate primarily to three groups of companies: "GFG Alliance", Katerra and Bluestone. For these three focus areas, more time is required to assess the situation accurately. CSAM continues to invest substantial efforts to maximize and expedite recovery in these positions, including pursuing consensual restructuring in addition to preparing insurance claims and seeking legal enforcement of the funds' claims where appropriate. Given the complexity of the situation and negotiations, any predictions on recovery rates for these focus areas would be premature.

The Group continues to analyze this matter, including with the assistance of external counsel and other experts. The Board has initiated an externally-led investigation of this matter, which is being supervised by a special committee of the Board.

Redemptions and subscriptions of certain other funds managed by CSAM or CSAM subsidiaries that invested in part in the SCFFs were also suspended in early March 2021. The illiquid part of these funds' assets was subsequently separated into a separate share class to allow for subscriptions and redemptions of the original share classes, reflecting the liquid part of the funds' assets, to resume as of April 7, 2021. The separate share class reflecting the illiquid assets is in the process of being liquidated, and shareholders receive pro rata payments of the redemption proceeds.

With respect to the Group's outstanding collateralized bridge loan of USD 90 million to Greensill Capital, the Group has marked its fair value down to USD 56 million as of the end of 2Q21, down from USD 60 million as of the end of 1Q21.

→ Refer to "Risk factor" in I – Credit Suisse results – Credit Suisse in the Credit Suisse Financial Report 1Q21 for further information on risks that may arise in relation to this matter.

Mandatory Convertible Notes offering

On April 22, 2021, the Group announced that it placed two series of mandatory convertible notes (MCNs), Series A MCNs and Series B MCNs, which will be convertible into 100 million shares and 103 million shares of Credit Suisse Group AG, respectively. The MCNs settled on May 12, 2021. The aggregate principal amount of Series A MCNs issued was CHF 865 million and the aggregate principal amount of Series B MCNs issued was

CHF 891 million. The shares of Credit Suisse Group AG underlying the Series A MCNs were issued from Credit Suisse Group AG's conditional capital. The shares of Credit Suisse Group AG underlying the Series B MCNs were issued from Credit Suisse Group AG's authorized capital. As of the end of 2Q21, MCNs with a principal value of CHF 924,000 have been early converted into 106,805 shares of Credit Suisse Group AG. The remaining shares of Credit Suisse Group AG are held by Credit Suisse Group (Guernsey) VII Limited, the issuing entity of the MCNs for delivery to holders of MCNs upon conversion of the MCNs.

Subsequent events

There were no subsequent events since the balance sheet date of the condensed consolidated financial statements.

4 Segment information

The Group is a global financial services company domiciled in Switzerland and serves its clients through three regionally focused divisions: Swiss Universal Bank, International Wealth Management and Asia Pacific. These regional businesses are supported by our Asset Management and Investment Bank divisions. Effective April 1, 2021, the Asset Management business has been separated from the International Wealth Management division and is managed as a new division of the Group. Prior periods have

been restated to conform to the current presentation. The segment information reflects the Group's reportable segments and the Corporate Center, which are managed and reported on a pre-tax basis.

→ Refer to "Note 4 – Segment information" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on segment information, revenue sharing and cost allocation and funding.

Other ¹	214	279	307	493	558
General and administrative expenses	1,589	1,376	1,440	2,965	2,786

¹ Includes pension-related expenses/(credits) of CHF (42) million, CHF (52) million, CHF (40) million, CHF (94) million and CHF (80) million in 2Q21, 1Q21, 2Q20, 6M21 and 6M20, respectively, relating to certain components of net periodic benefit costs for defined benefit plans.

12 Restructuring expenses

In connection with the key strategic growth initiatives announced in July 2020, restructuring expenses of CHF 45 million were recognized in 2Q21. Restructuring expenses may include severance expenses, expenses in connection with the acceleration of certain

deferred compensation awards, pension expenses and contract termination costs. The Group completed the one-year restructuring plan in connection with the implementation of the key strategic growth initiatives by the end of June 2021.

	130.8	–	–	65.4	–
Earnings/(loss) per share available for common shares (CHF)					
Basic earnings/(loss) per share available for common shares					
	0.10	(0.10)	0.47	0.00	1.00
Diluted earnings/(loss) per share available for common shares					
	0.10	(0.10)	0.46	0.00	0.98

¹ Weighted-average potential common shares relating to instruments that were not dilutive for the respective periods (and therefore not included in the diluted earnings per share calculation above) but could potentially dilute earnings per share in the future were 9.6 million, 6.5 million, 5.3 million, 8.1 million and 4.8 million for 2Q21, 1Q21, 2Q20, 6M21 and 6M20, respectively.

² Due to the net loss in 1Q21, 0.4 million of weighted-average share options and warrants outstanding and 92.0 million of weighted-average share awards outstanding were excluded from the diluted earnings per share calculation, as the effect would be antidilutive.

14 Revenue from contracts with customers

The Group receives investment advisory and investment management fees for services provided in its wealth management businesses which are generally reflected in the line item 'Investment and portfolio management' in the table "Contracts with customers and disaggregation of revenues".

As a fund manager, the Group typically receives base management fees and may additionally receive performance-based management fees which are both recognized as 'Investment and portfolio management' revenues in the table "Contracts with customers and disaggregation of revenues".

The Group's capital markets businesses underwrite and sell securities on behalf of customers and receive underwriting fees.

The Group also offers brokerage services in its investment banking businesses, including global securities sales, trading and execution, prime brokerage and investment research. For the services provided, such as for example the execution of client trades in securities or derivatives, the Group typically earns a brokerage commission when the trade is executed.

Credit Suisse's investment banking businesses provide services that include advisory services to clients in connection with corporate finance activities. The term 'advisory' includes any type of service the Group provides in an advisory capacity. Revenues recognized from these services are reflected in the line item 'Other Services' in the table.

Contracts with customers and disaggregation of revenues					
in	2Q21	1Q21	2Q20	6M21	6M20
Contracts with customers (CHF million)					
Investment and portfolio management	891	861	752	1,752	1,562
Other securities business	15	13	18	28	36
Underwriting	626	989	560	1,615	924
Brokerage	693	908	805	1,601	1,771
Other services	445	448	387	893	724
Total revenues from contracts with customers	2,670	3,219	2,522	5,889	5,017

The table "Contracts with customers and disaggregation of revenues" differs from "Note 6 – Commissions and fees" as it includes only those contracts with customers that are in scope of ASC Topic 606 – Revenue from Contracts with Customers.

Contract balances

end of	2Q21	1Q21	4Q20
Contract balances (CHF million)			
Contract receivables	1,011	1,120	1,001
Contract liabilities	52	65	48
Revenue recognized in the reporting period included in the contract liabilities balance at the beginning of period	18	8	7

The Group did not recognize any revenue in the reporting period from performance obligations satisfied in previous periods.

There were no material net impairment losses on contract receivables in 2Q21, 1Q21 and 4Q20. The Group's contract terms are generally such that they do not result in any contract assets.

Remaining performance obligations

ASC Topic 606's practical expedient allows the Group to exclude from its remaining performance obligations disclosure any performance obligations which are part of a contract with an original expected duration of one year or less. Additionally any variable consideration, for which it is probable that a significant reversal in the amount of cumulative revenue recognized will occur when the uncertainty associated with the variable consideration is subsequently resolved, is not subject to the remaining performance obligations disclosure because such variable consideration is not included in the transaction price (e.g., investment management fees). Upon review, the Group determined that no material remaining performance obligations are in scope of the remaining performance obligations disclosure.

→ Refer to "Note 14 – Revenue from contracts with customers" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information.

Allowance for credit losses on debt securities available-for-sale

A credit loss exists if there is a decline in fair value of the security below the amortized cost as a result of the non-collectability of the amounts due in accordance with the contractual terms.

An allowance for expected credit losses is recorded in the consolidated statement of operations in provision for credit losses and the non-credit-related losses are recorded in accumulated other comprehensive income (AOCI). Subsequent improvements in the estimated credit losses are immediately recorded in the consolidated statement of operations as a reduction in allowance and credit loss expense. A security is written-off if it is considered certain that there is no possibility of recovering the outstanding principal. As of the end of 2Q21 and 4Q20, the Group had no allowance for credit losses on debt securities available-for-sale.

17 Other investments

In 2Q21, following the IPO of Allfunds Group, the Group holds an equity interest in Allfunds Group of 9.4%, which has been reclassified to trading assets.

In 4Q20, York informed its investors of a significant change in strategy. As a result, York will focus on longer duration assets such as private equity, private debt and collateralized loan obligations (CLOs), while winding down its European hedge funds business and primarily managing internal capital in its multi-strategy fund. York's Asia Pacific business is expected to be spun off as a new and separate hedge fund in 2021, in which the Group intends to have a continuing interest. As a result of this announcement, the Group recorded an impairment of CHF 414 million to the valuation of its equity method investment.

18 Loans

The Group's loan portfolio is classified into two portfolio segments, consumer loans and corporate & institutional loans. Consumer loans are disaggregated into the classes of mortgages, loans collateralized by securities and consumer finance. Corporate & institutional loans are disaggregated into the classes of real estate, commercial and industrial loans, financial institutions, and governments and public institutions.

For financial reporting purposes, the carrying values of loans and related allowance for credit losses are presented in accordance with US GAAP and are not comparable with the regulatory credit risk exposures presented in our disclosures required under Pillar 3 of the Basel framework.

¹ As of the end of 2Q21, 1Q21 and 4Q20, CHF 181 million, CHF 176 million and CHF 180 million, respectively, were related to consumer mortgages secured by residential real estate for which formal foreclosure proceedings according to local requirements of the applicable jurisdiction were in process.

In accordance with Group policies, impaired loans include non-accrual loans, comprised of non-performing loans and non-interest-earning loans, as well as restructured loans and potential problem loans.

- Refer to "Loans" in Note 1 – Summary of significant accounting policies in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on loans and categories of impaired loans.
- Refer to "Note 19 – Financial instruments measured at amortized cost and credit losses" for further information on loans held at amortized cost.

19 Financial instruments measured at amortized cost and credit losses

This disclosure provides an overview of the Group's balance sheet positions that include financial assets carried at amortized cost that are subject to the CECL accounting guidance.

As of the end of 2021, the Group had no purchased financial assets with more than insignificant credit deterioration since origination.

→ Refer to "Note 1 – Summary of significant accounting policies" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the accounting of financial assets and off-balance sheet credit exposure subject to the CECL accounting guidance.

¹ Net of unearned income/deferred expenses, as applicable.

² Excludes accrued interest for credit losses in the total amount of CHF 380 million, with no related allowance for credit losses. Of the accrued interest balance, CHF 1 million relates to interest-bearing deposits with banks, CHF 1 million to securities purchased under resale agreements and securities borrowing transactions, CHF 363 million to loans and CHF 15 million to brokerage receivables. These accrued interest balances are reported in other assets.

³ Includes endangered interest of CHF 89 million on non-accrual loans which are reported as part of the loans' amortized cost balance.

⁴ Excludes accrued interest for credit losses in the total amount of CHF 351 million, with no related allowance for credit losses. Of the accrued interest balance, CHF 1 million relates to interest-bearing deposits with banks, CHF 334 million to loans and CHF 16 million to brokerage receivables. These accrued interest balances are reported in other assets.

⁵ Includes endangered interest of CHF 88 million on non-accrual loans which are reported as part of the loans' amortized cost balance.

Allowance for credit losses

Estimating expected credit losses – overview

→ Refer to "Note 20 – Financial instruments measured at amortized cost and credit losses" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on key elements and processes of estimating expected credit losses on non-impaired and impaired credit exposures.

Macroeconomic scenarios

The estimation and application of forward-looking information requires quantitative analysis and significant expert judgment. The Group's estimation of expected credit losses is based on a discounted probability-weighted estimate that considers three future macroeconomic scenarios: a baseline scenario, an upside scenario and a downside scenario. The baseline scenario represents the most likely outcome. The two other scenarios represent more optimistic and more pessimistic outcomes with the downside scenario being more severe than the upside scenario. The scenarios are probability-weighted according to the Group's best estimate of their relative likelihood based on historical frequency, an assessment of the current business and credit cycles as well as the macroeconomic factor (MEF) trends.

Current-period estimate of expected credit losses

The key MEFs used in each of the macroeconomic scenarios for the calculation of the expected credit losses include, but are not limited to, GDP and industrial production. These MEFs have been selected based on the portfolios that are most material to the estimation of CECL from a longer-term perspective.

As of the end of 2021, the forecast macroeconomic scenarios were weighted 60% for the baseline, 30% for the downside and 10% for the upside scenario, compared to 50% for the baseline, 40% for the downside and 10% for the upside scenario as of the end of 1Q21. The weight reduction for the downside scenario at the beginning of 2021 reflected the reduced uncertainty with regard to the COVID-19 pandemic and the economic outlook. The forecast range for the increase in Swiss real GDP was 2.3% to 3.9% for 2021 and 0.1% to 2.7% for 2022. The forecast in the baseline scenario for the timing of the recovery of the quarterly series for Swiss real GDP to return to pre-pandemic levels (i.e., 4Q19) was 3Q21. The forecast range of the increase in the eurozone real GDP was 2.3% to 4.2% for 2021 and 1.4% to 4.9% for 2022. The forecast in the baseline scenario for the timing of the recovery of the quarterly series for eurozone real GDP to return to pre-pandemic levels was 2Q22. The forecast range for the increase in US real GDP was 4.8% to 7.3% for 2021 and 1.4% to 3.8% for 2022. The forecast in the baseline scenario for

the timing of the recovery of the quarterly series for US real GDP to return to pre-pandemic levels was 2Q21. The forecast range for the increase in UK real GDP was 4.8% to 7.0% for 2021 and 3.0% to 7.3% for 2022. The forecast in the baseline scenario for the timing of the recovery of the quarterly series for UK real GDP to return to pre-pandemic levels was 2Q22. The forecast range for the increase in world industrial production was 7.2% to 10.8% for 2021 and 2.6% to 5.2% for 2022. The macroeconomic and market variable projections incorporate adjustments to reflect the impact and potential withdrawal of the COVID-19 pandemic related economic support programs provided by national governments and by central banks. While GDP and industrial production are significant inputs to the forecast models, a range of other inputs are also incorporated for all three scenarios to provide projections for future economic and market conditions. Given the complex nature of the forecasting process, no single economic variable is viewed in isolation or independently of other inputs.

For extreme and statistically rare events which cannot be adequately reflected in CECL models, such as the effects of the COVID-19 pandemic on the global economy, the event becomes the baseline scenario. In order to address circumstances where in management's judgment the CECL model outputs are overly sensitive to the effect of economic inputs that lie significantly outside of their historical range, model overlays are applied.

Such overlays are based on expert judgment and are applied in response to these exceptional circumstances to consider historical stressed losses and industry and counterparty credit level reviews. Overlays are also used to capture judgment on the economic uncertainty from global or regional developments or governmental actions with severe impacts on economies, such as the lockdowns and other actions directed towards managing the pandemic. As a result of such overlays, provisions for credit losses may not be primarily derived from MEF projections. As of the end of 2021, the Group has continued its approach of applying qualitative overlays to the CECL model outputs in a manner consistent with the end of 1Q21. During 2021 we continued to observe more favorable developments in the COVID-19 pandemic, including vaccination rate increases as well as a reduction in lockdown measures, which resulted in a generally more positive economic outlook. This overall favorable trend in 2021 was reflected in the Group's overlays, which continue to be closely aligned with the macroeconomic forecasts.

Loans held at amortized cost

The Group's loan portfolio is classified into two portfolio segments, consumer loans and corporate & institutional loans.

→ Refer to "Note 20 – Financial instruments measured at amortized cost and credit losses" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the main risk characteristics of the Group's loans held at amortized cost.

¹ Represents the current-period net provision for accrued interest on non-accrual loans and lease financing transactions which is recognized as a reversal of interest income.

Gross write-offs of CHF 90 million in 2Q21 compared to gross write-offs of CHF 38 million in 1Q21 and were primarily related to corporate & institutional loans in both quarters. In 2Q21, gross write-offs in corporate & institutional loans were mainly related to a position in corporate loans, the sale of a real estate company and single positions in small and medium-sized enterprises,

trade finance and ship finance. Write-offs in consumer loans were mainly related to Swiss consumer finance loans. In 1Q21, gross write-offs in corporate & institutional loans were mainly related to a position in the US healthcare sector. Write-offs in consumer loans were mainly related to several Swiss consumer finance loans.

¹ Includes drawdowns under purchased loan commitments.

² Includes loans previously reclassified to held-for-sale that were not sold and were reclassified back to loans held-to-maturity.

³ All loans held at amortized cost which are sold are reclassified to loans held-for-sale on or prior to the date of the sale.

Other financial assets

The Group's other financial assets include certain balance sheet positions held at amortized cost, each representing its own portfolio segment.

→ Refer to "Note 20 – Financial instruments measured at amortized cost and credit losses" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the main risk characteristics of the Group's other financial assets held at amortized cost.

The current-period provision for expected credit losses on other financial assets held at amortized cost in 2Q21, 1Q21 and 6M21 includes a total amount of CHF 70 million, CHF 4,430 million and CHF 4,500 million, respectively, related to the failure of Archegos to meet its margin commitments. As of the end of 2Q21, the related allowance is reported in brokerage receivables.

¹ Excludes accrued interest on loans held at amortized cost of CHF 363 million and CHF 334 million as of the end of 2Q21 and 4Q20, respectively.

As of the end of 2Q21 and 4Q20, the Group did not have any loans that were past due more than 90 days and still accruing interest. Also, the Group did not have any other financial assets held at amortized cost that were past due.

Non-accrual financial assets

For loans held at amortized cost, non-accrual loans are comprised of non-performing loans and non-interest-earning loans.

→ Refer to "Note 1 – Summary of significant accounting policies" and "Note 20 – Financial instruments measured at amortized cost and credit losses" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on non-accrual loans.

In the Group's recovery management function covering the Investment Bank and Asia Pacific, a position is written down to its net carrying value once the credit provision is greater than 90% of the notional amount, unless repayment is anticipated to occur within the next three months. Following the expiration of this three-month period the position is written off unless it can be demonstrated that any delay in payment is an operational matter which is expected to be resolved within a ten-day grace period. In the Group's recovery management functions for Swiss Universal Bank and International Wealth Management, write-offs are made based on an individual counterparty assessment. An evaluation is performed on the need for write-offs on impaired loans individually and on an ongoing basis, if it is likely that parts of a loan or the entire loan will not be recoverable. Write-offs of residual loan balances are executed once available debt enforcement procedures are exhausted or, in certain cases, upon a restructuring.

Collateral-dependent financial assets

→ Refer to "Note 20 – Financial instruments measured at amortized cost and credit losses" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on collateral-dependent financial assets.

Collateral-dependent financial assets managed by the recovery management function covering the Investment Bank and Asia Pacific mainly include mortgages, revolving corporate loans, securities borrowing, trade finance exposures and lombard loans. For mortgages, property, guarantees and life insurance policies are the main collateral types. For revolving corporate loans, collateral includes mainly cash, inventory, oil and gas reserves and receivables. Securities borrowing exposures are mainly secured by

pledged shares, bonds, investment fund units and money market instruments. Trade finance exposures are secured by cash and guarantees. For lombard loans, the Group holds collateral in the form of pledged shares, bonds, investment fund units and money market instruments as well as cash and life insurance policies. Since 2Q21, the collateral values used for the calculation of the collateral coverage ratio are considered up to the amount of the related collateral-dependent loan; previously, the collateral coverage ratio reflected the entire collateral value. The prior period collateral coverage ratio has been updated to conform to the current presentation. As of the end of 2Q21, the overall collateral coverage ratio was 95% of the Group's collateral-dependent financial asset exposure managed by the recovery management function covering the Investment Bank and Asia Pacific, compared to 86% as of the end of 1Q21. The increase in the overall collateral coverage ratio was mainly driven by an increase in highly collateralized share-backed loans in Asia Pacific.

Collateral-dependent financial assets managed by the recovery management function for International Wealth Management mainly include ship finance exposures, commercial loans, lombard loans, residential mortgages and aviation finance exposures. Ship finance exposures are collateralized by vessel mortgages, corporate guarantees, insurance assignments as well as cash balances, securities deposits or other assets held with the Group. Collateral held against commercial loans include primarily guarantees issued by export credit agencies, other guarantees, private risk insurance, asset pledges and assets held with the Group (e.g., cash, securities deposits and others). Lombard loans are collateralized by pledged financial assets mainly in the form of cash, shares, bonds, investment fund units and money market

instruments as well as life insurance policies and bank guarantees. Residential mortgages are secured by mortgage notes on residential real estate, life insurance policies as well as cash balances, securities deposits or other assets held with the Group. Aircraft finance exposures are collateralized by aircraft mortgages of business jets as well as corporate and/or personal guarantees, cash balances, securities deposits or other assets held with the Group. Collateral-dependent loans increased in 2Q21, mainly driven by an increase in lombard loans, partially offset by a decrease in aviation finance. The overall collateral coverage ratio decreased from 87% as of the end of 1Q21 to 84% as of the end of 2Q21, mainly driven by a newly added collateral-dependent lombard loan.

Collateral-dependent financial assets managed by the recovery management function for Swiss Universal Bank mainly include residential mortgages and commercial mortgages. Collateral held against residential mortgages includes mainly mortgage notes on

residential real estate, pledged capital awards in retirement plans and life insurance policies. For commercial mortgages, collateral held includes primarily mortgage notes on commercial real estate and cash balances, securities deposits or other assets held with the Group. The overall collateral coverage ratio in relation to the collateral-dependent financial assets decreased from 87% as of the end of 1Q21 to 86% as of the end of 2Q21 for residential and commercial mortgages, mainly reflecting lower collateral values driven by the upgrade of a large highly collateralized position in residential mortgages to non-impaired status.

Off-balance sheet credit exposures

→ Refer to "Note 1 – Summary of significant accounting policies" and "Note 20 – Financial instruments measured at amortized cost and credit losses" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the main risk characteristics and on estimating the provisions for expected credit losses on off-balance sheet credit exposures.

In 6M21, the loan modifications of the Group included the increase of credit facilities, extended loan repayment terms, including postponed loan amortizations and extended maturity dates, interest rate concessions, waivers of principal and interest and changes in covenants.

In March 2020, US federal banking regulators issued the “Interagency Statement on Loan Modifications and Reporting for Financial Institutions Working with Customers Affected by the Coronavirus (Revised)” (Interagency Statement). According to the Interagency Statement, short-term modifications made on a good faith basis in response to the COVID-19 crisis to borrowers that

were otherwise current prior to the relief being granted would not be considered to be troubled debt restructurings. This includes short-term modifications such as payment deferrals, fee waivers, repayment term extensions or payment delays that are insignificant. The Interagency Statement was developed in consultation with the FASB and the Group has applied this guidance. The Group has granted short-term modifications to certain borrowers due to the COVID-19 crisis in the form of deferrals of capital and interest payments that are within the scope of this guidance and the loans subject to those deferrals have not been reported as troubled debt restructurings in restructured loans.

¹ Gross amount of goodwill and accumulated impairment include CHF 12 million related to legacy business transferred to the former Strategic Resolution Unit in 4Q15 and fully written off at the time of transfer, in addition to the divisions disclosed.

In accordance with US GAAP, the Group continually assesses whether or not there has been a triggering event requiring a review of goodwill. The Board of Directors of the Group is currently conducting a review of the Group's overall business strategy and risk appetite in addition to business reviews and potential personnel and organizational changes contemplated in response to both the Archegos and the supply chain finance fund matters previously disclosed. The Group has determined that these strategy and business reviews, and the associated and anticipated changes to the financial plans arising from these reviews, were goodwill triggering events for 2021 impacting all reporting units of the Group.

As previously disclosed, effective April 1, 2021, the Asset Management business was separated from the International Wealth Management division and managed as a new separate division of the Group. For goodwill testing purposes the new Asset Management division is considered a reporting unit of the Group.

Based on its goodwill impairment analysis performed, the Group concluded that the estimated fair value for all of the reporting units with goodwill exceeded their related carrying values and no impairments were necessary as of June 30, 2021. The fair value of the Investment Bank reporting unit exceeded its related carrying value by only 4%. The goodwill allocated to this reporting unit became more sensitive to an impairment due to the uncertainties arising from the Archegos matter and the strategy and business reviews. The Board of Directors has constrained, in conjunction with FINMA, the amount of risk-weighted assets and leverage exposure for both the Investment Bank and the Group until such time as the strategy and business review is complete. There is a significant risk of a future goodwill impairment for the Investment Bank if these reviews have an adverse impact on the financial plans for this reporting unit.

The carrying value of each reporting unit for the purpose of the goodwill impairment test is determined by considering the

reporting units' risk-weighted assets usage, leverage ratio exposure, deferred tax assets, goodwill, intangible assets and other CET1 capital relevant adjustments. Any residual equity, after considering the total of these elements, is allocated to the reporting units on a pro-rata basis.

In estimating the fair value of its reporting units, the Group applied a combination of the market approach and the income approach. Under the market approach, consideration was given to price to projected earnings multiples or price to book value multiples for similarly traded companies and prices paid in recent transactions that have occurred in its industry or in related industries. Under the income approach, a discount rate was applied that reflects the risk and uncertainty related to the reporting unit's projected cash flows, which were determined from the Group's financial plan.

In determining the estimated fair value, the Group relied upon its latest five-year financial plan which included significant management assumptions and estimates based on its view of current and future economic conditions and regulatory changes.

The Group engaged the services of an independent valuation specialist to assist in the valuation of the Investment Bank and Asset Management reporting units as of June 30, 2021. The valuations were performed using a combination of the market approach and income approach.

The results of the impairment evaluation of each reporting unit's goodwill would be significantly impacted by adverse changes in the underlying parameters used in the valuation process. If actual outcomes or the future outlook adversely differ from management's best estimates of the key economic assumptions and associated cash flows applied in the valuation of the reporting unit, the Group could potentially incur material impairment charges in the future.

² At par value CHF 0.04 each, fully paid. In addition to the treasury shares, a maximum of 653,000,000 unissued shares (conditional, conversion and authorized capital) were available for issuance without further approval of the shareholders. 111,193,477 of these shares were reserved for capital instruments.

24 Offsetting of financial assets and financial liabilities

The disclosures set out in the tables below include derivatives, reverse repurchase and repurchase agreements, and securities lending and borrowing transactions that:

- are offset in the Group's consolidated balance sheets; or
- are subject to an enforceable master netting agreement or similar agreement (enforceable master netting agreements), irrespective of whether they are offset in the Group's consolidated balance sheets.

Similar agreements include derivative clearing agreements, global master repurchase agreements and global master securities lending agreements.

Derivatives

The Group transacts bilateral over-the-counter (OTC) derivatives (OTC derivatives) mainly under International Swaps and Derivatives Association (ISDA) Master Agreements and Swiss Master Agreements for OTC derivative instruments. These agreements provide for the net settlement of all transactions under the agreement through a single payment in the event of default or termination under the agreement. They allow the Group to offset balances from derivative assets and liabilities as well as the receivables and payables to related cash collateral transacted with the same counterparty. Collateral for OTC derivatives is received and provided in the form of cash and marketable securities. Such collateral may be subject to the standard industry terms of an ISDA Credit Support Annex. The terms of an ISDA Credit Support Annex provide that securities received or provided as collateral may be pledged or sold during the term of the transactions and must be returned upon maturity of the transaction. These terms also give each counterparty the right to terminate

the related transactions upon the other counterparty's failure to post collateral. Financial collateral received or pledged for OTC derivatives may also be subject to collateral agreements which restrict the use of financial collateral.

For derivatives transacted with exchanges (exchange-traded derivatives) and central clearing counterparties (OTC-cleared derivatives), positive and negative replacement values (PRV/NRV) and related cash collateral may be offset if the terms of the rules and regulations governing these exchanges and central clearing counterparties permit such netting and offset.

Where no such agreements or terms exist, fair values are recorded on a gross basis.

Exchange-traded derivatives or OTC-cleared derivatives, which are fully margined and for which the daily margin payments constitute settlement of the outstanding exposure, are not included in the offsetting disclosures because they are not subject to offsetting due to the daily settlement. The daily margin payments, which are not settled until the next settlement cycle is conducted, are presented in brokerage receivables or brokerage payables. The notional amount for these daily settled derivatives is included in the fair value of derivative instruments table in "Note 28 – Derivatives and hedging activities".

Under US GAAP, the Group elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value. There is an exception for certain bifurcated hybrid debt instruments which the Group did not elect to account for at fair value. However, these bifurcated embedded derivatives are

generally not subject to enforceable master netting agreements and are not recorded as derivative instruments under trading assets and liabilities or other assets and other liabilities. Information on bifurcated embedded derivatives has therefore not been included in the offsetting disclosures.

The following table presents the gross amount of derivatives subject to enforceable master netting agreements by contract and transaction type, the amount of offsetting, the amount of derivatives not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

Offsetting of derivatives

¹ Primarily precious metals, commodity and energy products.

² Represents derivatives where a legal opinion supporting the enforceability of netting in the event of default or termination under the agreement is not in place.

Reverse repurchase and repurchase agreements and securities lending and borrowing transactions

Reverse repurchase and repurchase agreements are generally covered by master repurchase agreements. In certain situations, for example, in the event of default, all contracts under the agreements are terminated and are settled net in one single payment. Master repurchase agreements also include payment or settlement netting provisions in the normal course of business that state that all amounts in the same currency payable by each party to the other under any transaction or otherwise under the master repurchase agreement on the same date shall be set off.

As permitted by US GAAP the Group has elected to net transactions under such agreements in the consolidated balance sheet when specific conditions are met. Transactions are netted if, among other conditions, they are executed with the same counterparty, have the same explicit settlement date specified at the inception of the transactions, are settled through the same securities transfer system and are subject to the same enforceable master netting agreement. The amounts offset are measured on the same basis as the underlying transaction (i.e., on an accrual basis or fair value basis).

Securities lending and borrowing transactions are generally executed under master securities lending agreements with netting terms similar to ISDA Master Agreements. In certain situations, for example in the event of default, all contracts under the agreement are terminated and are settled net in one single payment. Transactions under these agreements are netted in the

consolidated balance sheets if they meet the same right of offset criteria as for reverse repurchase and repurchase agreements. In general, most securities lending and borrowing transactions do not meet the criterion of having the same settlement date specified at inception of the transaction, and therefore they are not eligible for netting in the consolidated balance sheets. However, securities lending and borrowing transactions with explicit maturity dates may be eligible for netting in the consolidated balance sheets.

Reverse repurchase and repurchase agreements are collateralized principally by government securities, money market instruments and corporate bonds and have terms ranging from overnight to a longer or unspecified period of time. In the event of counterparty default, the reverse repurchase agreement or securities lending agreement provides the Group with the right to liquidate the collateral held. As is the case in the Group's normal course of business, a significant portion of the collateral received that may be sold or repledged was sold or repledged as of the end of 2Q21 and 4Q20. In certain circumstances, financial collateral received may be restricted during the term of the agreement (e.g., in tri-party arrangements).

The following table presents the gross amount of securities purchased under resale agreements and securities borrowing transactions subject to enforceable master netting agreements, the amount of offsetting, the amount of securities purchased under resale agreements and securities borrowing transactions not subject to enforceable master netting agreements and the net amount presented in the consolidated balance sheets.

Offsetting of securities purchased under resale agreements and securities borrowing transactions

¹ The total amount reported in financial instruments (recognized financial assets and financial liabilities and non-cash financial collateral) and cash collateral is limited to the amount of the related instruments presented in the consolidated balance sheets and therefore any over-collateralization of these positions is not included.

Net exposure is subject to further credit mitigation through the transfer of the exposure to other market counterparties by the use of credit default swaps and credit insurance contracts. Therefore,

the net exposure presented in the table above is not representative of the Group's counterparty exposure.

25 Tax

The 2Q21 income tax charge of CHF 566 million, resulting in an effective tax rate of 69.6% for the quarter, mainly reflected the estimated effective tax rate for the full year, as applied to the 2Q21 results in accordance with ASC Topic 740 – Income Taxes – Interim Reporting. This continues to primarily reflect the loss related to Archegos, for which only a partial tax benefit was recognized, and the application of a valuation allowance for the remainder of the loss. Other key drivers of the full year estimated effective tax rate were the impact of the geographical mix of results, the non-deductible funding costs and an additional valuation allowance in the Group's operating entities in the UK. The details of the 2Q21 tax rate reconciliation resulting from applying the estimated effective tax rate for the full year to the 2Q21 results are outlined below.

Net deferred tax assets related to net operating losses (NOL), net deferred tax assets on temporary differences and net deferred tax liabilities are presented in the following manner. Nettable gross deferred tax liabilities are allocated on a pro-rata basis to gross deferred tax assets on NOL and gross deferred tax assets on temporary differences. This approach is aligned with the underlying treatment of netting gross deferred tax assets and liabilities under the Basel III framework. Valuation allowances have been allocated against such deferred tax assets on NOL first, with any remainder allocated to such deferred tax assets on temporary differences. This presentation is considered the most appropriate disclosure given the underlying nature of the gross deferred tax balances.

As of June 30, 2021, the Group had accumulated undistributed earnings from foreign subsidiaries of CHF 19.4 billion, which are considered indefinitely reinvested. The Group would need to accrue and pay taxes on these undistributed earnings if such earnings were repatriated. No deferred tax liability was recorded in respect of those amounts, as these earnings are considered indefinitely reinvested. It is not practicable to estimate the amount of unrecognized deferred tax liabilities for these undistributed foreign earnings.

The Group is currently subject to ongoing tax audits, inquiries and litigation with the tax authorities in a number of jurisdictions, including Brazil, the Netherlands, Germany, the US, the UK and Switzerland. Although the timing of completion is uncertain, it is reasonably possible that some of these will be resolved within 12 months of the reporting date. It is reasonably possible that there will be a decrease between zero and CHF 60 million in unrecognized tax benefits within 12 months of the reporting date.

The Group remains open to examination from federal, state, provincial or similar local jurisdictions from the following years onward in these major countries: Brazil – 2016; Switzerland – 2015 (federal and Zurich cantonal level); the UK – 2012; the Netherlands – 2011; and the US – 2010.

Effective tax rate

in	2Q21	1Q21	2Q20	6M21	6M20
Effective tax rate (%)	69.6	69.5	25.2	71.4	10.2

Tax expense reconciliation

in	2Q21
Income tax expense computed at the Swiss statutory tax rate of 18.5% (CHF million)	150
Increase/(decrease) in income taxes resulting from	
Foreign tax rate differential	(45)
Changes in tax law and rates	(31)
Other non-deductible expenses	140
Changes in deferred tax valuation allowance	292
Lower taxed income	(40)
Income taxable to noncontrolling interests	15
(Windfall tax benefits)/shortfall tax charges on share-based compensation	31
Other	54
Income tax expense	566

Foreign tax rate differential

2Q21 included a foreign tax impact of CHF 45 million, mainly driven by the estimated current year earnings mix.

Changes in tax law and rates

2Q21 included the impact of CHF 31 million related to the tax rate change in the UK.

Other non-deductible expenses

2Q21 included the impact of CHF 140 million relating to non-deductible interest expenses, the UK bank levy and other non-deductible expenses.

Changes in deferred tax valuation allowance

2Q21 included the impact of the estimated current year earnings, resulting in an increase in the valuation allowance of CHF 310 million, mainly in respect of the Group's operating entities in the UK. This was partially offset by a decrease in the valuation allowance of CHF 18 million, mainly in respect of one of the Group's operating entities in Switzerland.

Lower taxed income

2Q21 primarily included the impact of CHF 26 million related to non-taxable life insurance income and CHF 13 million related to non-taxable dividend income. The remaining balance included various smaller items.

Other

2Q21 included the impact of CHF 54 million, which mainly reflected the tax impact of CHF 26 million relating to withholding

taxes, CHF 25 million relating to an accounting standard implementation transition adjustment for own credit movements, CHF 10 million relating to the current year base erosion and anti-abuse tax (BEAT) provision, CHF 7 million relating to own credit valuation movements and CHF 5 million relating to tax contingency accruals. This was partially offset by the tax benefit of CHF 22 million relating to prior years' adjustments. The remaining balance included various smaller items.

Net deferred tax assets

Net deferred tax assets	3,623	3,407

26 Employee deferred compensation

The Group's current and previous deferred compensation plans include share awards, performance share awards, Contingent Capital Awards (CCA), deferred cash awards and retention awards.

→ Refer to "Note 30 – Employee deferred compensation" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information.

The following tables show the compensation expense for deferred compensation awards recognized in the consolidated statements of operations, the estimated unrecognized expense for deferred compensation awards granted in 2021 and prior periods and the remaining requisite service period over which the unrecognized expense will be recognized. The estimated unrecognized compensation expense was based on the fair value of each award on the grant date and included the current estimated outcome of relevant performance criteria and estimated future forfeitures, but no estimate for future mark-to-market adjustments.

Deferred compensation expense

Aggregate remaining weighted-average requisite service period	1.3
---	-----

of this compensation in 2021 totaled CHF 32 million, of which CHF 3 million was related to awards granted in 2021.

In 3Q21, the Group granted deferred fixed cash compensation of CHF 95 million to certain employees in the Americas. This compensation will be expensed mainly in the Investment Bank division over a three-year vesting period from the grant date.

Retention awards

In 2021, the Group granted deferred cash and share retention awards of CHF 235 million, mainly in the Investment Bank division. These awards will be expensed over the applicable vesting period from the grant date. Amortization of retention awards in 2021 totaled CHF 26 million, of which CHF 9 million was related to awards granted in 2021.

In 3Q21, the Group granted deferred share retention awards of CHF 24 million in the Investment Bank division. These awards will be expensed over the applicable vesting period from the grant date.

Deferred cash awards

In 2021, the Group granted deferred fixed cash compensation of CHF 12 million to certain employees in the Americas. This compensation will be expensed mainly in the Investment Bank division over a three-year vesting period from the grant date. Amortization

Share-based award activity

27 Pension and other post-retirement benefits

The Group sponsors defined contribution pension plans, defined benefit pension plans and other post-retirement defined benefit plans. The Group recognized expenses of CHF 60 million, CHF 70 million, CHF 58 million, CHF 130 million and CHF 154 million, related to its defined contribution pension plans in 2Q21, 1Q21, 2Q20, 6M21 and 6M20, respectively.

→ Refer to "Note 32 – Pension and other post-retirement benefits" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information.

The Group expects to contribute CHF 338 million to the Swiss and international defined benefit plans and other post-retirement defined benefit plans in 2021. As of the end of 2Q21, CHF 180 million of contributions have been made.

Components of net periodic benefit costs

in	2Q21	1Q21	2Q20	6M21	6M20
Net periodic benefit costs/(credits) (CHF million)					
Service costs on benefit obligation	60	60	55	120	109
Interest costs on benefit obligation	15	15	23	30	47
Expected return on plan assets	(120)	(123)	(109)	(243)	(219)
Amortization of recognized prior service cost/(credit)	(31)	(29)	(41)	(60)	(83)
Amortization of recognized actuarial losses	93	93	87	186	174
Settlement losses/(gains)	2	(10)	2	(8)	5
Curtailment losses/(gains)	2	(1)	0	1	0
Special termination benefits	3	10	0	13	3
Net periodic benefit costs	24	15	17	39	36

Service costs on benefit obligation are reflected in compensation and benefits. Other components of net periodic benefit costs are reflected in general and administrative expenses or, except for 2Q20 and 6M20, in restructuring expenses.

28 Derivatives and hedging activities

→ Refer to "Note 33 – Derivatives and hedging activities" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information.

relationship. Notional amounts have also been provided as an indication of the volume of derivative activity within the Group.

Fair value of derivative instruments

The tables below present gross derivative replacement values by type of contract and balance sheet location and whether the derivative is used for trading purposes or in a qualifying hedging

Information on bifurcated embedded derivatives has not been included in these tables. Under US GAAP, the Group elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value.

→ Refer to "Note 31 – Financial instruments" for further information.

As of the end of 2Q21, the maximum length of time over which the Group hedged its exposure to the variability in future cash flows for forecasted transactions, excluding those forecasted transactions related to the payment of variable interest on existing financial instruments, was 12 months.

The net gain associated with cash flow hedges expected to be reclassified from AOCI within the next 12 months is CHF 50 million.

Net investment hedges

The Group includes all derivative instruments not included in hedge accounting relationships in its trading activities.

→ Refer to "Note 7 – Trading revenues" for gains and losses on trading activities by product type.

Disclosures relating to contingent credit risk

Certain of the Group's derivative instruments contain provisions that require it to maintain a specified credit rating from each of the major credit rating agencies. If the ratings fall below the level specified in the contract, the counterparties to the agreements could request payment of additional collateral on those derivative instruments that are in a net liability position. Certain of the derivative contracts also provide for termination of the contract, generally upon a downgrade of either the Group or the counterparty. Such derivative contracts are reflected at close-out costs.

The following table provides the Group's current net exposure from contingent credit risk relating to derivative contracts with

bilateral counterparties and SPEs that include credit support agreements, the related collateral posted and the additional collateral required in a one-notch, two-notch and a three-notch downgrade event, respectively. The table also includes derivative contracts with contingent credit risk features without credit support agreements that have accelerated termination event conditions. The current net exposure for derivative contracts with bilateral counterparties and contracts with accelerated termination event conditions is the aggregate fair value of derivative instruments that were in a net liability position. For SPEs, the current net exposure is the contractual amount that is used to determine the collateral payable in the event of a downgrade. The contractual amount could include both the NRV and a percentage of the notional value of the derivative.

Contingent credit risk

end of	2Q21				4Q20			
	Bilateral counterparties	Special purpose entities	Accelerated terminations	Total	Bilateral counterparties	Special purpose entities	Accelerated terminations	Total
Contingent credit risk (CHF billion)								
Current net exposure	2.4	0.0	0.4	2.8	3.0	0.0	0.4	3.4
Collateral posted	2.1	0.0	–	2.1	2.4	0.0	–	2.4
Impact of a three-notch downgrade event	0.5	0.0	0.1	0.6	0.5	0.0	0.2	0.7

The impact of a downgrade event reflects the amount of additional collateral required for bilateral counterparties and special purpose entities and the amount of additional termination expenses for accelerated terminations, respectively.

Credit derivatives

→ Refer to "Note 33 – Derivatives and hedging activities" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on credit derivatives.

underlyings are related to the credit risk of a specified entity (or a group of entities) or an index based on the credit risk of a group of entities and (b) that exposes the seller to potential loss from credit risk-related events specified in the contract.

Credit protection sold/purchased

The following tables do not include all credit derivatives and differ from the credit derivatives in the "Fair value of derivative instruments" tables. This is due to the exclusion of certain credit derivative instruments under US GAAP, which defines a credit derivative as a derivative instrument (a) in which one or more of its

Total return swaps (TRS) of CHF 14.3 billion and CHF 14.4 billion as of the end of 2Q21 and 4Q20 were also excluded because a TRS does not expose the seller to potential loss from credit risk-related events specified in the contract. A TRS only provides protection against a loss in asset value and not against additional amounts as a result of specific credit events.

¹ Represents credit protection purchased with identical underlyings and recoveries.

² Based on internal ratings of BBB and above.

³ Includes synthetic securitized loan portfolios.

Credit protection sold

Credit protection sold is the maximum potential payout, which is based on the notional value of derivatives and represents the amount of future payments that the Group would be required to make as a result of credit risk-related events.

Credit protection purchased

Credit protection purchased represents those instruments where the underlying reference instrument is identical to the reference instrument of the credit protection sold.

Other protection purchased

In the normal course of business, the Group purchases protection to offset the risk of credit protection sold that may have similar, but not identical, reference instruments and may use similar, but not identical, products, which reduces the total credit derivative exposure. Other protection purchased is based on the notional value of the instruments.

Fair value of credit protection sold

The fair values of the credit protection sold give an indication of the amount of payment risk, as the negative fair values increase when the potential payment under the derivative contracts becomes more probable.

The following table reconciles the notional amount of credit derivatives included in the table "Fair value of derivative instruments" to the table "Credit protection sold/purchased".

Credit derivatives

end of	2Q21	4Q20
Credit derivatives (CHF billion)		
Credit protection sold	263.4	204.8
Credit protection purchased	251.2	189.4
Other protection purchased	65.4	59.2
Other instruments ¹	14.3	14.4
Total credit derivatives	594.3	467.8

¹ Consists of total return swaps and other derivative instruments.

The segregation of the future payments by maturity range and underlying risk gives an indication of the current status of the potential for performance under the derivative contracts.

Maturity of credit protection sold

Total instruments	43.6	145.3	15.9	204.8

29 Guarantees and commitments

Guarantees

In the ordinary course of business, guarantees are provided that contingently obligate the Group to make payments to third parties if the counterparty fails to fulfill its obligation under a borrowing or other contractual arrangement. The total gross amount disclosed within the Guarantees table reflects the maximum potential payment under the guarantees. The carrying value represents the higher of the initial fair value (generally the related fee received or receivable) less cumulative amortization and the Group's current best estimate of payments that will be required under existing guarantee arrangements.

Guarantees provided by the Group are classified as follows: credit guarantees and similar instruments, performance guarantees and similar instruments, derivatives and other guarantees.

→ Refer to "Guarantees" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Guarantees and commitments in the Credit Suisse Annual Report 2020 for a detailed description of guarantees.

Guarantees

end of	Maturity less than 1 year	Maturity greater than 1 year	Total gross amount	Total net amount ¹	Carrying value	Collateral received
2Q21 (CHF million)						
Credit guarantees and similar instruments	2,411	1,921	4,332	4,268	20	2,195
Performance guarantees and similar instruments	4,484	2,868	7,352	6,223	38	2,706
Derivatives ²	11,082	4,968	16,050	16,050	403	– ³
Other guarantees	4,102	2,131	6,233	6,189	61	3,705
Total guarantees	22,079	11,888	33,967	32,730	522	8,606
4Q20 (CHF million)						
Credit guarantees and similar instruments	1,645	1,434	3,079	3,016	27	1,637
Performance guarantees and similar instruments	3,607	2,925	6,532	5,601	30	2,535
Derivatives ²	10,531	6,042	16,573	16,573	380	– ³
Other guarantees	3,555	2,588	6,143	6,130	85	3,725
Total guarantees	19,338	12,989	32,327	31,320	522	7,897

¹ Total net amount is computed as the gross amount less any participations.

² Excludes derivative contracts with certain active commercial and investment banks and certain other counterparties, as such contracts can be cash settled and the Group had no basis to conclude it was probable that the counterparties held, at inception, the underlying instruments.

³ Collateral for derivatives accounted for as guarantees is not significant.

Deposit-taking banks and securities dealers in Switzerland and certain other European countries are required to ensure the payout of privileged deposits in case of specified restrictions or compulsory liquidation of a deposit-taking bank. In Switzerland, deposit-taking banks and securities dealers jointly guarantee an amount of up to CHF 6 billion. Upon occurrence of a payout event triggered by a specified restriction of business imposed by FINMA or by the compulsory liquidation of another deposit-taking bank, the Group's contribution will be calculated based on its share of privileged deposits in proportion to total privileged deposits. Based on FINMA's estimate for the Group's banking subsidiaries in Switzerland, the Group's share in the deposit insurance guarantee program for the period July 1, 2020 to June 30, 2021 was CHF 0.5 billion. These deposit insurance guarantees were reflected in other guarantees.

Representations and warranties on residential mortgage loans sold

In connection with the Investment Bank division's sale of US residential mortgage loans, the Group has provided certain representations and warranties relating to the loans sold. The Group has provided these representations and warranties relating to sales of loans to institutional investors, primarily banks, and non-agency, or private label, securitizations. The loans sold are primarily loans that the Group has purchased from other parties. The scope of representations and warranties, if any, depends on the transaction, but can include: ownership of the mortgage loans and legal capacity to sell the loans; loan-to-value (LTV) ratios and other characteristics of the property, the borrower and the loan; validity of the liens securing the loans and absence of delinquent taxes or related liens; conformity to underwriting standards and completeness of documentation; and origination in compliance with law. If it is determined that representations and warranties were breached, the Group may be required to repurchase the related

loans or indemnify the investors to make them whole for losses. Whether the Group will incur a loss in connection with repurchases and make whole payments depends on: the extent to which claims are made; the validity of such claims made within the statute of limitations (including the likelihood and ability to enforce claims); whether the Group can successfully claim against parties that sold loans to the Group and made representations and warranties to the Group; the residential real estate market, including the number of defaults; and whether the obligations of the securitization vehicles were guaranteed or insured by third parties.

Repurchase claims on residential mortgage loans sold that are subject to arbitration or litigation proceedings, or become so during the reporting period, are not included in this Guarantees and commitments disclosure but are addressed in litigation and related loss contingencies and provisions. The Group is involved in litigation relating to representations and warranties on residential mortgages sold.

→ Refer to "Note 33 – Litigation" for further information.

Disposal-related contingencies and other indemnifications

The Group has certain guarantees for which its maximum contingent liability cannot be quantified. These guarantees include disposal-related contingencies in connection with the sale of assets or businesses, and other indemnifications. These guarantees are not reflected in the "Guarantees" table.

→ Refer to "Disposal-related contingencies and other indemnifications" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Guarantees and commitments in the Credit Suisse Annual Report 2020 for a description of these guarantees.

Other commitments

Other commitments of the Group are classified as follows: irrevocable commitments under documentary credits, irrevocable loan commitments, forward reverse repurchase agreements and other commitments.

→ Refer to "Other commitments" in VI – Consolidated financial statements – Credit Suisse Group – Note 34 – Guarantees and commitments in the Credit Suisse Annual Report 2020 for a description of these commitments.

Other commitments

¹ Total net amount is computed as the gross amount less any participations.

² Irrevocable loan commitments do not include a total gross amount of CHF 144,958 million and CHF 130,877 million of unused credit limits as of the end of 2Q21 and 4Q20 respectively, which were revocable at the Group's sole discretion upon notice to the client.

30 Transfers of financial assets and variable interest entities

In the normal course of business, the Group enters into transactions with, and makes use of, SPEs. An SPE is an entity in the form of a trust or other legal structure designed to fulfill a specific limited need of the company that organized it and is generally structured to isolate the SPE's assets from creditors of other entities, including the Group. The principal uses of SPEs are to assist the Group and its clients in securitizing financial assets and creating investment products. The Group also uses SPEs for other client-driven activity, such as to facilitate financings, and for Group tax or regulatory purposes.

Transfers of financial assets

Securitizations

The majority of the Group's securitization activities involve mortgages and mortgage-related securities and are predominantly transacted using SPEs. In a typical securitization, the SPE purchases assets financed by proceeds received from the SPE's issuance of debt and equity instruments, certificates, CP and other notes of indebtedness. These assets and liabilities are recorded on the balance sheet of the SPE and not reflected on the Group's consolidated balance sheet, unless either the Group sold the assets to the entity and the accounting requirements for sale were not met or the Group consolidates the SPE.

The Group purchases commercial and residential mortgages for the purpose of securitization and sells these mortgage loans to SPEs. These SPEs issue commercial mortgage-backed securities (CMBS), residential mortgage-backed securities (RMBS) and asset-backed securities (ABS) that are collateralized by the assets transferred to the SPE and that pay a return based on the returns on those assets. Investors in these mortgage-backed securities or ABS typically have recourse to the assets in the SPEs. Third-party guarantees may further enhance the creditworthiness of the assets. The investors and the SPEs have no recourse to the Group's assets. The Group is typically an underwriter of, and makes a market in, these securities.

The Group also transacts in re-securitizations of previously issued RMBS. Typically, certificates issued out of an existing securitization vehicle are sold into a newly created and separate securitization vehicle. Often, these re-securitizations are initiated in order to re-securitize an existing security to give the investor an investment with different risk ratings or characteristics.

The Group also uses SPEs for other asset-backed financings relating to client-driven activity and for Group tax or regulatory purposes. Types of structures included in this category include managed CLOs, CLOs, leveraged finance, repack and other types of transactions, including life insurance structures, emerging market structures set up for financing, loan participation or loan origination purposes, and other alternative structures created for the purpose of investing in venture capital-like investments. CLOs are collateralized by loans transferred to the CLO vehicle and pay a return based on the returns on the loans. Leveraged finance structures are used to assist in the syndication of certain loans held by the Group, while repack structures are designed to give a client collateralized exposure to specific cash flows or credit risk backed by collateral purchased from the Group. In these asset-backed financing structures, investors typically only have recourse to the collateral of the SPE and do not have recourse to the Group's assets.

When the Group transfers assets into an SPE, it must assess whether that transfer is accounted for as a sale of the assets. Transfers of assets may not meet sale requirements if the assets have not been legally isolated from the Group and/or if the Group's continuing involvement is deemed to give it effective control over the assets. If the transfer is not deemed a sale, it is instead accounted for as a secured borrowing, with the transferred assets as collateral.

Gains and losses on securitization transactions depend, in part, on the carrying values of mortgages and loans involved in the transfer and are allocated between the assets sold and any beneficial interests retained according to the relative fair values at the date of sale.

The Group does not retain material servicing responsibilities from securitization activities.

The following table provides the gains or losses and proceeds from the transfer of assets relating to 6M21 and 6M20 securitizations of financial assets that qualify for sale accounting and subsequent derecognition, along with the cash flows between the Group and the SPEs used in any securitizations in which the Group still has continuing involvement, regardless of when the securitization occurred.

Securizations

in	6M21	6M20
Gains/(losses) and cash flows (CHF million)		
CMBS		
Net gain ¹	0	30
Proceeds from transfer of assets	999	4,862
Cash received on interests that continue to be held	26	21
RMBS		
Net gain ¹	62	22
Proceeds from transfer of assets	20,876	11,373
Purchases of previously transferred financial assets or its underlying collateral	(1,072)	0
Servicing fees	1	1
Cash received on interests that continue to be held	430	457
Other asset-backed financings		
Net gain ¹	47	61
Proceeds from transfer of assets	6,802	4,766
Purchases of previously transferred financial assets or its underlying collateral	(699)	(638)
Fees ²	81	72
Cash received on interests that continue to be held	7	11

¹ Includes underwriting revenues, deferred origination fees, gains or losses on the sale of collateral to the SPE and gains or losses on the sale of newly issued securities to third parties, but excludes net interest income on assets prior to the securitization. The gains or losses on the sale of the collateral is the difference between the fair value on the day prior to the securitization pricing date and the sale price of the loans.

² Represents management fees and performance fees earned for investment management services provided to managed CLOs.

Continuing involvement in transferred financial assets

The Group may have continuing involvement in the financial assets that are transferred to an SPE, which may take several forms, including, but not limited to, servicing, recourse and guarantee arrangements, agreements to purchase or redeem transferred assets, derivative instruments, pledges of collateral and beneficial interests in the transferred assets.

→ Refer to "Transfers of financial assets" in VI – Consolidated financial statements – Credit Suisse Group – Note 35 – Transfers of financial assets and variable interest entities in the Credit Suisse Annual Report 2020 for a detailed description of continuing involvement in transferred financial assets.

The following table provides the outstanding principal balance of assets to which the Group continued to be exposed after the transfer of the financial assets to any SPE and the total assets of the SPE as of the end of 2Q21 and 4Q20, regardless of when the transfer of assets occurred.

Principal amounts outstanding and total assets of SPEs resulting from continuing involvement

end of	2Q21	4Q20
CHF million		
CMBS		
Principal amount outstanding	16,247	17,421
Total assets of SPE	23,079	24,455
RMBS		
Principal amount outstanding	58,318	47,324
Total assets of SPE	58,318	47,863
Other asset-backed financings		
Principal amount outstanding	26,307	24,968
Total assets of SPE	55,188	50,817

Principal amount outstanding relates to assets transferred from the Group and does not include principal amounts for assets transferred from third parties.

Fair value of beneficial interests

The fair value measurement of the beneficial interests held at the time of transfer and as of the reporting date that result from any continuing involvement is determined using fair value estimation techniques, such as the present value of estimated future cash flows that incorporate assumptions that market participants customarily use in these valuation techniques. The fair value of the assets or liabilities that result from any continuing involvement does not include any benefits from financial instruments that the Group may utilize to hedge the inherent risks.

Key economic assumptions at the time of transfer

→ Refer to "Note 31 – Financial instruments" for further information on the fair value hierarchy.

Key economic assumptions used in measuring fair value of beneficial interests at time of transfer

Prepayment speed assumption (rate per annum), in % ¹	– ²	3.0–32.8	– ²	1.0–38.2
Cash flow discount rate (rate per annum), in % ³	1.8–4.5	1.0–15.4	1.4–9.2	0.7–24.7
Expected credit losses (rate per annum), in % ⁴	0.9–3.9	0.1–13.7	4.0–8.6	3.3–22.9

Transfers of assets in which the Group does not have beneficial interests are not included in this table.

¹ Prepayment speed assumption (PSA) is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the constant prepayment rate (CPR) assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

² To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

³ The rate is based on the weighted-average yield on the beneficial interests.

⁴ The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

Key economic assumptions as of the reporting date

The following table provides the sensitivity analysis of key economic assumptions used in measuring the fair value of beneficial interests held in SPEs as of the end of 2Q21 and 4Q20.

Key economic assumptions used in measuring fair value of beneficial interests held in SPEs

end of	2Q21			4Q20		
	CMBS ¹	RMBS	Other asset-backed financing activities ²	CMBS ¹	RMBS	Other asset-backed financing activities ²

Impact on fair value from 10% adverse change	(2.9)	(32.5)	(3.7)	(4.9)	(22.4)	(4.2)
Impact on fair value from 20% adverse change	(5.6)	(62.7)	(7.3)	(9.6)	(43.5)	(8.2)
Expected credit losses (rate per annum), in % ⁵	0.9–13.0	0.2–28.6	0.3–28.0	0.4–14.7	0.6–39.6	0.7–26.8
Impact on fair value from 10% adverse change	(1.8)	(25.9)	(3.5)	(4.3)	(20.2)	(4.5)
Impact on fair value from 20% adverse change	(3.5)	(50.2)	(6.8)	(8.5)	(39.2)	(8.9)

¹ To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

² CDOs and CLOs within this category are generally structured to be protected from prepayment risk.

³ PSA is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the CPR assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

⁴ The rate is based on the weighted-average yield on the beneficial interests.

⁵ The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

These sensitivities are hypothetical and do not reflect economic hedging activities. Changes in fair value based on a 10% or 20% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, the effect of a variation in a particular assumption on the fair value of the beneficial interests is calculated without changing any other assumption. In practice, changes in one assumption may result in changes in other assumptions (for example, increases in market interest rates may result in lower prepayments and increased credit losses), which might magnify or counteract the sensitivities.

Transfers of financial assets where sale treatment was not achieved

The following table provides the carrying amounts of transferred financial assets and the related liabilities where sale treatment was not achieved as of the end of 2Q21 and 4Q20.

→ Refer to "Note 32 – Assets pledged and collateral" for further information.

Securities sold under repurchase agreements and securities lending transactions accounted for as secured borrowings

For securities sold under repurchase agreements and securities lending transactions accounted for as secured borrowings, US GAAP requires the disclosure of the collateral pledged and the associated risks to which a transferor continues to be exposed after the transfer. This provides an understanding of the nature and risks of short-term collateralized financing obtained through these types of transactions.

Securities sold under repurchase agreements and securities lending transactions represent collateralized financing transactions used to earn net interest income, increase liquidity or facilitate trading activities. These transactions are collateralized principally by government debt securities, corporate debt securities, asset-backed securities, equity securities and other collateral and have terms ranging from on demand to a longer period of time.

In the event of the Group's default or a decline in fair value of collateral pledged, the repurchase agreement provides the counterparty with the right to liquidate the collateral held or request additional collateral. Similarly, in the event of the Group's default, the securities lending transaction provides the counterparty the right to liquidate the securities borrowed.

The following tables provide the gross obligation relating to securities sold under repurchase agreements, securities lending transactions and obligation to return securities received as collateral by the class of collateral pledged and by remaining contractual maturity as of the end of 2Q21 and 4Q20.

Variable interest entities

As a normal part of its business, the Group engages in various transactions that include entities that are considered variable interest entities (VIEs) and are grouped into three primary categories: collateralized debt obligations (CDOs)/CLOs, CP conduits and financial intermediation.

→ Refer to "Variable interest entities" in VI – Consolidated financial statements – Credit Suisse Group – Note 35 – Transfers of financial assets and variable interest entities in the Credit Suisse Annual Report 2020 for a detailed description of VIEs, CDO/CLOs, CP conduit or financial intermediation.

Collateralized debt and loan obligations

The Group engages in CDO/CLO transactions to meet client and investor needs, earn fees and sell financial assets and, in the case of CLOs, loans. The Group may act as underwriter, placement agent or asset manager and may warehouse assets prior to the closing of a transaction.

Commercial paper conduit

The Group acts as the administrator and provider of liquidity and credit enhancement facilities for Alpine Securitization Ltd (Alpine), a multi-seller asset-backed CP conduit used for client and Group financing purposes. Alpine discloses to CP investors certain portfolio and asset data and submits its portfolio to rating agencies for public ratings on its CP. This CP conduit purchases assets such as loans and receivables or enters into reverse repurchase agreements and finances such activities through the issuance of CP backed by these assets. In addition to CP, Alpine may also issue term notes with maturities up to 30 months. The Group (including Alpine) can enter into liquidity facilities with third-party entities pursuant to which it may be required to purchase assets from these entities to provide them with liquidity and credit support. The financing transactions are structured to provide credit support in the form of over-collateralization and other asset-specific enhancements. Alpine is a separate legal entity that is wholly owned by the Group. However, its assets are available to satisfy only the claims of its creditors. In addition, the Group, as administrator and liquidity facility provider, has significant exposure to and power over the activities of Alpine. Alpine is considered a VIE for accounting purposes and the Group is deemed the primary beneficiary and consolidates this entity.

The overall average maturity of Alpine's outstanding CP was approximately 215 days as of the end of 2Q21. Alpine's CP was rated A-1(sf) by Standard & Poor's and P-1(sf) by Moody's and had exposures mainly in reverse repurchase agreements with a Group entity, consumer loans, solar loans and leases, aircraft loans and leases and car loans and leases.

The Group's financial commitment to this CP conduit consists of obligations under liquidity agreements. The liquidity agreements are asset-specific arrangements, which require the Group

to provide short-term financing to the CP conduit or to purchase assets from the CP conduit in certain circumstances, including, but not limited to, a lack of liquidity in the CP market such that the CP conduit cannot refinance its obligations or a default of an underlying asset. The asset-specific credit enhancements provided by the client seller of the assets remain unchanged as a result of such a purchase. In entering into such agreements, the Group reviews the credit risk associated with these transactions on the same basis that would apply to other extensions of credit.

The Group enters into liquidity facilities with CP conduits administered and sponsored by third parties. These third-party CP conduits are considered to be VIEs for accounting purposes. The Group is not the primary beneficiary and does not consolidate these third-party CP conduits. The Group's financial commitment to these third-party CP conduits consists of obligations under liquidity agreements. The liquidity agreements are asset-specific arrangements, which require the Group to provide short-term financing to the third-party CP conduits or to purchase assets from these CP conduits in certain circumstances, including, but not limited to, a lack of liquidity in the CP market such that the CP conduits cannot refinance their obligations or a default of an underlying asset. The asset-specific credit enhancements, if any, provided by the client seller of the assets remain unchanged as a result of such a purchase. In entering into such agreements, the Group reviews the credit risk associated with these transactions on the same basis that would apply to other extensions of credit. In some situations, the Group can enter into liquidity facilities with these third-party CP conduits through Alpine.

The Group's economic risks associated with the Alpine CP conduit and the third-party CP conduits are included in the Group's risk management framework including counterparty, economic risk capital and scenario analysis.

Financial intermediation

The Group has significant involvement with VIEs in its role as a financial intermediary on behalf of clients.

Financial intermediation consists of securitizations, funds, loans and other vehicles.

Consolidated VIEs

The Group has significant involvement with VIEs in its role as a financial intermediary on behalf of clients. The Group consolidates all VIEs related to financial intermediation for which it is the primary beneficiary.

The consolidated VIEs table provides the carrying amounts and classifications of the assets and liabilities of consolidated VIEs as of the end of 2Q21 and 4Q20.

¹ Reflects the Group's MCNs outstanding as of the end of 2Q21; these MCNs were issued by Credit Suisse Group (Guernsey) VII Limited, a consolidated VIE of the Group.

Non-consolidated VIEs

The non-consolidated VIEs table provides the carrying amounts and classification of the assets of variable interests recorded in the Group's consolidated balance sheets, maximum exposure to loss and total assets of the non-consolidated VIEs.

Certain VIEs have not been included in the following table, including VIEs structured by third parties in which the Group's interest

is in the form of securities held in the Group's inventory, certain repurchase financings to funds and single-asset financing vehicles not sponsored by the Group to which the Group provides financing but has very little risk of loss due to over-collateralization and/or guarantees, failed sales where the Group does not have any other holdings and other entities out of scope.

→ Refer to "Variable interest entities" in VI – Consolidated financial statements – Credit Suisse Group – Note 35 – Transfers of financial assets and variable interest entities in the Credit Suisse Annual Report 2020 for further information on non-consolidated VIEs.

¹ Includes liquidity facilities provided to third-party CP conduits through Alpine Securities Ltd.

31 Financial instruments

The disclosure of the Group's financial instruments below includes the following sections:

- Concentration of credit risk;
- Fair value measurement (including fair value hierarchy, transfers between levels; level 3 reconciliation; qualitative and quantitative disclosures of valuation techniques);
- Fair value option; and
- Disclosures about fair value of financial instruments not carried at fair value.

Concentrations of credit risk

Credit risk concentrations arise when a number of counterparties are engaged in similar business activities, are located in the same geographic region or when there are similar economic features that would cause their ability to meet contractual obligations to be similarly impacted by changes in economic conditions.

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the Group's concentrations of credit risk.

Fair value measurement

A significant portion of the Group's financial instruments is carried at fair value. Deterioration of financial markets could significantly impact the fair value of these financial instruments and the results of operations.

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on fair value measurement of financial instruments and the definition of the levels of the fair value hierarchy.

Qualitative disclosures of valuation techniques

Information on the valuation techniques and significant unobservable inputs of the various financial instruments and the section "Uncertainty of fair value measurements at the reporting date from the use of significant unobservable inputs" should be read in conjunction with the tables "Assets and liabilities measured at fair value on a recurring basis", "Quantitative information about level 3 assets measured at fair value on a recurring basis" and "Quantitative information about level 3 liabilities measured at fair value on a recurring basis".

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the Group's valuation techniques.

1 Changes in unrealized gains/(losses) on total assets at fair value and changes in unrealized (gains)/losses on total liabilities at fair value relating to assets and liabilities held at period end are included in net revenues or accumulated other comprehensive income. As of 6M21, changes in net unrealized gains/(losses) of CHF (1,011) million and CHF 25 million were recorded in trading revenues and other revenues, respectively, and changes in unrealized (gains)/losses of CHF 16 million were recorded in Gains/(losses) on liabilities relating to credit risk in Accumulated other comprehensive income/(loss).

¹ Changes in unrealized gains/(losses) on total assets at fair value and changes in unrealized (gains)/losses on total liabilities at fair value relating to assets and liabilities held at period end are included in net revenues or accumulated other comprehensive income. As of 6M20, changes in net unrealized gains/(losses) of CHF 289 million and CHF (36) million were recorded in trading revenues and other revenues, respectively, and changes in unrealized (gains)/losses of CHF 49 million were recorded in Gains/(losses) on liabilities relating to credit risk in Accumulated other comprehensive income/(loss).

² Includes an adjustment of CHF 118 million reflecting the impact of applying the fair value option on certain loans (previously held at amortized cost) at the adoption of the ASU 2019-05.

Both observable and unobservable inputs may be used to determine the fair value of positions that have been classified within level 3. As a result, the unrealized gains and losses for assets and liabilities within level 3 presented in the table above may include changes in fair value that were attributable to both observable and unobservable inputs.

The Group employs various economic hedging techniques in order to manage risks, including risks in level 3 positions. Such techniques may include the purchase or sale of financial instruments that are classified in levels 1 and/or 2. The realized and unrealized gains and losses for assets and liabilities in level 3 presented in the table above do not reflect the related realized or unrealized gains and losses arising on economic hedging instruments classified in levels 1 and/or 2.

The Group typically uses nonfinancial assets measured at fair value on a recurring or nonrecurring basis in a manner that reflects their highest and best use.

Transfers in and out of level 3

Transfers into level 3 assets during 6M21 were CHF 783 million, primarily from trading assets. These transfers were primarily in the credit and securitized products businesses, due to limited observability of pricing data and reduced pricing information from external providers. Transfers out of level 3 assets during 6M21 were CHF 3,372 million, primarily in trading assets, other investments and loans. These transfers were mainly related to global trading solutions and securitized products businesses, due to improved observability of pricing data and increased availability of pricing information from external providers, and the Group's equity investment in Allfunds Group, following its IPO.

Transfers into level 3 assets during 2Q21 were CHF 385 million, primarily from trading assets. These transfers were primarily in the credit and securitized products businesses, due to limited observability of pricing data and reduced pricing information from external providers. Transfers out of level 3 assets during 2Q21 were CHF 1,611 million, primarily in other investments and trading assets. These transfers were mainly related to the securitized products business, due to improved observability of pricing data and increased availability of pricing information from external

providers, and the Group's equity investment in Allfunds Group, following its IPO.

Uncertainty of fair value measurements at the reporting date from the use of significant unobservable inputs

For level 3 assets with significant unobservable inputs of buyback probability, contingent probability, correlation, dividend yield, funding spread, mean reversion, mortality rate, price, recovery rate, volatility or unadjusted NAV, in general, an increase in the significant unobservable input would increase the fair value. For level 3 assets with significant unobservable inputs of credit spread, default rate, discount rate, fund gap risk, gap risk, market implied life expectancy (for life settlement and premium finance instruments), prepayment rate or tax swap rate, in general, an increase in the significant unobservable input would decrease the fair value.

For level 3 liabilities, in general, an increase in the related significant unobservable inputs would have an inverse impact on fair value. An increase in the significant unobservable inputs contingent probability, credit spread, fund gap risk, gap risk, market implied life expectancy, mortality rate or price would increase the fair value. An increase in the significant unobservable inputs of buyback probability, correlation, discount rate, dividend yield, funding spread, mean reversion, prepayment rate, unadjusted NAV or volatility would decrease the fair value.

Interrelationships between significant unobservable inputs

Except as noted above, there are no material interrelationships between the significant unobservable inputs for the financial instruments. As the significant unobservable inputs move independently, generally an increase or decrease in one significant unobservable input will have no impact on the other significant unobservable inputs.

Quantitative disclosures of valuation techniques

The following tables provide the representative range of minimum and maximum values and the associated weighted averages of each significant unobservable input for level 3 assets and liabilities by the related valuation technique most significant to the related financial instrument.

Qualitative discussion of the ranges of significant unobservable inputs

The level of aggregation and diversity within the financial instruments disclosed in the tables above results in certain ranges of significant inputs being wide and unevenly distributed across asset and liability categories.

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the Group's qualitative discussion of the ranges of significant unobservable inputs.

Investment funds measured at net asset value per share

Certain investment funds are measured at net asset value per share.

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on investment funds measured at net asset value per share.

Assets and liabilities measured at fair value on a non-recurring basis

Certain assets and liabilities are measured at fair value on a non-recurring basis; that is, they are not measured at fair value on an

ongoing basis but are subject to fair value adjustments in certain circumstances.

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on assets and liabilities measured at fair value on a non-recurring basis.

Fair value option

The Group has availed itself of the simplification in accounting offered under the fair value option. This has been accomplished generally by electing the fair value option, both at initial adoption and for subsequent transactions, on items impacted by the hedge accounting requirements of US GAAP. For instruments for which hedge accounting could not be achieved but for which the Group is economically hedged, the Group has generally elected the fair value option. Where the Group manages an activity on a fair value basis but previously has been unable to achieve fair value accounting, the Group has generally utilized the fair value option to align its financial accounting to its risk management reporting.

→ Refer to "Note 36 – Financial instruments" in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020 for further information on the Group's election of the fair value option.

Gains and losses attributable to changes in instrument-specific credit risk on fair value option elected liabilities

The following table provides additional information regarding the gains and losses attributable to changes in instrument-specific credit risk on fair value option elected liabilities, which have been recorded in AOCI. The table includes both the amount of change

during the period and the cumulative amount that were attributable to the changes in instrument-specific credit risk. In addition, the table includes the gains and losses related to instrument-specific credit risk, which were previously recorded in AOCI but have been transferred to net income during the period.

of which sold or repledged	135,894	158,567

¹ Prior period has been corrected.

33 Litigation

The Group is involved in a number of judicial, regulatory and arbitration proceedings concerning matters arising in connection with the conduct of its businesses. The Group's material proceedings, related provisions and estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions are described in *Note 40 – Litigation in VI – Consolidated financial statements – Credit Suisse Group in the Credit Suisse Annual Report 2020* and updated in subsequent quarterly reports (including those discussed below). Some of these proceedings have been brought on behalf of various classes of claimants and seek damages of material and/or indeterminate amounts.

The Group accrues loss contingency litigation provisions and takes a charge to income in connection with certain proceedings when losses, additional losses or ranges of loss are probable and reasonably estimable. The Group also accrues litigation provisions for the estimated fees and expenses of external lawyers and other service providers in relation to such proceedings, including in cases for which it has not accrued a loss contingency provision. The Group accrues these fee and expense litigation provisions and takes a charge to income in connection therewith when such fees and expenses are probable and reasonably estimable. The Group reviews its legal proceedings each quarter to determine the adequacy of its litigation provisions and may increase or release provisions based on management's judgment and the advice of counsel. The establishment of additional provisions or releases of litigation provisions may be necessary in the future as developments in such proceedings warrant.

The specific matters described include (a) proceedings where the Group has accrued a loss contingency provision, given that it is probable that a loss may be incurred and such loss is reasonably estimable; and (b) proceedings where the Group has not accrued such a loss contingency provision for various reasons, including, but not limited to, the fact that any related losses are not reasonably estimable. The description of certain of the matters includes a statement that the Group has established a loss contingency provision and discloses the amount of such provision; for the other matters no such statement is made. With respect to the matters for which no such statement is made, either (a) the Group has not established a loss contingency provision, in which case the matter is treated as a contingent liability under the applicable accounting standard, or (b) the Group has established such a provision but believes that disclosure of that fact would violate confidentiality obligations to which the Group is subject or otherwise compromise attorney-client privilege, work product protection or other protections against disclosure or compromise the Group's management of the matter. The future outflow of funds in respect of any matter for which the Group has accrued loss contingency provisions cannot be determined with certainty based on currently available information, and accordingly may ultimately prove to be substantially greater (or may be less) than the provision that is reflected on the Group's balance sheet.

It is inherently difficult to determine whether a loss is probable or even reasonably possible or to estimate the amount of any loss or loss range for many of the Group's legal proceedings. Estimates, by their nature, are based on judgment and currently available information and involve a variety of factors, including, but not limited to, the type and nature of the proceeding, the progress of the matter, the advice of counsel, the Group's defenses and its experience in similar matters, as well as its assessment of matters, including settlements, involving other defendants in similar or related cases or proceedings. Factual and legal determinations, many of which are complex, must be made before a loss, additional losses or ranges of loss can be reasonably estimated for any proceeding.

Most matters pending against the Group seek damages of an indeterminate amount. While certain matters specify the damages claimed, such claimed amount may not represent the Group's reasonably possible losses. For certain of the proceedings discussed the Group has disclosed the amount of damages claimed and certain other quantifiable information that is publicly available.

The Group's aggregate litigation provisions include estimates of losses, additional losses or ranges of loss for proceedings for which such losses are probable and can be reasonably estimated. The Group does not believe that it can estimate an aggregate range of reasonably possible losses for certain of its proceedings because of their complexity, the novelty of some of the claims, the early stage of the proceedings, the limited amount of discovery that has occurred and/or other factors. The Group's estimate of the aggregate range of reasonably possible losses that are not covered by existing provisions for the proceedings discussed in Note 40 referenced above and updated in quarterly reports (including below) for which the Group believes an estimate is possible is zero to CHF 1.2 billion.

In 2021, the Group recorded net litigation provisions of CHF 265 million. After taking into account its litigation provisions, the Group believes, based on currently available information and advice of counsel, that the results of its legal proceedings, in the aggregate, will not have a material adverse effect on the Group's financial condition. However, in light of the inherent uncertainties of such proceedings, including those brought by regulators or other governmental authorities, the ultimate cost to the Group of resolving such proceedings may exceed current litigation provisions and any excess may be material to its operating results for any particular period, depending, in part, upon the operating results for such period.

Mortgage-related matters

Government and regulatory related matters

DOJ RMBS settlement

As previously disclosed, on January 18, 2017, Credit Suisse Securities (USA) LLC (CSS LLC) and its current and former US subsidiaries and US affiliates reached a settlement with the US Department of Justice (DOJ) related to its legacy residential mortgage-backed securities (RMBS) business, a business conducted through 2007. The settlement resolved potential civil claims by the DOJ related to certain of those Credit Suisse entities' packaging, marketing, structuring, arrangement, underwriting, issuance and sale of RMBS. Pursuant to the terms of the settlement a civil monetary penalty was paid to the DOJ in January 2017. The settlement also required the above-mentioned entities to provide certain levels of consumer relief measures, including affordable housing payments and loan forgiveness, and the DOJ and Credit Suisse agreed to the appointment of an independent monitor to oversee the completion of the consumer relief requirements of the settlement. Credit Suisse currently anticipates that it will take much longer than the five-year period provided in the settlement to satisfy in full its obligations in respect of these consumer relief measures and that it may only complete them by 2026 or later, subject to market conditions and the Group's risk appetite. In light of Credit Suisse's current plans as to how it will satisfy these obligations, Credit Suisse expects to incur additional costs beyond those previously anticipated in relation to satisfying those obligations. The amount of consumer relief Credit Suisse must provide also will increase after 2021 pursuant to the original settlement by 5% per annum of the outstanding amount due until these obligations are settled. The monitor publishes reports periodically on these consumer relief matters.

NJAG litigation

On June 17, 2021, in the civil action filed against CSS LLC and affiliated entities in the Superior Court of New Jersey, Chancery Division, Mercer County (SCNJ) by the New Jersey Attorney General (NJAG), on behalf of the State of New Jersey, the SCNJ entered orders granting the motion for partial summary judgment filed by the NJAG and denying the cross-motion for partial summary judgment filed by CSS LLC and its affiliates.

Civil litigation

The amounts disclosed below do not reflect actual realized plaintiff losses to date or anticipated future litigation exposure. Rather, unless otherwise stated, these amounts reflect the original unpaid principal balance amounts as alleged in these actions and do not include any reduction in principal amounts since issuance.

Repurchase litigations

On May 6, 2021, in the action brought by Home Equity Asset Trust 2007-1 against DLJ Mortgage Capital, Inc. (DLJ), in which plaintiff alleges damages of not less than USD 420 million, following oral argument before the New York State Court of Appeals in DLJ's appeal from the denial of its motion for partial summary judgment, the New York State Court of Appeals ordered re-argument of the appeal. On June 1, 2021, the Supreme Court for the State of New York, New York County (SCNY) postponed the commencement of the trial that had been scheduled to begin on October 11, 2021 until May 31, 2022. The commencement of the trial remains subject to the final resolution of DLJ's summary judgment appeal.

On June 4, 2021, following the parties' April 19, 2021 settlement of the actions, which remains subject to approval in a trust instruction proceeding to be brought in Minnesota state court by the trustee of the plaintiff trusts, the SCNY vacated the trial that had been scheduled to begin on January 10, 2022 in two consolidated actions filed against DLJ and its affiliate Select Portfolio Servicing, Inc.: one action brought by Home Equity Mortgage Trust Series 2006-1, Home Equity Mortgage Trust Series 2006-3 and Home Equity Mortgage Trust Series 2006-4, in which plaintiffs allege damages of not less than USD 730 million; and one action brought by Home Equity Mortgage Trust Series 2006-5, in which plaintiff alleges damages of not less than USD 500 million.

Bank loan litigation

On June 25, 2021, in the Texas state court action against CSS LLC and certain of its affiliates brought by entities related to Highland Capital Management LP, the trial court entered a new judgment. This new judgment followed the Texas Supreme Court's decision that reversed a portion of the September 4, 2015 judgment and dismissed various claims, but left standing the separate December 2014 jury verdict for plaintiff on its claims for fraudulent inducement by affirmative misrepresentation and remanded the case back to the trial court for further proceedings related to the calculation of damages and interest. The new judgment of June 25, 2021 awarded plaintiff a total of approximately USD 121 million. CSS LLC and its affiliates filed a notice of appeal from the judgment on July 23, 2021.

Rates-related matters

Regulatory Matters

On July 8, 2021, in the investigation by the European Commission alleging that Credit Suisse entities engaged in anticompetitive practices in connection with their supranational, sub-sovereign and agency (SSA) bonds trading business, Credit Suisse appealed the April 28, 2021 decision imposing a fine of EUR 11.9 million to the EU General Court.

Civil litigation

USD ICE LIBOR litigation

On June 3, 2021, in the civil action brought in the US District Court for the Northern District of California alleging that members of the ICE LIBOR panel, including Credit Suisse Group AG and certain of its affiliates, manipulated ICE LIBOR to profit from variable interest loans and credit cards, the court denied defendants' motion to transfer the case to the US District Court for the Southern District of New York (SDNY).

Treasury markets litigation

On May 14, 2021, in the consolidated putative class action relating to the US treasury markets, plaintiffs filed an amended complaint against CSS LLC, Credit Suisse International (CSI) and other defendants. On July 20, 2021, the SDNY entered a stipulation voluntarily dismissing CSI.

SSA bonds litigation

On July 19, 2021, in the consolidated class action litigation brought in the SDNY relating to SSA bonds, the United States Circuit Court of Appeals for the Second Circuit affirmed the SDNY's September 30, 2019 and March 18, 2020 decisions granting defendants' motions to dismiss.

Government-sponsored entity bonds litigation

In the four civil actions brought in the US District Court for the Middle District of Louisiana, the parties entered into an agreement to settle all claims. On June 9, 2021, plaintiffs voluntarily dismissed each action.

Credit default swap auction litigation

On June 30, 2021, Credit Suisse Group AG and affiliates, along with other banks and entities, were named in a putative class action complaint filed in the US District Court for the District of New Mexico alleging manipulation of credit default swap final auction prices.

OTC trading cases

On June 29, 2021, in the putative class action brought against certain Credit Suisse AG affiliates, as well as other financial institutions, alleging that the defendants conspired to keep stock-loan trading in an over-the-counter market and collectively boycotted certain trading platforms that sought to enter the market, defendants filed their opposition to plaintiffs' motion for class certification.

External asset manager matter

On April 15, 2021, the Geneva Prosecutor's Office issued an order closing and discontinuing the criminal investigation against Credit Suisse AG and its employees in connection with alleged criminal offenses committed by an external asset manager based in Geneva. In May 2021, Credit Suisse completed the second and final stage of the settlement with affected clients.

Mozambique matter

Credit Suisse is in ongoing dialogue with regulatory and enforcement authorities regarding their inquiries into certain Credit Suisse entities' arrangement of loan financing to Mozambique state enterprises, Proindicus S.A. and Empresa Mocambiaca de Atum S.A. (EMATUM), a distribution to private investors of loan participation notes (LPN) related to the EMATUM financing in September 2013, and certain Credit Suisse entities' subsequent role in arranging the exchange of those LPNs for Euro-bonds issued by the Republic of Mozambique.

The English High Court has scheduled trial to begin in October 2023 in the litigation filed by the Republic of Mozambique against certain Credit Suisse entities, three former employees and several other unrelated entities.

On June 3, 2021, United Bank for Africa PLC, a member of the ProIndicus syndicate, brought a claim against certain Credit Suisse entities seeking, contingent on the Republic of Mozambique's claim, a declaration that Credit Suisse is liable to compensate it for alleged losses suffered as a result of any invalidity of the sovereign guarantee. The Credit Suisse entities filed their defense to this claim on July 1, 2021.

ETN-related litigation

On June 4, 2021, in the individual action brought in the SDNY by a purchaser of VelocityShares Daily Inverse VIX Short Term Exchange Traded Notes linked to the S&P 500 VIX Short-Term Futures Index due December 4, 2030 (XIV ETNs), which asserts claims similar to those brought in the consolidated class action complaint as well as additional claims under Pennsylvania state law, plaintiff filed an amended complaint. On July 19, 2021, Credit Suisse AG filed a motion to dismiss.

Bulgarian former clients matter

Following charges brought in 2020 by the Swiss Office of the Attorney General against Credit Suisse AG and other parties concerning the diligence and controls applied to a historical relationship with Bulgarian former clients who are alleged to have laundered funds through Credit Suisse AG accounts, the Swiss Federal Criminal Court has scheduled trial to take place in February 2022.

SCFF and Archegos matters

We have received requests for documents and information in connection with inquiries, investigations and/or actions relating to the supply chain finance fund (SCFF) and/or Archegos matters by FINMA, the DOJ, the US Securities and Exchange Commission (SEC), the US Federal Reserve, the Commodity Futures Trading Commission (CFTC), the US Senate Banking Committee, the UK Financial Conduct Authority (FCA) and other regulatory and governmental agencies. Credit Suisse is cooperating with the authorities on these matters. In connection with FINMA's enforcement actions, third parties appointed by it will conduct investigations into these matters. The Luxembourg Commission de Surveillance du Secteur Financier (CSSF) has also announced its intention to review the SCFF matter through a third party.

On April 16, 2021, Credit Suisse Group AG and certain current and former executives were named in a putative class action complaint filed in the SDNY by a holder of Credit Suisse American Depositary Receipts, asserting claims for violations of Sections 10(b) and 20(a) of the US Securities Exchange Act of 1934 and Rule 10b-5 thereunder, alleging that defendants violated US securities laws by making material misrepresentations and omissions regarding Credit Suisse's risk management practices with respect to the SCFF and Archegos matters.

As these matters develop, we may become subject to additional litigation and regulatory inquiries, investigations and actions.

Cautionary statement regarding forward-looking information

This document contains statements that constitute forward-looking statements. In addition, in the future we, and others on our behalf, may make statements that constitute forward-looking statements. Such forward-looking statements may include, without limitation, statements relating to the following:

- our plans, targets or goals;
- our future economic performance or prospects;
- the potential effect on our future performance of certain contingencies; and
- assumptions underlying any such statements.

Words such as “believes,” “anticipates,” “expects,” “intends” and “plans” and similar expressions are intended to identify forward-looking statements but are not the exclusive means of identifying such statements. We do not intend to update these forward-looking statements.

By their very nature, forward-looking statements involve inherent risks and uncertainties, both general and specific, and risks exist that predictions, forecasts, projections and other outcomes described or implied in forward-looking statements will not be achieved. We caution you that a number of important factors could cause results to differ materially from the plans, targets, goals, expectations, estimates and intentions expressed in such forward-looking statements and that the COVID-19 pandemic creates significantly greater uncertainty about forward-looking statements in addition to the factors that generally affect our business. These factors include:

- the ability to maintain sufficient liquidity and access capital markets;
- market volatility and interest rate fluctuations and developments affecting interest rate levels, including the persistence of a low or negative interest rate environment;
- the strength of the global economy in general and the strength of the economies of the countries in which we conduct our operations, in particular the risk of negative impacts of COVID-19 on the global economy and financial markets and the risk of continued slow economic recovery or downturn in the EU, the US or other developed countries or in emerging markets in 2021 and beyond;
- the emergence of widespread health emergencies, infectious diseases or pandemics, such as COVID-19, and the actions that may be taken by governmental authorities to contain the outbreak or to counter its impact;
- potential risks and uncertainties relating to the severity of impacts from COVID-19 and the duration of the pandemic, including potential material adverse effects on our business, financial condition and results of operations;
- the direct and indirect impacts of deterioration or slow recovery in residential and commercial real estate markets;
- adverse rating actions by credit rating agencies in respect of us, sovereign issuers, structured credit products or other credit-related exposures;
- the ability to achieve our strategic goals, including those related to our targets, ambitions and financial goals;
- the ability of counterparties to meet their obligations to us and the adequacy of our allowance for credit losses;

- the effects of, and changes in, fiscal, monetary, exchange rate, trade and tax policies;
- the effects of currency fluctuations, including the related impact on our business, financial condition and results of operations due to moves in foreign exchange rates;
- political, social and environmental developments, including war, civil unrest or terrorist activity and climate change;
- the ability to appropriately address social, environmental and sustainability concerns that may arise from our business activities;
- the effects of, and the uncertainty arising from, the UK’s withdrawal from the EU;
- the possibility of foreign exchange controls, expropriation, nationalization or confiscation of assets in countries in which we conduct our operations;
- operational factors such as systems failure, human error, or the failure to implement procedures properly;
- the risk of cyber attacks, information or security breaches or technology failures on our reputation, business or operations, the risk of which is increased while large portions of our employees work remotely;
- the adverse resolution of litigation, regulatory proceedings and other contingencies;
- actions taken by regulators with respect to our business and practices and possible resulting changes to our business organization, practices and policies in countries in which we conduct our operations;
- the effects of changes in laws, regulations or accounting or tax standards, policies or practices in countries in which we conduct our operations;
- the expected discontinuation of LIBOR and other interbank offered rates and the transition to alternative reference rates;
- the potential effects of changes in our legal entity structure;
- competition or changes in our competitive position in geographic and business areas in which we conduct our operations;
- the ability to retain and recruit qualified personnel;
- the ability to maintain our reputation and promote our brand;
- the ability to increase market share and control expenses;
- technological changes instituted by us, our counterparties or competitors;
- the timely development and acceptance of our new products and services and the perceived overall value of these products and services by users;
- acquisitions, including the ability to integrate acquired businesses successfully, and divestitures, including the ability to sell non-core assets; and
- other unforeseen or unexpected events and our success at managing these and the risks involved in the foregoing.

We caution you that the foregoing list of important factors is not exclusive. When evaluating forward-looking statements, you should carefully consider the foregoing factors and other uncertainties and events, including the information set forth in “Risk factors” in *I – Information on the company* in our Annual Report 2020 and in “Risk factor” in *I – Credit Suisse results – Credit Suisse* in our 1Q21 Financial Report.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and shareholders of Credit Suisse AG

Results of Review of Interim Financial Statements

We have reviewed the accompanying consolidated balance sheet of Credit Suisse AG and its subsidiaries (the "Bank") as of June 30, 2021, and the related consolidated statements of operations, comprehensive income, changes in equity and cash flows for the six-month period ended June 30, 2021 and 2020, including the related notes (collectively referred to as the "interim financial statements"). Based on our reviews, we are not aware of any material modifications that should be made to the accompanying interim financial statements for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated balance sheet of the Bank as of December 31, 2020, and the related consolidated statements of operations, comprehensive income, changes in equity and of cash flows for the year then ended (not presented herein), and in our report dated March 18, 2021, which included a paragraph describing a change in the manner of accounting for credit losses on certain financial instruments in the 2020 financial statements and a paragraph regarding adjustments made to the 2019 and 2018 financial statements to reflect the change in the composition of reportable segments, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2020, is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Basis for Review Results

These interim financial statements are the responsibility of the Bank's management. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Bank in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB. We conducted our review in accordance with the standards of the PCAOB. A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the PCAOB, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Notes to the condensed consolidated financial statements – unaudited

1 Summary of significant accounting policies

Basis of presentation

The accompanying unaudited condensed consolidated financial statements of Credit Suisse AG (the Bank), the direct bank subsidiary of Credit Suisse Group AG (the Group), are prepared in accordance with accounting principles generally accepted in the US (US GAAP) and are stated in Swiss francs (CHF). These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto for the year ended December 31, 2020, included in the Credit Suisse Group AG & Credit Suisse AG Annual Report 2020 (Credit Suisse Annual Report 2020).

In addition, these condensed consolidated financial statements make references to the Group's condensed consolidated financial statements in its 2Q21 and 1Q21 Financial Reports and the Group's consolidated financial statements in the Credit Suisse Annual Report 2020.

→ Refer to "Note 1 – Summary of significant accounting policies" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for a description of the Bank's significant accounting policies.

Certain financial information, which is normally included in annual consolidated financial statements prepared in accordance with US GAAP, but not required for interim reporting purposes, has been condensed or omitted. Certain reclassifications have been made to the prior period's consolidated financial statements to conform to the current period's presentation. These condensed consolidated financial statements reflect, in the opinion of management, all adjustments that are necessary for a fair presentation of the condensed consolidated financial statements for the periods presented. The results of operations for interim periods are not indicative of results for the entire year.

In preparing these condensed consolidated financial statements, management is required to make estimates and assumptions which affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of the date of the condensed consolidated balance sheets and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2 Recently issued accounting standards

→ Refer to "Note 2 – Recently issued accounting standards" in III – Condensed consolidated financial statements – unaudited in the Credit Suisse Financial Report 2Q21 for the most recently adopted accounting standards and standards to be adopted in future periods.

The impact on the Bank's and Group's financial condition, results of operations or cash flows was or is expected to be identical.

3 Business developments and subsequent events

→ Refer to "Note 3 – Business developments and subsequent events" in III – Condensed consolidated financial statements – unaudited in the Credit Suisse Financial Report 2Q21 for further information on business developments.

There were no subsequent events since the balance sheet date of the condensed consolidated financial statements.

4 Segment information

→ Refer to "Note 4 – Segment information" in III – Condensed consolidated financial statements – unaudited in the Credit Suisse Financial Report 2021 for further information.

For the purpose of presentation of reportable segments, the Bank has included accounts of affiliate entities wholly owned by the same parent which are managed together with the operating segments of the Bank.

Other financial assets held at amortized cost	4,494 ¹	32
Off-balance sheet credit exposures	(69)	137
Provision for credit losses	4,373	860

¹ Primarily reflects a provision for credit losses of CHF 4,500 million related to the failure of Archegos to meet its margin commitments.

10 Compensation and benefits

in	6M21	6M20
Compensation and benefits (CHF million)		
Salaries and variable compensation	3,449	3,711
Social security	278	293
Other ¹	369	416
Compensation and benefits	4,096	4,420

¹ Includes pension-related expenses of CHF 250 million and CHF 272 million in 6M21 and 6M20, respectively, relating to service costs for defined benefit pension plans and employer contributions for defined contribution pension plans.

11 General and administrative expenses

in	6M21	6M20
General and administrative expenses (CHF million)		
Occupancy expenses	449	415
IT, machinery and equipment	597	561
Provisions and losses	330	203
Travel and entertainment	52	85
Professional services	1,609	1,481
Amortization and impairment of other intangible assets	4	3
Other ¹	623	747
General and administrative expenses	3,664	3,495

¹ Includes pension-related expenses/(credits) of CHF (10) million and CHF 1 million in 6M21 and 6M20, respectively, relating to certain components of net periodic benefit costs for defined benefit plans.

12 Restructuring expenses

In connection with the key strategic growth initiatives announced in July 2020, restructuring expenses of CHF 80 million were recognized in 6M21. Restructuring expenses may include severance expenses, expenses in connection with the acceleration of certain

deferred compensation awards, pension expenses and contract termination costs. The Bank completed the one-year restructuring plan in connection with the implementation of the key strategic growth initiatives by the end of June 2021.

Restructuring expenses by type

in	6M21	6M20
Restructuring expenses by type (CHF million)		
Compensation and benefits-related expenses	14	–
of which severance expenses	7	–
of which accelerated deferred compensation	7	–
General and administrative-related expenses	66	–
of which pension expenses	4	–
Total restructuring expenses	80	–

Restructuring liabilities

Reclassifications	–	–	–	–	–	–
Utilization	(32)	(29)	(61)	–	–	–
Balance at end of period	22	3	25	–	–	–

¹ The following items for which expense accretion was accelerated in 6M21 due to the restructuring of the Bank are not included in the restructuring provision: unsettled share-based compensation of CHF 2 million; unsettled pension obligation related to restructuring of CHF 4 million, which remain classified as pension liabilities; unsettled cash-based deferred compensation of CHF 5 million, which remain classified as compensation liabilities; and accelerated accumulated depreciation and impairment of CHF 32 million, which remain classified as premises and equipment. The settlement date for the unsettled share-based compensation remains unchanged at three years.

13 Revenue from contracts with customers

→ Refer to "Note 14 – Revenue from contracts with customers" in III – Condensed consolidated financial statements – unaudited in the Credit Suisse Financial Report 2021 for further information.

Contracts with customers and disaggregation of revenues

in	6M21	6M20
Contracts with customers (CHF million)		
Investment and portfolio management	1,699	1,508
Other securities business	29	40
Underwriting	1,664	981
Brokerage	1,623	1,772
Other services	937	774
Total revenues from contracts with customers	5,952	5,075

The table above differs from "Note 6 – Commissions and fees" as it includes only those contracts with customers that are in scope of ASC Topic 606 – Revenue from Contracts with Customers.

Contract balances

end of	2Q21	1Q21	4Q20
Contract balances (CHF million)			
Contract receivables	1,032	1,123	993
Contract liabilities	52	65	48
Revenue recognized in the reporting period included in the contract liabilities balance at the beginning of period	18	8	7

There were no material net impairment losses on contract receivables in 6M21 and 6M20. The Bank's contract terms are generally such that they do not result in any contract assets.

The Bank did not recognize any revenues in the reporting period from performance obligations satisfied in previous periods.

Remaining performance obligations

ASC Topic 606's practical expedient allows the Bank to exclude from its remaining performance obligations disclosure any performance obligations which are part of a contract with an original expected duration of one year or less. Additionally any variable consideration, for which it is probable that a significant reversal in the amount of cumulative revenue recognized will occur when the uncertainty associated with the variable consideration is subsequently resolved, is not subject to the remaining performance obligations disclosure because such variable consideration is not included in the transaction price (e.g., investment management fees). The Bank determined that no material remaining performance obligations are in scope of the remaining performance obligations disclosure.

→ Refer to "Note 13 – Revenue from contracts with customers" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for further information.

14 Trading assets and liabilities

Other assets	14,245	(39)	14,206	15,540	(41)	15,499
Total	521,868	(5,879)	515,989	502,009	(1,583)	500,426

¹ Net of unearned income/deferred expenses, as applicable.

² Excludes accrued interest for credit losses in the total amount of CHF 380 million, with no related allowance for credit losses. Of the accrued interest balance, CHF 1 million relates to interest-bearing deposits with banks, CHF 1 million to securities purchased under resale agreements and securities borrowing transactions, CHF 363 million to loans and CHF 15 million to brokerage receivables. These accrued interest balances are reported in other assets.

³ Includes endangered interest of CHF 88 million on non-accrual loans which are reported as part of the loans' amortized cost balance.

⁴ Excludes accrued interest for credit losses in the total amount of CHF 351 million, with no related allowance for credit losses. Of the accrued interest balance, CHF 1 million relates to interest-bearing deposits with banks, CHF 334 million to loans and CHF 16 million to brokerage receivables. These accrued interest balances are reported in other assets.

⁵ Includes endangered interest of CHF 87 million on non-accrual loans which are reported as part of the loans' amortized cost balance.

Allowance for credit losses

→ Refer to "Note 19 – Financial instruments measured at amortized cost and credit losses" in III – Condensed consolidated financial statements – Credit Suisse Group in the Credit Suisse Financial Report 2021 and 1Q21 for further information on estimating expected credit losses in 6M21.

The current-period provision for expected credit losses on other financial assets held at amortized cost in 6M21 includes a total amount of CHF 4,500 million related to the failure of Archegos to meet its margin commitments. As of the end of 6M21, the related allowance is reported in brokerage receivables.

Credit quality information

Credit quality of loans held at amortized cost

The following table presents the Bank's carrying value of loans held at amortized cost by aggregated internal counterparty credit ratings "investment grade" and "non-investment grade" that are

used as credit quality indicators for the purpose of this disclosure, by year of origination. Within the line items relating to the origination year, the first year represents the origination year of the current reporting period and the second year represents the origination year of the comparative reporting period.

¹ The total amount reported in financial instruments (recognized financial assets and financial liabilities and non-cash financial collateral) and cash collateral is limited to the amount of the related instruments presented in the consolidated balance sheets and therefore any over-collateralization of these positions is not included.

24 Tax

The 6M21 income tax expense of CHF 6 million, resulting in an effective tax rate of 40.0% for 6M21, included the impact of the estimated annual effective tax rate, as applied to the 6M21 results, as well as the impact of items that needed to be recorded in the specific interim period in which they occurred. This primarily reflected the loss related to Archegos, for which only a partial tax benefit was recognized, and the application of a valuation allowance for the remainder of the loss. Other key drivers of the full year estimated effective tax rate were the impact of the geographical mix of results, the non-deductible funding costs and an additional valuation allowance in the Bank's operating entities in the UK. The details of the 6M21 tax rate reconciliation resulting from applying the estimated effective tax rate for the full year to the 6M21 results are outlined below.

Net deferred tax assets related to net operating losses (NOL), net deferred tax assets on temporary differences and net deferred tax liabilities are presented in the following manner. Nettable gross deferred tax liabilities are allocated on a pro-rata basis to gross deferred tax assets on NOL and gross deferred tax assets on temporary differences. This approach is aligned with the underlying treatment of netting gross deferred tax assets and liabilities under the Basel III framework. Valuation allowances have been allocated against such deferred tax assets on NOL first, with any remainder allocated to such deferred tax assets on temporary differences. This presentation is considered the most appropriate disclosure given the underlying nature of the gross deferred tax balances.

As of June 30, 2021, the Bank had accumulated undistributed earnings from foreign subsidiaries of CHF 19.0 billion which are considered indefinitely reinvested. The Bank would need to accrue and pay taxes on these undistributed earnings if such earnings were repatriated. No deferred tax liability was recorded in respect of those amounts, as these earnings are considered indefinitely reinvested. It is not practicable to estimate the amount of unrecognized deferred tax liabilities for these undistributed foreign earnings.

The Bank is currently subject to ongoing tax audits, inquiries and litigation with the tax authorities in a number of jurisdictions, including Brazil, the Netherlands, Germany, the US, the UK and Switzerland. Although the timing of completion is uncertain, it is reasonably possible that some of these will be resolved within 12 months of the reporting date. It is reasonably possible that there will be a decrease between zero and CHF 60 million in unrecognized tax benefits within 12 months of the reporting date.

The Bank remains open to examination from federal, state, provincial or similar local jurisdictions from the following years onward in these major countries: Brazil – 2016; Switzerland – 2015 (federal and Zurich cantonal level); the UK – 2012; the Netherlands – 2011, and the US – 2010.

Income tax expense	6

Foreign tax rate differential

6M21 included a foreign tax impact of CHF 50 million, mainly driven by the estimated current year earnings mix.

Changes in tax law and rates

6M21 included the impact of CHF 27 million related to the tax rate change in the UK.

Other non-deductible expenses

6M21 included the impact of CHF 49 million relating to non-deductible interest expenses, the UK bank levy and other non-deductible costs.

Changes in deferred tax valuation allowance

6M21 included the impact of the estimated current year earnings, resulting in an increase in the valuation allowance of CHF 54 million, mainly in respect of the Bank's operating entities in the UK. This was partially offset by a decrease in the valuation allowance of CHF 5 million, mainly in respect of one of the Bank's operating entities in Switzerland.

Lower taxed income

6M21 primarily included the impacts of CHF 4 million related to non-taxable life insurance income and CHF 3 million related to non-taxable dividend income. The remaining balance included various smaller items.

Other

6M21 included a tax benefit of CHF 42 million, which mainly reflected the tax impact of CHF 44 million relating to prior years' adjustments and CHF 10 million relating to tax contingency

accruals. This was partially offset by CHF 5 million relating to withholding taxes, CHF 4 million relating to an accounting standard implementation transition adjustment for own credit movements and CHF 1 million relating to the current year base erosion and anti-abuse tax (BEAT) provision. The remaining balance included various smaller items.

6M21 activity

In 6M21, the Bank granted share awards, performance share awards, Contingent Capital Awards (CCA) and upfront cash awards as part of the 2020 deferred variable compensation. Expense recognition for these awards began in 6M21 and will continue over the remaining service or vesting period of each respective award.

Share awards

In 6M21, the Bank granted 76.5 million share awards at a weighted-average share price of CHF 11.52. Each share award granted entitles the holder of the award to receive one Group

share, subject to service conditions. Share awards vest over three years with one third of the share awards vesting on each of the three anniversaries of the grant date (ratable vesting), with the exception of awards granted to individuals classified as risk managers or senior managers under the UK Prudential Regulatory Authority (PRA) Remuneration Code or similar regulations in other jurisdictions. Under the UK PRA Remuneration Code or similar regulations in other jurisdictions, share awards granted to risk managers vest over five years with one fifth of the award vesting on each of the five anniversaries of the grant date, while share awards granted to senior managers vest over five years commencing on the third anniversary of the grant date, with one fifth of the award vesting on each of the third to seventh anniversaries of the grant date. Share awards are expensed over the service period of the awards.

Performance share awards

In 6M21, the Bank granted 36.6 million performance share awards at a weighted-average share price of CHF 12.44. Performance share awards are similar to share awards, except that the full balance of outstanding performance share awards, including those awarded in prior years, are subject to performance-based malus provisions.

Contingent Capital Awards

In 6M21, the Bank awarded CHF 245 million of CCA. CCA are scheduled to vest on the third anniversary of the grant date, other than those granted to individuals classified as risk managers or senior managers under the UK PRA Remuneration Code or similar regulations in other jurisdictions, where CCA vest on the fifth and seventh anniversaries of the grant date, respectively, and will be expensed over the vesting period.

Deferred cash awards

In 6M21, the Bank granted deferred fixed cash compensation of CHF 163 million to certain employees in the Americas. This compensation will be expensed in the Investment Bank and International Wealth Management divisions over a three-year vesting period from the grant date. Amortization of this compensation in 6M21 totaled CHF 67 million, of which CHF 44 million was related to awards granted in 6M21.

In 3Q21, the Bank granted deferred fixed cash compensation of CHF 95 million to certain employees in the Americas. This compensation will be expensed mainly in the Investment Bank division over a three-year vesting period from the grant date.

In 6M21, the Bank granted upfront cash awards of CHF 59 million to certain managing directors and directors in the International Wealth Management division. Amortization of this compensation in 6M21 totaled CHF 43 million, of which CHF 15 million was related to awards granted in 6M21.

Retention awards

In 6M21, the Bank granted deferred cash and share retention awards of CHF 322 million, mainly in the Investment Bank division. These awards will be expensed over the applicable vesting period from the grant date. Amortization of retention awards in 6M21 totaled CHF 39 million, of which CHF 31 million was related to awards granted in 6M21.

In 3Q21, the Bank granted deferred share retention awards of CHF 24 million in the Investment Bank division. These awards will be expensed over the applicable vesting period from the grant date.

26 Pension and other post-retirement benefits

→ Refer to "Note 27 – Pension and other post-retirement benefits" in III – Condensed consolidated financial statements – unaudited in the Credit Suisse Financial Report 2021 and "Note 31 – Pension and other post-retirement benefits" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for further information.

The Bank contributed and recognized expenses of CHF 243 million and CHF 264 million related to its defined contribution pension plans in 6M21 and 6M20, respectively.

The Bank expects to contribute CHF 16 million to the international single-employer defined benefit pension plans and CHF 11 million to other post-retirement defined benefit plans in 2021. As of the end of 6M21, CHF 10 million and CHF 5 million of contributions had been made to the international single-employer and other post-retirement defined benefit pension plans, respectively.

Components of net periodic benefit costs

in	6M21	6M20
Net periodic benefit costs/(credits) (CHF million)		
Service costs on benefit obligation	7	8
Interest costs on benefit obligation	25	37
Expected return on plan assets	(34)	(44)
Amortization of recognized prior service cost/(credit)	1	1
Amortization of recognized actuarial losses	8	7
Settlement losses/(gains)	(10)	0
Net periodic benefit costs	(3)	9

Service costs on benefit obligation are reflected in compensation and benefits. Other components of net periodic benefit costs are reflected in general and administrative expenses.

27 Derivatives and hedging activities

→ Refer to "Note 32 – Derivatives and hedging activities" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for further information.

relationship. Notional amounts have also been provided as an indication of the volume of derivative activity within the Bank.

Fair value of derivative instruments

The tables below present gross derivative replacement values by type of contract and balance sheet location and whether the derivative is used for trading purposes or in a qualifying hedging

Information on bifurcated embedded derivatives has not been included in these tables. Under US GAAP, the Bank elected to account for substantially all financial instruments with an embedded derivative that is not considered clearly and closely related to the host contract at fair value.

→ Refer to "Note 30 – Financial instruments" for further information.

Liabilities (CHF billion)									
Long-term debt	72.1	0.9	0.7	65.8	1.9	0.8			

¹ Relates to the cumulative amount of fair value hedging adjustments included in the carrying amount.

² Relates to the cumulative amount of fair value hedging adjustments remaining for any hedged items for which hedge accounting has been discontinued.

Cash flow hedges

in	6M21	6M20
Interest rate products (CHF million)		
Gains/(losses) recognized in AOCI on derivatives	(119)	288
Gains/(losses) reclassified from AOCI into interest and dividend income	10	(42)
Foreign exchange products (CHF million)		
Gains/(losses) recognized in AOCI on derivatives	4	(84)
Trading revenues	0	(30)
Total other operating expenses	25	(11)
Gains/(losses) reclassified from AOCI into income	25	(41)
Gains/(losses) excluded from the assessment of effectiveness reported in trading revenues ¹	0	1

¹ Related to the forward points of a foreign currency forward.

As of the end of 6M21, the maximum length of time over which the Bank hedged its exposure to the variability in future cash flows for forecasted transactions, excluding those forecasted transactions related to the payment of variable interest on existing financial instruments, was 12 months.

The net gain associated with cash flow hedges expected to be reclassified from accumulated other comprehensive income (AOCI) within the next 12 months was CHF 50 million.

Net investment hedges

in	6M21	6M20
Foreign exchange products (CHF million)		
Gains/(losses) recognized in the cumulative translation adjustments section of AOCI	(248)	476
Gains/(losses) reclassified from the cumulative translation adjustments section of AOCI into other revenues	0	9

The Bank includes all derivative instruments not included in hedge accounting relationships in its trading activities.

→ Refer to "Note 7 – Trading revenues" for gains and losses on trading activities by product type.

Disclosures relating to contingent credit risk

The following table provides the Bank's current net exposure from contingent credit risk relating to derivative contracts with bilateral counterparties and special purpose entities (SPEs) that include credit support agreements, the related collateral posted and the additional collateral required in a one-notch, two-notch and a three-notch downgrade event, respectively. The table also includes derivative contracts with contingent credit risk features without credit support agreements that have accelerated termination event conditions. The current net exposure for derivative contracts with bilateral counterparties and contracts with accelerated termination event conditions is the aggregate fair value of derivative instruments that were in a net liability position. For SPEs, the current net exposure is the contractual amount that is used to determine the collateral payable in the event of a downgrade. The contractual amount could include both the NRV and a percentage of the notional value of the derivative.

Contingent credit risk

end of	6M21								2020	
	Bilateral counterparties	Special purpose entities	Accelerated terminations	Total	Bilateral counterparties	Special purpose entities	Accelerated terminations	Total	Total	
	Contingent credit risk (CHF billion)									
Current net exposure	2.4	0.0	0.4	2.8	3.0	0.0	0.4	3.4		
Collateral posted	2.1	0.0	–	2.1	2.4	0.0	–	2.4		
Impact of a three-notch downgrade event	0.5	0.0	0.1	0.6	0.5	0.0	0.2	0.7		

The impact of a downgrade event reflects the amount of additional collateral required for bilateral counterparties and special purpose entities and the amount of additional termination expenses for accelerated terminations, respectively.

Credit derivatives

→ Refer to "Note 32 – Derivatives and hedging activities" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for further information on credit derivatives.

Credit protection sold/purchased

The following tables do not include all credit derivatives and differ from the credit derivatives in the "Fair value of derivative instruments" tables. This is due to the exclusion of certain credit derivative instruments under US GAAP, which defines a credit derivative as a derivative instrument (a) in which one or more of its

underlyings are related to the credit risk of a specified entity (or a group of entities) or an index based on the credit risk of a group of entities and (b) that exposes the seller to potential loss from credit risk-related events specified in the contract.

Total return swaps (TRS) of CHF 14.3 billion and CHF 14.4 billion as of the end of 6M21 and 2020, respectively, were also excluded because a TRS does not expose the seller to potential loss from credit risk-related events specified in the contract. A TRS only provides protection against a loss in asset value and not against additional amounts as a result of specific credit events.

Credit protection sold/purchased

Total guarantees	19,338	12,993	32,331	31,324	522	7,897

¹ Total net amount is computed as the gross amount less any participations.

² Excludes derivative contracts with certain active commercial and investment banks and certain other counterparties, as such contracts can be cash settled and the Bank had no basis to conclude it was probable that the counterparties held, at inception, the underlying instruments.

³ Collateral for derivatives accounted for as guarantees is not considered significant.

Deposit-taking banks and securities dealers in Switzerland and certain other European countries are required to ensure the payout of privileged deposits in case of specified restrictions or compulsory liquidation of a deposit-taking bank. In Switzerland, deposit-taking banks and securities dealers jointly guarantee an amount of up to CHF 6 billion. Upon occurrence of a payout event triggered by a specified restriction of business imposed by the Swiss Financial Market Supervisory Authority FINMA (FINMA) or by the compulsory liquidation of another deposit taking bank, the Bank's contribution will be calculated based on its share of privileged deposits in proportion to total privileged deposits. Based on FINMA's estimate for the Bank's banking subsidiaries in Switzerland, the Bank's share in the deposit insurance guarantee program for the period July 1, 2020 to June 30,

2021 was CHF 0.5 billion. These deposit insurance guarantees were reflected in other guarantees.

Representations and warranties on residential mortgage loans sold

In connection with the Global Markets division's sale of US residential mortgage loans, the Bank has provided certain representations and warranties relating to the loans sold.

→ Refer to "Note 29 – Guarantees and commitments" in III – Consolidated financial statements – unaudited in the Credit Suisse Financial Report 2021 and to "Note 33 – Guarantees and commitments" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for further information.

¹ Total net amount is computed as the gross amount less any participations.

² Irrevocable loan commitments do not include a total gross amount of CHF 145,045 million and CHF 130,965 million of unused credit limits as of the end of 6M21 and 2020, respectively, which were revocable at the Bank's sole discretion upon notice to the client. The prior period has been adjusted to the current presentation.

29 Transfers of financial assets and variable interest entities

→ Refer to "Note 30 – Transfers of financial assets and variable interest entities" in III – Condensed consolidated financial statements – unaudited in the Credit Suisse Financial Report 2021 and "Note 34 – Transfers of financial assets and variable interest entities" in VIII – Consolidated financial statements – Credit Suisse (Bank) in the Credit Suisse Annual Report 2020 for further information.

Transfers of financial assets

Securizations

The following table provides the gains or losses and proceeds from the transfer of assets relating to 6M21 and 6M20 securitizations of financial assets that qualify for sale accounting and subsequent derecognition, along with cash flows between the Bank and the SPEs used in any securitizations in which the Bank still has continuing involvement, regardless of when the securitization occurred.

Securizations

in	6M21	6M20
Gains/(losses) and cash flows (CHF million)		
CMBS		
Net gain ¹	0	30
Proceeds from transfer of assets	999	4,862
Cash received on interests that continue to be held	26	21
RMBS		
Net gain ¹	62	22
Proceeds from transfer of assets	20,876	11,373
Purchases of previously transferred financial assets or its underlying collateral	(1,072)	0
Servicing fees	1	1
Cash received on interests that continue to be held	430	457
Other asset-backed financings		
Net gain ¹	47	61
Proceeds from transfer of assets	6,802	4,766
Purchases of previously transferred financial assets or its underlying collateral	(699)	(638)
Fees ²	81	72
Cash received on interests that continue to be held	7	11

¹ Includes underwriting revenues, deferred origination fees, gains or losses on the sale of collateral to the SPE and gains or losses on the sale of newly issued securities to third parties, but excludes net interest income on assets prior to the securitization. The gains or losses on the sale of the collateral is the difference between the fair value on the day prior to the securitization pricing date and the sale price of the loans.

² Represents management fees and performance fees earned for investment management services provided to managed CLOs.

Continuing involvement in transferred financial assets

The following table provides the outstanding principal balance of assets to which the Bank continued to be exposed after the transfer of the financial assets to any SPE and the total assets of the SPE as of the end of 6M21 and 2020, regardless of when the transfer of assets occurred.

Principal amounts outstanding and total assets of SPEs resulting from continuing involvement

end of	6M21	2020
CHF million		
CMBS		
Principal amount outstanding	16,247	17,421
Total assets of SPE	23,079	24,455
RMBS		
Principal amount outstanding	58,318	47,324
Total assets of SPE	58,318	47,863
Other asset-backed financings		
Principal amount outstanding	26,307	24,968
Total assets of SPE	55,188	50,817

Principal amount outstanding relates to assets transferred from the Bank and does not include principal amounts for assets transferred from third parties.

Fair value of beneficial interests

The fair value measurement of the beneficial interests held at the time of transfer and as of the reporting date that result from any continuing involvement is determined using fair value estimation techniques, such as the present value of estimated future cash flows that incorporate assumptions that market participants customarily use in these valuation techniques. The fair value of the assets or liabilities that result from any continuing involvement does not include any benefits from financial instruments that the Bank may utilize to hedge the inherent risks.

Key economic assumptions at the time of transfer

→ Refer to "Note 30 – Financial instruments" for information on fair value hierarchy levels.

Key economic assumptions used in measuring fair value of beneficial interests at time of transfer

at time of transfer, in	6M21		6M20	
	CMBS	RMBS	CMBS	RMBS
CHF million, except where indicated				
Fair value of beneficial interests	92	1,337	172	1,646
of which level 2	82	1,019	158	1,465
of which level 3	10	318	14	181
Weighted-average life, in years	7.4	5.0	8.1	3.6
Prepayment speed assumption (rate per annum), in % ¹	– ²	3.0–32.8	– ²	1.0–38.2
Cash flow discount rate (rate per annum), in % ³	1.8–4.5	1.0–15.4	1.4–9.2	0.7–24.7
Expected credit losses (rate per annum), in % ⁴	0.9–3.9	0.1–13.7	4.0–8.6	3.3–22.9

Transfers of assets in which the Bank does not have beneficial interests are not included in this table.

1 Prepayment speed assumption (PSA) is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the constant prepayment rate (CPR) assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

2 To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

3 The rate was based on the weighted-average yield on the beneficial interests.

4 The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

Key economic assumptions as of the reporting date

The following table provides the sensitivity analysis of key economic assumptions used in measuring the fair value of beneficial interests held in SPEs as of the end of 6M21 and 2020.

Key economic assumptions used in measuring fair value of beneficial interests held in SPEs

Impact on fair value from 10% adverse change	(2.9)	(32.5)	(3.7)	(4.9)	(22.4)	(4.2)
Impact on fair value from 20% adverse change	(5.6)	(62.7)	(7.3)	(9.6)	(43.5)	(8.2)
Expected credit losses (rate per annum), in % ⁵	0.9–13.0	0.2–28.6	0.3–28.0	0.4–14.7	0.6–39.6	0.7–26.8
Impact on fair value from 10% adverse change	(1.8)	(25.9)	(3.5)	(4.3)	(20.2)	(4.5)
Impact on fair value from 20% adverse change	(3.5)	(50.2)	(6.8)	(8.5)	(39.2)	(8.9)

1 To deter prepayment, commercial mortgage loans typically have prepayment protection in the form of prepayment lockouts and yield maintenances.

2 CDOs within this category are generally structured to be protected from prepayment risk.

3 PSA is an industry standard prepayment speed metric used for projecting prepayments over the life of a residential mortgage loan. PSA utilizes the CPR assumptions. A 100% prepayment assumption assumes a prepayment rate of 0.2% per annum of the outstanding principal balance of mortgage loans in the first month. This increases by 0.2 percentage points thereafter during the term of the mortgage loan, leveling off to a CPR of 6% per annum beginning in the 30th month and each month thereafter during the term of the mortgage loan. 100 PSA equals 6 CPR.

4 The rate was based on the weighted-average yield on the beneficial interests.

5 The range of expected credit losses only reflects instruments with an expected credit loss greater than zero unless all of the instruments have an expected credit loss of zero.

Transfers of financial assets where sale treatment was not achieved

The following table provides the carrying amounts of transferred financial assets and the related liabilities where sale treatment was not achieved as of the end of 6M21 and 2020.

→ Refer to "Note 31 – Assets pledged and collateral" for information on assets pledged or assigned.

Variable interest entities

Commercial paper conduit

The Bank acts as the administrator and provider of liquidity and credit enhancement facilities for Alpine Securitization Ltd (Alpine), a multi-seller asset-backed CP conduit used for client and Bank financing purposes. Alpine discloses to CP investors certain portfolio and asset data and submits its portfolio to rating agencies for public ratings on its CP. This CP conduit purchases assets such as loans and receivables or enters into reverse repurchase agreements and finances such activities through the issuance of CP backed by these assets. In addition to CP, Alpine may also issue term notes with maturities up to 30 months. The Bank (including Alpine) can enter into liquidity facilities with third-party entities pursuant to which it may be required to purchase assets from these entities to provide them with liquidity and credit support. The financing transactions are structured to provide credit support in the form of over-collateralization and other asset-specific enhancements. Alpine is a separate legal entity that is wholly owned by the Bank. However, its assets are available to satisfy only the claims of its creditors. In addition, the Bank, as administrator and liquidity facility provider, has significant exposure to and power over the activities of Alpine. Alpine is considered a VIE for accounting purposes and the Bank is deemed the primary beneficiary and consolidates this entity.

The overall average maturity of Alpine's outstanding CP was approximately 215 days as of the end of 6M21. Alpine's CP was rated A-1(sf) by Standard & Poor's and P-1(sf) by Moody's. Alpine had exposures mainly in reverse repurchase agreements with a Group entity, consumer loans, solar loans and leases, aircraft loans and leases and car loans and leases.

The Bank's financial commitment to this CP conduit consists of obligations under liquidity agreements. The liquidity agreements are asset-specific arrangements, which require the Bank to provide short-term financing to the CP conduit or to purchase assets from the CP conduit in certain circumstances, including but not

limited to, a lack of liquidity in the CP market such that the CP conduit cannot refinance its obligations or a default of an underlying asset. The asset-specific credit enhancements provided by the client seller of the assets remain unchanged as a result of such a purchase. In entering into such agreements, the Bank reviews the credit risk associated with these transactions on the same basis that would apply to other extensions of credit.

The Bank enters into liquidity facilities with CP conduits administered and sponsored by third parties. These third-party CP conduits are considered to be VIEs for accounting purposes. The Bank is not the primary beneficiary and does not consolidate these third-party CP conduits. The Bank's financial commitment to these third-party CP conduits consists of obligations under liquidity agreements. The liquidity agreements are asset-specific arrangements, which require the Bank to provide short-term financing to the third-party CP conduits or to purchase assets from these CP conduits in certain circumstances, including but not limited to, a lack of liquidity in the CP market such that the CP conduits cannot refinance their obligations or a default of an underlying asset. The asset-specific credit enhancements, if any, provided by the client seller of the assets remain unchanged as a result of such a purchase. In entering into such agreements, the Bank reviews the credit risk associated with these transactions on the same basis that would apply to other extensions of credit. In some situations, the Bank can enter into liquidity facilities with these third-party CP conduits through Alpine.

The Bank's economic risks associated with the Alpine CP conduit and the third-party CP conduits are included in the Bank's risk management framework including counterparty, economic risk capital and scenario analysis.

Consolidated VIEs

The consolidated variable interest entities (VIEs) tables provide the carrying amounts and classifications of the assets and liabilities of consolidated VIEs as of the end of 6M21 and 2020.

1 Changes in unrealized gains/(losses) on total assets at fair value and changes in unrealized (gains)/losses on total liabilities at fair value relating to assets and liabilities held at period end are included in net revenues. As of 6M20, changes in net unrealized gains/(losses) of CHF 284 million and CHF (36) million were recorded in trading revenues and other revenues, respectively, and changes in unrealized (gains)/losses of CHF 50 million were recorded in Gains/(losses) on liabilities relating to credit risk in Accumulated other comprehensive income/(loss).

2 Includes an adjustment of CHF 119 million reflecting the impact of applying the fair value option on certain loans (previously held at amortized cost) at the adoption of the ASU 2019-05.
